To LTF Coordinators

Dear Comrades,

The discussion preceding the 1978 World Congress of the Fourth International (Fifth World Congress Since Reunification) is now underway. The Congress is tentatively scheduled for the end of 1977 or the beginning of 1978.

While barred from belonging to the international by reactionary legislation, SWP members will undoubtedly take a fraternal interest in following and contributing to the debate over the issues of importance to the Trotskyist movement.

Because the debate has now been going on for eight years, comrades will want to review some of the key bulletins and articles that have been published between 1968 and 1976.

A list of some key contributions in each area (Europe, China, Latin America, Vietnam, World Perspectives, Women's liberation, the National Question, the Youth radicalization, and Independent Political Action and Socialist Electoral Policy) is enclosed.

All of the international documents printed in 1976 are not included in this listing. Of course, comrades will want to follow the discussions now being printed in the International Internal Discussion Bulletin and the Internal Information Bulletin.

Comradely,

Natalie Bombaro
