MOYER FREE ON \$25,000 BOND; INDICTMENT MAY BE QUASHED

(By United Press Associations.) Boise, July 29.—When Judge Wood opened court this morning attorneys for Moyer and Pettibone, president and member of the Western Federation of Miners, still in jail awaiting trial for complicity in the murder of ex-Governor Steunenberg, of which William Haywood has just been acquitted, need motions asking that their clients be released on bail.

(Special Dispatch to Chicago Daily Socialist.) Boise, Idaho, July 30.—Charles H. Moyer has refused to accept bail unless the same privilege is extended to George A. Pettibone, his fellow worker and prisoner. Moyer fears that his acceptance of bail may possibly tend to prejudice the case against Pettibone.

The state particularly opposes the release of Pettibone, contending that its case against Pettibone is very strong. The defense claims the acquittal of

Haywood knocks the conspiracy charge "quail west" and say that no judge would let the case go to a jury upon the evidence now on hand. The defense is prepared to furnish bail for Pettibone up to \$100,000, although Pettibone is only an honorary member of the federation.

REMARKABLE ORATION OF JUROR O. V. SEBERN AT BOISE

(By United Press Associations.) Boise, July 29.—One of the most remarkable addresses ever made before a jury was delivered by O. V. Sebern during the deliberations that resulted in the Haywood verdict. His argument did much to convince those who opposed acquittal. Sebern said: "Boys," said he, "just remember that doctors have unions, so have dentists and lawyers. Why not these miners, who work harder than we do? I favor a farmers' union, but you will have to show me why I should convict

Boise, July 30.—The Evening Capital News last evening had the following wail: "There was bound to be keen disappointment, whatever the verdict may have been. But the jury which tried the case was one whose honesty, integrity, ability and good citizenship no one doubted, and now that they have expressed themselves it will come with little grace on the part of those whose minds were made up to the contrary verdict to complain of their decision as it would for those who are now pleased to have denounced the verdict had it been the other way."

NEW YORK WORKERS ARE REJOICING—OVER VERDICT

(Special Dispatch to Chicago Daily Socialist.) New York, July 29.—"President Roosevelt, not William D. Haywood, is now the 'un-desirable citizen,'" said Alexander Jones, Socialist leader and editor of the Volks Zeitung, when asked how he regarded the result of the trial in Idaho. His reply was perhaps the most pronounced of many opinions by local Socialists and organized labor leaders, but jubilation was the keynote of them all.

Masama, Nev., July 23.—Seven Troughs is in the throes of a labor war which threatens to tie up that prosperous camp for some time to come, and may mean a repetition of Goldfield's agonies of a few months since. The trouble came about because of the demand of the Western Federation of Miners for an increase of \$1 per day in their wage scale.

The Hustlers' Column

Perhaps the greatest lesson that has come out of the Haywood trial has been the value of a working class press. From start to finish it was the Socialist press that led the battle and gave the publicity that led to the final victory. Without that press would have been impossible for the millions of workingmen and women to have communicated with one another, to have learned the facts that led them to give of their scanty wages to the defense fund and to make a protest that made impossible the judicial lynching that was contemplated. In so far as here and there a non-Socialist paper attained even an appearance of fairness, it was due to the fact that the Socialist press had made the "story" so big that they dared not ignore it, had created such a sentiment that they dared not wholly suppress the truth. There are other and even bigger fights coming when the need of a press controlled by the working class will be even more imperative. Now is the time to build up that press. The next few weeks will decide how big a factor the Socialist party will be in the next presidential election, and it will depend largely upon the circulation of the Socialist press. For these reasons extraordinary efforts should be made to increase the circulation of the Chicago Daily Socialist at this time. It is none too soon to begin to make votes for the next presidential election. There are still signs of a falling out that means danger. Do not stop now. Bend every energy toward increasing the subscription list until that deficit will be banished so far out of sight that it can never appear again.

George W. Farnsworth, secretary local Wadsworth, O., comes in with \$5 for cards from the local. The stockholders' meeting decided to take up and push the Riverview park affair for August 16. There should be \$2,000 tickets sold for this at the very least. The tickets have been mailed to a large number of the Chicago readers of the Daily Socialist, and more can be obtained at the office. Do not keep these tickets. Either sell or return them. There should not be a single one returned, as only five have been sent to each person, and there is no man, woman or child that cannot dispose of that number.

