COACHES DRUMMED UP FOR WORKERS LAUGHTER

Capitalist Papers all Wrought up Because Engineer on Lackawanna Flyer was not Gifted with Super-natural Powers. — Dividends Continue Regular.

Flimsy day-coaches, crumpling up like pasteboard under the impact of an express train on the Lackawanna railroad, caused the life out of two score victims of the railroad on the morning of July 4. Several occupants of Pullman cars were also injured, although the injuries to the Pullman passengers as a whole, were trifling compared with the slaughter of the people in the cars or crushed by working class passengers.

The frightful loss of life was due in great measure to the construction of the jerry-built cars used to transport workers, admits a no refutation. The policy of all rail roads to keep down operating costs in sliding wages in order to pay the greatest possible amounts in dividends coupled with the "economics" effected by a "scientific management" finds its culmination in the building of cars at the rate of two score at a jerry-built dock gave way, hurling the victims of capitalism into the rushing river.

The railroad company's claim against the ambulance and the surgeons, and, it is believed saved the company considerable money by getting into the ambulance, with prospective witnesses in damage suits and forestalling such suits by bribing victims into signing away their rights, since the duties of corporation claim agents, and there is no reason to believe that this particular claim agent was remiss in this important duty.

The railroad officials, ally seconded by the capitalist newspapers, have been busily engaged since the accident in trying to saddle the blame upon the engineer. Of course, the implication is that the engineer made out the company's losses by the train running at high speed in order to maintain that schedule, he was influenced by "original sin" or "natural human depravity," or something similar—instead of the mere desire to hold down his job. The old bunk about workingmen being to blame when they carry on strikes will be swallowed by those who are eager to prove that the victims of building cars as cheaply as possible is the only "practical" way of running a railroad, and that safety should be

der that the matter may be given proper attention.

"It is the intention of the Department that if a majority of the carriers at any particular post office prefer to wear shirtsleeves during the heated term of the summer, they may do so." While the Department's attitude is fair, Berger contends that it does not solve the problem. Postmasters have the power over the letter carriers, and when they find any carriers agitating for the privilege of wearing blouses, they can stop the agitation in order. Therefore, Berger will not be satisfied until the Department issues a general order which shall allow them to wear blouses in summer if they individually choose to do so.

BALLINGER GANG TRYING TO SAVE HANFORD

Washington, July.—The same gang which attempted to whitewash former Secretary of the Interior Ballinger is now exerting every possible effort to remove the stains from the reputation of Federal Judge Hanford, Washington. It is noted that the same persons and methods are now used to clear Hanford from the charges brought against him by Socialist Representative-elect John R. McLeans' organ, the Washington Post, one of the few newspapers that dared openly champion the cause of the innocent.

This newspaper is now also one of the very few that has come out for Hanford and against Berger in the recent past.

Both Ballinger and Hanford are residents of Seattle, Washington. Both have for years assisted Eastern capitalists, in fact, been associated in a number of financial enterprises and in "legal actions." Ballinger was assisted out of office by an aroused public and the nation's press.

The Post has indulged in a number of sensational editorials in an effort to

THE PROBLEM OF TO-DAY

By EMIL SEIDEL, Socialist Candidate for Vice President

It is instructive to note that the very virtues and vices that reverse each other, that society presents.

There was no time when HONESTY was so highly appreciated as at the present time; at the same time DISHONESTY never reaped such high rewards as CRUEL so well as at the present time.

We are CRUEL to brutality. We have never killed, maimed, crippled, and crushed so many human lives in such short space of time as we do now; and yet we look down upon it without a whimper. And yet we are HUMANIZING bordering upon hysteria. For we have never before had so many societies for the protection of dumb brutes as we have now. We starve children and give costly dog and monkey dinners.

ECONOMISTS never received more attention than at the present; we can utilize everything about a hog, except the squeal. And we are wasteful as never before, squandering the

wealth of our country, as if it were inexhaustible. PENNIVISE when it is a question of education and prevention of crime; POUND-FOOLISH when we punish the criminal.

POIFS, for we have never had more ornate churches and edifices for the worship of GOD.

UNGODLY, for we will not be our brother's keeper.

