

MINE OWNERS PREPARE TO FORCE STRIKE

Pittsburg Operators Say There Is No Longer Any Profit; Mitchell Calls Convention

(Special to the Daily Socialist.)
Pittsburg, Pa., March 2.—It seems almost certain that April 1 will see a strike of 50,000 miners in this district alone. Both miners and operators are preparing for it. The miners in the West Virginia district may also join. Coal operators claim that there is no longer any profit in mining coal and are preparing to force the strike. The miners do not want the strike, but of course will accept it rather than lose all of their rights. The operators are now storing coal.

Tell of Big Shrinkage
Coal consumers are surprised at the claims of the operators that the price of coal has gradually declined. The operators say that the railroads have cut their demands for coal more than 50 per cent and that there is a still greater shrinkage of orders from manufacturers.

The union officials have begun to strengthen their forces to foil any attempt of the operators to force out the union miners and replace them with non-union men. The miners have had a hard winter and fall, as work has been scarce because of the lack of orders since the lake traffic ceased.

Some Operators Friendly
Some Pittsburg coal operators, not in accord with the movement to stop work, will call a meeting of operators during the week to see if the miners will not agree to signing separate scales.

Calls Miners' Convention
Indianapolis, Ind., March 2.—President John Mitchell of the United Mine Workers of America has sent out the official call for a national convention of the miners to meet here March 12. The meeting will consider the situation left by the failure of the operators and miners of the central competitive field to reach an agreement on the proposition to call a joint convention to reestablish the interstate wage agreement and adopt a scale of wages.

Madrid, March 2.—It is officially announced that Queen Victoria expects a visit from the stork about the end of July.

ELLIOTT STORY SAVES HIM \$5

A prospective Elliott System victim saved his \$5 as a result of reading the Daily Socialist.

C. E. Steere read one of Elliott's "taffy" advertisements in the Sunday Tribune and answered it. The job offered was that of a machine designer paying \$150 per month.

Elliott requested his famous \$5 fee, entailing a share of the money making machine designer position with the assurance that it was a pretty sure job.

Elliott found out after a talk with Steere that he would have to make good, so he refused the alluring five spot.

Steere left with the \$5 in his pocket, which fact did not satisfy Elliott, for next day Steere received a registered letter from him requesting his presence in the office. Steere had meantime read the Daily Socialist and determined to have some fun with Elliott. Accordingly he called. Elliott offered him the machine designer position with the assurance that it was a pretty sure job.

CHINA RELEASES JAP SHIP ON DEMAND OF MIKADO
Peking, March 2.—It is announced the Chinese government will surrender the Japanese steamer Tatsu Maru, which was seized on Feb. 7 by the Chinese customs cruisers outside of Maoao while unloading a large consignment of rifles and ammunition. The rifles numbering several thousand, it was originally charged that an attempt was being made to bring war supplies into China for revolutionists.

GOMPERS SAYS COURT MUST BE OBEYED; LIST NOT PRINTED

The President of the American Federation of Labor has decided that the only thing to do in the face of the decision of the Supreme court in the case against the United Hatters is to accept the verdict, give up the fight and beg congress to enact another law. In the March issue of the American Federationist he says:

Would "Penalize" Officials
He claims that were he to attempt to defy the decision and continue to publish the list "We Don't Patronize" that it would penalize "each and every officer and member of a labor organization" in any way concerned.

In spite of the fact that practically every law passed by congress on behalf of the benefit of labor has been declared unconstitutional or per-

CAMPBELL-BANNERMAN SUFFERS A RELAPSE

London, March 2.—Premier Sir Henry Campbell-Bannerman had a relapse after a bad night. Dr. Sir Thomas Barlow visited him again. The bulletin issued last evening, says the strength of his heart has been tried by influenza, but his general condition is said to be fairly good.

The attending physicians consider the weakness of the heart the most serious factor in the premier's illness. He will go to the continent as soon as he is strong enough, and it is unlikely that he will reappear in parliament this session. All exertion and excitement particularly are forbidden.

