

SNOW WORKERS HALF CLOTHED

Tribune Lodgers, Without Underwear, Toil Until Exhausted

Ill clothed and fatigued, the men who clean the Chicago streets are forced to stand in the snow all day and throw shovels after shovels of snow into the wagons that wait to be filled to the brim.

The men are mostly inmates of the Tribune lodging house and many of them have little or no underwear at all. Others still are deficient in shoes.

Married Walk Streets While unmarried inmates of lodging houses are being furnished with work by the city thousands of married men—heads of large families—thrown out of work by the panic, are walking the streets in search of positions.

Of All Nationalities The men on the street cleaning crews are representatives of all nationalities.

PACIFIC TO BE WORLD'S STAGE

Benjamin Ide Wheeler, president of the University of California, looks for a rapid shifting of the world's scene from the Atlantic to the Pacific ocean.

Dr. Wheeler will deliver a Washington birthday address at Orchestra hall under the auspices of the Union League club to-day.

While the Japanese agitation had subsided on the coast, Dr. Wheeler said he looked for much serious trouble with Japan in the near future.

BRYAN SEEKS HEARST PACT?

Springfield, Ill., Feb. 22.—William Jennings Bryan and his silver tongue Springfield, Ill., Feb. 24.—William has recently entered Illinois. All the loyal newspapers with the exception of one—all except the outlandish Roger C. Sullivan.

It is persistently rumored that Bryan seeks a treaty with William R. Hearst's Independence League, which treaty he says is only for the good of the party.

CITY BUDGET VOTED; SHIPPY'S PAY RAISED; PATROLMEN'S CUT

It is evident now why certain city officials were so insistent upon cutting the pay of Chicago policemen. The city council raised the salary of Chief Shippy from \$6,000 to \$8,000. Other department heads fared likewise.

Four thousand patrolmen, who had signified by their silence that they were ready to submit to a reduction were taken at their word, and they will receive \$1.00 a year instead of \$1,400, the salary they were to have received under the high license agreement.

The city council and its finance committee finished and adopted the annual appropriation bill yesterday. Before then they added a total of \$235,125 to the bill as it stood the day before, bringing the excess of appropriation over estimated income in the corporate fund up to \$2,205,062. The total for this fund are:

Estimated income \$23,645,950 Excess 2,205,062 Includes Big Bond Issue This income includes a bond issue of \$2,500,000. While some of the appropriations are of the kind known as "dead" made with no intention of spending the money this year—still it is going to be a death knell to make both ends meet at the end of the year, and the money which will come in as a result of the bond issue from the street car

OUTPUT OF IOWA MILLS IS GREATLY OUT DOWN

(Special to the Daily Socialist.) Sheldon, Ia., Feb. 22.—Since Dec. 15 the Sheldon Milling company has been running its two mills, the "Big Four" and the "Prairie Queen," at about 20 per cent. of their capacity and employing about 25 per cent. of the help used under normal conditions.

The Illinois Central railroad has let out four men at this place, leaving the section foreman, the coal heater and the station agent to do the work that formerly took seven men to do.

PROGRESS OF WOMEN TO BE DISCUSSED AT HULL HOUSE

Discussion of questions put by Lydia K. Comandor will use the present industrial depression, New York City, will be the program for the united societies supporting political equality for women, at Bowen hall, Hull House, Tuesday, Feb. 25 at 8 o'clock.

The questions are: "What modern event has most advanced the progress of women?" "What is the greatest present obstacle to the progress of women?"

SHOP EMPLOYEES HIT IN UTAH

(Special to the Daily Socialist.) Salt Lake City, Feb. 22.—The laying off of 200 men from the shops of the Denver & Rio Grande railway, taken in conjunction with the expiration of the wage scale, is regarded as the forerunner of a general reduction in pay. The men have been laid off till March 2.

In the freight yards white men have been let out and Japs who will work for less retained. This is causing bitter feeling.

It is thought in labor circles here that the company will use the present industrial depression to force down wages, as the new agreement between the men and the company is soon to be made. At Salida and Grand Junction notice has been posted that the men will work but three days a week.

'L' RUSH RELIEF IS PROMISED

Traction Expert Hereley announced yesterday he had secured from President Charles V. Weston of the South Side "L" promises of improvement in the service on that line. He presented figures which show that during rush hours there are 21 per cent more passengers than seats in the cars, and between rush hours from 20 to 45 per cent more seats than passengers. The reported promises were:

That all trains on the Jackson park division during rush hours will be five-car ones. That no cars shall be taken out after rush hours as long as seats are lacking.

That he will enlarge the platform at Fortieth street and Indiana avenue and put a stairway in the south end of the Fifty-eighth street station.

That local trains from the Kenwood, Englewood and Normal Park branches will not be used as shuttle trains unless equipment becomes disabled.

That he will take up with his directors the plan for through routes over the Northwest "L" via the loop and for a third track north of Twelfth street.

