FLAG PATRIOTS WREAK SOCIALIST AND I. W. W. QUARTERS AT SEATTLE

Preservers of Law and Order Break Up Socialist Literature Wagon and Smash Furniture at Headquarters—Do \$6,000 Damage to Show Patriotism—Secretary Daniels Incites Men to Riot.

A mayor who does not enforce the law against the riot is not fit to hold office and people who believe in the red flag should be driven from the corner.

and broke them to pieces and then started to drag the furniture and books into the street, but the policemen stopped them.

These are the words of Secretary Joseph Daniels in a speech at Seattle, which led to a mob of about 500 soldiers of the U. S. Navy to sack and burn and destroy the headquarters of the Socialist and I. W. W. and to smash the literature wagon of the Socialists, causing \$6,000 worth of damage.

There were demands that the Industrial Workers be hunted down and civilians induced the party to go to the headquarters of the Moderate Socialists.

Will Daniels be arrested and tried for inciting to riot? Can it be true that Daniels did not know what to expect as a result of such talk to mob and rioters?

Salvation Army Red Flag. The smacking of the Salvation Army's bludge by the mob due chiefly to the finding of numerous chairs in the place.

Compare this year with the conviction these years of Patrick L. Quinlan, a few days ago on the charge of inciting to personal injury.

Some of the sailors refused to stop their demolition of the furniture, saying: "What's the difference?"

These are questions that are being asked by working men and Socialists.

Among the sailors were several petty officers. The whole thing looks as though something had been planned for a clean finish and those responsible should be made to suffer.

Two policemen called complacently upon the wreckers. The sailors tore the signs from the front of the building.

Had it been workmen on strike the police would have been there with bells on to keep the peace and to warn them and long sentences to jail would be the result.

Washington—Corporations of the United States earned \$3,394,000,000 before the war.

But sometimes the deepest and smoothest of the slippery, slimy schemes of the "Coleman Gang" slip a cog and such as the case at this meeting.

In order that experts may be called to the investigation of the explosion at the Husted Milling Company which caused the death of about 35 working men, it has been postponed to August.

By that time many of those that knew anything about the conditions at the mill will be at work or out of town, and, of course, it will be no fault of our city which if they can't find out what was used the explosion.

It looks as though there is a desire to let it blow over and be forgotten.

By that time many of those that knew anything about the conditions at the mill will be at work or out of town, and, of course, it will be no fault of our city which if they can't find out what was used the explosion.

THE 1913 PANIC

By DR. KARL F. M. SANDBERG Author of "The Money Trust" and "The New Rebellion."

I quote from the chapter on "Panics," page 71, in "The Money Trust": "The next crash will probably come next spring. . . . The next Congress will probably be Democratic and the President a Democrat. It is not likely that these will dare to pass the Aldrich Bill without strong protest. There will be need of stronger arguments and a crash is just the thing."

in 1907. Threats first, then action. If carried out to its full extent the present financial lockout on account of the gigantic development of our industries and public utilities undoubtedly will be far more disastrous than any previous one. It will be '93 and the following year over again, only worse. The frustration process will be intensified. No will the misery.

Let us take the following steps: August 1—Stop making use of bank checks and express company money orders. Use Post Office Money Orders only. Stop making deposits in private banks. Use the postal banks only.

It began right after the election last fall, but it all over and a subject of general talk and newspaper comments. Such contraction of money always precedes and is the cause of the panic and crash. The crash follows, when the business houses through the failure of the banks to furnish them with the usual loans are forced to close their doors, and the panic starts when people begin to feel the hand at their throats.

But we can stop it ourselves. Against the financial lockout we can declare a general financial strike and in a little while make them forget their increased privilege demand and wonder what struck them. We are surely cowardly if we once more allow them to crash us without resistance.

1. That Congress issue money to take the place of the loans the banks are refusing. 2. That Congress institute work for the unemployed, and every inch of the way has been hard fought. Penny, with the conceit of a man with a greater intellect, persisted in taking the attitude of a man of superior ability, which seemed to fade away as his bluffs were called, yet the weight of the International broke down heavily on Mr. Fuhrmann when on his decision depended whether evidence would be accepted or not.

PICNIC OF COLUMBIA TURN VEREIN AND ARBEITER MAENNERCHOR

Ray View Beach will be the scene of great festivities Sunday, July 27th.

TEAMSTERS TAKING IN MANY NEW MEMBERS

The various local unions of the teamsters' organization are very active.