LICENSE BILL CAUSES SLUMP IN BREWERY STOCK

London, March 2.—Seldom has the promise of legislation worked such havoc with trade as has the licensing bill with the brewing interests. Stocks in all the breweries, including the foremost companies, went down on Friday and Saturday to amazingly low rates, until they could not be sold at any price.

The shrinkage in the nominal value of brewing properties is estimated at \$250,000,000. The stocks in the leading companies have fallen as much as 50 per cent, some more than that, in two days.

CITY OF TAMPA SWEEP BY FIRE

Tampa, Fla., March 2.—Fire swept eighteen, and one-half city blocks, an area of fifty-five acres, and razing for more than four hours, destroyed 308 buildings, rendered 1,200 persons homeless, caused the loss of \$600,000 and the death of one woman. The militia is on guard to prevent depredations.

The burned section included one small cigar factory and four large ones and restaurants, saloons, boarding houses, and more than 200 dwellings occupied by cigar makers.

All factories carried large stocks of tobacco and cigars. The area swept by fire embraced all that portion of the city between Twelfth and Michigan avenues and Sixteenth and Twentieth streets. It originated in the building house of Antonio Diaz, 1714 wealth avenue, and, fanned by a strong wind, spread fan-shaped, defying the efforts of the fire department, which was crippled by weak water pressure, to check it.

GOVERNOR IS "CALLED OFF"

(Special to the Daily Socialist.)
Grand Junction, Colo., March 2.—It has been decided that Governor Buchtel, who is also chancellor of the Methodist church, will not attend the general conference of the church to be held at Baltimore next May.

Who made the decision is not known. Perhaps it was a mandate sent out from Washington that no prominent Republican should figure too conspicuously in church affairs, because Catholics and people of other denominations are sometimes sensitive on such matters.

Again the parson governor's sensational election as a delegate to this conference during the state conference here last fall, at which he was accused of injecting politics into the church, might have something to do with the decision.

GIRL PLOTTERS HANGED AT DAWN

St. Petersburg, March 2.—The seven terrorists condemned to death for a plot against Grand Duke Nicholas Nicolaievitch and M. Chichegovitch, minister of justice, were hanged at daybreak at Lissy Noss, opposite Krastok. Among those who suffered death were two girls, 18 and 19 years old.

FIRST OF SALVATION ARMY LINERS DOCKS AT HALIFAX

Halifax, N. S., March 2.—The liner Kensington, the first of a series of five steamers chartered by the Salvation Army to carry immigrants from Liverpool to Halifax, has arrived, conveying 800 persons who are bound to points in the Canadian northwest. Four other steamers will follow this month.

verted to the service of labor's enemies, Gompers still holds out hopes that relief may yet be expected from the hands of a congress owned by the employing class.

Still Look to Congress
"I have a strong hope that congress will promptly take heed of the injustice that has been done the workers," says Gompers, "and will so amend or modify the Sherman anti-trust law that the labor unions will be restored to the exercise of the powers and rights guaranteed to all our citizens under the constitution."

PARTY GROWTH BREAKS RECORD

Big Increase Shown in Payment of Dues by Socialists

The national secretary of the Socialist party reports that all records for growth have been broken during the months of January and February.

The receipts for January were \$1,885. This sum exceeded the previous high record of October, 1907, by \$168. The receipts for February, up until noon, February 29, with the account still open, were \$2,173.55, an increase over January of \$288.55.

The receipts as shown in the February report would have been something like \$200 larger but for the fact that part of the money received from Oklahoma and other states was credited to the states themselves, for fear that the big increase would be attributed by some to an effort to swell their dues so as to receive larger representation in the national convention.

KING GIVES UP RULE OF KONGO

Brussels, March 2.—It is stated, with the appearance of greater authenticity than that borne by the recent rumors that the government has agreed with King Leopold upon the terms of annexation by Belgium of the Congo independent state and that the terms will be announced in a day or two.

