DYNAMITE BOMBS TO FIGHT PROHIBITION IN GEORGIA Columbus, Ga., Jan. 25.—Feeling between the members of the Law and Order league at Girard, Ala., and persons opposed to the prohibition laws reached its height when dynamite bombs were exploded in front of the residence of C. T. Gifford, president of the league and two Girard ministers active in the league. No damage was done. The explosions followed the arrest of six men, three white and three negro, for violating the prohibition laws...

PROCESSION OF OHIO JOBLESS Wellington, O., Jan. 25.—The unemployed of Wellington, numbering several hundred, led by Harry B. Wells, a prominent local Socialist, and by John Davis, marched to the city hall, called upon Mayor Jones and presented a petition asking for work. The mayor promised to place the matter before the board of public works and said he himself would do what he could. The parade followed on a quiet street meeting at which Wells was the principal speaker.

Fix Dates for Plumbers' Convention Springfield, Ill., Jan. 25.—The executive committee of the Master Plumbers' association has fixed January 22 and 24, 1908, as the dates for holding their 24th convention at Galena.

3,700 JOBLESS ANSWER AN AD Joseph J. Miller, said by the police to be a leader of a Methodist church at Winston, Ill., said former manager of the Jenkins Brothers Paper Co., Chicago, had written to him and offered him a position as general manager of the plant at Winston, Ill. Miller had been arrested on warrants charging him with having stolen the plant and the water works there. He had been in the plant for seven hours.

Events of the Suppressed Demonstration Cause Business Men to Raise \$100,000 for Relief---Dr. Reitman, Having Won His Point, Will Retire---Will Have His Hearing Monday---Bloodshed Is Laid to the Police, Who Secured Reinforcements From Strikebreakers and Desperate Thugs

An officer assigned to this work was incensed enough to appear in plain clothes among friends before the parade and to explain the arrangement. M. Baker, 301 Potomac avenue, employed as salesman in the Randolph Grocery & Market, heard the officer's explanation as to the plain clothes system. The policeman came into the store and surprised his friend by his uncustomed and modest garb.

There is an awful riot taking place downtown, lady," answered the voice at police headquarters. "The police from every section of the city have been sent to quell the disturbance there."

The man told how a huge army of anarchists had gathered on Clark street and were fighting the police and that for this reason the rest of the city had been left abandoned at that time.

Truth About Red Flag Another side of the red flag story that was fabricated during the unemployed parade came to light when the letterhead of the banner in question stated to the Daily Socialist that it had not been waved during the parade because it was at that time wrapped in a bundle and in the hands of the police.

Woman Makes Complaint During the boycott part of the parade activity at Jackson boulevard and Clark street a woman reporter for the Daily Socialist called up Chief Shipley's office and entered a complaint about having narrowly escaped being run over owing to the unguarded condition of a congested crossing downtown.

LIE SPREAD BY HEARST NAILED New York, Jan. 25.—The liquidation of the Beaver National bank of which Gaylord Wisliser, the well-known Socialist, was a vice president, heralded throughout the country by Hearst's papers as a bank failure from which the bank's officers, especially Wisliser, would gain, has been explained by the liquidating committee.

Illness Stays President President Coffin of the bank became ill and there was nobody else to take charge or who would care to do so, as the bank was not a paying proposition.

Liquidation Is Voluntary The stockholders met and passed resolutions that the bank be placed in voluntary liquidation under the provisions of sections 520 and 521, Illinois revised statutes. A liquidating committee was appointed and a vote of thanks was tendered to Gaylord Wisliser for his services as acting president of the bank.

PANIC BENEFITS POSTAL CLERKS The postoffice clerks are almost the only workers in Chicago that are not injured by the panic. For several weeks there has been almost a complete cessation in the sending out of circular letters, catalogues and other advertising agencies that in good times make up the mass of the mail.

CHURCH DEACON INDICTED FOR THE THEFT OF \$7,708 Joseph J. Miller, said by the police to be a leader of a Methodist church at Winston, Ill., said former manager of the Jenkins Brothers Paper Co., Chicago, had written to him and offered him a position as general manager of the plant at Winston, Ill. Miller had been arrested on warrants charging him with having stolen the plant and the water works there. He had been in the plant for seven hours.

POSSUM HIBERNATES IN A FAMILY COUCH

Cumberland, Md., Jan. 25.—For some days something seemed to be wrong with a couch in the home of William A. Dalbaugh. When any member of the family lay upon it the wren were forced out, inflicting painful pains. The children soon gave the couch a wide berth, and stories were soon circulated that the couch was haunted. Dalbaugh decided to make an investigation.

INDIANAPOLIS TO HEAR HAYWOOD

Indianapolis, Ind., Jan. 25.—William D. Haywood has agreed to come to Indianapolis and address the workers Sunday evening, January 26. Expecting that organized labor will turn out in full force, the Socialists have secured Tomlinson hall, the largest auditorium in the city. The delegates to the United Mine Workers' convention will be out in a body.

ROBBED OF LOAD OF COAL IN STREETS OF CHICAGO

William Schultz, a driver for Baer's Express company, was beaten and robbed of a load of coal by a team and wagon and seven tons of coal which he was on his way to deliver to the Illinois Leather company at 400 North Halsted street. An hour later Frank Miller, 15 North Kedzie avenue, was arrested as he was driving the team and empty wagon in North Halsted street. Miller resisted arrest and refused to tell where he had disposed of the coal.