TURKS CAPTURE AND CONDEMN 51 ARMENIANS

Tiflis, Feb. 22.—News was received here that the Turks recently raided the frontier village of Carina, in the province of Van, Adriatic Turk, and captured fifty-one Armenians, whom they accused of being members of a revolutionary society. Court martial was formed on the spot and after a speedy trial eight of the men were sentenced to death and forty-three to life imprisonment.

USE BAD WEATHER AS EXCUSE FOR CLOSED PLANTS

(Special to the Daily Socialist.) Marshall, Ill., Feb. 22.—The snow-storm which has swept the middle west has choked the river here and raised the water to a dangerous level. This has been made the excuse for a bluff that but for the adverse weather conditions industry would again open here in full blast.

HEARST WANTED HIS LAST CENT

Jobless Man Tells How Employment Bureau Biiked Him

A. Carlson, 187 North Curtis street, is the latest victim of Hearst's "free" employment bureau to bring his woes to the Daily Socialist. His story sheds further light on the smooth methods whereby the Chicago Examiner, which

IF HE NEVER TOLD A LIE—

WOULDN'T IT JAR HIM WERE HE LIVING TODAY?

purports to be a friend of labor, extracts the last cent from the pockets of jobless men, returning no equivalent therefor.

Last Monday Carlson, who is an office building janitor, called at the Examiner's "free" employment bureau and applied for a job. He was attracted by the advertising which Hearst had put in his newspaper.

He filed his application and was told that there was nothing for him, but that if he would put an advertisement in the Examiner for four days, costing him 75 cents, he would be given preference. The hope of speedy employment was held out to him. Accordingly Carlson paid over his 75 cents.

The following advertisement was inserted in the Examiner:

SITUATION WANTED—JANITOR In office building; 5 years' experience. A. Carlson, 187 N. Curtis st.

Tuesday, Wednesday and Thursday Carlson made regular trips to the office and each time was received with marked cordiality by the attaches. Each day he grew more insistent that the agency do something to provide him with a job. He was told each time that there was nothing for him, and the manager of the clerk behind the counter held out no hope.

Friday Carlson made his final call, it being the fourth day of the insertion of his advertisement. There were no replies, and the "free" agency refused to do anything for him. Carlson was thoroughly aroused by this time and began to argue the matter with the clerk. Finally the clerk made a proposition.

"Well, I'll tell you what we'll do. If you will put an advertisement in the Examiner costing \$1.00 we will give you letters to persons we know," he said.

"But I've already given you 75 cents," objected Carlson.

"I can't help that," replied the clerk. "We have persons on the list who have paid us more than you. If you will put in a \$1.00 advertisement we can afford to give you preference."

"But you told me when I gave you the 75 cents that you would give me preference," urged Carlson.

"Can't help it," replied the clerk in a tone which indicated finality.

"Why," persisted Carlson, "I could take the \$1.00 and the 75 cents you already have and pay a regular employment agency to get me a job."

BILL TICKETS TO BOGUS LABOR BALL; ARRESTED

Selling tickets to dances to be given by imaginary labor unions is one way of raising money. P. J. Sweeney and F. R. Williams "invested" "Night-watchmen" union of Chicago, Local No. 425, and proceeded to sell tickets for a ball to be given by that union at Brand's hall, March 25.

Investigation showed that no job union existed and that Brand's hall had not been rented for this date. The men were arrested in an undertaker's shop at Halsted and Taylor streets.

TAKE 1,011 BALLOTS AND ADJOURNS WITHOUT CHOICE

Marysville, O., Feb. 22.—The Eighth district Republican congressional convention, called to name a candidate to succeed Congressman Ralph Cole, adjourned sine die without having made a nomination. There had been 1,011 ballots taken. Delegates to the national convention were not chosen, but a resolution endorsing Secretary Taft was adopted.

'I MIGHT SWEAR, TOO,' SAYS A MINISTER

(Special to the Daily Socialist.) Grand Junction, Colo., Feb. 22.—The Denver & Rio Grande railway shop force here has been cut down another 20 per cent. Twenty men were ordered laid off and this leaves 95 men out of the 165 employed in Grand Junction.

A circular posted up by the Denver & Rio Grande shop officials, declaring that the present union contracts would be abolished on March 14, has angered the shop men, who claim that their contract was broken. They declare that the railroad company and the unions had pledged themselves to give 20 days' notice on either side when a change was to be made. The men are indignant and made the following statement:

The shop men of the Denver & Rio Grande in this city will not report for work on the morning of March 15 if they do not secure a new contract or agreement with the company.

POSTAL NOT HIT BY THE PANIC?

(Special to the Daily Socialist.) New York, Feb. 22.—Clarence H. Mackay, president of the Postal Telegraph company, claims the company is earning money enough to meet dividends and pay debts, though it has suffered a severe loss of business on account of the panic.

He gave this information to the stockholders at the company in Boston last Saturday. Operators of the Postal say it is not true, judging from the small volume of business and the number of extra clerks and Mackay is getting his money from other sources than revenue to pay dividends and debts.

Mackay also reported that there was no possibility of another strike, as the Postal company had organized a telegraphers' union of its own, which had been "enthusiastically received and joined by the employees."

Operators claim that this union is worse than a farce and that its rules are not lived up to by either the Postal company or the employees.

