"SCHEMING TO MAKE TROUBLE"

"Scheming to Make Trouble."

"Scheming to Make Trouble." is the headline of the Express over an article showing how the police head arrested an organizer of the new street-ear men's union, at the instigation of the International. That's it. Scheming to make trouble for the master class! Horrible crime, that! Something akin to murder in the eyes of the Express. If it had been only a little matter like murdering a few workers, as the International did at Lockport a few weeks ago, the Express would have been all sympathy—with the International. When it is a case of trying to organize the workers to secure a few more loaves as of trying to organize the workers to secure a few more loaves. The theory of the Express is, that when it is merely a case of murdering the workers, they will go to heaven anyway, and so they are so much better off. You see, they love the workers and want to see them well off, even if they have to go to heaven for an improvement of their conditions.

But, Great Scott, man, when you come to talk about organizing a union, and causing the pride and joy of the city, the Delaware Avenue capitalists. a little worry over their regular dividends, it is quite another matter!

A classistance the Express can render in the way of keeping the International slaves in subjection will be most cheerfully given.

THE "PERMIT" TO LIVE

THE "PERMIT" TO LIVE

The outlawed union of the street car men is asking for a priceless privilege. It is endeavoring to secure a "permit" to hand out messages to other citizens asking them to join the union.

As yet the Odd Fellows, Eagles, Masons and other fraternal organizations have not applied for a "permit" to ask people to join their various organizations. We are watching every day to see some of them arrested for asking people to join their orders. It appears that they must have such "permit", according to the evidence submatted by Christ of Police Como of the Internation Experiment Company of the law by asking people to join their organizations without the sacred "permit." Why, there must be ten thousand people in Buffalo who have asked people to join them for organizations without the sacred "permit." Why, there must be ten thousand people in Buffalo who have asked people to join the ordining without a "permit." All, all, poor unfortunates that they are, in danger of being prosecuted:

organizations have not applied for a "permit" to ask people to join their various organizations. We are watching every day to see some of them arrested for asking people to join their orders. It appears, that they must have such "permits", according to the evidence substitute of them arrested for asking people to join their orders. It appears matted by Chief of Police Comos of the International Railradoa.

Our hearts misgive us when we think of the great number of members of these orders who are in daily danger of the "imajesty" of the law, by asking people to join their organizations without the sacred "permit." Why, there must be ten thousand people in Buffalo who have asked people to join something without a "permit." All, all, poor unfortunates that they are, in danger of being prosecuted!

That is to say, they are in as much danger as that other class of the luternational lime. It has got to the point where the people who hand a moving car. Some of the expiral Socialists may say that it would be in better tast for the International, in watching with loving care over the people who board a moving car. Some of the expiral Socialists may say that it would be in better tast for the International to work; the brailing to get the first of the common ownership of the means of life?

Into shape.

Base thought! Don't these renegades realize that anything of that nature would mean entting into PROFITS while Chief of Police Coons can enforce many sleepy ordinances against UNION ORGAN. IZERS "for the saving of life" without touching profits at all—in fact, helping to save profits!

Why, it's as easy to use capitalist laws to keep down the working class as it is for two waiters and a bartender to carry a chief of police out of the Parkhof on a New Year's might.

To be just with ourselves is more difficult even than to be just with our enemies.

HUSH! KEEP 'EM ASLEEP!

HUSH! KEEP 'EM ASLEEP!

God's right hand man, Col. Roosevelt—(or is it God, Col. Roosevelt's right hand man, announces with much pompous gusto that "the conservatives will yet come to realize that it is better to have social changes made by the Progressives than to have them come through evil sources."

Sure. That is to say, better for the "conservatives" or big capitalists. This is exactly what the Commander-in-Chief at Armageddon has been contending for, right along.

The Colonel is eager to do the best he can for the wealthy and it makes him pervish when he realizes that they don't appreciate his efforts. Certain foolish folk who fall for all of the bunk that is passed the working class. Nothing road be farther from his thoughts.

To be sure he soothed the working class by telling them that they had to be stalled off by "reforms" in order to prevent them from sizing the centrol of all society. It tickled some of the poor simps to be told that they really ought to have a slice of the bread—in order to prevent their seizing the whole loaf! Some of the capitalists think it isn't really necessary to give them a slice; but Col. Rooseveth holds that if the masters of the bread do not give the working class a little piece of it, that the workers will take it all.

When a mandooloke a gun to your head and tells you that he will all the control of all society.

He is right.

When a man holds a gun to your head and tells you that he will slip you a through ticket to the Kingdom Come if you don't hand him all you pesses, you would think you are heeky if you could stall him off by giving him street-rar fare, wouldn't you?