CHILDREN CAN BE TRAINED LIKE PLANTS: BURBANK

Los Angeles, Cal., Jan. 20.—Humankind can be improved and made to conform to any desired end, just as the plant world can be improved by proper environment and careful training of the young, just as plants are developed into new and more desirable forms by culture, according to the opinions expressed by Luther Burbank, the "plant wizard." In an address made by him before the Southern California Teachers' association...

School Life Too Early Burbank believes that nature should be allowed to do her share in the education of the young, and he thinks that school life should not begin at too tender an age. Burbank spoke in part as follows: "Child life is far more sensitive than we have realized, and when by our educational systems we endeavor to separate the intellectual and the natural world we wrong the child. Cold, intellectual study, unaccompanied by the poetic side of life, the association with nature is a sure sign of a failure as a locomotive, without a living and devoted to truth and life is healthful and it is more important far to be able to do good work and have all the so-called culture of the schools.

Need Mud Pies and Dogs "Why, every child should have mud pies and toads and dogs and guinea pigs and trees to climb," smiled the sage whimsically, while the audience laughed with appreciation. "Lots of poets and hay fields, and woods, woodchucks, birds, bees—and horsets. They will teach him more about punctuality than you would imagine, and so do a good bunch of nettles. Yes, he should have nettles and bees with stingers and everything that belongs to the natural world. Let a child deprived of these has been deprived of the best part of his education, for through these things he comes into harmony with nature. Even a brief experience with natural objects will lead to a child's self-reliance and also respect for all the outward objects that must be met in life.

Comparisons Are Made "And there are so many comparisons that can be made between plants and human life. Every plant is born with individuality, just as truly as the human being, and it will retain true to that individuality until some radical change is made. Now, with a rock a change of environment will make little difference—there will not be much response to a change of environment, but the child life most sensitive and appreciative of all. Wonderful things can be accomplished that have not yet been dreamed of. It takes nature to teach the child, perhaps, I have the advantage somewhat in my

LAST TANGLE STRAIGHTENED; TRACTION MILLENNIUM SEEN It may be that the traction troubles are ended for awhile, as a result of the word "no." It came about when the supreme court of the United States at Washington gave its brief negative answer to an appeal made by the Union Traction company for an appeal from Judge Grosscup's decision some time ago.

## SLIP ON BRIDGE; DEAD IN RIVER

Dominic Tortorelli, living at 18  
 Smoot place, a city laborer, while  
 shoveling snow at the Clark street  
 bridge, slipped and fell into the river  
 and was drowned.

Tortorelli sank as soon as he  
 reached the water and was not seen  
 again until after the river in the  
 vicinity was dragged and he was  
 brought to the surface dead. He  
 leaves a wife and two children.

## SOCIALISTS HIT AT VON BUELOW

Berlin, Jan. 25.—The Socialists, in re-  
 lation for the stand taken by Prince  
 Von Buelow on the matter of manhood  
 suffrage for Prussia, have decided to  
 aim a blow direct at the imperial chan-  
 cellor. When the appropriation for the  
 chancellor's salary comes up for debate  
 in the reichstag they will introduce a  
 motion that his remuneration be re-  
 duced unless he promises a bill provid-  
 ing universal suffrage without distinc-  
 tion of sex for everybody over 20 years  
 of age in every federal state of the em-  
 pire.

## THE HUSTLERS' COLUMN

And still we grow. One hundred and six new ones yesterday. The  
 Hustlers exactly duplicated the number of the day previous. There is still  
 time to raise the total subs. this week well past the thousand mark. But to  
 do that the Hustlers will have to work steadily and hard. There can be no  
 let-up if we are to push the Daily to victory before the spring campaign is on.

When we succeed in adding that total of 10,000 new subs. the paper will  
 be on a self-sustaining basis. The fight is half won now. The last half of  
 the battle should see a quick finish and the Daily equipped for vigorous  
 work immediately.

The Socialists owe it to themselves to give their paper this start. When  
 the hand on the clock touches the 10,000 mark the Chicago Daily Socialist  
 will be on a self-sustaining basis. How much have you done and what are  
 you doing to quickly gain that point?

There is not yet the required response to the call for \$5 loans. Right at  
 this time the loans are the very life of the paper. Unless each one does his  
 part in this way the Daily will be obliged to struggle under a serious handi-  
 cap. Look up yesterday's paper and read again what the Prohibitionists  
 are doing in their movement. Two thousand two hundred and forty-two  
 voluntary donations averaging \$7.50 each in a few months! The total amount  
 to date is \$17,064.46. This for Prohibition!

Have you done your share for Socialism? The \$5 loans are needed to  
 carry the fight into the enemy's country. See that the vanguard of the  
 attacking force is supplied with ammunition.

"Light, ho!"  
 "Where away?"  
 "Two points off the starboard bow."  
 Or, in other words, Hustlers, we're  
 going to take a trip out to sea today  
 We'll sail on the good ship "Hustler"  
 and hope for a safe return to port.

"A Comrade," Rock Island, Ill., calls  
 the vessel with a \$5 loan. That's a  
 good start.