KEY MEN TO EXPOSE SHAM

(Special to the Daily Socialist.) Boston, Va., Feb. 22.—Grand Chief Telegrapher, E. Perham of the Order of Railroad Telegraphers, now in Washington has requested all unemployed telegraphers or those working on extra lines to write to W. W. Walstrom, superintendent of telegraph at the Norfolk & Western road, and apply for work at the same time mailing a copy of the application to Perham in Washington.

He has selected the Norfolk & Western because it is one of the roads that is making the strongest fight against the nine-hour law on the grounds that there is a scarcity of telegraph operators in the United States.

The copies mailed to Perham in Washington will be used before the Interstate Commerce commission at the hearing on Feb. 27. This should be done at once. Perham's Washington address is care of the National hotel.

CITY OF TROY (N. Y.) GIVES WORK TO JOBLESS MEN

(Special to the Daily Socialist.) Troy, N. Y., Feb. 22.—The common council of Albany has unanimously passed a resolution of Alderman Huberty which calls for work to be begun at once on the streets and in the parks to the end that idle men may be given employment and those who are feeling the effects of the recent panic may be enabled to earn money to keep the wolf from the door. There is now available for necessary work in the park department, \$63,000 and in the street department \$21,000.

When you pay less than the market price for milk you increase the probability of getting an article that is under grade," is the way City Health Commissioner Evans says in the charge against Prof. John M. Treman that the city's poor are being imposed upon with adulterated and unclean food.

"Certainly the rich people get the best milk, because they pay the highest price—cents. In the poor districts milk is sold for 5 cents a quart. We are doing all in our power to put the cheats out of business. The first time a dishonest milkman is caught he is let off with the cost, the next time he is fined \$5 or \$10, then probably \$100, and if he doesn't desist we take his license."

HOUSEHOLDERS, DRIVEN INTO STREET BY PARK BOARD, WIN

The West Park board, after breaking up the houses of householders whose buildings were razed to make room for the playground bounded by Chicago avenue and Cornell, Noble and Chase streets—driving the victims penniless into the street—has lost its appeal to the supreme court of Illinois and must now let the dispossessed citizens the \$140,000 awarded them by a jury.

The householders, many in a destitute condition, have been kept out of their money since last October. The park board considered that \$20,000 was all that it ought to pay.

Some Are Destitute Payment will begin within two or three weeks. The people to whom the money will be given are scattered all over the city. Some are practically destitute friends, some are practically destitute friends, some are practically destitute friends, some are practically destitute friends.

They were told that the park board could dispossess them without immediate compensation by filing with the court a bond which covered the amount adjudged by the jury in Judge Tutbill's court. Most of those who were forced to leave their homes by this process had lived there for twenty years or

over. They were Poles, who could not speak a word of English, and the court's action made them feel that their homes had been confiscated.

Wander Streets, Crossed For days some of them wandered the streets half crazed. Many were so aged that a change of residence was a serious matter. The amount allowed to these people to move their houses or their goods was tied up till the appeal was decided and scores of people had no money with which to move. Those who had friends were aided. The others were left to shift for themselves.

The Daily Socialist was the only paper in Chicago that protested against the position, into which these hard-working people had been forced, though no fault of their own.

BANKERS HAVE TOO MUCH CASH

Coffers Full; Industry Dead; Nobody Wants to Borrow It

The panic having passed wholly from the financial to the industrial stage, the banks of the country are overflowing with cash. There is more money than the bankers know what to do with. Industry being paralyzed, there is no demand for money with which to transact business.

Deposits in the national banks of Chicago are now the largest in their history. The deposits have poured in from banks in the western country.

Deposits of the national banks at the beginning of business Feb. 15 were \$345,061,824. The last previous high mark was made May 20, 1907, when the total was \$249,496,792. The low point in the last year, so far as published statements are concerned, was on Dec. 3, when the total was \$238,006,933. Those figures, however, did not represent the total amount of deposits, but only the deposits before the banks were asked to make a statement. Since Dec. 3 deposits have increased over \$47,000,000, or 18.7 per cent.

While the national banks have shown such large gains in deposits, the state banks of Chicago as a whole have on the other hand, shown a large falling off, due almost wholly to the effect of the panic. The Chicago state banks' deposits, the latter, when once the embargo was raised on cash, withdrew their deposits rapidly. From Nov. 19 to Feb. 15 savings deposits were reduced by \$12,545,074.

Money to Lend Now In its weekly review of Chicago trade today Dun's Review, published by R. G. Dun & Co., will say:

"The exhibits this week of the state banks came timely and the details of condition indicate that the lending power is satisfactorily recuperated. Money remains freely offered at 4 per cent for commercial paper, but the supply of latter begins to increase, but general improvement in the demand for funds is not looked for until next month, and there is a feeling that borrowing will have to wait to stimulate the principal industries."

U. S. FLEET TO ENCIRCLE GLOBE

Washington, D. C., Feb. 22.—Official confirmation was given yesterday to the report that the American battleship fleet, after completing its voyage to San Francisco, will return by way of the Straits of Magellan.