Many more traits could be added to the list, but this suffices to demonstrate that in this society of ours there are all the elements present that can be developed for either good or bad; for the MAKING or UNDOING of our race. WHAT OUR FUTURE SHALL BE RESTS ENTIRELY WITH US.

We are given the factors. THE PROBLEM IS TO FEED, HOUSE AND CLOTHE OUR NATION. Our intelligence applied, we should not be at a loss how to solve the solution. All we need is a common stand aside. This is the one great task.

EMIL SEIDEL

STOKERS AND COAL PASSERS STRIKE

The United Transport Workers called a strike on the American Steamship line going out of New York last week, hitting out the stokers and coal passers on the Steamer Pennsylvania as it was about to leave the dock for Europe. The company had to hustle for scales to fill the men places, and as usual found men willing to take jobs at this awful man-making work.

When the men working at the marine and transportation trades come to the realization that the interests of one body of men connected with the docks, is the interest of all workers in the line, they will organize so that when it is found necessary to strike, every man connected with the boat, or the company, or the whole commerce of the country, or even the world will stand ready to enforce their demands; they will win, and not until then.

Imagine these men perched in the bottom of a boat shoveling coal at top speed at a temperature hotter than this hales. What is there in life for the poor fellows? They can get very little out of the work, and the plan of one big union and go out to emancipate themselves industrially and politically.

Comrades Morris Drossin and Harry Drossin, 414 Spring Street were arrested Sunday evening at the corner of William and Pratt Streets. These comrades, a little more zealous in distributing Socialist literature than the other comrades had, got their permit from the Justice of the Peace. There were four of these baronies in every row. They were not for a moment and a vision of promotion served them as bait. Everything in fish that comes to their nets. These guys receive no stated salary, but run their games on a purely commercial basis. They fatten upon fees and drive a keen competition for business. The very nature of their fees and method of compensation is calculated to promote litigation and stir up constant turmoil and strike.

So ran these guys after business that contentions and cantankerous spirits are encouraged to bring baseless lawsuits by a system that has grown up under which the Justice will issue his process, have his (Constant) serve the same, and conduct the trial without any fees being paid to the plaintiff whatever, the Justice for all practical purposes entertaining the case upon a contingent fee; that is, "If I win the case, I will receive a fee of \$1000; if I lose my pay; if I decide the case in favor of the defendant, I will have to whistle for my pay."

After eagerly listening, the Justice reads his decision, and it is an easy guess as to how he is going to decide. The amount of his and the Constable's fees is added to the judgment rendered against the defendant. This Justice knows very well, as he has, that if he should decide in favor of the defendant, he will incur the displeasure of those who make his business for him, and that if he wants his fee, he shall himself be compelled to sue his former friend, client and patron. This will bring about a disorder with his class. As a result, an odorous combination of petty courts has grown up that makes decent people hurr their noses.

250 UNORGANIZED MEN WALK OUT

Last Friday afternoon, 250 men employed in the freight house, ice house, and grain elevators of the Lackawanna Railroad, just beyond the Willis Street City line, at Sloan, struck for an increase in wages.

July 2nd, notice was served upon the officials of the company demanding an increase in wages for the laborers, from 17 to 20 cents an hour, and an increase for the checkers from 85¢ to 85¢ a month. Up to the time of the strike, the laborers were receiving 17 cents an hour; the same rate being paid for

the realization that the interests of one body of men connected with the docks, is the interest of all workers in the line, they will organize so that when it is found necessary to strike, every man connected with the boat, or the company, or the whole commerce of the country, or even the world will stand ready to enforce their demands; they will win, and not until then.

Imagine these men perched in the bottom of a boat shoveling coal at top speed at a temperature hotter than this hales. What is there in life for the poor fellows? They can get very little out of the work, and the plan of one big union and go out to emancipate themselves industrially and politically.

CLASS STRUGGLE RAGES IN LAWRENCE, MASS.

Foreign Workers Showing Good Fight Against Great Odds — Minions of the Law Helping Capitalists.

The outside world should not believe that peace on earth good will to men was inaugurated with the ending of the recent great textile strike. In Lawrence, Mass. wages have been increased, hours reduced and better treatment secured, the class struggle still continues. The capitalists are insidiously trying to regain lost ground. They refuse to endorse the recall of Breen who planted dynamite, for the purpose of discrediting the strikers. Their chief marshal Sullivan, two his office to circulate slanders against the Italian workers. In brief, they are using every agency at their command to mould public opinion in a manner favorable to their interests.

