

AIRSHIP TO CARRY 10 MEN

Dr. Bell, Famous Aeronaut, Has Plan for Enormous Tetrahedral Kite

The principal use of the aerodrome of the types we are now familiar with," said Dr. Bell, "will be as an aid to warfare. It is not generally known, I believe, that when you increase their size you increase their weight at a far greater ratio. As the lifting power increases in proportion only to the increase in size, it can readily be seen that a point would shortly be reached where the machine could not raise itself from the ground. This would seem to be a barrier to a successful use of the aerodrome as we know it now for the practical purposes of transportation, both of passenger and freight."

WOMAN BETRAYS DAYTON SLAYER

Says Her "Affinity" Admitted Brutal Murders That Stirred Ohio Town

Dayton, O., April 25.—The arrest of Elmer Carr on a charge of arson has been followed by a statement to the authorities by Mrs. Carrie M. Middlestetter, who lived with Carr, in which she charges him with the brutal murder of Mary Froehner and Lizzie Fullhart. The mysterious deaths of these girls, following attacks upon them, excited the people of Dayton almost to a frenzy last January.

Enthusiastic Over Kite

Dr. Bell claims for his tetrahedral kite system that it would seem to insure stability and to render possible the maintenance of a low rate of speed while in the air, which is impossible with the present type of aerodromes or aeroplanes.

Tells of Horrible Crime

The next morning he told her, she says, with brutal details, of a little girl, Mary Froehner, 15 years old, who had been sent out by her mother to the corner grocery store. The girl's body was found at midnight in a stable, horribly mutilated.

Lays New Propeller

It is probable that the invention of a Washington man will be tried for the first time at the tests at Fort Myer this month. F. L. Rice, who built the Ludlow aeroplane last summer, working with F. L. Young, both of this city, has constructed an improved form of propeller for dirigibles and heavier-than-air aeroplanes.

PAT CROWE ASKS POLICE TO FIND 'KIDNAPED' CHILD

Fat Crowe, who is now making his home in Evanson, under the restraining hand of the Rev. E. L. Eaton, yesterday sought for and found a child he thought might have been kidnaped.

SECRETARY OF WAB NOW AT KINGSTON; PANAMA NEXT

Kingston, Jamaica, April 25.—The United States yacht Marlowe, having on board Secretary of War Dickinson and a party of friends, arrived here yesterday morning from Charleston after a fine voyage. The yacht will sail today for Colon. Dickinson will make an extended stay on the isthmus, familiarizing himself with the conditions in the canal zone.

That Peace Issue

The Special Issue of the Daily Socialist for May day will be an eye-opener. The facts that have been unearthed in regard to the spread of militarism in the United States have staggered even those who dug them out of the official documents, and will prove a revelation to every one who reads them.

Park Additions and Improvements Expected to Lighten Burdens

As an antidote to the discomforts of the approaching hot weather months, the public will find rest and recreation in the parks, to which additions have been made this year, together with embellishments of many kinds.

Have Several Conveniences

These smaller places have field houses, containing large assembly halls, lunch rooms, club rooms for clubs in the district, and libraries and reading rooms, branches of the Chicago public library. There are also outdoor swimming pools with dressing rooms for men and for women, outdoor gymnasiums, playgrounds and sand courts for children.

Making Many Improvements

Meanwhile improvements have been going on in the larger parks. They now contain notably combination boat-houses and pavilions, with assembly and lunch rooms, rose gardens, water courts, pergolas, conservatories—the one in Garfield park being the most magnificent in the country—and every possible feature tending to the comfort and pleasure of the public.

Park Secretary Talks

To a Daily Socialist reporter, George A. Mugler, secretary of the West Side Park commission, stated:

In his cost pocket, and when he returned about 11 o'clock that night he was wearing the ordinary shoes and had the heavy ones in his pocket. His clothes, Mrs. Middlestetter says, were covered with mud, and he saturated them with kerosene and burned them before the eyes of the terrified woman and her daughter, after threatening them with death if they dared to tell what they had seen.

Girl Mutilated; Thrown in Well

"Then he got her, she declares, to go with him to an old deserted house, and pointing to the cistern in the back yard, told her that a tale of horror would soon come forth from it. Two days later workmen found the body of Lizzie Fullhart floating in the cistern, and her body showed evidence of cruel handling. As Carr had been seen with the girl he was arrested on suspicion, but was released for lack of evidence to connect him with the crime.

'L' ROAD MERGER SEEMS CERTAIN

It is declared to be certain that the elevated road systems of this city will be consolidated within two days. Ira M. Cobb, chairman of the committee of three, which has been striving for the consolidation, has returned to the city and reports that everything is now ready.

FRANCE IS AGAIN SWINDLED IN MATERIAL FOR ITS NAVY

Paris, April 25.—The Matin states that the government has decided to prosecute the Creusot company for swindling in material furnished the navy.