Captain F. W. De Tray and Mate J.  
 H. Stubbs, Aurora, Ill., do their part in  
 replenishing the galley with a \$15 loan.

Apprentice Edwin S. Dew, Belvidere,  
 Mont., writes the Hustler editor that  
 he is but 14 years old—and makes a \$5  
 donation. Read that again, some of  
 you old sea dogs.

Another donation of 25 cents from W.  
 P. Brooks gives evidence of fair weather  
 ahead.

Here's the way the Savannah, Ill.  
 Hustlers are taking out to sea their  
 teeth: A number of them have notified  
 the local newspaper that they will take  
 the Daily Socialist from him and pay  
 the regular price, just to get him to  
 make the paper. He's deliberating  
 now.

The Fourteenth ward branch, Chic-  
 ago, takes \$3 worth of due stamps and  
 starts out after a fund for a new an-  
 chor.

The Fifteenth ward branch comes to  
 the front with a purchase of \$12 worth  
 of due stamps. The receipts go to buy  
 a new jib.

The city circulators are beginning to  
 get in their work in earnest now. Several  
 hundred orders have been sent out to  
 them and all report good delivery.  
 Formerly the Daily's circulation de-  
 partment was handicapped through the  
 inattention of carriers. The ward can-  
 vassers are progressing nicely by a  
 number of ward and new subscribers are  
 being added daily.

"E. S." Molina, Ill., sent in \$10 for  
 subscription cards several weeks ago  
 and failed to see it acknowledged in  
 this column. The Hustler editor thinks  
 he noted the amount, but it is possible  
 he was hard at work hoisting up the  
 deck preparatory to this trip and over-  
 looked it.

The Thirteenth ward branch, Chic-  
 ago, thinks the ship needs a new compass  
 so puts \$4 toward the amount. The  
 money was paid for due stamps.

H. O. Fuhberg, Seattle, Wash., takes  
 \$5 worth of subscription cards and goes  
 for'd among the crew.

From East Dubuque, Ill., comes \$2 for  
 subscription cards. George W. Schauer  
 takes the cards and makes for the bank.  
 He knows where there are some of the  
 shipwrecked.

E. L. Glasgow, Ringwood, Ok., picks  
 up three poor sailors macedoned in the  
 sea of capitalism. He takes the rest  
 of \$5 out in subscription cards.

William Reinsworth, Massillon, O.,  
 rescues one from a watery grave, takes  
 a cargo of \$5 worth of cards and looks  
 happy.

W. E. Brown, Minneapolis, Minn.,  
 hauls a \$4 bundle of cards into his in-  
 side pocket and makes for the head-  
 land.

There's a new lighthouse at Milton,  
 Ind. J. M. Laidridge got a \$5 invoice of  
 cards and lights the lamp.

"Don't publish my name," Randolph,  
 Kan., buys \$5 worth of bellbuoys (sub-  
 scription cards) and looks for the drift-  
 ing.

Local Altoona, Pa., pays another dol-  
 lar on its share of stock and O. W. B.  
 Murphy, same place, sends in \$2 which  
 he collected for the sustainers' fund.

That Commune issue ought to make  
 the Hustlers' mouths water between  
 now and the "thirteenth" of  
 March when it will make its appear-  
 ance. It will be the biggest thing in  
 modern Socialist journalism. Be pre-  
 pared for it. There ought to be an  
 edition of at least one million.

The official log of the craft shows  
 that A. J. Bennett, Norton, Kan., loads  
 up with \$5 worth of cards.

S. H. Zimmerman, Freeport, Ill., believes  
 the navigators when he takes another  
 \$5 bunch of cards.

From C. W. Post's tower, Battle  
 Creek, Mich., comes \$5 worth of sub-  
 scription cards. The purchaser is W.  
 J. Rogers. Fly the ensign from the  
 mast!

More subscription cards to strengthen  
 the Rebel, L. H. Weston, Wichita Falls,  
 Tex., comes to the front with \$5 for  
 cards.

J. W. Reinsworth, Dalton, Neb., cops  
 \$5 worth of cards, plants his feet on  
 the main-mast-yard and looks for the  
 stranded.

The Hustlers are going to float the  
 ship if they have to kedge it over the  
 rocks. Here's another \$5 from J. A.  
 Gates, Parsons, Kan.; it goes for sub-  
 scription cards.

Clear ship for action! This is the  
 second order for \$5 worth of subscrip-  
 tion cards from Battle Creek, Mich. W.  
 J. M. Dutton orders and says, "Keep  
 her going."

Twenty iron dollars from Fred Ching  
 and F. A. Dambrowsky, Missoula,  
 Mont. These men say: "We have done  
 what we could!" If every Hustler  
 would "do what he could" we'd knock  
 capitalism flat as a job downdish!

"How I landed mine." Don't forget  
 to tell the Hustler editor how you got  
 your subscriptions. Also be sure to  
 send in five new names with your next  
 letter. The Daily will mail sample  
 copies to those names and when you  
 call on them you'll have an introduction.  
 Try it!

C. A. Conroy, Danbury, Neb., was  
 standing near the break of the poop  
 when he heard eight mariners drinking  
 salt water. He went to their relief and  
 got the main-crew with him to the  
 Daily and getting good, pure water  
 every day.