I Play Fair With My Help. I have always paid them full pay when sick, given them vacations yearly, full pay. Pay all their funeral expenses. I hire men away past forty-five. I treat all employees like men and women should be treated, not like slaves. They are welcome to sit down when not busy. Do you think I would hire a woman to work for me for \$5.00 a week and place her where she has the fight of her life to be and look respectable? Do you think I would hire salesmen to work for me, many of them married men, and pay them \$8.00 to \$10.00 a week, put them where they must almost starve or starve? Do you think I would hire a woman to work on a salary of \$10 a week? I have never changed my mind and never will, matters not how successful I may be. I was the only son of a very poor widow, and I never will forget the struggle she had to raise Tom Murray. The above is no new thing with me. I act as I feel, my conscience calls aloud for justice. Thank the Lord, I am in a position to deal square. May the above speed the day when all men will do likewise. It is right! and right must win and will win. I sell all \$2.00 hats at \$1.65; I sell suits at \$10.00 "good enough for me to wear, good enough for you to wear." I sell "American Gentlemen" and "American Lady" Shoes, \$3.50 to \$5.00; I sell "Union-Made" Shoes at \$2.50 and \$3.00; I make suits to order, \$23.00 to \$37.00. I would like to have you trade with me. If you do, and you buy anything not right, bring it back; no man living will make a wrong right quicker than I will. —Tom Murray.

The Pith of the Week's News from Various European Sources

Austrian Body Stirred by Stormy Scenes—Iceland People Want Home Rule—Socialist Party School Closes Its First Term

(Special European Mail Correspondence.) Berlin, July 14.—Stormy scenes were witnessed in the Austrian Reichsrath during the discussion of a proposal to prosecute the state officials in Galicia who abused their position and interfered in the recent elections, often, it may be added in the most open and high handed manner. Naturally the Polish bourgeois block were able, with the help of the Christian Socialists and other reactionary parties, to prevent any inquiry into the methods by which a reactionary majority had secured in this the fortress of reaction in Austria. Galicia is more and more the one part of Austria where the reactionary parties can feel any confidence of being able to assert themselves, and usually they are not ready to grant any real inquiry.

Danes Want Home Rule. The people of Iceland are agitating for home rule. The Danish ruling classes are trying to pacify them by appointing a special minister who understands their tongue. That has naturally only whetted the appetite of the people and now arrangements are being made for the Icelandic deputies to visit Denmark and, vice versa, for Danish deputies to visit Iceland, with a view to improving the relations. The Danish Socialist Party laughs at these childish proposals, which are nothing more than the usual Liberal attempt to soothe the anger for real concessions. The French chamber has accepted the eight hour law for miners. It now remains to see what the senate will do.

Conservative Reichstag. It is a curious instance of the paradoxes of reality that the two most liberal presidents of the German Reichstag should have been conservatives. Nobody has understood better how to conduct his office as a president than the one who is descended from an ancient aristocratic family and belongs to the most exclusive circles of a nobility that is notoriously the most narrow minded of any. On the other hand, the Liberal opposition, which the Reichstag has distinguished themselves by their arbitrary rulings and the restrictions which they have imposed on freedom of debate.

Social School. The Socialist Party school for the training of officers of the party in the city of Chicago has closed its first term. The students are elected by the party organization in various parts of Germany and are paid by the executive for the time that they spend in Berlin. Each student makes one or two lectures for real concessions. The lectures are in history, national economy, philosophy of history, law and the theory of trade unionism, co-operation and municipal government.

Clara Zetkin attained on July 5 her fiftieth birthday. She has for many years been the German representative of the party in the German party, and is one of the most prominent and influential members of the party. German by birth she was married to a Russian Socialist, Otto Zetkin, with whom, under the Socialist law, she shared all the hardships of exile.