During the week just passed, the high school graduation exercises were employed to this end. Principal Horn investigated against the "yellow press" that is, the reform press, that half way decently reports the facts regarding Lawrence; and the salubrious, a call young youth, sought to read "the usual platitudes" as a lesson on the beauties of education and our noble institutions, as if these beauties were not reflected in their pay envelopes and the actual experience of their economic, social and political life, from which they derive their knowledge.

Further, the mill corporations are importing French Catholics to supplement all the active I. W. U. men and women, especially the Franco-Belgians, whose cooperative societies have been the source of much financial aid to the progress of revolutionary movements.

It remains for commissioner of public safety, Lynch, to give expression to the ends to which the capitalist agencies tend to stop in their reaction to the strike, and to secure a permit to hold an Ettore Giovannetti protest meeting on the historic Common, Lynch flared up and refused a permit in his usual brutal and arrogant manner. He declared that "Our courts will not be ruled by the public," that such meetings were an attempt to intimidate the courts and that they were an attempt to riot, and more of a similar nature. That the man who perpetrated the infamous clubbing at the North Station, in the case of which the working class manifested the most wonderful self-restraint though stirred to the depths of their innermost souls—that such a man should be competent to judge of the wisdom of a riot is not generally believed here. Further, Union and Times building.

There is altogether too much church connected with the terrace school now. Consider what it will be in the Cathedral quarters.

A very fine piece of engineering of the Catholic church to get money from the city's funds is being put through with the aid of Commissioner Ward, and the danger of Socialism. The yearly rental of \$3,200 would the church to fight Socialism and even a few more Goldstein or Avery to come to this city and enlighten the public to the dangers of Socialism.

This deal on top of taking over the old Nardin Academy property will certainly put the "Colonel" in right with the church, and might possibly open the way for a statue for the city to honor the old Cathedral or the Catholic Union and Times building.

BERGER GETS AFTER POSTAL DEPARTMENT

Victor Berger has issued Washington recently, the Socialist Congressman thought of the letter carriers who in some cities are compelled to wear coats in the hot sun. He also recalled the fact that the Post Office Department had not yet issued a general order permitting letter carriers to wear blouses without the consent of the local postmaster.

Spoke again took up the matter with the Postmaster General. He tried to get the Postmaster General to take away from the local postmasters the discretionary power in the matter of wearing apparel for these postal workers. But as was the case last year, the Department replied that a majority of carriers in any given city can decide the question of wearing apparel by stating their decisions to the Postmaster.

Berger claims that the letter carriers would jeopardize their jobs in case the postmasters prefer to have the men appear in the streets in full uniform. In fact, the letter carriers are afraid to even suggest the holding of a referendum on the subject of wearing blouses.

Berger has just received another letter from the Post Office Department, signed by C. P. Grandfield, the First Assistant Postmaster General. In this letter Grandfield states:

"If a majority of carriers at any office prefer to wear shirtsleeves during the heated term, it is not believed such uniform would be opposed by the postmaster, as the Department has in the past had no such instance brought to its attention.

"With reference to your statement that you have heard from a number of sources that the men feel that they would jeopardize their positions by desisting from shirtsleeves against the wishes of the local postmaster, you are advised that the Department would be glad to be specifically informed in or-

VERY GOOD SCHEME OF THE CATHOLICS

Commissioner Ward Helping the Cathedral Fund in Indirect Manner.

A very fine piece of engineering of the Catholic church to get money from the city's funds is being put through with the aid of Commissioner Ward, and the danger of Socialism. SOCIALIST NEWS OF WESTERN NEW YORK

TONAWANDA, N. Y. Comrade Chas. T. Hicks, delegate from this Local...

He said that he wished every member of the Local could have been at Auburn. There perhaps they would come out of their Rip Van Winkle sleep...

Talk about your brothers keeping—Comrade Hicks says they have them at Auburn prison. He is in company with other comrades and some non-Socialists...

working class begins to realize the necessity of standing together in defense of its product—the wealth of the world. We are going to Crustal Beach on Saturday to celebrate...