W. C. Kirkpatrick, Wilmahtville,  
 Mo., saw two in the water. He took  
 the main-crew with him to the Daily  
 and grabbed the drifting with the  
 "Redin".

Charles H. Kerr & Co. drop four into  
 the stern.

The eventful ward branch, Chi-  
 cago, takes \$5 worth of due stamps

and the members prepare to descend  
 the davit tackle and go after them.

The following cash paid one loose  
 today. Some of them were so gruffed  
 to capitalistic papers that when they  
 tore loose it sounded like a pistol break-  
 ing loose from its belt raps:  
 Ellis L. Fox, Cresco, Iowa.  
 Al Hanson, Bingham Canyon, Utah.  
 George H. Baker, Newwood, O.  
 Leland Kennerly, Haughton, Minn.  
 James A. Mason, Myrtle, Ark.  
 W. J. Roberts, Ippanuing, Mich.  
 J. O. Hilton, Swansea, Minn.  
 L. P. Fuller, Carman, Ok.  
 Willis Bonner, Duncan, Ok.  
 Lincoln Newson, Scott City, Kan.

The suspicious-looking individual  
 prowling the streets of Chicago  
 did not appear today. It is supposed  
 that he got a copy of the Daily last  
 night and learned that he was watched.  
 A close lookout will be kept for him,  
 however, and should he again material-  
 ize the Hustlers will be notified.

## Socialist News

Caleb Lipscomb writes the following  
 interesting letter to the Chicago Daily  
 Socialist from Liberal, Mo., in which  
 he is lecturing and organizing:

"At our Webb City meeting on Sun-  
 day, Jan. 5, 2:30 p. m., we had a fair  
 audience, good interest and eight ap-  
 plications for membership.

"At Carthage the same day, at 7:30  
 p. m., we had a good meeting, with  
 quite a large number of women pres-  
 ent."

"On Monday night at Duneweg we  
 started with a good meeting in the  
 opera house. Audience was largely  
 composed of women. The attention  
 was good.

"On Tuesday night our meeting at  
 Prosperity was in a vacant store room  
 and the audience had to stand. It was  
 a packed meeting for our location. In  
 addition to many miners, a large  
 number of merchants. The town, while  
 named Prosperity, is not true to its  
 name. Calamity would be a better  
 name. In fact, industry was laid  
 out in this miner district is paralyzed on  
 account of the breakdown in the price  
 of mineral products. I was entertained  
 by Conrado Motly and his good wife  
 while at Prosperity and Duneweg.

"Conrado" arranged for  
 meetings in the Webb City district.  
 Too much can't be said of him. He  
 is a nobleman in the cause.

"At Gorengio we had a good meeting  
 in a vacant store room. The audience  
 was small, but attention was fine. At Mo-  
 net every Socialist agitator makes a  
 'bee line' for Conrado Barsley's, the  
 culinary man. Here we had a good  
 meeting and I hope did good in an old  
 storeroom (no seats or fire). Had con-  
 siderable foolish opposition from par-  
 ties who thought the 'anarchists'  
 should be suppressed. However, sup-  
 pression resulted in the formation of  
 a local of the party at this point.

"Next night at Miller we had a good  
 meeting and organized a local.  
 "At Aurora we had rather a small  
 meeting, but a very good one. Had  
 a good meeting and reorganized the  
 local.

"Our meeting at Clay Hill school-  
 house was largely attended. Had fine  
 meeting, very good. The first Socialist  
 speech at that place.

"At Greenfield our audience was  
 smaller than any place. We had good  
 attention and trust we did good. The  
 comrades there are very congenial and  
 it's a treat to meet them. They want  
 a competent person to organize their  
 county.

"My 'using lecture was at my home  
 town to a good audience of attentive  
 listeners. Upon the subject of money on  
 dollars and cents, I was late in  
 getting in and my audience was largely  
 Socialists. Springfield local is in good  
 condition.

"Tuesday night had a good meeting  
 at Billings and good notice in an old  
 storeroom (no seats or fire). Had con-  
 siderable foolish opposition from par-  
 ties who thought the 'anarchists'  
 should be suppressed. However, sup-  
 pression resulted in the formation of

"The Coming Slavery"

"It is perfectly proper to enact laws which will give the teachers the authority to sort out the boys and girls, assign to each the trade at which he or she seems best adapted, and the law should then compel these children to be trained for these trades."

"Socialism proposes to destroy individuality," has been the final argument of every opponent of Socialism. To illustrate the terrible tyranny which Socialism would bring, not a few of the valiant defenders of capitalism have written elaborate utopias describing the countless restrictions which a government of the workers would impose upon its members.

One of the latest of these is D. M. Parry's "The Scarlet Empire," in which every detail of life is prescribed by some omnipotent power created in the brain of the author.

Over and over again Socialists have shown that these utopias are but descriptions of the natural outgrowth of unrestricted capitalism and that the Socialists propose to give far greater freedom for the development of individuality than has ever been dreamed of in any other social stage.

"One fact is worth a million theories" to illustrate a point, and President Eliot has furnished the fact.

He speaks with authority, as the foremost educator of capitalism. He speaks upon the platform of the most powerful organization of the rulers of today. He received their enthusiastic applause for the sentiments he uttered.