According to one statement the nation will pay the king \$600,000 yearly for fifteen years and also will carry on the public works which King Leopold arranged to the extent of \$11,000,000.

The arrangement is said to have been a compulsory compromise. The king is not satisfied, he wanted \$30,000,000 expended on the public buildings while the people objected to the national exchequer being burdened to such extent.

SAYS LEAP-YEAR MAID FORCED HIM TO ELOPE

New York, March 2.—"The whole trouble was that she wanted me to marry her. Just because it is leap year she thought she could make me do it, I guess. But I didn't want to marry her, so I came home."

Thus did Walter Hestrick, the "candy kid" of West Brighton, S. I., skip back a few minutes to the trial of a man for his excuse after his arraignment on a charge of grand larceny. The alleged Eve in the case is Bella Clark, whom Walter accuses of having eloped with him, in spite of the fact that she is only 15, while he is two years older.

For Bella to dream of an elopement, with all the romance it is supposed to entail, was to act. So she extracted a roll of bills containing \$50 from her father's pocket, so it is charged, and with the "candy kid" metaphorically tucked under her arm she hastened to the Grand Central station.

THE MARCH LION

EXTRA! EXTRA! CHIEF SHIPPY KILLS MAN; IS ATTACKED

An attempt was made to assassinate Chief of Police George M. Shippy this morning as he was leaving his home at 31 Lincoln place. The assailant was an

Italian, 40 years old, who rang the bell of Shippy's house early in the morning. The bell was answered by the son of the chief, Harry Shippy, 19 years old.

Italian Draws Gun
The Italian at once drew a gun from his sleeve and shot twice, striking the chief's son in the abdomen, injuring him probably fatally. He fell in the doorway and James Foley, the chauffeur of the chief, rushed out. The assassin shot him and he fell beside the boy. His injuries are not considered dangerous. The principal wound being in the hand.

Chief Shoots Assassin
The chief, aroused by the noise of the battle, rushed to the door and was stabbed in the right arm. He opened fire at once upon the assassin, killing him almost instantly. The assassin was taken to Bentley's morgue, 238 Lincoln

avenue. The chief's injuries are thought not to be dangerous. The son of the chief has been taken to the Augustan hospital. Later reports say that he will probably die.

CHICAGO LABOR IS ANGERED BY COURT RULINGS

Earnest Discussion of Hatters' Decision in Federation; Goes to the Locals

Organized labor, tired of being stung by supreme court decisions, has begun to act. At the last February meeting of the Chicago Federation of Labor the executive board was instructed to ascertain what effect the decision of the United States supreme court in the hatters' case has on organized labor in general.

The report that the executive board gave to the delegates at the regular meeting Sunday afternoon was far from pleasing. The discussion lasted for hours. Resolutions, amendments and substitutes were numerous.

No Cure Is Expected
It was not decided, however, that organized labor should take such political action as would forever stop such decisions, so it is not likely that when the matter gets past the talking and debating stage, any real action will be taken.

Left in Bad Shape
The entire report would suggest that organized labor generally has been left in bad shape. The hatters' reply stated that the complaint of the firm of Loewe & Co. of Danbury, Conn., accused the union of violating the interstate commerce law.

This charge was based upon the fact [Continued on Page Two.]

AVALANCHE KILLS 13 AND DEMOLISHES HOTEL

Berne, Switzerland, March 2.—An avalanche descended near the village of Gappenstein. The enormous atmospheric pressure which accompanied it demolished a hotel at the mouth of the Lochberg tunnel, killing thirteen persons and injuring fifteen others. Two children who rushed out to give warning of the avalanche were killed. Among the killed was an American engineer named Mervart, who was installing American machinery to be used for tunneling.

CURFEW LAW USED TO STOP HOLINESS MEETING

Gainesville, Ga., March 2.—The curfew law here, in abeyance for years, was enforced last Saturday night against a congregation of Holiness people and 150 men and women were arrested at the Pentecostal church.