What? Crustal Beach. When? Saturday. What about? Any boat. Every boat. They're all going to the same place, and each will bear a cross of Red Socialists.

Biggest Socialist doings of the year. A track on a portable horse, for the benefit of the lead towards the coming fall election.

Comrade Fred Stanley has been forming a study class for some time and last meeting had about a dozen members every week from his class.

What's the matter with forming a ladies' club to our Local? Some of the wives of the comrades are talking about forming one if they can get enough to join. A little extra effort in the job, my lady. How about your wife? Won't she be with us to cheer us up as they did in Auburn, N. Y.?

RANDOLPH, N. Y. A little local news and a year's sub. More coming. Local Randolph meets every first and third Tuesday of each month...

Watch for Socialists' ticket hustlers on the way to the dock and ask for SOCIALIST TICKETS AT THE BOX OFFICE.

250 UNORGANIZED MEN

Sunday and holiday work. It often happened that upon the men coming to work in the morning, or after working for two or three days...

The comrades are never more disappointed than when they miss their Buffalo paper. Randolph Thrustle Factory and the Borlen's company pay an average of \$1.50 per day for slaves...

The strikers, who comprised Italians and Poles besides the English speaking workmen, at a meeting held Saturday morning, elected a committee to take charge of the strike.

working class begins to realize the necessity of standing together in defense of its product—the wealth of the world. We are going to Crustal Beach on Saturday to celebrate...

STOP THE BEGGING LET'S FIGHT, INSTEAD

(By Chester M. Wright.) "Please give us a crumb or two," pleads Samuel Gompers at Chicago. "Please give us a crumb or two," pleads Samuel Gompers at Baltimore. "Please give us a crumb or two," pleads the plea of this same Samuel Gompers at Chicago and at Denver four years ago.

And in those four years we have enacted, day after day, a repetition of that ghastly old question, "From him that hath not, even that he hath shall be taken away from him."

We have had bread riots and starvation tragedies; we have had jails filled with the hungry and hospitals jammed with the emaciated victims of starvation; we have had institutions filled with the jobless and graves filled with the hopeless.

The masses do not give with their political hand while they take away with their industrial hand—they TAKE AWAY WITH BOTH HANDS!

CLASS STRUGGLE AT LAWRENCE (Continued from page 1) different series of strikes, in eighteen months.

The Elton-Giovannini defense is the biggest of the worker's Big Business. The business of Big Business is to mass profits and to cut down wage increase funds and provide labor conditions that are as good as slavery.

Dividends and crumbs for labor don't go together! In the face of strikes and riots and the biggest drive of workers by the armed servants of the system, in the face of lowered wages and increased prices, in the face of the raging contempt of capital in the very shadow of the danger, Samuel Gompers fails.

Old Parties Unite Against Labor. Not only has the State Legislature failed to enact effective legislation to remedy these conditions, but on the contrary, the Republican and Democratic members of which it is composed...

Among the cases of neglect or contempt of the interests of the workers by the courts and legislatures we specify: the monstrous decision nullifying the workmen's compensation bill, the failure to place the responsibility for the hideous Triangle fire, or to enact legislation for efficient protection against fires of a similar nature, the defeat of the woman suffrage bill, the abominably unjust primary law, and the defeat or evasion of every bill that would benefit the workers presented by the Socialist Assemblyman, Herbert H. Merrill, of Albany.

Industrial Demands. 1. The enactment of a legal maximum work day of eight hours, and its gradual shortening in keeping with the increased productivity of modern machinery, and a rest period of a day and a half in each week for workers in all industries.

2. Prohibition of the employment of children under the age of 16 years. 3. Laws providing proper protection for the safety of the lives and health of workers, and strict enforcement of such laws. For this latter purpose, State insurance to all workers against accidents, unemployment, sickness, invalidity and old age without contribution on the part of the workers.

COMRADES TAKE NOTICE

We must have help. If this exertion is to be a success, volunteers are needed to sell badges and tickets. All those who have the welfare of the service, hospitals and infirmaries, and their services now when they are needed. If you can't help all day at least give a few hours of your time.

Report to the chairman of the committee at the headquarters. He will be there all day Saturday. Comrade get busy, don't delay. But get on the job.