METAL TRADES SECTION GOES INTO NEW COUNCIL

At the meeting of the Metal Trades section at Council Hall on Saturday night it was voted to affiliate with the new Central Trades Council.

A demand for an increase of three dollars per week will shortly be made by the sanitary wagon drivers. At present they are receiving \$10.00 per week and the men believe they are entitled to at least \$15.00 for a week's work.

We are informed that the Adam, McLerrum and Anderson Company are determined to discharge all of their drivers who are members of the union. Several have already been discharged. The union is preparing to take action.

The Milk Drivers' local is growing rapidly. They are rapidly enrolling players for wage increases will shortly be made.

COLEMAN GANG SLIPPED A COG

An effort to gain control of the Label Trades Section by the Coleman gang was made by members of the John Coleman political machine at a meeting of that Section held July 14th at the Jefferson Street Labor Temple.

POLICE CAPTAIN ACTIVE AT SOCIALIST MEETINGS AT BLACK ROCK

Captain Ward Seems Particularly Anxious to Make Things Warm for Socialists at Street Meetings—Gives Orders to Have Speaker Move from "Park Property."

DELAY OF SEAMAN'S BILL MAY CAUSE STRIKE ON PACIFIC

Andrew Furuseth, president of the International Seaman's Union is quoted as saying that the delay of Congress in acting on the Seaman's bill proposed by Senator La Follette to abolish involuntary labor is a serious matter.

Captain Ward Seems Particularly Anxious to Make Things Warm for Socialists at Street Meetings—Gives Orders to Have Speaker Move from "Park Property."

The Socialists out in Black Rock are still being annoyed by petty police interference. This is in Captain Ward's bailiwick and he seems to take delight in ordering his officers to suppress or annoy Socialist meetings.

SOCIALIST PICNIC AT SCRANTON PARK

A picnic under the auspices of Branches Two, Four and Eight of Local Park will be held at New Scenic Park Sunday August 24th. The park is located about a mile and a half from Hamburg in one of the most beautiful spots in Erie County. It is reached by the Hamburg branch of the Erie & E. E.

M'KEESPORT STRIKERS RECEIVE HEAVY FINES

Six I. W. W. leaders arrested and charged with disorderly conduct and obstructing traffic were given fines from \$5 to \$25 as the result of the strike at the Port Pitt Steel Company at McKeesport, Pa.

THE PATRIOTIC BANKERS

The capitalist papers are now busy telling us of the much needed banking or currency reform.

INTERNATIONAL ASSOCIATION OF MACHINISTS' PICNIC FOR BENEFIT OF STRIKERS

International Association of Machinists, Lodge No. 330, will hold its annual picnic around the island Sunday August 10th. The picnic is "Charles Fitz" and "George Striker" will be the foot of Amber Street, at 9:30 a. m.

THE PATRIOTIC BANKERS

WHAT IT WILL MEAN TO BELONG TO THE MILITIA

We learn from Washington that an agreement has been completed between the War Department and the executive Committee of the Association of the National Guard by which a bill will be introduced that will make the militia part of the regular army to be used for immediate service in any part of the world.

The bill is supposed to be designed to overcome a decision of Attorney General Wickham that the militia could not be ordered to do duty outside of the United States, but there is another great reason why these gentlemen desire to put the bill through and that is the provision which provides for the payment of these so-called troops by the national government.

The scheme is to make the pay of the militia a sure thing in case it is found necessary to call on the local troops to beat out strikers, as in Buffalo this spring. It will be the establishment of a government strike-breaking agency on a large scale.

The bill will provide that the government pay to the State authorities lump sums to be paid out by them on the testimony of regular army officials as to the number of the militia called into service. Judge Brown or any other official will feel perfectly safe in obeying the call of the bosses to call out the militia under the pretext of its use.

This should be enough to "wise up" any young workman who might be contemplating joining the militia.

M'KEESPORT STRIKERS RECEIVE HEAVY FINES

Six I. W. W. leaders arrested and charged with disorderly conduct and obstructing traffic were given fines from \$5 to \$25 as the result of the strike at the Port Pitt Steel Company at McKeesport, Pa.

About three hundred and fifty men are out for more pay and the recognition of the union.

THE PATRIOTIC BANKERS

The capitalist papers are now busy telling us of the much needed banking or currency reform.

Continued on page 2.

SOCIALISTS HAD GREAT DAY AT TEUTONIA PARK

Opening his last address in Buffalo, on the night of Sunday, July 19th, Delia remarked: "It is a noteworthy fact that Socialism thrives in all sorts of weather..."