The information given out by Secretary Metcalf was in answer to an invitation from the Australian government to have the fleet, or at least some of its units, visit that country. After expressing his appreciation of the invitation, the secretary said:

"The eventual movements of our fleet have not yet been determined. While it is probable that the vessels will return by way of Suva, I would be glad if some of them could be sent by the Australian route, but it would be premature to promise this.

Acting upon telegraphic dispatches from Admiral Evans, sent from Callao, the navy department made arrangements to send from Mare Island navy yard at once 1,000 boiler tubes for boilers on the battleship Maine. It is the first assignment of repairs for the big fleet which the department has been called upon to make.

SOCIALIST VOTE IN BIG GROWTH

The Socialist vote in the Philadelphia city election last Tuesday was as follows:

Chas. Sehl, City Solicitor ..... 1,894 John E. Charles, Mayor ..... 3,794 Sam Sadler, Magistrate ..... 2,588

The vote last February was only 1,649, hence the result shows a big growth.

DAY IS GIVEN TO WASHINGTON

Today's celebration in Chicago of the one hundred and seventy-sixth anniversary of the birth of George Washington gives promise of being more

Gov. Hughes of New York

elaborate than ever before. Many prominent men will make addresses, among them being Governor Charles E. Hughes of New York, who will deliver three speeches under the auspices of the Union League club.

While some of the speakers will devote a few per cent of the "cherry tree" narrative, politics, general and local, will be the main subject of the various speakers.

Patriotic exercises were held in all the public schools yesterday afternoon. Many of the churches will hold memorial services tomorrow in honor of which the Grand Army and other military organizations will participate.

Hughes Praised Chicago "I have the greatest admiration for the enterprise of Chicago; its forward strides have been simply wonderful, and I am glad to be among its people."

This was the compliment paid this city by Governor Hughes.

"As an official of New York I am in a position to see the tremendous effect of Chicago's enterprise on affairs of the world," continued the governor. "The eyes of all eastern financiers are turned toward your city, and what occurs here has a great effect on the rest of the country."

Public Offices Closed Public offices generally will be closed all day. Only the post office, election and health departments in the city will be open.

DRIVING WOMEN FROM SCHOOLS

Miss Haley Charges Supt. Cooley With Gross Discrimination

"It is a matter of common knowledge that women principals have been discriminated against since Superintendent Cooley went into office," said Miss Margaret Haley of the Teachers' Federation today.

When Superintendent Cooley came into office the number of the men and women principals was very nearly even. He had not been long in power before the number changed to five men to one woman.

Cooley's Eye on Votes "When a man has taught school several years he looks for something better and desires to become a principal," said a man teacher in one of the west side schools.

That Superintendent Cooley early recognized the importance of a political machine and has placed men, who have a vote, in place of women is generally admitted by those who have followed Cooley's work in the Chicago schools.

Superintendent Cooley has followed the plan outlined for Chicago schools when Dr. Harper was a member of the school board. Cooley himself holds his degree from the Standard Oil Institution.

Dr. Harper while a member of the school board made the statement: "If there are any women teachers that are interested I can fill their places at \$50 per month."

Principals to Be Heard It was stated at President Schneider's office today that the cases of the two women principals who were called on the carpet this week came before the school management committee.

Both of these principals have been brought before the committee because of trouble arising concerning the janitors of their buildings.

Mrs. Wilbur, one of the accused principals, is charged with dismissing school at 2:30. She claims the building was cold. The janitor said his thermometer registered 75 degrees.

"Every teacher knows that there are such things as stationary thermometers," said a north side teacher of many years' standing.

Janitors Have Falls There are rules that govern the authority of the principal and the janitor, said a member of the school board today.

Miss Mary O'Byrne of the Pichard school is the other of the two women principals who had been summoned to appear before the school management committee.

EMPLOYER HAS RIGHT TO SLAP GIRL'S FACE—JUDGE

New York, Feb. 22.—If you have a maid who calls you a liar you are justified not only in retaliating by slapping her face but you may also kick her. Such was the ruling of Recorder Lansburg of Bayonne, N. J., today in the case of Mrs. Bertha Cohn of Avenue C, who was in court to answer a complaint filed by her maid, Anna Gulack.

"I admit I did slap the girl's face," said Mrs. Cohn. "I instructed her to dust the parlor and some time later I noticed that she had not done so. I questioned her and she declared she had dusted. I told her I did not believe her and then she called me a liar, even for a maid, so I slapped her face."

"You did what was right and should have gone farther and kicked the maid," said the court to Mrs. Cohn. Then he told the maid to go home, learn some manners and how to address her employer. The complaint against Mrs. Cohn was dismissed.

MORE ARRESTS OF RUSS REDS

St. Petersburg, Feb. 22.—The frustration in this city Thursday of a terrorist plot and the arrest on the streets of no less than fifty men and women for alleged complicity was followed yesterday by the capture in suburban towns of several other persons implicated in the abortive attempt at assassination. The police believe they have made the most important and telling move against the terrorists that has been engineered in years.