SOCIALS PARTY PLATFORM OF NEW YORK STATE

The Socialist Party of the State of New York again reaffirms its allegiance to the principles of International Socialism, and indorses the national platform of the Socialist party of the United States.

In entering the campaign of 1912, the Socialist party presents itself as the sole political representative of the working class. It is distinguished from other political party can be trusted to enact and enforce effective labor legislation or otherwise serve the interests of the workers of the State.

Its program is divided into two principal economic classes: The capitalists, who own the sources and instruments of wealth production and the workers, who in order to live, must produce the wealth of production under the conditions imposed by the capitalist owners; the employers, who derive their income from "profits," and the employees, who depend for their living on "wages."

The profits of the employer come from the work of the hired hand. The smaller the wages, the larger the profits. The employer must strive to maintain or increase his profits under penalty of industrial extermination. The worker must strive to maintain or increase his wages under pain of physical destruction. The material interests of the two classes are directly opposed to each other and no man and no party can serve both at the same time. Each political party stands for a specific portion of that class. The Socialist party represents the working class. All other political parties in this State serve the possessing class.

Wage Earners the Greatest Factor. The wage earners of the State number approximately 7,500,000 men, women and children, including 700,000 women and 100,000 children under 16 years of age. The industrial working class thus constitute the most numerous and the most important factor in the population of the State, and its needs should have received the greatest consideration on the part of our Legislature and the State government.

Through the small minority, the capitalists are in practically complete possession of our government, legislative, executive and judicial, as they also are

of the press, and the means of public education and information. These powers they utilize continuously for the maintenance and extension of their class interests and class supremacy. Relying upon combined force and fraud to defeat all efforts of the working class for better conditions, capitalist class rule has created political, economic and industrial conditions so abominably evil. The effects of this system in New York State are especially disastrous and are daily becoming more and more oppressive to the masses of the community, and particularly the working class.

The sources, materials and machinery of wealth production steadily pass into the possession of an ever diminishing number of individual owners, and they are invariably used by the latter for private profit through the exploitation of the actual producers—the working class. Despite the constantly improved methods of production, and the application of labor saving machinery to industry, the condition of the workers does not improve, but grows relatively worse. Our boasted prosperity is not for the people. The immense wealth of the few contrasts glaringly with the increasing poverty of the many. The struggle to secure even the barest subsistence absorbs the whole life of the enormous majority of the workers. It is destruction of health, and a higher development of humanity impossible.

Exploiters Are Slain. The increasing cost of living, never more marked than at present, shows no indications of receding. Wages remain stagnant, but their purchasing power continually declines. Every effort to better the lot of the workers on the part of the workers invariably meets with the most stubborn opposition from the exploiting classes, until in many occupations the struggle for thousands of workers becomes a literal struggle against death by chronic starvation.

During the past three years the average of the employes among this mass of wage earners was 18.2 per cent, and is now estimated at 21.1 per cent.

Thousands of unemployed are forced to wander from one industrial center to another in desperate quest for work. As a consequence, homes are destroyed, wives and children deserted and left

to starvation. Vex or crime, and the so-called "tramp problem" becomes social problems of menacing proportions. The rural agricultural population are equally at the mercy of the exploiting classes. The farm laborers are an intensely exploited group of workers, and even the so-called independent small farmers, who are being systematically plundered by the capitalist owner of the means of production. Rents on land, interest on mortgages, excessive transportation charges, extortionate prices exacted for farm implements and machinery, rob him as effectively of his product as the wage worker of the industrial cities.

This universal exploitation shows its deadly effect on society in many forms. Child labor, overwork, slum conditions, insidious poisoning, hereditary crime, disease, insanity and prostitution, continually increase despite all impotent efforts of reformers and "organizational" chaff.

Workers in Constant Peril! The lives and limbs of workers are increasingly imperiled in their industrial pursuits. During the last two years the total number of accidents to persons engaged in their work was 69,295, of which many cases were attended with fatal results. The courts and legislatures, dominated by capitalist interests, perpetrate crimes like flint against every effort to effectively safeguard them at their work or permit compensation to them or their dependents for physical injury or loss of life. Laws and measures designed to protect the interests of the workers have, through legal jugglery or political manipulation, been invariably frustrated, set aside or otherwise rendered useless. Even where enacted into law, they have been declared "unconstitutional," nullified by deliberate lack of enforcement. In some cases laws through legal sophistry, have even been transformed into weapons against the working class.

