

JOIN ROADS IN FIGHT ON LAW

Since the Labor Day Special the friends of the Daily Socialist have been asking almost a complete rest. The receipts yesterday were only about half what they normally have been. DU KNOW WHAT THIS MEANS.

Four Train Service Brotherhoods Unite With Employers at Meeting

Instead of a closer alliance with the balance of organized labor for the purpose of keeping up their wages, the four train service brotherhoods have joined hands with their employers to fight legislation that the general public may desire in order to put the railroads under control.

Now Takes Form

The employees have been told for the past year that their wages would necessarily be reduced unless adverse railroad laws were stopped. Meetings have been held at which "railroad speakers" made talks and aroused "enthusiasm."

Representatives of Roads

The railroads were represented at the meeting by A. J. Earling, president, and E. W. McKenna, second vice-president of the Chicago, Milwaukee and St. Paul; J. Davidson and B. F. Yokum, St. Louis and San Francisco railroad; George B. Harris, Chicago, Burlington and Quincy; J. W. Kendrick and W. B. Jansen, vice-presidents, Atchison, Topeka and Santa Fe; T. P. Shonts, president Chicago and Alton; Frank Trumbull, president Colorado and Southern; W. A. Gardner, vice-president Chicago and Northwestern; H. U. Mudge, vice-president Chicago, Rock Island and Pacific; J. T. Harahan, president Illinois Central; H. J. Miller, president Chicago and Eastern Illinois; C. S. Clarke, vice-president Missouri Pacific, and I. G. Rawn, vice-president Illinois Central.

None in Federation

None of these brotherhoods are affiliated with the American Federation of Labor and it is hardly probable that any of the brotherhoods which are affiliated with the federation would be admitted to enter such a deal, which, it is apparent, will work against the interests of union men outside of the four brotherhoods named.

Concerns Freight Rates

That the meeting yesterday had to do to some extent with the proposed raise in freight rates was admitted by some of those who participated. The reason for increasing rates was pointed out in the figures showing the added expense to the railroads in the past year because of legislation, state and national.

FOREST FIRES UNDER CONTROL

Duluth, Sept. 15.—While forest fires are still burning along the north shore it is believed they have passed the danger point so far as the threatened destruction of villages is concerned. Hundreds of thousands of dollars' worth of good timber is being destroyed, however.

Villages in Path Thought Doomed Believed Safe; Timber Threatened

Grand Marais, Chicago Bay, Big Bay, Pigeon River and other smaller settlements immediately along the shore are thought safe. The situation on the Mesaba Range is also greatly improved and the flames in that territory have now reached a stage where they are no longer considered dangerous to the different towns.

Try to Save Woods

Under orders from General C. C. Anderson, state fire warden, and William T. Black of the local fire department sent forty men to the scene of the worst fire above Grand Marais. Although the settlements are no longer in immediate danger there will be plenty of work for these men, for it will be their purpose to save as much timber as possible. A hard downpour of rain would put an end to the flames.

Water Supply Short

Fort William, Ontario, Sept. 15.—A settler who came in from Hyfers yesterday afternoon says that bush fires are around the settlement and that a high wind would mean destruction. The water supply here for much of the day is now almost dry. Fires extend all the way from Wexford to Gun Flint on the international boundary line. Trainsmen say that the entire forest from Nipawin to Minto is on fire.

Spreading in Ontario

Port Arthur, Ontario, Sept. 15.—Word was received at the crown land agency that forest fires have entered Mattawa River valley in the unsurveyed district fifty miles west of here and threaten the destruction of large tracts of timber lands. Several fire, pulp wood and logging camps are located in this section. The timber lands are of a large area and the camps now in greatest danger are those of Stewart and Smiley and Whalen. The situation about the two cities is practically unchanged.

Grapevine Marauders Burn

South Bend, Ind., Sept. 15.—Dense smoke overhanging South Bend and other towns in southern Indiana is believed to come from marauder fires in this vicinity and also from widespread forest fires in Michigan, Wisconsin and Minnesota. West of South Bend about ten miles the great grapevine marsh has been burning for some time and emitting volumes of dense smoke. South of the city the Nutwood marsh has been on fire at intervals for two weeks.

CONVICTS BREAK PRISON; CROSS RIVER IN SKIFF

Chester, Ill., Sept. 15.—Joe Wright and George Miller, who are serving long sentences for murder, escaped from the Mississippi river in a skiff and are thought to be in one of the river counties below St. Louis.

SEVENTY STUDENTS LOCKED UP AFTER HAZING AND RISING

After a wild riot on the lake front at the foot of Thirty-first street seventy sophomores from Armour institute were rounded up by the police and locked up at the Stanton avenue police station last night, charged with hazing twenty-two members of the incoming freshman class. The lower classroom were captured and taken to a deserted yacht anchored a short distance from shore and tied to the sides by the use of ropes passed through the portholes, so that the waves splashed them, and any attempt to escape the water, only dragged them down into a more perilous position. Attempts at a rescue made by other freshmen resulted in a free-for-all fight, which was only ended by the use of the police. The night took place on the beach in front of the Farragut Boat club.