Yet he proposes a system of educational slavery such as has never been suggested before. He proposes that the children of the working class shall be taken by teachers hired and controlled by the possessing employing class and assigned to the trades in which there is the greatest need of wage slaves. The parents, nor the children themselves, are to have any voice in determining the choice of occupations.

Presumably the Employers' Association will meet each year just before the opening of the schools and send out their orders for so many plumbers, carpenters, engineers, machinists, butlers, editors, lawyers, etc., and these will then be turned out to order from the educational factories.

It has been apparent for some time that this was the idea of the present Chicago School Board, and perhaps if the Busse regime lasts a few years longer Theodore W. Robinson, President of the School Board and of the Illinois Steel Company, can call his stenographer while serving in the latter capacity and indict a letter to himself as head of the Chicago schools calling for a half dozen steel workers to replace those killed in the latest accident in his mills, and be sure the order will be filled.

For years there has been an educational conspiracy in the United States, with President Eliot, Murray Butler, convict Bigelow, and others of like calibre composing the "inner circle," seeking to transform the schools of this country into educational factories for the production of competent, subservient wage slaves.

Against this tendency the Socialist Party has firmly set its face. In education and in industry it demands that there shall be the greatest possible freedom for individual initiative. It insists that the workers shall rule in all fields and that upon the basis of industrial democracy shall be built an educational and social democracy that shall embrace every field of human activity.

Do Not Nominate Haywood

The Chicago Tribune warns the Socialist not to nominate William D. Haywood, because he will not be successful in securing the votes of the workers. The tender solicitude of the Chicago Tribune for the Socialist vote is something to cause the shedding of tears.

We have a picture of the Tribune coming out the morning after election with all its column rules reversed and a black border on the front page, and all because the Socialist vote had fallen off.

MIKLOS THE BEGGAR

FROM THE SERVIAN, BY NICHOLAS KLEIN.

I often saw the poor little wretch passing the market place, pale, hungry-looking and ragged. It just tore at my heart to look at him. He was never known to beg. That is to say, he simply stood before you with that awful look in his eyes, and even if you had a heart of stone and were without humane feelings, you could not pass him by without giving him something.

They called him Miklos. This was the only name he ever had. But you must know the story. It was a cool, wintry day. The wind was blowing obstinately, lifting whole clouds of dust from the ground, and after carrying them up high enough, scattered them on all sides. Miklos, who meant business, here he came as if from a roof; there he was off on the entire straw rug. Some beggars, but not even went so far as to break windows and steal paper partitions.

They called him Miklos. This was the only name he ever had. But you must know the story. It was a cool, wintry day. The wind was blowing obstinately, lifting whole clouds of dust from the ground, and after carrying them up high enough, scattered them on all sides. Miklos, who meant business, here he came as if from a roof; there he was off on the entire straw rug. Some beggars, but not even went so far as to break windows and steal paper partitions.

"What are you doing here?" Miklos replied, looking at him with his eyes and a smile. "Nothing."

"If I were you I'd go in somewhere and get warm—too cold to stand out here."

"And where shall I go?" Miklos asked. "Where you want to go. About two minutes later, a gentleman passed. He was richly dressed, like a baron, and a crowd of people followed him. He owned at least one-half of the globe. Suddenly he beheld Miklos and stopped.

"What is your name?" Miklos replied, looking at him with his eyes and a smile. "Nothing."

"What are you doing here?" Miklos replied, looking at him with his eyes and a smile. "Nothing."

"Why, of course I am." Miklos replied, looking at him with his eyes and a smile. "Nothing."

"Why don't you want to be a millionaire?" Miklos replied, looking at him with his eyes and a smile. "Nothing."

FAMOUS SOCIALISTS AT INTERNATIONAL SOCIALIST CONGRESS

BY NICHOLAS KLEIN.

"You ask me to give your readers my opinion of the future of Russia," said George Plechanoff, the best known of all the Russian socialists, and until recently Russia's member of the International Socialist Bureau.

"It is difficult at this distance to tell just what the exact outcome will be, but to be truthful with you, of course, in our propaganda among the 'muzik' (peasants) we are often compelled to give him a definite program of the future; you see, they are a hard case to win over, and they are the hope of the future; if I must be a prophet and you insist on giving to your readers some sort of an answer:

"I would say that the fight will be a long and terrible one, not because we wish it so, but because we still have ignorance as our greatest enemy; at times it will seem as if the revolution is dead, as if our cause was drenched by the forces of autocracy; but our smoldering embers will gain new life by the slightest gust and the drenched flames of revolution will break out, the drying embers will form a streak of fire that will eat away eventually the rotten, worm-eaten throne of the Romanoffs."

"How long can this take?" Plechanoff was asked. "Really, I don't like to make myself absurd by giving you a definite date, but if you insist on it, well, I'd say about eight years' time. My opinion is that the nationalities, the Poles,

Finns, Lithuanians, etc., will each have their own autonomous government, yet they will be in a united Russia, a government that will guarantee to them the equal and just rights due to every people."

George Plechanoff was born in Russia the son of a high army officer in December of the year 1856. He began his socialist studies when a youth of 20 by reading such popular works as "Bakunin," but later took up the scientific facts of the movement through his readings of the "Communist Manifesto" and "Capital" of Marx. He is the founder of the Russian Social Democratic party, which was first organized in Switzerland in 1882 as a small propaganda group under the name of "The Emancipation of the Workers."