She lived during that period in Paris, often, I believe, in the greatest poverty, but the consequence was that few German comrades have such an intimate knowledge of the inner history of the movement in France than she, or indeed have such a wide acquaintance with the movement of all countries. In 1891 Clara Zetkin founded the Gleichheit (Equality) as an organ of the proletarian women. She has always accentuated the fact that the working women could only attain their aims by acting with the men of their own class against the common exploiter of them both. She has had the satisfaction of seeing that these ideas have permeated the German proletarian women and the bourgeois women suffragists have there no hold among the women workers. The Gleichheit has, I am glad to say, a circulation of between 40,000 and 50,000, which says a great deal, as most of the women workers are too poor to buy a paper, so that it is safe to say that no paper is more widely read in proportion to the copies sold.

Hungarian Party Active. Now that Austria has succeeded in winning manhood suffrage the Hungarian Socialist party have taken up the question with more vigor than ever and are determined that their country shall no longer be compelled to bear the weight of the Magyar supremacy, or that a handful of landlords should be able to exclude other nationalities as well as the proletariat of their own race from a share in the government of their country.

A meeting was held in Buda I last week, which was addressed among others by representatives from the Austrian party. The meeting which was very large accepted the resolutions of adult suffrage with great enthusiasm. The Liberal Rumanian government recently confiscated the libraries, correspondence and flags of the trade unions. The streets of Budapest were reported as under military occupation. The Russian police are proposing to use dogs to track criminals. A Russian correspondent asks how they will manage to avoid capturing the police agents themselves, who are directly concerned in so many crimes.

At the Zurich municipal elections forty-nine Socialists were elected. A popular vote in the canton of Geneva has decided by 7,656 votes against the separation of the church and state. The Russian police are proposing to use dogs to track criminals. A Russian correspondent asks how they will manage to avoid capturing the police agents themselves, who are directly concerned in so many crimes.

Cincinnati labor leaders want a central meeting place, which it believes will aid it largely in the exercise of its duties and the increase of its sphere of influence. There are now over 30,000 union men in Cincinnati, and Secretary Frank Rist of the Central Labor council has pointed out that it such a central place would provide funds sufficient to construct a creditable building.

Monday, August 12, Journeymen Barbers' union, No. 548, will give a picnic and outing at Luna park. The day has been set aside as Barbers' day and a large attendance of Chicago tonorial artists and their friends is expected.

Chicago Ice Wagon Drivers' and Helpers' union, No. 702, U. T. of A., elected the delegates to the Rochester annual convention, September 9: George Wilson, C. O. Ringer, H. C. Lenz, William Cassidy, C. Bode, William Johnson, John Shendan, third vice president, and H. H. Kulewsky, an able and energetic man and is driving a team. He has no opposition as a candidate for president.

Appeal to Reason Wires Roosevelt (By United Press Association.) Gladstone, Kentucky, July 29.—The Appeal to Reason sent the following telegram to President Roosevelt today: "The Appeal to Reason and its 1,000,000 readers extend congratulations to you for the service rendered in securing the acquittal of an 'undesirable citizen' at Boise. You will be asked to explain your attitude to 10,000,000 workmen during the campaign next year."

Teddy may suppress the Appeal. The Saturday meeting between officials and a committee representing employees of the Aurora, Elgin & Chicago Electric railway resulted in the selection of a third arbitrator to adjust differences between men and company. The man selected as thoroughly disinterested was Judge E. O. Brown, whose name was presented by the union. Judge Brown has been notified and it is believed he will consent to act as judge of the board. Should he be interested in the case, the board will consist of Jacob LeBoosky, representing the union; J. F. Louis Meyer, a corporation lawyer of South Bend, Ind., representing the company, and Judge Brown. The men now look for a speedy adjustment. Both parties are pledged to abide by the decision of the board.

Last week while twelve men at Boise, Idaho, were slowly coming to a decision that the Mine Owners' association and the Pinkerton detective

The Scandinavian Socialists of Chicago went to Kenosha, Wis., accompanied by their singing society, yesterday, and organized a Scandinavian branch of the Socialist party. The new branch has thirty charter members. A splendid time was had by all of the visitors and the hosts.

A. E. Kinsley of Findlay, O., who is in the city for a few days, visiting relatives, says the Chicago Daily Socialist is widely read in his town. Ninety copies of the paper go to that restaurant and the bundle is eagerly awaited daily. Kinsley brought his brother to the Socialist office and the result was the brother became a subscriber. The point to note here is the fact that the brother is not a Socialist.