It is maintaining these conditions that the Republican and Democratic parties have been equally active and effective. No other cause was open to them, and they have been equally active and effective. A system which shall provide State insurance to all workers against accidents, unemployment, sickness, invalidity and old age without contribution on the part of the workers.

for the workers, yet in actual practice they are bound either openly or secretly to antagonize all measures calculated to benefit the workers and to diminish the profits of the employer.

Old Parties Unite Against Labor. Not only has the State Legislature failed to enact effective legislation to remedy these conditions, but on the contrary, the Republican and Democratic members of which it is composed...

Among the cases of neglect or contempt of the interests of the workers by the courts and legislatures we specify: the monstrous decision nullifying the workmen's compensation bill, the failure to place the responsibility for the hideous Triangle fire, or to enact legislation for efficient protection against fires of a similar nature, the defeat of the woman suffrage bill, the abominably unjust primary law, and the defeat or evasion of every bill that would benefit the workers presented by the Socialist Assemblyman, Herbert H. Merrill, of Albany.

Industrial Demands. 1. The enactment of a legal maximum work day of eight hours, and its gradual shortening in keeping with the increased productivity of modern machinery, and a rest period of a day and a half in each week for workers in all industries.

2. Prohibition of the employment of children under the age of 16 years. 3. Laws providing proper protection for the safety of the lives and health of workers, and strict enforcement of such laws. For this latter purpose, State insurance to all workers against accidents, unemployment, sickness, invalidity and old age without contribution on the part of the workers.

Political Demands. 9. Equal suffrage for all adult men and women. 10. Equal pay for equal work for men and women employed by the State or any of its subdivisions.

11. The initiative, referendum, proportional representation and right of recall of elected municipal officers. The right to trial by jury upon demand of the accused in all cases where trial by jury is not now provided by law. 12. Home rule for municipalities.

13. Direct election of all police magistrates by the people. 14. Abolition of the income tax, and the extension of inheritance taxes. Abolition of all laws exempting property from taxation except such property as is owned by the nation, State or municipality. 15. Abolition of the State senate.

General Demands. 16. Public ownership of all public utilities. 17. Provision for the proper and sanitary housing of the workers. 18. The creation of a bureau of production, and the extension of public and welfare work centers by the State or municipality, such dwelling to be let to workers without profit.

WOMEN'S COLUMN

The cry of all the Socialist organizers of broad vision is: 'Build up the women's movement.'

JUST A CONVERSATION.
I have come to give you a little domestication of the Collins Tip-top bread.

Don't want anything to do with Tip-top bread, or any other kind of scab bread, made under unsanitary conditions, replied this housewife.

Such things occur on Elmwood Avenue once in a while. It indicates that the women of the working class who happen to have a little better education than others are sometimes just as class-conscious as those who work in the mines.

For example, we find that in every working class home, the wife is a slave of household duties from which there is little rest and no escape.

The home under Socialism will be a haven of rest and comfort, not only for the men, but for their overburdened wives as well.

THE REASON WHY housewives are overworked lies in the simple fact that housework, while useful, is profitable so that it does not 'pay to lighten domestic labor under a profit system.

Did you ever notice the covert sneer in the capitalist newspapers, whenever it becomes necessary for them to refer to the progressive type of woman?

THE TIME TO PROTEST.
Did you ever notice the covert sneer in the capitalist newspapers, whenever it becomes necessary for them to refer to the progressive type of woman?

Socialist Party News

IMPORTANT NOTICE TO PARTY MEMBERS.
All party members should get tickets for Socialist Day at Crystal Beach from the Local Financial Secretary.

SOCIALIST SUNDAY SCHOOLS.
Central Branch Sunday School every Sunday except at Franklin Hall, 52 West Eagle Street at 10:30 o'clock.

LOCAL PARTY NOTES.
Arrangements are being made by the Executive Committee of the local for a held-Giovanitti Prolet meeting to be held at one of the big local theatres.

MEMBERS VOTE ON REFERENDUM.
National referendum "B," 1912, is now in the hands of the local branch Secretaries. This referendum is on the Platform, Constitution and Rules of the Socialist Party.