MR. BUSSE'S TROJAN HORSE

"DOPE" AROUSES EDITORIAL IRE

Patterson's New Play Causes Newspaper Comment in Advance of Production

The editors of Chicago, who are supposed to possess some grains of erudition, have already begun roasting Joseph Medill Patterson's play, "Dope," editorially in advance of its presentation. The play is to be produced at the Bush Temple this week.

ROOSEVELT KILLS A WILDBEEST

Nairobi, British East Africa, April 25.—After a brief hunting expedition last evening at Kapiti plains, in which the distinguished hunter shot a wildebeest as his first trophy, ex-President Roosevelt and his party broke camp and started for the ranch of Sir Alfred Pease, on the Athi river, today.

REBUKES ENGLAND; SAYS POET WAS KILLED BY NEGLIGENCE

London, April 25.—The poet, William Watson, in a fiery letter to the Times charging the British nation with being uninterested and unmoved by the tragedy of John Davidson's disappearance, declares that the noted poet died because he could not make a living.

HAVE BUT LITTLE HOPE FOR THE RECOVERY OF COBIE

Megan Tyrol, Austria, April 25.—Helene Corried, the former director of the Metropolitan Opera house in New York, was ill when he left Bordighera, Italy, for this place a short time ago. Recently he suffered a stroke of apoplexy on one side of the body. He has been unconscious for the last four days and there is little expectation of his recovery. His wife, brother-in-law, and sister are with him.

ITALIANS AND IRISH IN BIG RACE RIOT; WRECK BUILDING

New York, April 25.—Fifty or more Irishmen and Italians came together in a race riot at Tenth avenue and Thirty-second street last night, and order was not restored until an Italian saloon and an Italian grocery store had been wrecked, thirty combatants clubbed by the police and eighteen arrested. The fighting lasted forty-five minutes.

INCOME TAX TO GET EASY DEATH

Senators in Plan to Make Measure Separate From the Tariff Bill

Washington, D. C., April 25.—The income tax is to meet a quiet death by being cut from the tariff bill, of which it is now a part, and placed in a separate bill. The wrangle over the income tax clause has so delayed the work on the tariff that various senators fear that congress will be delayed past the regular time for adjournment, and that then the tariff will not be in final shape. For that reason they intend to cut the income tax measure from the tariff bill.

European Aid Powerless

Several warships are now in these waters, but the disorders are so far reaching that the efforts of the powers to restore normal conditions have been felt but little. The French cruiser Jules Ferry arrived here yesterday and left almost immediately for Latakia, where swarms of refugees are pouring in. British, French and German warships are at other ports and marine have been landed to quell disorders as far as possible at the most important points.

Great Suffering in Deurtal

One of the missionaries at Alexander Dret, Mr. Kennedy, with 450 Turkish troops, has gone to the relief of Deurtal, an Armenian village on the coast, where 10,000 people within the walls are besieged by Kurds and Circassians. The American, British, French, Italian and Russian consuls have sent a collective telegram to their respective ambassadors in Constantinople saying that the situation at Deurtal for the 6,000 refugees is desperate on account of lack of food.

MOSLEM'S FURY IS UNQUENCHED

Latest Estimate Places the Number of Dead in Adana Province at 25,000

Beirut, April 25.—With the death toll of Moslem fanaticism amounting to many thousands, with every hour bringing fresh reports of atrocities in Asiatic Turkey, with frantic appeals for aid from Armenian refugees and Christian missionaries, the situation in Asia Minor is grave almost beyond description, while Turkish authority and the efforts of the powers seem helpless to abate the outrages.

DEPOSE ABDUL; PICK SUCCESSOR

Sultan Reported Dragged From Palace and Rehad Put in His Place

Constantinople, April 25.—The sultan, the wretched Abdul Hamid, the man who drove his mother to madness, killed one of his brothers and starved another to death, has been dragged from his hiding place in the Yildiz Kiosk, deposed with the full authority of the Sheik-ul-Islam behind the deposition, and Mohammed Effendi, said to be the sultan's brother, placed upon the throne of Turkey in his place.

First Event of Kind

The deposition of Sultan Abdul Hamid is the first event of this nature in the history of Mohammedanism. The person of the sultan has been sacrosanct since the year when the Hegira took place and is not even yet deemed violate by the fanatics who have started the massacres in the remote districts of the empire.

Get Ready for Battle

A display of force was needed, however, to force the surrender of the last garrison loyal to the sultan. It was the Selimieh artillery, whose barracks are in Scutari, opposite Stamboul. Four thousand men stationed there with 100 guns threatened to blow the city into ruins, but Gen. Scheffer ordered up sixty big guns and several batteries of machine guns to positions which commanded the barracks, and the cruiser Medjidieh steamed out of range of the field pieces and prepared for action.