The plot of Thursday came much nearer maturity than did the last unsuccessful conspiracy against the emperor, the participants in which were tried and condemned last July. According to the police the band had Nicholas Nikolaievitch, son of Grand Duke Michael, and M. Chitchevlovitch, the minister of justice.

PHILADELPHIA PLANS GIANT HAYWOOD MEETING (Special to the Daily Socialist.) Philadelphia, Feb. 22.—W. D. Haywood will address a mass meeting of workmen here under the auspices of the Meyer, Haywood and Pettibone Protest Conference of Philadelphia, March 1 at 2 p. m. The place of meeting has not been decided.

The financial report of the Meyer, Haywood and Pettibone Protest Conference is as follows: Total receipts \$1,222.84 Total expenses 1,177.04 Balance in hands of treasurer \$45.84

OBITUARY Mrs. Amanda Hahn, aged 44, 141 East Erie street, died Thursday morning at 4 o'clock. Funeral services will be held Sunday at 2 p. m. Interment will be at Montrose cemetery.

Her husband, Emil Hahn, a member of the German Socialist organization, and four children survive. Arthur Hahn, a son, is a member of the Twenty-second Ward branch. Mrs. Hahn had suffered from dropsy and heart disease.

STAGE STRUCK GIRLS RUINED

Secretary of the Actors' Union Says Agents Debauch Profession

"The infamous inside workings of the dishonest theatrical agents, who in the last few years have pastured and fattened upon the theatrical profession, should be brought out by police investigations and an exposure made of their nefarious methods."

This is the statement made by S. D. Ricardo, secretary of the Actors' National Protective union, in speaking of the declaration made by two young girls that they had been promised employment as "show girls" by Charles O. Harding, a theatrical agent, and then placed in a resort where they were subjected to indignities.

Managers Think the Same "I have had managers tell me that they would be glad to see these agencies completely wiped out. That, the manager would make it possible to get better artists, besides doing away with the agent's commission."

"Why the manager does not cut out the agent, I cannot exactly explain. Somewhat, it is because the agents they are about to expire, are renewed because the agent usually gets around just in time with some extra inducement, which comes out of the earnings of the actors in some way or other."

Young Girls Ruined "Here young girls are compelled to entertain low patrons of these joints. Some of the girls, who are the most depraved men and women."

"But as long as reputable theaters will deal with the agencies and mothers will offer their daughters to them to be soiled, I suppose the actor will have to put up with it."

"If an investigation should be made and the inside workings brought out, I hardly believe many respectable playhouses would deal with these swindlers."

Actors' Union to Merge There is a strong possibility that the local Actors' protective union, the Comedy club, the Actors' society and the White Rats of America will combine in one general body. There will be a meeting Saturday in the rooms of the Actors' Protective union, 165 Randolph street, to take action on the matter.

Socialist-Republicans Debate Michael T. Kennedy of Danport, Iowa, Socialist, and B. T. Seaman, Republican, will enter into a debate at the opera house in Duquesne Sunday afternoon, Feb. 23. Each of the debaters will defend the respective party, and at both men are well versed in local politics, it is expected that interesting arguments will be made.

Volkstraining to Celebrate The New York Volkstraining, the oldest Socialist daily paper in the United States, will celebrate its thirtieth anniversary by an elaborate celebration in Grand Central station. This paper has carried the motto, "Devoted to the Interest of the Working Class," at its head from the first number and has never proven false to that motto.

HAYWOOD CHEERED BY 1,500 IN FANEUIL HALL

(Special to the Daily Socialist.) Boston, Mass., Feb. 22.—W. D. Haywood was cheered by 1,500 people who gathered at Faneuil Hall. The mass meeting was held to enable Haywood to extend his thanks to the people for the support they had extended to him and his two brother miners in their time of need.

"God knows" was also heard among the audience and repeated from mouth to mouth amid laughter, while condemnation of Presidential Possibility Tark and his teacher, Roosevelt, was going on at the speakers' stand.

BITTERS ARRESTED; PIANO MANUFACTURER IS CAUGHT

Seven detectives were assigned by Assistant Chief of Police Schuetzler yesterday to enforce the city ordinance against "bitters." They made ten arrests on platforms of the union loop.

C. A. Bent of the firm of George P. Bent & Co., piano manufacturers, 211 Wabash street, piano manufacturer at the State and Van Buren street station. The others were taken at the Madison, La Salle, Adams and Quincy street stations.

Bent and four others gave cash bonds. The remaining five sent for friends to sign bonds for them pending a hearing in Harrison street court Monday morning.

MARKETS

CATTLE—Arrivals of 7,500 cattle were heaviest Friday supplies in many weeks and prices broke 10¢ from Saturday's levels, making 10¢80 for beef from Wednesday. Fat, heavy classes suffered most loss. Both packers and shippers bought liberally at the reduced price range and effected a clearance. Best steers made \$5.50 and firm prices, but demand for plain lots was weak.

HOGS—A decline of 15¢ for hogs came as a result of excessive supplies of 41,000. Bulk of sales were 20c under high time Thursday. Packers and shippers bought liberally, only 6,000 being left in the pens. Tops at \$4.50 stood against \$4.70 Thursday and few hogs sold above \$4.40 late in the day. Packers' droves cost largely 15¢ lower. Heavy grades were hard to sell at \$4.30 at the close and heavy shipping went largely at \$4.40.

