

Convention Resolution

Amendment on Changes to the IS Constitution

Mike U.

Motivation:

What follows is a proposed amendment to the Draft Constitution. Its main purpose is to fill a gap in the original draft, and the motivation for it should be obvious. I have numbered it Article VIII, though for stylistic reasons it probably should come earlier.

Article VIII. The Magazine

The magazine is the central common political activity of the entire group. Its role is to carry forward the politics of the group, to establish a presence for the IS, and to build our political tendency. While this means an emphasis on the politics of the IS and on our interpretation of events, because the magazine will play a crucial role in regroupment and in the development of a revolutionary milieu it must be open to all points of view within that milieu. This, of course, includes minority views inside the I.S.