A very successful meeting was held Sunday by the Hungarian-speaking Socialists of Chicago. The object of the meeting was to put on foot the third issue of the paper going to Hungary and to bring various interests in closer union. In the course of the meeting various matters were discussed, principal among them being the political and economic aspects presented in the United States today. George Eisler, the organizer of the Hungarian working people, spoke on the growth of Socialism in the United States. A particularly brilliant effort was that of Mrs. Raymond Robins, who encouraged the Hungarians and spoke of the work of the Woman's Trades Union League of Illinois, of which she is president. She said all Hungarian working women should be treated with respect and receive aid, especially legal aid, which is offered through the league free. Other speakers were Mrs. Robertson of the Socialist women's organization, and as a result of her effort six pledged themselves to work through the league and secure as many as possible to assist. Steve Dome spoke in plain words about the press. The meeting, which lasted four hours, began on a high note when Eisler told them that Haywood was a free man.

Frank Morris, a rubber worker of Trenton, N. J., is in the city. He speaks enthusiastically of the situation in his town and says that the latest steps forward there was the organization of a woman's branch of the Socialist party which has a large membership and starts under auspicious circumstances. He says the Socialist party, as well as other Socialist papers, Hungarian and Italian, especially, are largely in evidence in Trenton. They are sold by Dan Henry, 137 South Erie street. Henry keeps a sign in his window which says "Socialist papers" and the news feature of his business is one of permanency and profit.

Socialists propose to invade Iowa with speakers in a short time. It was hoped that the committee, consisting of Carl Strover, Neill Anderson and Bernard McMahon was appointed to prepare extracts from it for circulation among the stockholders. During the progress of the meeting several members entered wearing placards, "Haywood is Acquitted," on their hats and each arrival was greeted with shouts of approval. One hundred and fifty stockholders attended the meeting.

WHAT UNION MEN SAY OF THE VERDICT AND ITS MEANING

A variety of opinions on the Haywood verdict were secured today from Chicago labor leaders. Although they vary in expression, one and all are eloquent of the conviction that Haywood could never have been judged guilty by any fair minded jury. One business agent hadn't heard the news until a Chicago Daily Socialist reporter called on him for his expression on the verdict. But he had a good excuse. He had worked all yesterday and last night getting his union's contribution of \$40 in shape to forward to Boise today.

Following is what some Chicago labor officials said: Edward Nockels, secretary Chicago Federation of Labor—"The Pinkerton Evidence Manufacturing agency is proven guilty of perjury. It should now be put on trial and if found guilty should be hanged."

Otto F. Wasem, bookbinder—"The verdict was the only one a fair jury could have rendered. I was on a train when I learned the news and the approval seemed to be universal."

A. J. Johnson, steam fitter—"Of course I am more than pleased. Moyer, Haywood and Pettibone have the confidence and sympathy of every laboring man in the world."

R. A. Shields, electrical worker—"I declare it's news to me. I've been expecting twenty-four hours getting our contribution to the Haywood defense fund in shape to forward to Denver. Here's the check for \$40. Well, we'll send it anyway. The workers try to hang Moyer and Pettibone, so it's well we have it ready."

John C. Harding, organizer for Chicago Typographical union—"I am very glad, of course. I think the verdict is doubly significant, however, when viewed in the light that it puts a quietus on future efforts of private detective agencies to excite crime and manufacture evidence against innocent men."

Thomas Cooney, woodworker—"The verdict was the finest that ever happened. Our union was in the midst of an election of officers when the news was brought. Business was suspended while the members cheered themselves hoarse."

John T. Collins, pressman—"The verdict is fine, fine. I was at White City when it was made known. If there was a man on the grounds who wanted a conviction, he didn't make his sentiments known. The entire crowd cheered and cheered again. It was fine."

STOCK HOLDERS HAVE BIG MEETING. The meeting of the stockholders of this paper yesterday was the largest and best the stockholders have yet held and the glad tidings of the victory in Boise made a fitting climax to a succession of reports that told of successes and the end of the trying times for the Chicago Daily Socialist.

The secretary reported the action of the board of directors in regard to the job plan and the news was received with approval. The plan is to purchase a plant on a ninety-day option, which will pay the company about the same price as it would if handled by it. The purchase is to be carried through at once.