SHEEP—Demand was good from all sources for sheep and lambs and prices were strong. Compared with the close of last week sheep were steady to 10c higher, while lambs were unchanged. Bulk of wethers sold at \$2.25@2.50 and ewes at \$4.00, with culls down to \$2. Yewlings landed at \$2.00@2.25.

Here's another \$10 order for sub cards. It's from Geo. A. Breckenridge, Brockton, Mass. Those Hustlers boys always were Hustlers.

"Enclosed find \$1. Here the other \$999 arrives today," writes Miss Belle Oyer, Cincinnati, O. Some of the \$999 arrived but not all.

J. S. Green, Gardland, Mo., renews his subscription saying he wishes to investigate the matter that he orders to send sub cards. That sort of "investigation" is what is making Socialists by the thousands.

That new weekly Socialist wire, "The Wage Slave," published at Hancock, Mich., promises that the Daily office will send new subscribers the wire gratis for the first three issues.

One of the best ways to help in the present fight is to order a sheet of Daily Socialist stamps and get the Socialists in your community started on this plan. The stamps come in sheets of twenty and cost \$1. With each sheet comes a consignment of blank books for the preservation of individual stamps.

Here's a dandy list of five sent in by Bruno McKean, Speers, Pa. The Daily's subscription, "alarm clock" steadily wherever there's a Hustler. Odd lot \$1.17

Two more from Kokomo, Ind., say they were directed by A. J. Hating. A. H. Birch, Fairbury, Ill., brings in five when he renews his subscription. He orders also. Some way, the people don't like the Daily after reading it for six months or a year?

H. C. Callaway, Mobile, Ala., makes a ten-cent donation. As much from EACH Socialist would be redoubled by the Daily.

A. R. Eychaner, Omaha, Neb., takes advantage of the Esperanto combination offer advertised in the Daily. Look up that ad. It's a good offer.

Watching a sleeping worker stir slowly in the bed of capitalism, and then suddenly jump up into the socialist camp is the greatest recreation known-provided you were the one to put the alarm clock under him.

And here's the Christian Socialist with four brand-new ones. One's from Canada, too. New from the socialist camp is the Dominion at regular second class rates there ought to be 2,000 Canadian Socialists who'd subscribe right away if they were in Canada wide to them and tell them about it.

J. E. Chenevix, Shelbyville, Ind., saves three from the pile. F. J. Spenser, Chattanooga, Tenn., found two who were lost in the political maze. He picked them up, told them about Socialism and they subscribed on the spot.

It has become the established thing for subscribers to the Chicago Daily Socialist to secure one or more new sub books before they renew their subscription. The plan should be adopted by every reader.

The women who will assist in making a record for the Daily on Feb. 29 should begin work immediately. Feb. 29 is the only day in leap year, and the date in the Hustlers' column will be especially reserved for the women.

Lying Again, That's All

The United Mine Workers of Illinois in their nineteenth annual convention at Peoria adopted a resolution brought in by the Socialists, supported by the Socialist delegates, and indorsing the principles of Socialism, and the capitalist press reported it as a DEFEAT FOR SOCIALISM.

Their excuse for this was that the words "Socialist Party" did not appear in the resolution.

Socialists long ago ceased to ask the unions to endorse the Socialist Party. They know that such an endorsement would not make Socialists of the members. They do not believe that membership in any political party should be required as a test of unionism.

The fact is that the ruling class of today is in a panic. It sees the workmen turning toward Socialism. It knows that such action on their part means freedom for Labor and, consequently, an end of rulership by capitalists.

Therefore the press controlled by the employing class is trying the same tactics it tried when it saw the approach of the present industrial panic. It is trying to keep off the impending crisis by lying about it.

These tactics failed to save industry. They will fail to save capitalism.

It is worth noticing that had it not been for the existence of the Daily Socialist this falsehood would have gone forth uncontradicted until it would have spread into every portion of the country, and during the whole Presidential campaign it would have been told over and over again now the Illinois miners "turned down Socialism."

The Ostrich Policy

It may be true that the ostrich does not hide his head in the sand when pursued, and that to refer to this characteristic, even for purposes of illustration is to enter the nature fakir class, but the illustration is really too good a one to be lost even though it rests on nothing more than tradition.

An example of this sort of tactics is being afforded by some trade unionists at the present time. They are trying to stifle all agitation about the unemployed lest the capitalists should discover that there are many men out of work and use that as an excuse to reduce wages.

The efforts of some misguided unionists to suppress unemployed agitation, and the publication of facts concerning the number of men out of work will only force the worker to fight in the dark against an enemy fully equipped with all the facts.

DECEIT IS THE PECULIAR WEAPON OF THE CAPITALIST CLASS. THE WORKERS CANNOT AFFORD TO FOOL WITH IT.

The present society rests upon a lie. It depends upon falsification for its maintenance. The enslavement of the workers depends upon their ignorance and credulity. Their liberation must come through their intelligence and their frankness.