They later took up the name of "Social Democrat" and in 1898 the present party was brought to life. There are two leading parties of the workers in Russia—namely, the Social Democrat and the Social Revolutionary, of which the former is the larger.

"The government is looking for me," said Plechanoff, "so I am compelled to live in France to escape arrest. For three years I lived in Western Russia under an assumed name and escaped arrest, but they got too busy looking for me, so I escaped with much difficulty. I would mean Siberia for me to return. Conditions in Russia are terrible just now. We had some little freedom of speech and the press up to a few weeks ago, but now it is all over; we haven't a single paper in all of Russia now and thousands of our best men and women are being arrested and sentenced. The last report I had was that the trades unions were growing rapidly and that they had 243,000 members enrolled, but since the dissolution of the last duma a movement is on foot to disperse even the unions."

"We had twenty-two in the first duma, sixty-five in the second, but the electoral laws have entirely disfranchised the workers except in the six largest cities, where they wanted to pacify us by a crush."

"In St. Petersburg the workers will be allowed to elect a representative to the duma, and this holds good with five other cities, so you see at the most we cannot get over six members—that is, if they allow these six to be elected."

"Our hardest task was to awaken the peasant and he is now opening his eyes to the real czar, not the one with white wings going to heaven, but the bloody czar who sits in his chair, supported by the army with guns and cannon as their defenders and living upon the vitals of the Russian people, who are tired of being governed by the Romanoff excuse for a man."

"I believe in the Russian people," Plechanoff said, "I believe in their future and I know that their cause is a just one and despite all obstacles czarism must die; the people must rule. Mark my word, the people will rule! Nothing can stop it. The future is ours!"

"PROBLEM SOLVED. English John and Pat were two friendly workmen who were constantly tilting, each one trying to outwit the other."

"Are you good at measurement?" asked John. "I am that," said Pat quickly. "Then could you tell me how many shirts I could get out of a yard?" asked John. "Sure," said Pat. "It depends on whose yard you get into."

THE ALTERNATIVE. It was the home team's first game of the season. A big, burly catcher crossed over to the umpire previous to beginning the game and said: "Look here, Gaspipe, I'm captain of the Stars and if we win you're in a five spot."

"Well," said the umpire, "and if you lose, what then?" "Then," said the burly one, "you're in a hospital."

MY NEWSPAPER

BY NANNIE PARKER

I need no tales of old romance To make my senses sway, Nor dramas of style which do not enhance The news I read today.

My paper deals not with the past, The present is its theme; But oh, its projects great and vast Are like a wondrous dream.

I see the light of Science burn And flash across the seas; I hear the words for which we yearn Come ringing on the breeze.

Great continents are cut in two, That oceans, rolling wide, May send their waters coursing For stately ships to ride.

I read of those who fortunes make, Of those who fortunes give, And others still, who for the sake Of Brotherhood would live.

By a few lines the tale is told Of one who sought but rest, To hear the world was harsh and cold, To die, to sleep seemed best.

I turn the page, a pleading voice Leads me to Heaven's door; The wicked bear him to rejoice, To go and sin no more.

And so I lay my paper by; What more could poets say To touch the heart, to fill the eye, Than news I've read today?

So keep your tales of old romance; They have a charm, forsooth, No charm is needed to enhance The mighty Power of Truth.

BUSINESS IS BRISK

As one of the most prominent young burglars of Sydney was walking out of court the other day, just after having secured an acquittal regarding his latest job by a prompt and business-like "divvy" with the powers that be, at the usual rate, a well-to-do but anxious-looking stranger touched his arm and beckoned him into a doorway.

"You are 'Teddy the Perret,' aren't you?" asked the gentleman, "the fellow who was tried to-day for safe-cracking?"

"Well, wot of it?" replied the house-breaker. "Why, just this—you'll excuse my speaking so low—but the fact is, I've come all the way fr in the Broken Hill court to look up a party in your line of business."

"Have, eh?" "Yes—I-well, I've a little proposition to make to you."

"Exactly," said the Perret calmly. "You're a bank cashier down in the foot hills?"

"How do you know that?" stammered the gentleman, much amazed. "And your cash and accounts are to be got over by the directors on the first, and as you can't realize on your stocks, you want me to sag you some time next week, show your hat full of holes, and the combination in your breast-pocket, and go through the safe in the regular way?"

"Great heavens, man! how did you find all that out?" "Why, I guessed it. It's the regular thing, you know. Got three orders to attend to ahead of yours now, Lemme see. Can't do anything for you next week, but might give you Wednesday and Thursday of the week after. How'd that suit you?"

The cashier said he thought he could make that do, and in less than five minutes they had struck a bargain and arranged the whole affair.

Even London isn't much ahead of Sydney in regard to modern conveniences.

Equipped electrical household at her command could save three-fourths of the time and strength she now gives to its management, and most of the worry.

Much of her time is taken up now with the cooking and cleaning, including laundry work with the latter. With the automatic cookers, dishwashers, laundry tubs, wringers, sweepers and such things this work would be done at a minimum of time and energy. This would give the housewife six or eight hours a day more leisure from drudgery than she has ever had.