\$20,000,000 FOR A NEW MANKILLER

The Thought Alone Makes One Brave. What it takes to build this great battleship would pay 40,000 workers for a year.

A NEW \$20,000,000 MAN-KILLER WANTED.

The navy general has planned to ask congress for an appropriation of \$20,000,000 for a battleship, a mammoth dreadnaught. The announcement follows close upon the heels of the gabfest of the American Peace Association at St. Louis.

There can, of course, be no significance to that fact that Canby Anly made a speech at that convention; that he makes his daily bread by selling armor plate.

It would pay for the wages of 40,000 workers for one year.

It would build 100 colleges at a hundred thousand dollars each.

It would pay for 2,000,000 acres of land at two dollars per acre.

It would build at \$10,000 per mile 200 miles of railroad, almost across the continent.

The engineers who built the Utah Central line in all rough country, more than 100 miles, at an average cost per mile was \$7,298.20.

And yet all this wealth will be tied up in a useless lock to serve only as a private conveyance for army and navy dignitaries to call at seaports and be wined and dined and entertained by a lot of gold-bred and brass-browed worshippers for about three years, and then will be used as a target for bigger, bigger and better and more expensive battleships.

The thought makes one want to rave. "Till then, sit still, my soul; fustle down till thou shalt see the earth & be whelm them with me's eyes." - Milton.

WHAT SOME OF OUR READERS THINK OF US

Every day we receive letters from our readers. Occasionally we receive postal reading as follows: "Stop that damn paper," but for the most part the letters are those of cheer and encouragement.

The Buffalo Socialist is the staff of the Buffalo Socialist for the rest of his life.

Hamburg, N. Y., July 16, 1915. Dear comrades: It is with the regret of my life that I am compelled to return the within (sub cards sent). I am sick and unable to leave my room. I am sick and unable to leave my room.

Yours fraternally, GEO. F. KITTEREDGE, A Comrade for Life, 153 Main St., Hamburg, N. Y.

On the Right Track. H. G. Meadway of 154 Longacker Street, Buffalo, N. Y., sends in a dollar for his subscription and writes: "I don't agree with all you say, but you're on the right track."

"Stop the Dam Thing." "Somebody has sent me the Buffalo Socialist. I don't wish my job broken up or want to lose my job. Stop the damn thing."

JACOB HEDGES, General Delivery, Niagara Falls. He Must Be Dead. Clymer, N. Y., July 16, 1915.

Comrades: I must read the Buffalo Socialist another year, so I renew my subscription now. Enclosed find P. O. order for one dollar.

Your comrade, CARL ANDERSON, Clymer, N. Y. And this is all part of the days, other slavers and slaves alike. Some are notes of encouragement and hope, but through them all runs the same strain of the struggle for existence under the capitalist system.

SEIDEL TO TOWN. Plans are now being completed for a lecture trip by Comrade Emil Seidel under the direction of the German Socialist Fraction. Comrade Seidel's work will probably begin in October.

The Rand School Study Course was endorsed and recommended to the locals in the State. The State Committee is to establish a Sixty-Dollar Rand School Scholarship, the candidate to be ap-

COUNTERFEIERS

By KARL F. M. SANDBERG, author of "The Money Trust"

A man counterfeits money because it is easier than working. He is able to work, he is probably a skilled workman or he could not counterfeits successfully, but the money obtained by counterfeiting comes easier than working for it.

When we consider that the circulation of National banknotes amounts to about 150 millions and the circulation of bank checks to about 200 billions a year, and that all these, while costing practically nothing to produce, are exchanged for real work of real workers it gives us some idea of the size of the graft and the tremendous amount of work performed in exchange for this inflation money.

How long will we submit to this? How long will we accept such worthless paper in exchange for our work? We must refuse to accept such money as real money, United States money. This represents work performed for the United States, is full value and we are obliged to accept it for money due us.

STATE COMMITTEE HOLDS BUSY MEETING

The regular semi-annual meeting of the Buffalo State Committee of the Socialist Party was held in the city of Utica last Sunday. The committee is composed of representatives from every county in the State, each county being entitled to one delegate with the exception of the counties of Greater New York which are entitled to from two to four delegates.

Heary L. Shlobin of New York was selected as Socialist Candidate for Chief Justice of the Court of Appeals, and H. D. Wilcox of Elmira for Associate Judge of Court of Appeals. These are the only two State offices to be filled next November.

A State Referendum will shortly go before the membership to amend the Constitution to read: "The State Committee shall meet 'annually' instead of 'semi-annually'." At present, it is met by the delegates that one month of a year to be held during the month of April would accomplish the same results and at the same time curtail expenses.