TURN ON THE LIGHT.

Make the Lift This Time

Each time a call for assistance has been sent out to those who own and read and maintain this paper, although the responses sometimes have been magnificent, yet they have always stopped a little short of what was required, leaving a burden to be carried over to the next hard spot, and making all progress in the meantime more difficult.

Let us end all this now. The next three weeks will require but a slight effort, if that effort is made by each of the tens of thousands who read this, to furnish the final lift for which we have been so long working.

A subscriber from one out of ten of the present readers during the next week would more than do the work.

A loan of two thousand dollars, at six per cent for the next year, would furnish the working capital necessary to enable us to take advantage of the opportunity that is waiting for us.

Hearst says that he considers the "decisions of the Supreme court in accordance with the constitution and not in opposition to the best interests of the working people." Wonder just how hard the working class would have to be kicked before it would hurt Hearst?

It is worthy of note that the only party that sent a representative to Albany to fight for woman suffrage was the Socialist Party. When enough of the workers have sufficient intelligence to send a majority of Socialists to the legislature, women will not need to beg for the right to vote.

While the unemployed of other cities are begging outside the doors of municipal councils, those of Milwaukee have spokesmen on the floor. Is it necessary to add that those spokesmen are Socialists?

The Illinois Supreme Court was a little late in getting into line, but it made up for it by hitting Labor twice in one day.

The Undergrad's Joke. Solid Food.

I always remember, in my college days (recalls a well-known scientist), paying a visit, with a couple of friends, to an eccentric old pork butcher at Oxford.

"How much is pork a yard?" asked one of us. (This was a joke.) "Ten shillings," promptly replied the old fellow.

"Then I'll take a yard." "Where's your money?" "Half a sovereign was laid down. The old man quickly pocketed the coin, and then produced three pigs' feet, with the quiet remark: "Three feet make one yard." We marched out in silence.

FROM A LECTURE ON WASHINGTON'S BIRTHDAY

BY HENRY D. LLOYD.

"Divine rights have been succeeded by vested rights, which looks on government as a kind of cow which no one has the right to milk but themselves. As long as it fills their pails with special privileges, land grants, contracts, railroad charters, tax bounties, we hear nothing about the old saw that that government is the best which governs least. But when the people want to get hold of the teats to squeeze out a few drops of justice, to prevent the raw wealth and power of the new industry from oppressing the weak and to establish a broader co-operation for the common good, then vested rights discover that a government which does anything is very dangerous.

"The only government which the new patriots will tolerate is that which uses the co-operation of all to enfranchise the individual. Let the individual do what the individual can do best. Let the government do what the government can do best.

"America has produced the highest type of individualism because its social co-operation is the completest. The greater the co-operation, the higher the individualism. And this co-operation of all for the enrichment of all is the union, which must and shall be preserved. But the co-operation of all for the benefit of the few we are going to put into the rag bag where reform keeps the other old clothes of history. Government is but one branch of industry. It is the social industry.

"True government is the union of the labor of all for the protection of the life, liberty and happiness of all. But living under a high death rate in tenement houses, in full view of the unemployed pariahs, with wife and children forced to work to get enough food for the family, and life working ten to twelve hours a day, when the citizen wants to work but eight, signing invalid contracts because he is hungry and going without justice because justice is too dear for the poor, is not liberty, and getting a taste of concert music and protection against accident, poverty and old age only by the charity of the rich is not happiness.

"The fathers, renounced, the King George who tolerated is that which without their consent. What would they do today when they found that there was a King George III every important industry taxing the people without representation or consent.

"A sugar King George, whose sugar pickers a free man's mouth; an oil King George, a very slippery monarch; a coal King George, quite a different fellow from old King George, who was a merry old soul, and a whisky King George, who does not distill the spirit of freedom, and a steel King George, who is a great thief, and a wine King George, who will have rope around left

HOT SHOT

That great patriot, Bourke Cochrane, thought it would be a good time to get into the limelight the other day, and so he jumped in, and made the most of it. He was campaigning for the country for Palmer and Buckner at \$10 per speech, paid by the gold Democrats or McKisley backers, we don't know which, but certainly not by the Bucknerites, as he afterwards mentioned in his speeches. Bourke is after 'ne hot wash.

The papers say that the New York banks have decided to eliminate Morse from the banking business. They took the opportunity to eliminate Heinze also a while ago. This goes to show that a ring of financiers control the banks of New York and will have no opposition which they do not want. We cannot see why Morse and Heinze are not as good as the rest of them, nor how such high-handed methods can be used according to law. But when the ring of financiers are made to catch the little fish and let the big one through, it is plain and simple.

It is a pity to carry up "my polities" will be kept up in "souphonses, too?"

HOW THE WORKING CLASS BECAME SOCIALISTS

BY ROBERT HUNTER.

In 1890 every hand was against British labor. The Taft Vain decision was precisely of the same character as the last decision of the United States supreme court. It made the funds of the unions liable to pay damages, and it meant the ruin of trade unionism.