Freshman Flag Responsible

Following the raising of a freshman flag at the top of the 125-foot pole at the institution, members of the two classes clashed. Twenty of the freshmen were seized by fifty sophomores and were carried to the lake front. There the quarters of the Farragut Boat club were raided, a dandy was stolen and the captives were carried to the deserted yacht.

Riot Call Is Sent In

A riot call was sent in to the police and twenty-five policemen were hurried to the scene. Before they arrived other freshmen, learning that some of their number had been bound to the boat, issued an attempt to rescue them.

STATE OF MAINE IS REPUBLICAN

Plurality Cut Heavily, However; Elect Governor by Only 7,700 Votes

August, Me., Sept. 15.—With its plurality cut heavily the Republican party was victorious in the state election yesterday. Bert M. Fernald being chosen governor over Oadiah Gardner, Democrat, and all four Republican candidates for congress winning.

G. O. P. Loss 4 Per Cent

These figures indicate a Republican loss of 4 per cent and a Democratic gain of 32 per cent. The total vote cast today was in the neighborhood of 140,000, which is within a few thousand of the record for the state.

Losses in Own Ward

Knox county, the home of the Democratic candidate for governor, gave a Democratic majority of 1,200, but Gardner was unable to carry his own ward, the only ward in Rockland, his home, which went Republican.

Prohibition Basis of Fight

In this election the state issues have largely predominated. There is no doubt that hundreds of men who yesterday were voting the Republican ticket will in November vote for Taft and Sherman. The prohibitory liquor law issue entered largely into the fight and no doubt the vote of the cities and the larger towns which is favorable to the Democracy hinges largely upon the so-called liquor question.

Maine Returns Please Bryan

Baltimore, Md., Sept. 15.—William J. Bryan last night was shown the bulletin regarding the results of the Maine election. He was elated over the great Democratic gain, and said: "I am gratified at the result. It indicates that the trend toward the Democratic party extends over the whole country, and encourages Democrats to believe that a victory in November is certain."

"LET TAFT STAY," SAYS BRYAN

Democratic Candidate Says Roosevelt's Letter Counts for Nothing

Baltimore, Md., Sept. 15.—"A few plain, simple sentences from Taft will be worth more than the eulogy that the president pronounces. The president's endorsement is of no value unless the president will agree to stay in Washington and see that Taft makes good."

Scientific Death Dealing

Few seemed to think that the efficient and scientific dealing of death was the object of the lessons the men were learning. It was very exciting and the public lost its head.

These Officers Sent a Letter to the Local Socialist Party Headquarters

The literature was sent, and there is every reason to believe that it was distributed efficiently. Soldiers with "conspicuous" looking pamphlets in their pockets were seen on the streets and there is every reason to believe that from a letter sent by the officers in question that there was a Socialist local in the camp.

HEAR THAT SUBTREASURER IS TO BE REMOVED SOON

PROMINENT YOUNG LADY IN DISTRESS

(SPECIAL TO THE DAILY SOCIALIST.) Washington, D. C.—Much anxiety is felt over the absence of Miss Prosperity, a well-known young lady of this country. Last fall she took "French leave" of her friends, presumably for a short vacation, but as she is expected to play a prominent part in the campaign of 1908, and has not shown up, it is feared she may have met with some misadventure. It is reported that the young lady has met with financial reverses and, owing to the "heavy track," will probably not get here in time for the campaign. "I need a rest," she said, "for I'm nearly worked to death, anyhow."

BOYS IN CHAIN GANG

"Had Gompers taken the trouble to take a ten minutes' street car ride from his hotel, he would have beheld the spectacle of a chain gang. He could have seen boys of sixteen with heavy chains around their waists suspended to the shackles around their ankles. He would have seen human beings of the working class, whose only crime may have been that they were jobless, falling away in the hot broiling sun, weighted down with the chains and straining themselves to the utmost as if in fear of some dreadful punishment in case they lagged in moving enough dirt to suit the burly guard with a gun in his belt."

DISCOVERY IS MADE

Since the meeting, even tonight, there has been started movement to make this opening between the hills the greatest amphitheater on the Pacific coast and an architectural masterpiece. The Daily Union will say tomorrow that the Socialists discovered the place and that the discovery should be used to make San Diego famous for its natural theater where twenty thousand persons can be seated and where every person can hear.

Las Vegas, Nev., Sept. 8.—Jove is with the "Red Special." For several days there have been dread forebodings of the trip from Salt Lake City down west of the plains of Nevada to Southern California. We had been told of the terrible, scorching heat that would wither up the enthusiasm even of a Socialist. One of the railway employes informed us that on a previous trip the thermometer inside the car had registered 118.