The announcement of Chicago Daily Socialist day at Riverview park, August 16, was another occasion for shouts of appreciation. It was stated that 25,000 tickets had been mailed out and the stockholders were urged to push the sale of these. A committee was appointed to assist the management of the park in completing arrangements for the big gathering.

The members are W. E. Rodriguez, Peter Burns, John Anderson, John Lewis and Jacob Schiff. The question of a Sunday paper was brought up and urged. It was decided not to take any action along this line for the present.

SKIN DISEASES AND MEDICAL ETHICS

How Good Doctors—re-estimate Misdeeds of a Old Habits. Good doctors are sometimes misled by their prejudice or habits. Many condemn manufactured medicines, the good with the bad, seemingly forgetting that there are manufactured chemicals that eradicate disease in the surest way.

And such doctors also forget that their own prescriptions are manufactured, too, when the druggist puts them up by hand. Think of the little difference between putting up a prescription in a drug store and putting it up in a large factory. Not all doctors are slaves of habit. Many have abandoned the treatment of skin diseases with internal remedies. With the recent discovery that skin diseases are caused by a germ that works on the surface of the cuticle they prescribe that mild, soothing liquid of Dr. DeCatur D. Dennis, known as "D. D. D. Prescription," which destroys the germs quickly. These doctors no longer have their own "commerce" with many drugs or smear him with offensive salves. Credit is certainly due these doctors for sending their patients to the drug store for a remedy when they can make so much more "face" by writing out their own prescriptions.

If you are suffering from eczema, psoriasis, salt rheum, ringworm, dandruff, or any rash, get a bottle of D. D. D. Prescription and a cake of D. D. D. soap and that awful itch will disappear with the first few drops.

WHY THE MAYOR OF CHICAGO RAN SO

Bounding Over Bowlders and Dancing in the Dust He Chases a Fast Train.

Fox Lake was treated to a sensation Thursday that it will not soon forget. It saw dignity unhorsed and dragged in the hot July sun, and it thrilled until a chill chased up its spinal column.

Mayor Busse was the cause of it all. He had been resting in the political resort and in the midst of his sweet summer reverie he remembered that he had an important appointment in Chicago.

The space and the heat would have made a weak man tremble at the thought of catching the train. But it was otherwise with Chicago's "business mayor."

Hastily throwing a few necessary articles into a grip, he hastened from the house and began to sprint lightly along the country road.

When less than half the distance had been covered the mayor saw the train approaching. It would pause but an instant, he knew.

Grasping his trusty portmanteau, the mayor broke into a gallop and thundered along at a pace that made the earth tremble. Dust rose at his feet about him, the heartless sun laughed in his flushed face. But our hero never faltered.

The little knot at the depot noticed the commotion in the road and fear struck their hearts. "A cyclone!" whispered the station agent, and shuddered, for he had once lived in Iowa.

"Let us away," cried a timid woman. "It is a cattle stampede." The train was a hundred yards on its way when the mayor crossed the wire. When the knot of loungers saw who approached they hastened to do him honor. One wiped the dust from his eyes, while another brought cooling water from a nearby spring.

But the mayor, unheeding these kind offices, stood staring after the departing train. "Too late! too late!" he moaned. "For once my enemies will have the goods on me. Now may they sneer and say that I failed to keep a political appointment."

The meeting the mayor was scheduled to attend was that of the gas, oil and lighting committee of the city council. He was to have explained what he thought of the ordinance most of the committeemen are anxious to grant to the Chicago Telephone company. He did the explaining in the afternoon, the morning session having been adjourned to await his arrival.

ORCHARD BREAKS JAIL; STRANGE NEWS COMES

Boise, July 29.—The expected has happened. Harry Orchard has escaped and broken loose again, as a large number of special telegrams show. They began to come in early this morning and they do not seem any room for doubting their authenticity. The evidence is that he is once more on the road in incorporated in the following:

Crisfield, Md.—(Special).—James Reed, the negro that murdered Policeman Lushington and the confederate general in the shooting made his escape, was captured and lynched. The mob was led by a recently converted man from the mining territory, it is presumed.

Ukiah, Cal.—(Special).—A lone highwayman in the space of half an hour yesterday robbed two stages, containing forty-five people, and also held up and robbed two freight wagons.