It Is the Will of Allah

The last scene of surrender was dramatic. Memdukh Pasha, commander of the surrendered palace guards, came slowly out of the gate. He was allowed to keep his sword, but was attended by officers whose swords were missing. Memdukh Pasha paused to talk with the correspondents.

Sultan Is to Be Tried

The question is now being asked by every one: "What will be done with the sultan?" This inquiry was made directly to Gen. Hamid, the head-quarters of Scheffer Pasha, the commander of the Second and Third army corps, and he replied:

In Hands of Parliament

Ever Bey, one of the leaders of the Young Turks, when asked how military men regarded the sultan, replied: "We do not have an opinion on that subject. The sultan is in the hands of parliament. The army is the instrument of the civil authorities and the army's mission in this affair is to uphold the civil government."

ONE GREAT, GRAND, GLORIOUS DAY

for the Socialists of Chicago tomorrow. A Great Debate in the morning and a Grand Ball in the evening. If there is anything the matter with the Socialist theories of Karl Marx, we shall surely hear what it is tomorrow.

Features of the Fight.

1. The University of Chicago Versus "The Workers' University."
2. A Professor of Political Economy Versus a Self-Educated Workingman.
3. The Economics of Marx Versus The Economics of the Chairs.

Question: The Five Fallacies of Marx?

1. The Labor Theory of Value.
2. The Overproduction Theory of Panics.
3. The increasing Misery of the Working Class.
4. The Disappearance of the Middle Class.
5. The Proletarian Revolution.

EDWARD LOWY
Edward Lowy, who will preside at the Debate tomorrow, has spent his leisure time for many years forwarding educational movements, and the Garrick Committee is fortunate to have secured his services for tomorrow.

MISS MARGUERITE DIXON will lead the grand march at the grand Garrick Ball tomorrow evening at the Drill Hall at the Masonic Temple. Her parents, Frank Dixon and Violet H. Dixon (designer of the cover of "The Evolutionist") will be the second couple. The Garrick lecturer, who is an intimate friend of the Dixons, will be Miss Dixon's partner in the march. The ball will open at 7 o'clock. Wardrobe privileges and iced drinks are free. Tickets, 50 cents. This will be a brilliant affair and Mr. Lewis will devote the entire evening to his many friends, exchanging a personal word and bidding them good-by before leaving for his eastern lecture tour. The famous Garrick ushers will have charge of the floor.

A verbatim report of this great intellectual struggle will appear in "The Evolutionist" after the famous three-hour Lewis-Barnard debate, which will run in the opening numbers. The magazine will be pocket size, with colored cover, thirty-two pages, and good book paper and type. The first number will appear the last of May, and if you have not already subscribed send stamps, money order or whatever comes handy, at once, to "THE EVOLUTIONIST,"

MRS. G. D. PETERSON
No music or singing but the finest is ever presented at the Garrick Meetings, but the treat of the season has been reserved for tomorrow, when Mrs. G. D. Peterson will thrill the great gathering with her magnificent voice.

COVER FOR "THE EVOLUTIONIST," BY VIOLET H. DIXON.

TEACHERS VEX BOSS SCHNEIDER

Distribute Pamphlets, Making Clear Case Against Tribune in Lease Affair

Otto C. Schneider, vest pocket knaiser William of the board of education, is greatly troubled because teachers and principals, who do not believe that big business should rob the public too freely, have distributed pamphlets exposing the steals which Chicago's leading citizens wish the legislature at Springfield to legalize. Otto C. Schneider is in a tantrum and has announced that he will call the teachers and principals severely to account. This is why he will take drastic action.

The pamphlet calls attention to the Tribune lease deal. The pamphlet calls attention to the fact that big business interests want to float bonds against school buildings and reap the benefits accruing from the interest. The pamphlet calls attention to the fact that the Tribune, through legal enactment, seeks to make its school lease deal continuous. The pamphlet calls attention to the fact that other business interests want to get in on the ground floor on school leases as the Tribune did, and thus steal revenue from the sources of income from which public education is paid for.

drawn, and the pamphlet draws them. It has a diagram showing a portion of the Boston store, which is not on school property, and the rental is \$91.35 a square foot. Then the diagram shows a portion of the Boston store which is on school property, and it pays \$32.40 a square foot. Here again the pamphlet draws odious comparisons.

Statements from the Pamphlet
Here are some verbatim statements from the pamphlet, which, as a whole, is signed by Raymond Robin, member of the board of education; John C. Harding, former member of the board of education and an organizer for Typographical union number 16, and Philip Angsten, a former member of the board of education.