But the exciting thing about it is that she hasn't it and can't get it; the inventions are here and she is ready and anxious to use them, but they are out of her reach. Why? Because she does not and can not own them. They are too costly for the poor working woman. They are meant for the swells of the Lake Shore drive—I mean they are meant for the servants of the swells to use to make the swells more comfortable.

But the servants will have to work just as hard as they did before. If they get the work done sooner, why then there will be more work provided to keep them busy. 'Tis not the Lake Shore lady to maintain that. It is her work in life to provide work for her slaves; and one that she never shrinks from.

So, girls, if you want to use labor-saving machinery you will have to hire out to the very rich in order to do it, and I'd rather jump into the lake, as a girl did a day or two ago.

But there is an alternative. We working people must own those machines. We must unite, and agitate, and work every minute we can, to bring this condition about. Understand, that the only body in the world that will help us intelligently is the Socialist party. Moral: Be a Socialist.

"What are you doing here?" a big boy, an apprentice from one of the shops, asked him. "Nothing."

"If I were you I'd go in somewhere and get warm—too cold to stand out here."

"And where shall I go?" Miklos asked. "Where you want to go. About two minutes later, a gentleman passed. He was richly dressed, like a baron, and a crowd of people followed him. He owned at least one-half of the globe. Suddenly he beheld Miklos and stopped.

OF INTEREST TO WOMEN

Inventions Help the Rich

BY MAY WALDEN

SCIENCE is only an appendage to the luxury which serves to render life pleasant for the few, but remains absolutely inaccessible to the bulk of mankind.—Kropotkin.

The truth of this quotation is fully verified at the electrical show. And a woman belonging to the working class can see this truth and feel it as probably no one else can.

I think it is a safe statement to make that the bulk of the latest inventions and improvements that are exhibited at the Coliseum are labor-saving appliances for women. To be sure, there was and still is plenty of room for improvement of tools for women's use, for she has used hand tools and primitive methods to do her sewing in life to provide work for her slaves; and one that she never shrinks from.

So, girls, if you want to use labor-saving machinery you will have to hire out to the very rich in order to do it, and I'd rather jump into the lake, as a girl did a day or two ago.

Evening Thaw

BY NANNIE PARKER

Though thou be'ere so foolish, weak and vain, Oh, woman, bend up for a crowd to stare.

Yet there are woman, born to woman's pain. And knowing this, how can a strong man dare To lay his naked, quivering soul all bare?

Man, who has left on these his slave's torn stains, And all thy happy labors' harsh lash, Let him look in his own heart and beware.

And if a woman in this gaping crowd Can see thy beauty and thy tender years, Yet feel herself by thy soft touch deluded, If by thy shame her own heart is not burned,

May thy no daughter bear to dry her tears, Lord God should write her through her woman child.

CHIEF SHIPPY

BY THOMAS HENRY.

Chief of Police Shippy says: "We must have no Haymarket riot." He need not fear a repetition of that episode. The stronger the Socialist movement becomes, the less likelihood of the working class throwing themselves helplessly into the hands of a brutal police department. It may be well, however, to recall the fact that for weeks before the time a bomb was thrown the police had deliberately murdered many men; that John Bonfield was the prince of headbreakers; that he was later attacked by the newspapers and dishonorably thrown from the police force as a drunkard and dishonorable officer. The paper that led the fight against him was the "Times."

It may be well to remember that John Coughlin, one of the chief detectives in that famous case, was not only tried twice for the murder of Cronin, but is now a fugitive from justice as a jury briber; that after the Haymarket incident, bombs were found repeatedly under sidewalks, in garrets and other out of the way places by policemen and they were furnished until the daily press told the police that it was time to stop and then it was discontinued, and that according to the Herald over \$400,000 was taken from the pockets of the wealthy people of Chicago as tribute to save their lives from men who only existed in the imagination of a silly policecraft.

If this distinguished policeman will turn to the Chicago Herald of January 4, 1892, he will read the following headline: "WILL BLED NO MORE—Moneyed Men Tie Their Purses—Police given \$487,000.00 in five years for wiping out the Reds—Supply cut off—Financial reasons for the Greif Hall scare."

The wealthy men of Chicago had declined to pony up to the brigandage and blackmailing of the police force and George Hubbard was carrying on an imaginary warfare with imaginary reds for the purpose of continuing these contributions and even McClowry was led astray.

The third night after the Haymarket riot there were four meetings at the residences of financial citizens and more than One Hundred Thousand Dollars was subscribed for the purpose of putting down anarchy.

Two days after the Haymarket riot an invitation was addressed to upwards of 300 leading capitalists. The invitation read as follows: "In view of the threatened uprising against interests that have been founded by men and built into splendid structures it is believed to be necessary that we combine to aid the municipal government in the suppression of ideas which are antagonistic to those held by good citizens of this country. You will, if it pleases you, go May 7, between the hours of 9 and 10 o'clock p. m. to No. 1000 Prairie avenue. Do not go in your carriage. Take a car or walk. It is absolutely necessary that no publicity be given to the meeting."

Why George knows that for \$20,000 he could pretty nearly buy evidence enough to hang the Mayor.

Another thing that should be remembered is that most of the policemen who were killed in the Haymarket riot died from bullet wounds of the exact caliber of the bullets used by the policemen who were in active service there.