The evening before the State Committee Meeting four street meetings were held at which addresses were made by Comrades O'Rourke, Duffy, Eagan and others. The Socialist caravan which is on its way to the coast, was also in Utica, and assisted very materially to stir up the town.

Y. M. C. A. HOTEL RUN ON GENEROUS PRINCIPLES. We are informed that a few days ago a Hotel in the city dropped into the hands of the Y. M. C. A. for a few minutes and thinking that because he was a young man and a Christian he would feel at home in the place, sat down to write to the Y. M. C. A. to have the hotel turned to use a whole sheet of the hotel's stationery, and like our friend Oliver Twist had the nerve to ask for more.

WAR WITH MEXICO. Congressman from Maryland, hearing the news of Lushington, longs for fame. He effects to be extremely angry.

It is all because he received a letter bearing a threat that American citizens in Mexico will transfer their future orders for tools and machinery to European manufacturers if the United States does not send an army into Mexico.

Mr. Lushington says that he is surprised and shocked to think that Americans should want a foreign war to further their business interests.

Happy is the man who knows himself and other men, and still enjoys the company and active cooperation of his life!

When we consider that the circulation of National banknotes amounts to about 150 millions and the circulation of bank checks to about 200 billions a year, and that all these, while costing practically nothing to produce, are exchanged for real work of real workers it gives us some idea of the size of the graft and the tremendous amount of work performed in exchange for this inflation money.

How long will we submit to this? How long will we accept such worthless paper in exchange for our work? We must refuse to accept such money as real money, United States money. This represents work performed for the United States, is full value and we are obliged to accept it for money due us.

THE BROADWAY TRAIL BLDERS

(Continued from Page 1) bought bonds of the government which paid them a dividend of 6 per cent. on their money invested in these bonds, and are not being touched for them. They, the banks, required from the government that they be allowed to issue their bank notes up to nearly the face value of the bonds they bought from the government. These bank notes are the same thing as money and the banks in turn lend them out at the usual 6 per cent rate.

The bankers by this arrangement were able to get the use of the money for a considerable portion of their money which ordinarily only brought them 6 per cent.

This latter system is still in force, but the government no longer pays the high rate of interest on its bonds, so the bankers are busy with a new scheme to increase their profits-fund by extending their loans to the farmers and the interest on loans that are never made but amount only to keeping book or credits and debts.

BUFFALO NO PLACE FOR PEOPLE WITH DAINTY NOSES

Visitors to this city no doubt admire the variety of rotten smells which circulate through our downtown district. We've got them all alerted on that score, and if we keep up our work the Chamber of Commerce will soon be advertising as the "City of Smells."

Keep an eye on the new arrival at the Exchange street depot and you will find that the position of the new organ is on an angle of 45 degrees. Perfumed handkerchiefs are necessary until one becomes acclimated.

Added to the sweet smells emitted by our soap factories are the odors of an excellent variety of oriental perfume called the "aroma of grain drying."

Truly we are a lenient people. We will allow ourselves to suffer anything so that the other fellow may make his pile of money.

Please don't mention this to the Board of Health.

BUFFALO SOCIALIST

PUBLISHED WEEKLY BY THE BUFFALO SOCIALIST PUBLISHING COMPANY... 52 W. Eagle Street, 3rd floor... BUFFALO, N. Y.

Entered as second-class matter June 6, 1912, at the post office at Buffalo, New York, under the Act of March 3, 1879

SATURDAY, JULY 26, 1915

THIRTY-TWO CENTS AN HOUR

Now that both sides have heard in the street car strike, the decision of the Board of Arbitration is anxiously awaited. On Mayor Fuhrmann as the third arbitrator depends the cause of the men for a wage which will enable them to live and keep up a home.

Thirty-two cents an hour is \$2.56 a day of eight hours. To realize what a small sum this is we ask the Mayor and Mr. Penny to try to live on it for just one week.

Some people who haven't a stick to call their own are afraid of Socialism because they think it will deprive them of their private property.

DON'T WORRY

The editor of one of our local capitalist daily papers is very much worried over an article which appeared in the Metropolitan Magazine, written by Algoner Lee, on the question of abolishing the Supreme Court.

The article is headed "A Dangerous Proposition," and goes on to state that "to take away the Supreme Court's authority to declare legislation unconstitutional would be both a great distrust of the courts and supreme faith in Congress."

