Q of student unions - varies widely

e.g. Britain - ^{NUS} is big -

France = MPS - not much

Spain = "student union" structure tied-in with state
(Spanish does not convinced of this) →

arena of activity of youth grps

- young workers?

French talk about this, but not concretely

party members in youth

- I strong feeling that the youth shouldn't be
dominated by the party

France - claim ~ 1,000 in youth ($\frac{1}{2}$ = LCR)

LCR congress - November

youth congress - February

At time of world congress would try to have
another meeting

Document - through USB - no separate "youth commission"