Ed Furthman was one of the principal prosecuting attorneys. It was he who furnished the evidence. Later on he was the attorney for the West Chicago City Railway and other street railroad companies. He was a pronounced crook and a manufacturer of evidence to such an extent that the street car companies could not tolerate him and he was cashiered.

Julius S. Grinnell was another who tolerated the fixing of a jury and he was rewarded by a position on the bench and later secured a big salary as attorney for the Chicago City Railway Company. At this time Starring, a convenient witness for that company, was an understudy. Grinnell's genius was shown in trying to separate the workmen on religious lines. The Irish in the employ of the Company were arrayed against the A. P. A's and Grinnell assisted materially in the home on West Washington street which was erected to the patriotic order of the Sons of America. This organization was boosted by street car men of the protestant faith, and so we might run through the many circumstances that accompanied the Haymarket incident which cannot at least be repeated in this precise form. There is no sane man today or group of men who will cough up a half million dollars or shell out to George Shippy in the magnificent style and with the ease which characterized their liberality toward drunken Bonfield and a lying crook named Schwack or even George Hubbard, the most excellent levier of tribute.

If Shippy is to go into financial four-flushing we respectfully suggest that a better plan temporarily will be to keep his hand out for stock in the large corporations who will find it a great convenience to have a police force that shall be obedient during great strikes.

The anarchist bugaboo is dead and buried. A few maniacs cannot threaten the established order and the philosophic anarchist whether Herbert Spencer, Ralph Waldo Emerson or Thoreau are harmless and their teachings are much more acceptable in fashionable circles than with the discontented element of society.

If George could think of some method to stop the Socialist movement that would be practical he would make Bismarck look like a counterfeit clearing house certificate and bring to his assistance the cash and acclaim of every European monarch and American marquis. Really this is the right line, for there can be nothing but temporary glory in three or four thousand well upholstered policemen jabbing a club into the face of some emaciated, wrecked and half-starved unfortunate.

The Haymarket monument should be revised. The policeman should be standing upon a ninety-pound ragamuffin and the inscription might be truthful as follows: "WHAT DO YOU THINK OF HIS NERVE?"

With his recent Boston speech, Secretary Taft fired the opening gun of his campaign for the Republican nomination for the presidency. Parts of his talk were interesting, especially the statement that "the combination of capital is just as essential to progress as the assembling of the parts of a machine, and hence corporations, however large, are instruments of progress."

Taft sees the impossibility of going back to the days of small production, with that foolish "busting of the trusts," but of course he thinks that the evolution of industry can be regulated by the Republican party. In this connection he said, "There are certain limitations in the use of capital and the exercise of the right of property that are indispensable to prevent the absolute control of the whole financial system of the country passing to a small oligarchy of individuals."

He pretends that he thinks the Republican party, whose campaign funds come from this very oligarchy of trust magnates, really intends to limit them.

The next subject he takes up is government ownership of railways, and to this he expresses decided opposition, because, he says, this "means State Socialism, an increase in the power of the central government that would be dangerous."

We are not told what it would be dangerous to. Maybe it would endanger the livelihood of the great army of unemployed. Maybe it would endanger our sacred right to look for work and starve if we can't find it. Maybe it would endanger the Pennsylvania coal barons' right to have a state constabulary. Maybe it would endanger the government's right to be overcharged for transporting the mails. Maybe it would endanger Rockefeller's "divine right" to rebates on carrying oil. There doesn't seem to be anything concerning the working class in danger by the government owning the railways; we will have to wait for the next speech of this sympathetic friend of labor to find out where the danger lies.

Taft, having given Socialism a rap, Taft gets down to business, the real business of his speech—warning the capitalist class of the error of their ways. Like a nurse frightening a bad child with tales of spooks and goblins, he practically says, "The Socialists will get you if you don't watch out." To quote his exact words, "If the abuses of monopoly and discrimination cannot be restrained, if the concentration of power made possible by such abuses continues and increases and it is made manifest that under the system of individualism and private property the tyranny and oppression of an oligarchy of wealth cannot be avoided, then Socialism will triumph and the institution of private property will perish." We know that Taft does not predict the coming of Socialism because it is agreeable to him, but as a warning to the capitalist class, intimating to them that they must co-operate with Roosevelt and himself in the bluff of curbing the trusts or the people will get wise and turn to Socialism as the real remedy for the evils of capitalism.

In the next breath he appeals for middle class support, stating, "The administration has been thus successful in showing that the dangers from individualism can be effectively regulated and that abuses in the exercise of private property can be restrained. Thus a great conservative victory has been won and the coming of Socialism has been stayed."

We will not discuss the truth or falsity of this statement, but leave it to your judgment how much of a "victory" for conservatism can be found in the past or present antics of Teddy. The only Republican victory has been the continued deception of the nation's voters, many of whom have been deluded by Roosevelt's hot air into thinking that he really intended to do something in their interests against the trusts.

The value of Taft's speech lies in his expressed intention to stay the coming of Socialism and his solemn warning to the capitalists to be good, for he knows that if they don't they will awaken the sleeping giant, Labor; he will stretch himself, look around, get up and throw them off his back, where they have ridden comfortably for so long, and then—Socialism. And Taft knows that they will then all have to go to work for their own living, their graft will be at an end. Thus, above all things, the consummation least desired by Taft, was the motive behind his Boston speech.