Council Bluffs, Ia.—W. H. Richardson and George Wilson, police detectives, were fatally wounded by an unknown burglar, who escaped.

New Castle, Pa.—(Special).—Forty-seven "black hand" men have been arrested by the United States government. All look alike and the supposition is that a famous Idaho witness distributed himself and came here by airship. He says he will confess later.

Chicago.—Julius Schmidt, butcher, 4730 Throop street, was held up and robbed by a couple of burglars, both of whom looked alike. They got \$18.

Paris, Ky.—(Special).—John Dillcock was found this morning with a pitchfork thrust through his semi-circular superogatory. A man swiftly passing southward from the northwest is suspected.

Montgomery, Ala.—(Special).—Some time last night a man stole the fast passenger train No. 41, off the Cincinnati, Alabama & Key West railroad. The train was on a siding when a single man swept through it, kicking off the passengers and opening over the hills with the cars and engine tucked under his arm.

HANCOCK POLICE USE CLUBS IN FLAG MELEE

Hancock, Mich., July 29.—The police yesterday took first steps to enforce a recently adopted ordinance prohibiting the carrying of red flags in parades. Some time ago A. W. Mance of Chicago visited Hancock, and while here met with violent opposition on the part of the city solons and their advisers, which resulted in the adoption of the ordinance referred to when the marchers at a picnic bore a red flag.

In yesterday's onslaught on a Socialist parade the police used clubs and bats as a club and whippers, and arrested. The police at the same time gave notice that they would enforce the ordinance. The Socialists may test the city law in the courts.

VOLIVA STARTS DAILY TO CONTROL ZION CITY

In his fight for the leadership of Zion City, Wilbur Glen Voliva yesterday launched a daily newspaper, the Zion Daily Herald. The initial number contains a facsimile of the petition which Voliva is circulating among his friends, in which he asks that he be appointed joint receiver of Zion City with John T. Hately, the incumbent. A lengthy description of the Voliva meetings, which are being held in a tent on the outskirts of the city by Voliva, also appears in the publication, together with local items criticizing the methods employed by the anti-Volvites to oust Dowle's successor.

WANT RELIGIOUS MEETS SQUELCHED IN MADISON

Voters, citizens and taxpayers in West Madison street, between Jefferson and Desplaines streets, have presented a petition to the mayor asking that all permits for so-called religious meetings held nights in that district be recalled. The petition asserts that the holding of such meetings has grown to be a nuisance, preventing workmen from sleeping, interfering with business, etc., to such an extent that they must have them stopped.

Another feature of the petition is that such meetings have the effect of attracting pickpockets.

The mayor took the petition under consideration.

BACK TO WHERE THE WOODBINE TWINETH

Boise, July 29.—(Special by Wire less Telegraph).—Two mysterious figures were seen entering the vast woods eight miles south of this city at a late hour tonight. Both were traveling at a rapid rate and were terribly agitated. Rumors are rife that some deep-laid plot is about to be enacted in our midst. Later (also special)—Bill Hoskins, a well-to-do Ada county farmer, recognized the mysterious twin s' "ominent citizens who took part in a Haywood trial. He positively refused to make known their names.

U. S. STEEL IN NEW DEAL AT GARY, IND

Wants the Street Car Franchise Through a Referendum Vote, Now

Foiled in its attempt to bully the citizens of Gary, Ind., into giving a street car franchise, and unable to buy its way through the Gary city council, the United States Steel corporation will now try to dodge a referendum circulated by its own representatives. In this way it is hoped to defeat the will of the property owners and taxpayers.

The Gary city council turned down the corporation's application for a franchise because the company would not guarantee 3-cent fares. Outside capital offered to meet with the required conditions and obtained a franchise over the head of the corporation.

Since then the steel trust has worked strenuously to prevent the new company from exercising its franchise. The citizens were told if any other corporation operated street cars in Gary that steel trust would close its works and spread ruination in the town. The people laughed at this threat, and now comes the referendum proposal. On a former occasion the United States Steel corporation circulated a referendum in Gary, investigation of which showed that more than half the names were

THE MAGILLS IN CELL; GRAND JURY HAS CASE

Clinton, Ill., July 29.—The principals in the famous Magill murder case, Fred Magill and his beautiful young wife, formerly Faye Graham, are now in the Clinton jail in separate cells. They arrived yesterday morning from the coast.