A great meeting was held in London, at which the trade unions, the co-operatives, and all the Socialist groups of Great Britain were represented, and out of this meeting came the Labor party.

It did not adopt a Socialist program, but it did declare for absolute independence of the two old political parties. It is a federation of over a million organized workmen, who are pledged to organize and maintain a parliamentary labor party, with its own whips and policy, to secure the election of candidates of its own choosing, and to accept the constitution and to abide by the decisions of the party.

They must appear before their constituencies under the title of labor candidates only, and the name of the party must be prominently displayed on their banners, and they must not be eligible for affiliation.

They must not oppose any candidate recognized by the executive committee of the party, and when elected they must join with the parliamentary group. On this basis of independence the Socialists affiliated themselves with the Labor party, and so they have been the most vigorous and militant of the party in the new distinctively Socialist.

Dropping Out of School

EDWARD L. THORNDIKE, professor of educational psychology, Teachers' college, Columbia university, has prepared a monograph on "The Elimination of Pupils from the School," which Dr. Elmer Ellsworth Brown, commissioner of the Bureau of Education, summarizes the inquiry.

At least 25 out of 100 children of the white population of our country who enter school stay long enough to learn to read simple English, write such words as are commonly used, and perform the four operations for integers without serious errors.

"God Knows," and So Do We. Secretary Taft is a man who is no doubt well versed in classical and legal technicalities, but he is either intellectually or morally deficient, and no doubt both in economic matters.

Some men recognize that which is logically inevitable in industry but refuse to admit it, while others are as ignorant and helpless as so many infants. Today there is scarcely one man in a thousand who is well enough informed in financial history and industrial evolution to vote without his vote being an injury to the people.

All nations have grown in power and importance as the business of the people have been liberated and developed. Inversely all nations have declined as power and wealth have again become concentrated and the people more oppressed.

Not Russia, but Pennsylvania. Believing a woman is better for being whipped, John Horst of Munhall, a Homestead suburb, rigged up a whipping machine, his wife says, and with it caned him every third day, whether she needed it or not.

A Perverse Child. Gentlemen (meeting lady with screaming little boy)—What a bad tempered boy to cry so. What is the matter that he screams like that? Mother—Do not speak of it. For two hours I have been slapping him to make him stop crying, and the more I slap the more he cries.—La Caricature.

king has an income of hundreds of dollars an hour, day and night, week and Sunday, while farmers of Kansas get only 12 cents a bushel for the grain it takes a year's hard work to raise. Is not the Republic of Washington, a country in which the hired man of the Union Pacific railroad, chartered, built and supported by the people, dares to say to the people of Nebraska: "Don't you farmers make us railroad men mad," is not the Republic of Washington, a country in which the people have at the elections only the right to be crucified between two thieves—who are not crucified—is not the Republic of Washington, a country in which so much as one office is bought and the rest are bought by bribery or unpunished, is not the Republic of Washington.

"A country in which the right of free speech and free assembly are regulated by the private temper of the policeman instead of the public policy of a country of constitutional freedom, is not the Republic of Washington. A country where people submit to industrial piracy, because the pirates sell their stolen goods cheap, is not the Republic of Washington.

"What the people of America believe in, what the people of Europe came here for, is the Republic of Washington. And they mean to get it back from the plutocrats who are stealing it away like thieves in the night. They mean to get back the old and they mean to win the new. In what Lowell beautifully calls "that angel heart of all the heart of man" is growing a new sympathy, a new susceptibility to wrongs hitherto unfeared, by brother to brother, a new science which declares that these wrongs are a social evil which can be righted by social efforts, a new science which says since they are to be righted, they must be righted.

There is rising a consciousness of a new social power which can do for the common good many things hitherto common good many things hitherto done for private greed only. With malice toward none, with charity for all, the Union of the people, ever resolute, ever rising, moves forward to pay the debt it owes God and mankind for its hundred years of freedom and happiness. It is the new self-interest, the new patriotism in a commonwealth fit to be the child of the Republic of Washington—more glorious than any the world has yet seen."

The above words were uttered by Henry D. Lloyd eighteen years ago. So far as the indictment of present society goes, they are as strong and true today as then. But it is a mistake to assume that the republic which was planned by Washington was any more democratic than the one we now have. It is not the "republic of Washington" toward which we should seek to retreat, but the "republic of labor" toward which we must press forward.

Repeatedly they have refused to adopt an amendment to their constitution declaring that the organization was for the benefit of the people, and they have felt that a united working class was infinitely more important than a Socialist resolution. But at the last congress held a month ago they passed an expression of opinion which showed that a majority of the Labor party are ready to support Socialist principles.

In eight years the labor movement has struck terror to the heart of the British ruling class. There is not a working-class constituency in Great Britain where the Labor party has not an excellent chance of victory, and even now rumors are afloat that the next great fight in England will be between Socialism and Conservatism, with the Liberal party completely wiped out.

The tool are held apart while millions suffer for their necessities? Talk of freedom and justice where a man cannot produce his life's necessities until some other man says he may!

The people must control the tools of production and the products of those tools. Industry must be democratized. The people must be liberated or starved.