BAND SCHOOL OF SOCIAL SCIENCE.
On June 16 Cardinal Parley and other eminent clerics dedicated a Catholic "School of Social Studies" at Fort Wadsworth, Staten Island, N. Y.

NOTES FROM THE NATIONAL OFFICE.
The National Office will send a bunch of letters to the Socialist Literature Club, supplies, free of charge, to local branches and comrades who will distribute them among people who will be likely to be interested in the National Office, Socialist Party, 111 North Market Street, Chicago.

SEVEN COMMENTS OF PURE CAPITALISM.
Follow These Rules and Your Boss Will Love You Like a Mother - At Least Like a Step-Mother.

LABOR NEWS

LOOKING TOWARD AMALGAMATION.
Washington.-As reported in the News Letter before, there is a movement on foot in various places to amalgamate organizations in the iron and steel manufacturing industry.

LABOR MEETINGS.
General Party meeting of Local Buffalo.-The first and third Sunday afternoons of each month at the Headquarters.

BAKERS WIN IN SAN FRANCISCO.
San Francisco.-The strike of the bakers in this city for the introduction of the union label has resulted in favor of the bakers.

COUET NULLIFIES LAWS.
Boston, Mass.-Several years ago the legislature passed an act prohibiting the bakers from any system of grading the weight of a loaf that would affect the loaf, except in the case of impurities.

ENGLISH SHOPS ACT.
Washington.-The shops act passed by Parliament in London secures to the clerk a weekly half holiday.

SHIPYARD UNREST.
London.-The recent decision of the federated employers to refuse the demands of the shipyard workers for an eight-hour day and an increase of wages to eleven shillings has brought about a situation that may develop into a big strike.

ATTEMPTED TO CRUSH UNIONS.
Washington.-The manner in which the coal operators and the State of Pennsylvania co-operated during the coal strike in Westmoreland County to crush labor unions and to defeat the purpose of the strike is shown in an important part of an investigation into conditions there made by the Department of Commerce and Labor.

MARITIME STRIKE.
New York.-A strike of maritime organizations directed a general coastwise stoppage of the progress at the ports of New York, Boston, Philadelphia, Norfolk and Galveston and other ports.

HUSTLERS COLUMN

The Hustling Women Comrades
Of course, heretofore the Hustler's Column has been principally taken up with the work of the male comrades, but we can no longer ignore the telling work of the women comrades.

The Socialist movement offers an opportunity to the women that no other movement in the history of the world ever offered before. It gives them the hope and inspiration to work for their economic freedom, and places them on an equal footing with men.

Apparently the women comrades of Local Buffalo recognize this salient truth, and the activity of some of these loyal comrades already has won for them prominence in the coming emancipation of all.

It is a well-known fact that the religious denominations, especially the Catholic church, clearly realize the importance of having the mothers of the human race under their stultifying control as much as possible.

Not long ago the idea of looking to the opposite sex for help in the overthrow of the system of man's oppression was viewed with suspicion and disdain. But thanks to the indefatigable determination of these noble-minded, self-sacrificing women, most important of all human beings, the stain of their would-be ineptitude has been eliminated.

Some of the Live Ones
Buffalo, N. Y., June 27, 1912.
Dear Comrades:-

Enclosed please find \$1 for two six-month subscription cards, which you will kindly mail to the above enclosed address; also find postage for same.

And right here I can't help but write a few words of praise for this fine wide-awake paper. My only regret is, that it is not a daily, instead of a weekly.

Comrade Mrs. Elith Blyss increased the circulation of the Buffalo Socialist by securing three subscriptions. It will not be long before the men comrades will have to do some very fast hustling to keep ahead of such work like this.

Another comrade, who is very active in the movement, we mean Comrade Grace Korb, has also proved her worth to the cause by getting four subscribers. Good, for you, Comrade, this is very encouraging indeed.

Talk about getting stung, Comrade Mrs. Weintraub, is surely doing her share, in the spite of being harrassed, has secured two most little subscribers. What a pleasure it is to receive such an ardent worker.

And by the way, the sister of the comrade referred to in the third paragraph, we mean Comrade Lillian Korb, is also on the firing line and fearlessly attacks the bourgeois press, for she has not proved it by securing three. We know that it is discouraging work and therefore appreciate it very highly.