The law requires all persons in Gainesville to be at their homes unless for cause by 11 o'clock. The Holiness sect is strong here and has been holding nightly meetings which continued until far after midnight.

The meetings have been characterized by the wildest display of feeling, holy dances, holy rolling and shouting. Citizens in the portion of the city where the meetings have been held complained to the city authorities.

BORDEN CUTS MILK PRICE

Indications of a general break in the price of milk appeared yesterday when one of the largest dealers, the Borden Milk company, announced a cut of 1 cent a quart.

The action of this company was taken apparently independent of others. It came as a surprise to other large dealers, who declared that the Borden company was trying to drive smaller dealers out of business.

The reduction of the price to 7 cents a quart brings it to the same figure that ruled before the general advance last fall. At that time the Borden were among the first to advance, claiming that the cost of feeding, labor and other matters had advanced so materially that it was impossible to continue business without a higher rate.

Following the lead of the larger companies there was a general advance. All the smaller dealers put up a reply to the same level and there was much complaint all over the city.

TWO VISITORS AT BREWERY KILLED IN PIPE EXPLOSION

Two men were killed by an explosion of an ammonia pipe in the Manhattan Brewing company's plant at Fortieth street and Emerald avenue yesterday noon. One man, an engineer in the plant, whom they were visiting, escaped with his life by a marvelous jump through a broken window. He was seriously injured.

John Ruetter, the engineer, was 11 o'clock when two friends, Charles Schrenk, 3539 Carpenter street, and Emil Degroth, 6411 Aberdeen street, both machinists, entered the engine room. They talked for nearly an hour and were on the point of concluding their visit when the explosion occurred.

PANIC CONDITIONS CAUSE SUFFERING IN RUSSIA

"The Reeb," a St. Petersburg paper, says: "The industrial panic in the United States is finding a reaction here in the poverty of the Jews in all cities in Russia. These people had expected to leave for America and had not the panic we would have been provided with money to do so. In many instances they are now on the verge of starvation."

YALE'S RICH "ARE DUMMIES"

New Haven, Conn., March 2.—That the majority of defective scholarships at Yale is among the moneyed class there are definite records to prove. The occupants of high priced dormitories have been seen years among those low in schoolship, while the high scholarship members of the classes are found in the cheaper dormitories, including those of the campus.

Professor Henry P. Wright, dean of the Yale academic department, a few weeks ago produced figures to show the differences in scholarship between the high lives and the students who live with a fair degree of economy. The present arrangement of dormitory life at Yale extends back to 1900, or a few years after Pierson hall, the large and inexpensive freshman dormitory, was opened.

Dean Wright's tables show that from 1900 to 1903 warnings for poor scholarship were given to 23 per cent of freshmen living in high priced dormitories, as compared to 16 per cent in Pierson hall, and 12 per cent to students domiciled in the low priced campus dormitories.

MARYLAND DELEGATION IS NOW SURE FOR TAFT

TEST LIVERPOOL FENDERS FOR CHICAGO STREET CARS

The Liverpool type of fender for street cars was experimented with on Chicago street cars yesterday, and it proved the fender to be far superior to the one used in Chicago thus far. Straw filled dummies were used in the test.

President Thomas J. Mitten proposed the new fender, which is of the cow-catcher type, but differs in minor details from the regulation locomotive style. It is only an inch and a half from the level of the street and throws the body of the unfortunate to one side, thus keeping it from under the wheels.

BANK TELLER WOUNDS ROBBER AND SAVES CASH

Winnipeg, Man., March 2.—Masked robbers made a desperate attempt to rob the Canadian Bank of Commerce. Freeman Sussex, paying teller, was shot through the arm and two of the bandits, although still at large, were wounded.

As is customary, the bank was open Saturday evening from 7 until 9. Shortly after the telling Sussex was disturbed at his work by a gruff command of "Hands up."