Well, Col. Rosevelt is urging the capitalist class to hand the rking class street-ear fare, BECAUSE THE WORKING CLASS. HOLDING A GI'N AGAINST THE HEAD OF CAPITALISM. That gun is labeled "SOLIDARITY OF THE WORKING ASS."

The capitalists believe that they can keep the working class divided, just as they have done for many years in the past. The capitalist is class does not realize that the contracting use of the social tool, machinery, has taught the working class to think in terms of social mechanicry. But taught the working class to work as a unit in operating the great machinery of capitalists production, the capitalist class has taught the working class to work as a unit in operating the great machinery of capitalists production, the capitalist class has taught the working class to THINK AS A UNIT FOR ITSELF. If it can work as a unit in the production of profits, it can think as a unit for the production of HEALTH, LIFE, HAPPINESS and the glood hings which it produces.

Co. Roosevelt appeals to the capitalists to wolk softly lest they worker work or the machinery of the workers are worked as a work of them worked or or day by making all the people. Any law which does not matter the explanation and a few romey, and nothing class to the capitalists in the way of workers are most of the workers are worked or or day by making all the interest of walking softly. They say that the sooner the worker is awakened of work by making all the machiners of the work of workers are most of the worker of workers are worked or or day by making all the machiners of the workers of the workers are worked or or day by making all the machiners of the worker of workers are worked or or day by making all the machiners of the worker of workers are worked or or day by making all the machiners of the worker of workers are worked or or day by making all the machiners of the worker of worked or or day by making all the machiners of the worker of worked or or day by making all the machiners of the worked or or day by making all the machiners of the worked or or day by making all the machiners of the worked or or day by making all the machiners of the worked or or day by making all the machiners of the worked or or day by making all the machiners of the wo

(By Jack London.)

Young Men: The lowest aim in your life is to become a soldier. The good soldier never tries to distinguish right from wrong. He never thinks; never reasons; he only obeys. If he is ordered to fire on his fellow citizens, on his friends, on his neighbors, on his relatives, he obeys without hesitation. If he is ordered to fire down a crowded street when the poor are clamoring for bread, he obeys, and sees the gray hairs of age stained with red and the life tide gushing from the breasts of women, feeling neither removes nor sympathy. If he is ordered off as a firing squad to execute a hero or benefactor, he fires without hesitation, though he knows the bullet will pierce the noblest heart that ever beat in human breast.

A good soldier is a blind, heartless, souldess, murderous machine. He is not a man. He is not a brute, for brutes only kill in self defense. All that is human in him, all that is divine in him, all that constitutes the man has been sworn away when he took the enlistment roll. His mind, his conscience, aye, his very soul, are in the keeping of his officer.

No man can fall lower than a soldier—it is a depth beneath which he cannot go. Keep the boys out of the army. It is hell.

Down with the army and the navy. We don't need killing institutions. We need life-giving institutions.

Ad Gibb, Morse prenates a migray care was a ment of the hostife forces of the Bockefeller and Morgan groups, with the "people" in between.

Mr. Morse is alarmed with cause; but his remedy is about what could be expected from a man so theroughly imbaed with capitalistic misedensation. He says that praclically all of the newspapers are dominated by the powers off capital, and that the way to freedom is to "free them."

What a perfectly charming ideal Free them from what! From their countries? Free them from the rich advertising contracts? Free their towners from the ownership of stock in his piculatries while guides their opinions about his properties. The properties have been from the contract of the countries of the countries of the countries. The countries of the following of a perfectly levely soil, such as Mr. Morse appears, from his speech, to be; bet with all of our self-constraint in play, we just can't refrain from nominating him for a phese in the harmless ward of the Forcest Avenue booky hitch. A man who has gotten as far allowing as Morre, and then jumps to make an abard conclusion has a screw loose somewhere. There is only one possible solution to the problem of a "free press"—and that is to have the working class control them and own them. The way to free the press is just the same as the way to free industry—OFF RID OF THE MASTERS AS A CLASS?

Socialism has no more to do with religion than any other scientific doctr has. If science were to busy itself with metaphysics it wouldn't be a science

The capitalist preachers say that the floods of this spring are due to "God's will." In other words, God is putting on a little exhibition of that mysterious sabotage of which we have heard so much from people who can't even pronounce it right.

TEACHING THEM PEACE.

Just to prove that the Boy Scouts of Buffalo are not permitted to breather the air of militarism, or to think in terms of soldiering, the Buffalo Courier printed on Sunday a few pictures of them in their "barracks" and the picture of their "bugglera" sounding military calls, in the full regalia of the murder-buffalor the sunday and the picture of their "bugglera" sounding military calls, in the full regalia of the murder-buffalor the sunday and the sunday sounding military calls, in the full regalia of the murder-buffalor than the sunday sounding military calls, in the full regalia of the murder-buffalor than the sunday sounding military calls, in the full regalia of the murder-buffalor.