Four subs is a pretty fine exhibition of what can be done when one has the spirit of the worker. It is wonderful to see how this growing determination to increase the circulation of the paper exhibits the loyalty of such a worker as she is.

One of the first comrades to take up the cause of Socialism in this city, is Mrs. Klein. Two subs. added to those that she sold before this time, give her a record to be proud of indeed. We don't have to lay this loyal comrade to keep up her noble efforts, for she has proven her loyalty time and time again.

Comrade Mrs. Stephens, one of the hardest working comrades for Socialism, is determined to do her share in making the paper a success. While she has sold two sub-cards, and had a difficult time about it, she says that with a little practice in the art of selling, she is going to bring them in by the dozen; and, undoubtedly she will make good her promise.

We are anxiously waiting to hear from Comrade Mrs. Jones. No doubt there must have been something unforeseen occurred, for we are depending upon her getting subs., and not having received any this week, no doubt she would send in a veritable avalanche of them for the next issue.

There are various other women comrades, who, for different reasons wish to keep their identity concealed, are doing tremendous work for Socialism. Their active work in all affairs conducted by the local is surely to be highly commended upon, and we look forward to the time when the near future will have grown to such power in the affairs of this city, that publicity will become a by-word.

SUSTAINER'S LEAGUE.
I, the undersigned, hereby agree to pay into the treasury of the "Sustainer's League" of the "Buffalo Socialist" every week for one year, the amount set opposite my name.

For this amount, it is understood that I am to receive each week copies of the "Buffalo Socialist" at the rate of two cents each, or subscription-cards as I may elect.

Name
Address
Amount per week \$
I prefer sub-cards.
I prefer extra copies.
Fill in this pledge and mail it to the following address.

52 West Erie St.,
Buffalo, N. Y.

Don't wait. Join now. Do it, to-day.

BREAKING UP THE HOME
break up the home! And you really think my poor steady man, but he that steals my trade or job takes that which not enriches him, but leaves me poor, indeed.

BUFFALO SOCIALIST

PUBLISHED WEEKLY BY THE BUFFALO SOCIALIST PUBLISHING COMPANY

52 W. Eagle Street, 2nd Floor BUFFALO, N. Y.

Entered as second class matter June 5, 1912, at the post office at Buffalo, New York, under the Act of March 3, 1879

SATURDAY, JULY 13, 1912

"CHANGING HUMAN NATURE"

Once in awhile we still find one of those disappearing phenomena of the neolithic age, who allows that "Socialism is all right, but you can't change human nature."

"Human nature" we take it, means that we urge within humanity to secure for ourselves, food, shelter, clothing and such other physical satisfactions as the human being normally craves.

These things we take it, mean that we urge within humanity to secure for ourselves, food, shelter, clothing and such other physical satisfactions as the human being normally craves.

These things we take it, mean that we urge within humanity to secure for ourselves, food, shelter, clothing and such other physical satisfactions as the human being normally craves.

TEACHING THE ART OF MURDER

Not the least painful of the phases of our present-day development is the Boy Scout movement which has cast its baleful shadow over the land.

What an ideal for followers of the Prince of Peace! Little children are taught to believe that chivalry, manliness and all good traits are inseparably woven in with the art of murder and rapine—so it is on a large scale.

Throughout the world arises a cry for the end of war and the folly of slaughter. But the manufacturers of arms and the munitions war cannot afford to have the nations go too far with this dream of universal peace.

WHY I'M A REBEL

By GORDON NYE

Look me in the face, ye Master of the Reel, I am Labor.

My body and my face bear the marks of want of hardship, of excessive toil, of hunger, of cold, of sleeplessness, of aching muscles, of aching nerves, of aching brain, of aching heart, of aching soul, of aching spirit, of aching conscience, of aching conscience.

For many years you have fattened me on the sweat of my brow, you have fattened me on the sweat of my brow, you have fattened me on the sweat of my brow, you have fattened me on the sweat of my brow.

But I am through with you, no matter what you say or think about me. Your bought politicians and your hired editors are careful to explain to the people that I am an "undesirable class."

But I am through with you, no matter what you say or think about me. Your bought politicians and your hired editors are careful to explain to the people that I am an "undesirable class."