When the robbers' pistols were empty, Sussex started shooting from the teller's cage. Frustrated in their attempts to frighten away the two clerks in the bank, the robbers ran. Sussex followed and dropped both men to the floor, emptying his pistols in all directions.

The first bullet struck Sussex in the arm. When the robbers' pistols were empty, Sussex started shooting from the teller's cage.

BOYS RIOT IN QUEST OF JOB

400 Idle Youths "Clean Out" Success Magazine Sanctuary

(Special to the Daily Socialist.)

New York, March 2.—The office of Success magazine at 22 Waverly place was besieged the other morning by a large crowd of youths who came to apply for a situation.

The Success Publishing company had a vacancy in its shipping department and an advertisement was inserted in morning papers for a shipping clerk.

Some one up in the office pushed some one else with a gutful of delight as he was able to "do some thing." Somebody else did not like being pushed, and pushed back. Then some other body speared a pile of magazines lying handy and they were flying at the heads of the exuberant youths in the rear. Then the fun was fairly on. Soon everything movable within reach of the boys began to change its location.

The roll-top desk of one of the employes was shoved out into the hall, and then down the stairs to the third floor, smashing the wall at the bottom of the stairs with force enough almost to demolish it. Packing cases from the place were also thrown down the stairway, almost blocking the way down to the third floor. The elevator man ran his car between the third and fourth floors to be safe from attack.

It was a lively scrimmage when the police of the Mercer street station came. 23 Out of 400 Caught The boys knew the police were coming and while the police went up the bow windows, the boys were on the stairs. Out of the 400 youths only 23 were caught and of these seven were sent to the children's court, by reason of their age. The sixteen others were held before Magistrate Butts in Jefferson Market court.

Magistrate Butler, who presided at the trial, declared that the boys were guilty of a riot and that they were liable for the damages awarded the hat firm.

ASKS PRIEST TO PROVE CHARGE

A Minneapolis Socialist Issues Challenge to a Father

(Special to the Daily Socialist.) Minneapolis, Minn., March 2.—Because Father J. M. Cleary, pastor of St. Charles Catholic church in this city, made public utterances against the Socialists, State Secretary J. E. Nash of the Public Ownership (Socialist) party has challenged the priest to debate.

He Blames Socialists After Giuseppe Guaracino had shot and killed Father Leo Hendricks in Denver, Father Cleary gave a statement to the Minneapolis Journal which began as follows: "The assassination of Father Hendricks is only another striking example of the lengths the lawless and authority-hating element will go to. It shows the absolute necessity of suppressing the Socialistic element, especially in the large cities.

Secretary Nash in his letter to Father Cleary pledged himself to secure, upon the receipt of the pastor's acceptance, a first-class Socialist advocate who shall be adequate in intellectual ability to debate with the pastor the following question: "Resolved, That Socialism presents the only scientific solution of industrial problems, and is the practical application of the accepted principles of Christianity."

Alarm Clock Leaflets

Awaken the Workers

- "There's No Rest for the Wicked" There are three of the new "Alarm Clock" Leaflets. See the titles: 1. "The Socialist Party." Just the thing to increase Party membership. 2. "Breaking Up the Family." Showing how capitalism is destroying and Socialism would restore this institution. 3. "Different Kinds of Slavery." Tracing the evolution of the working class from serfdom to Socialism. Start a few of these off in your neighborhood and rouse your fellow workers and start them thinking on the road to Socialism.

NOTE THESE PRICES: 500 for 60 cents, 1,000 for \$1.00, 5,000 for \$4.00, 10,000 for \$7.50, express collect. Chicago Daily Socialist 180-182 East Washington Street.

Bound volumes of the Daily Socialist for the months of May to October, 1907, inclusive, are now on sale at this office at the price of \$5 per volume. We also have a few volumes left of the period from the first day of publication up to and including the month of April, 1907, at the same price. These two together constitute a complete file of the Daily from the first number published and are bound in attractive form.