Looking at the situation from anything like a practical point of view Algoner Lee has brought to the attention of the people the question of how many legislative and judicial bodies are necessary to govern the will of the people. Think of the Mayor, the Board of Aldermen, the Council of men representing every portion of the country who are elected by the people of each district, a senate composed of men elected by the assemblies and senates of each state, with the power of veto vested in the president who is elected by the people.

Fine business ability. Practical business men. The work of superior brains.

Talk about lack of confidence. For the champion cause of precision this takes all medals.

We pride ourselves on being free men and on our ability to govern ourselves, yet we are such a poor lot of simpletons that after going to all the trouble of electing congressmen, senators and a president we must have our houses pick out nine nice reliable lawyers to smash any laws that might be passed which would tend to help the people of this country who wish to retain anything like democracy the sooner the Supreme Court is disposed with the better.

Look out for the fellows who are trying to stir up a war. They have no intention of going on the battlefield, but expect to stay home and make money while the other fellows are spilling blood.

The man who is afraid of Socialism because he thinks he would have to divide up, forgets that at present he only receives about one fifth of what he earns.

DANIELS INCITES TO RIOT

Either Secretary of the Navy Daniels is guilty of inciting to riot or the government should provide him with a governess. One or the other.

Any man who will deliberately get up and advise that members of your organization using the red flag as an emblem of their principles, or for that matter a blue or green or white flag, should be driven from the corner or out of town, is not a fit person to hold a responsible position in a country that makes any pretensions of being a republic.

Daniels, in his attempt to make a patriotic speech, brought up the question of the red flag to Socialists and I. W. W. to use the red flag as their emblem. Daniels knew that in Seattle there is a large number of workmen belonging to both organizations, and that there has been a hard struggle all through that district for several years for the right of free speech, and that the red flag, as always, has been used as the emblem of liberty.

Knowing this condition to exist, as he must, it appears certain that he made his remarks for the purpose of stirring up a fight between the sailors and the workmen. Especially suspicious does the whole thing look considering the fact that over 300 men from the battalions were allowed off duty to take part in the affair.

The fight for free speech all through the state of Washington has been going on for several years, and the excuse of Daniels that he knew nothing of local conditions does not free him from blame. If he can read and buys any of our daily papers he must know of the sense that will happen to Daniels for inciting to riot.

Another feature of the affair was the spathy of the police, the only arrest made being that of an I. W. W. man who knocked down a captain of the fire department in his efforts to drive workers out of the books and papers by "law-abiding" sailors.

Look at this case and analyze it, then compare it with some recent affair where workers have been concerned. For instance, take the strike of the Paterson silk workers. Patrick Quinlan has been sent to prison for seven years on the charge of inciting to personal injury on a trumped up case of a woman who controlled judge and jury.

Similar instances are on record at Little Falls, N. Y., and at Lawrence, Mass. Not only have the police beat up the strikers, but they have been thrown into jail as dangerous to law and order.

What will be done to the woman who is incited at Seattle? Also what will happen to Daniels for inciting to riot?

No doubt the Manufacturers Association will order the War Department to have a special medal struck off and pinned on the breasts of the sailors for their heroic attack on the working class at Seattle, and a statue of Joseph Daniels will adorn the Hall of Fame for his famous speech on "Law-abiding" sailors.

Who are the real patriots? The men who work to supply food, shelter and clothing for the people of the nation, or the lazy brags buttoned and silk-hatted leeches who live on the sweat and blood of those who toil.

The working class of this and other countries are fast waking up to such men as Daniels and we hope the time is not far off when such as he will be placed as some useful work, and the affairs of state conducted for the benefit of those who make the state possible.

THE MODERN IDEAL OF JUSTICE

Divine justice is not the source, but the ideal of human justice, and the ideal changes as the conditions of social life change and produce new interests and new legal adjustments.

We want justice done at any price, but the price of our interest. Our interests is the basis of our conception of right and wrong, and justice. It changes in form and content according to your sense of justice is often an entirely impersonal one. Yet at the bottom of it you will find a common interest which includes your own as well as that of other people.

The solidarity of interests is the life force of justice. Justice is a product of social development. It changes in form and content according to the conditions of a given society, that is, of the factors of power in actual force in that society. Its purpose is to maintain a certain balance of power among the classes, as far as possible, and it will remain class justice as long as society is divided into economic classes of

which some hold in their possession practically all the sources of material wealth and the machinery of wealth-producing, while others own the means of production, but without power which they are forced to sell in order to live.