The Courier say: "This is the second annual barracks experience of the youngeters. THEY HAVE BEEN UNDER STRICT DISCIPLINE FOR THESE DAYS. Cots are arranged according to patrois in the large dormitor, and each Scout is required to keep his cot and camp equipment in SOLDIELLINE condition. The BARRACKS is in charge of THE REVEREND R. H. Miller, pastor of the church and honorary seculmaster. All messurers were governed by martial law. The boys were given much praise from officers of the Seventy-fourth Regiment."

So, you see, it must have been a cruel mistake on our part to suppose that the secuts are not taught to hate the very thought of soldiering and murder! We understand that by "tharracks" is meant a church besement, where the children are taught to "keep their camp equipment in soldier-like condition."

dition."

Beautiful thought, that, of turning a church building into a harracks, in which to train children to "keep camp equipment in soldier-like condition." Also, taught to respond to the bugle calls and the like. Doesn't it remind you of the lowly -kegast Wouldn't there be a storm raised if a church were used for a camp by wise-strikers of West Virginis, for example, who have been ejected from their homes by the grown up soldiers of that state and forced to starve in the hills?

Would Jesus be in the camp with the starving miners or in the "barracks" training children for the murder-bund? Guess.

The purpose of the Socialist movement is not the election of this man or that man—but the education of a world-wide working class. The political form of organization is used, simply because it includes all types and groups of people, and is the ONLY type of organization, outside of the industrial union, which CAN include all types and groups of workers.

We are told that the "near-side" cars are much better than the old and better-ventilated type. But we notice that on the line where the rich live— the Elmwood Avenue line—the near-side cars will be installed LAST.

NATE FENTON HAS AN "IDEA."

NATE FENTON HAS AN "IDEA."

Not the least amusing of the events recorded in connection with the privately-conducted "vice cranade" put on by the Times in its effort to get Chief Regan's goat, was the experience of Nate Penton, the notorious joint-keeper on Broadway-croisted through Nate's done last week, and when the Times began to have out Regan, Nat allowed that if he was going to keep under cover, the thing to do was to advertise in the Times. So he hlossomed forth one day in a four-inch ad in the Times announcing his "cabaret show" in the Broadway resort.

Perhaps Regan would not have felt so bad about it if it were saything but a Fitzpatrick organ in which the "ad appeared; but when Nate made that break, it was too much for Regan's surcharged feelings.

And so there isn't any such thing as a cabaret show at Fenton's. In fact, if you can hear the still small squeak of the piano or the harsher squawk of what Nate is pleased to term "high-class entertaines direct from Neo Yavk," you sure have some ears—or you re standing closer in than the curb!

It will probably be another week or so before the "vice crusade" is over and conditions in the Tenderloin return their merry aspect. When Virtue gets onto her primeral throne on the strength of a newspaper crusade, her perch is always a more or less precarious one.

The attack of the Buffalo Times on Chief Regan might be considered as an indication that the old Conners-Fitzpatrick feud has broken out again in the Democratic party. The Times is a Fitzpatrick organ, Regan is one of Conners' men. That is what the capitalist reformers consider a "purity" crusade!

Curiously, the working class must consider the terrible floods in the Ohliv Valley as a blessing, because it will provide "work!" Anything that gives the working class an improved opportunity to slave for the masters is a blessing Such is capitalism! Such is capitalism!

LIVES OF "GREAT MEN."

What with Tecthadore Roosevelt telling the story of his life and exploits on the first page, and "Bald Jack" Rose telling the story of HiS life and exploits on the second page, it would seem that the average youth of our city is bound to secure all of the dope, in the way of past performances, of our most prominent cities was a marked degree of pride in the fact that one of his paternal sil, the shows a marked degree of pride in the fact that one of his paternal sil, the shows a marked degree of pride in the fact that one of his paternal sil, the shows a marked degree of pride in the fact that one of his paternal sil, the shows a marked degree of pride in the fact that one of his paternal sil, the shows a marked degree of pride in the fact that one of his paternal silled that the shows a marked degree of pride in the fact that one of his paternal silled that the shows a silled pride that the s

As a study in glaring egotism, Roosevelt is, as usual, readable alm the point of acute nauses; but as an instructive treatise on anything el writings are only mildly amusing.

Have you noticed any "reduced cost of living" since Wilson was inaugurated? Well, then, what did you Democrat workingmen "win?"

We can't quite imagine Jesus being sworn in as a deputy to batter the heads of the workingmen, if he should chance to go to Akron, O.

The Cleveland chief of police, Köhler, has been canned for gross immorality. Aren't you glad that Chief Regan is such a pure and unsullied Sir Galahad?

Curiously enough, we hear a lot about the church winning back, the working class; but we never hear of any churches starting soup-kitchens for striking slaves.