Do you know that the holders of school land leases pay no taxes on the property which they lease?
That the board of education was not authorized by law to sell school lands, and the Supreme court of this state has repeatedly held that a 99-year lease is a sale? The latest decision is that effect is found in the case reported in the 22nd Illinois Supreme Court case. In advance sheets just published, competent lawyers are of the opinion that the court will declare the changes made in these school land leases illegal when suit is decided, which is now pending to test the validity of the changes made in the Chicago Tribune lease. It is possible that newspapers and others whose school leases were obtained want the Commercial club bill law passed now in order to defend that suit, and at the same time make it lawful to obtain the remaining school land leases of their State street advertisements.

Do you know that recent investigations by a committee of the board of education show that the school children of Chicago are paying for books many thousands of dollars a year more than the children of other cities pay for the same books?
That the use of bills of the Commercial club provide no provision for the parents of the school children to share in the surplus of the school children provided by the book companies?
These bills do provide, however, for a method of issuing bonds to build, repair and furnish school houses and purchase sites, by which method the taxpayers will have to pay double for every school building and site, as compared with the method of the Commercial club bills which will reap the benefit.

FRENCH BUTTON STRIKERS WIN

Another Victory For French Workers Follows Close on That of Keymen

(SPECIAL TO THE DAILY SOCIALIST.)
Paris, April 26.—The second big strike within a month in France has been won, despite the use of all the police and military forces of the Clemenceau government against the strikers.

The buttonmakers of the department of Oise have won all along the line. There are only two or three of the employing firms holding out, and these are expected to sign the agreements with the buttonmakers within a day or two as they would practically be ruined in business if they do not.

all," while their parents looked on with wet eyes.

Take All Soldiers Away
The soldiers and mounted police squadrons have been withdrawn from the strike districts. The only echo of the strike now is the summoning of Platel and Isombert, delegates to the General Federation before the court of assizes. This summons is not expected to create any trouble, however, as the government shows every inclination to drop the prosecution of the men.

PRICE OF BREAD IS TO BE UNCHANGED; WHEAT DECLINES

Bread prices, it is thought, will not be advanced on May 1, now that the Patten corner is believed to be ended and wheat values have commenced to tumble. The master bakers never were particularly keen about raising the price of bread, and now that their excuse has been taken away they will in all probability not take any action at their meeting tonight, it is said. The price of flour is a little lower than it was, and there is every prospect that it will tumble more as wheat goes lower.

DISHWASHER IS HEIR TO \$30,000

Los Angeles, Calif., April 26.—From dishwashing to comparative wealth is the jump Oscar Stein, heir to \$30,000 in Milwaukee, has made. He did not know of his good luck last night, for his friends in the Los Angeles Y. M. C. A., through whom the young man was found after a world-wide search, have not seen him for several days.

TOILERS FINED; PAY DIVIDENDS

German Employers Take 24,000 Crowns From Tardy Workers in Month

(SPECIAL TO THE DAILY SOCIALIST.)
Vienna, April 24.—The workmen who are late have been mulcted of 24,000 crowns during the past month. The system for docking workmen who have forced the eight-hour day from reluctant employers is especially severe, these men being docked for a full hour if they are one minute late and in some of the factories are docked for a full half day's pay if they fail to meet the time clock promptly.

Get No Overtime Pay

The 24,000 crowns of which the men have been cheated represents this taking away of salaries for work done. Despite the fact that the men are cheated of a half day's work for being one minute late, they are often compelled to work for a half an hour to an hour overtime in the evening and of this no mention of compensation is made by the company.

CITY HALL GANG DEFIES WAYMAN Practically Challenges Graft Probe and Dares Him to Make Investigation

The City Hall gang has defied State's Attorney Wayman in a most effective manner by practically challenging the graft probe and daring him to investigate the Chicago City Railways company and its paving graft...

The concrete challenge was issued the day after Busse's crowd knew that Wayman was going to investigate graft. Complaint had been made to the superintendent of streets and alleys, Michael J. Doherty...

Whether Lorimer, with the \$20,000,000 waterway project behind him and the tremendous influence he is able to swing in Washington, will be able, even with Wayman's aid, to clean out the city hall of Chicago, admitting that he wants to clean it out, now appears to be the real question at issue in the great graft probe.

Lorimer has sewed up the state of Illinois in a gunnysack and reinforced the threading of the sack since last fall with the help of Shurtzoff et al. and it is quite possible that his airing of his grouch against Busse will make him take the dare and even go into an investigation of traction graft when he starts his city probe through Wayman.

Wayman, like every other state's attorney, has started his attack on the city hall by the easiest route—an attack on police graft, where he has offices enough to keep the city hall officials jumping for a year or two.

The secret of the graft fight lies in the trouble between Busse and McEwen, rather than between Busse and Wayman. McEwen is up in arms, it is said, because Busse double-crossed him during the gubernatorial campaign.

A series of specific questions will be propounded by the grand jurors to Dr. Evans of the Board of Health in the Smith case. Among other things an explanation will be asked of the presence of George J. McCormack...