In a society so constituted the maintenance of the balance of power, which is the object of justice, means nothing else but the preservation of this very order of things, that is, the domination of the possessing classes over the non-possessing classes.

What we today class the ideal justice is a social order in which the equal rights of all to decent living, to physical and moral self-development, to the full enjoyment of the fruits of their labor, and to the firmly established and secured, and where neither individuals nor classes of men have any power whatsoever to deprive any human being of these rights, this will not be an establishing of powers which will be solid formation of common ownership of the means by which we all must live.

The awakening of the working class to social self-consciousness has produced this ideal of justice, and if it is ever to be realized, it must be realized through the initiative and by the power of the working class.

Might Makes Right

You deny the proposition that might makes right, but have denials ever altered facts? Can you mention any instance in the political and economic history of our country where the might of the weak prevailed over unscrupulous might, that is, where the claims of a weaker class were voluntarily recognized and granted by the powerful ruling class?

Even in the Bible we are ordered to obey that government that wields power over us. It does not matter what the rights of the governed, of the subjects, of the weak and poor. Power is the essential thing; other than who have power over you, your obedience is your right. But we have rights, of course.

They Are Investigating. They are investigating everything that is going on in the world. They are investigating the conditions of the working class, the conditions of the poor, the conditions of the oppressed.

A Remarkable Change

If people could be made to understand that the evil they are complaining of are of their own making, they would no longer waste precious time in complaining, but they would have to create the institutions and bring about the conditions they are longing for.

Improvements in human affairs do not happen as by some sort of social magic, but they are the result of the initiative and every man is called upon to lend a hand in this necessary work.

There is no redeemer for the masses of the people, to lead them out of the mire of their own making, the mire of their own making, and abundance, if they lack the courage and intelligence to redeem themselves.

Despotism By Law. There was a time when tyranny meant lawlessness. In our days the most formidable tyrannies are exercised by law, with the assistance of law, and under the protection of law.

Unlawful tyranny was always a danger to the rights of the citizen, and in many instances, assassination. The unlawful tyrant took his life in his own hands, and often lost it; and institutions upheld by despotic power were never able to secure rest on the consent of the people.

Lawful tyranny has largely done away with those drawbacks, and under the ruling of the people by the few comparatively safe and stable and above all highly profitable; for the law is the expression of the will of the people, it gives consent to the government of the people.

Are you compelled to submit to the will of those who control the political power, by the law made in your own name. You are compelled to give up a large part of the product of your labor to those who control the means of production, and the law made in your own name and defended by you as the indispensable foundation of social order, justice and morality.

Relationship. The nearest relation of man is man. This seems to be so self-evident that it may sound ridiculous to some to refer to it as a law. In fact, the most self-evident facts are very often lost sight of, and none more so than the common relationship of man to man.

The Influence Of Money. As Told By Senator Oliver. The recent investigation into the subject of "The Influence Of Money" has brought out an occasional chunk of testimony that throws considerable light on the subject of "influence" and bribery generally.

Senator Oliver is on the stand. We will let him testify. "I never sought to influence any one by any means, but I have been influenced by money."

The articles in which Senator Oliver is concerned turned out to be largely dictated by the United States Steel Corporation and an investment of over \$1,000,000 in "Globe-Times" and the "Telegraph."

That Senator Oliver was not "influenced" or "bribe-taken" by money will be well known. With these enormous investments is there any serious question as to the way he would vote when legislation affecting his interests was brought before the Senate?

No lobby-inducement or otherwise is required to keep Senator Oliver "in line" for by virtue of his extensive holdings in the United States Steel Corporation, he would vote as effectively as the most "influenced" lobbyist could do.

HIS VOTE IS AUTOMATICALLY DICTATED BY SELF-INTEREST. THE STRONGEST INFLUENCE THAT MOVES THE HUMAN ANIMAL. HE VOTES NATURALLY AND INSTINCTIVELY FOR THE PRESERVATION OF HIS OWN INTERESTS AND ALL THE ROBERTS THAT ARE ENCLOSED IN IT.

It is worse than idle to rail at Senator Oliver for doing what he must naturally do under the circumstances. The only sane case we can take is to delegate OUR OWN REPRESENTATIVES to abolish the system of robbery-capitalism.

THE DEVELOPMENT OF MODERN INDUSTRY IS INEVITABLY THE RESULT OF THE MEANS OF PRODUCTION, and resulting from this, the development of processes of production. But as industry develops, the means of production become more and more binding and more beneficial than blood-relationship. Many of us have learned this lesson, and the workers of the world have learned it.