The special grand jury which has been summoned in their case is in session today and will probably present an indictment before nightfall.

The Magills both declare they are innocent of the charge of murdering the first Mrs. Magill, who died evidently of poison, whether self-administered or given, by her husband remains to be seen.

Colombia Booms Its Export Trade.

The consul general of Colombia in this city announced recently that on the occasion of the celebration of the Colombian national holiday on July 29 the government issued a decree granting a premium on all exports of coffee, cotton, rubber and tobacco, which can be so advantageously produced in the country and which find one of their readiest markets in the United States.

"UNOFFICIAL" JURY SAYS NOT GUILTY

(Special Dispatch to Chicago Daily Socialist.) Boise, July 29.—Long before the official jury reached its verdict, the "unofficial" jury, consisting of Socialists and union men sent to watch the proceedings, reached a verdict of "Not guilty."

Its decision was as follows: "We, the independent jurors, having attended the trial of William D. Haywood for the murder of ex-Governor Steunenberg, and having only considered the evidence presented by the state and the defense, affirm that the persecution of the working class of America in this instance has failed despite the strenuous attempts of capitalism, and in the name of the united workers of the land we hereby declare our verdict to be not guilty."

MOYER REFUSES TO LEAVE JAIL UNLESS PETTIBONE GOES ALONG

Continued From First Page.

He would accept a penny for any speech which he might deliver, and he further said that he may possibly be compelled to forego all speech making for a time on account of the heavy work that is awaiting in the offices in the Western Federation of Miners in Denver.

Only Politicians Sore. With the exception of a few disappointed politicians Boise people applauded that Haywood is free.

Persons who advocated hanging him three months ago are now expressing themselves as being delighted at the verdict.

It is needless to say that the rage of Governor Gooding and Detective McPartland knows no bounds.

Senator Borah declares he is glad that the jury acquitted Haywood. Borah will be tried for timber stealing shortly in the federal court and it is possible that this coming event has served to moderate his animosity toward the men who were kidnaped from Colorado on the trumped up charge of murder.

Richardson Goes Home. E. F. Richardson left today for Denver, leaving Darrow to handle the cases in the future. Haywood will leave for Denver Thursday or Friday. Darrow announced tonight that he would leave for Chicago via Denver and Girard, Kas., Friday morning.

Everybody in Boise is demanding the presence of Eugene V. Debs at the earliest possible moment. His desirability as a citizen is unquestioned since the rendering of the Haywood verdict.

It has been generally claimed that the state has more incriminating evidence against Pettibone than any of the others, while it has been generally conceded that the case against Meyer is the weakest of the three. The defense in the Haywood case admitted that there was a number of things for Pettibone to explain as to his association with Harry Orchard and the sending of money to him, but they said it would be time enough to deal with these matters when Pettibone himself was placed on trial.

Brought Into Court. Meyer and Pettibone were brought into court at 2 o'clock. The latter's wife was present, and broke down and cried when the order was made releasing Meyer and leaving Pettibone in jail.

It was said that Pettibone may be taken back to the Cayon county jail at Caldwell until the time for his trial arrives. The case and the prisoners were brought to Boise six months ago on a charge of venue.

Attorney Darrow of Chicago made the formal application for Meyer's release, and no word of objection was interposed by Senator Borah, representing the state. When it came to fixing the amount Senator Borah named \$25,000.

"That is reasonable and suits us," said Darrow.

Miners Give Cash. Bond for Meyer is to be given in a unique way, suggested by Attorney Peter Breen of Butte, Mont., who has been associated with the defense.

The Butte local of the Western Federation of Miners is the richest in the organization, and Breen said carries a deposit of from \$100,000 to \$140,000 constantly in the bank. Arrangements were made by wire by Breen to have the Butte union make \$25,000 subject to draft by the First National bank of Boise.

Some officer of the Boise bank will sign the bail bond as surety. A telegram to Breen said the arrangements at Butte had been completed.

Not a Personal Bond. "We were offered personal bond in several times the amount desired," said Breen, "but we preferred not to impose upon any of our friends to that extent when the first union has such a large surplus, and was anxious for the honor of showing its confidence in the president of the federation."
