It is argued by some that it is best to wait until Altman's bond is fixed by the court after the preliminary hearing, when it is decided as to whether or not he will be held to the grand ture.

Vincent Altman's wife and family claim that they have letters from Corporation Counsel Brundage telling them that it is extremely likely Altman will get reinstated on the police force.

The police claim to have two mysterious witnesses who alleged that they saw Vincent Altman carrying a satchel

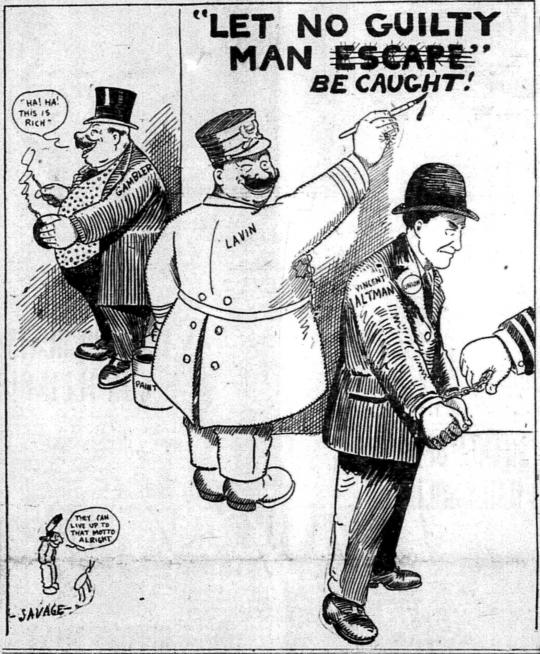

ers near the Standard Sash and Door company before there was an explosion and a fire in that building. Members of the carpenters' union scout this claiming that Altman, when about to be reinstated on the police force, would not be going around blowing up things.

Attorney John D. Farrell, attorney for the Carpenters' District Council, visited the Altman brothers in jail today, and they reiterated the statements they have already made as to their innocence. They were also examined by representatives of the police, but made no admissions or statements which in any way strengthened the case which the police claim to have against them. The police are still hunting more "suspects."

A few days after the Chicago Heights story came out in The Daily Socialist Acting Assistant Chief Patrick J. Lavin and Inspector Nicholas Hunt made a trip out to the suburb to see what was going on. They found conditions rather quiet, while Mayor J. C. Mote had taken a quiet and hasty vaca-tion, no one knew whither.

Why the Chicago police should both er themselves about Chicago Heights, which is outside of their jurisdiction, is a matter for speculation.

That there may be no doubt of the correctness of the certified copy there is to be found near the end of it the following:

"I. Abram J. Harris, clerk of the criminal court of Cook county in said county and state, do hereby certify the above and foregoing to be a true, perfect and complete copy of certain proceedings, had and entered of record in my office, in a certain cause lately pending in said court, wherein the people of the state of lillinois were plaintiffs and Herman Hecker, defeadant."

Thus it is seen that the sherief's office, the state's attorney's office, criminal court clerk are all involved in establishing self-made laws to whitewash the six machine gamblers of Cook county and especially of Chicago Heights.

For the benefit of State's Attorney John E. W. Wayman, his first assistant, Mr. Short, and especially for that of Judge Thecdore Brentane, the law governing alot machines is here published.

IN THE LAKE?

Did you ever feel like plunging into ering summer day?

There is no place like the lake for gaining relief from the intense heat in the streets of Chicago. The waters of Lake Michigan ever generate cool breezes—even in the hottest days of summer. Thousands—yes, millions—of mer time, and all agree that it is the best cooling-off process ever devised. hat's why the Cook county organization of the Socialist party has decided to give a trip across the lake on the steamship South Haven next Sunday, July 18.

Recall Milwankee Trip

Last year the Cook county Socialists paid a visit to Milwaukee on the Christopher Columbus. The trip was a com the boat declared in favor of more such trips. Every man, woman and child aboard felt like new born after inhaling the invigorating ozone of the lake waters.

The only grievance against the trip so far away that most of the day is spent on water. South Haven is much closer and has a great many attractions. Everybody will have plenty of time to spend on shore. Those who have crossed the lake be-

fore know that it affords the greatest opportunity for recreation. The sensaion of sailing on cool waters is exhilarating. The air is invigorating. The comforts afforded passengers is the omforts afforded passengers is the sest. Dancing and music is also one of the attractions.

High Diving a Feature

For the benefit of those who have never witnessed high diving, the ar-rangements committee of the Socialist party has secured a high diver, a member of the party, who will gracefully cut the water from the highest point of the boat. This is a speciacle seldom afforded Socialists, especially those who are forced to live in the heart of a big

GRANTED DIVORCE BECAUSE HIS WIFE MADE SELF THIN

Berlin, Germany, July 13.—A remarkable divorce has been granted by the courts of Silesia on the representation that a wife had become intolerably thin in order to accommodate her figure to the modish dress of the day. A Silesia judge was the complainant and the respondent was declared guilty in the eyes of the law.

The petitioner said when he married his wife she was of a good figure. This year she suddenly decided she must be thinner to keep pace with the fashions. She began a strenuous cure, which reduced her thirty-one pounds. Berlin, Germany, July 13.-A remark

ions. She began a strenuous cure which reduced her thirty-one pounds Three hours each morning she worked to grow thin. She played tennis two

hours and took several walks hours and took several walks daily, lasting an hour each. She ate like a bird and her rosy complexion gradually changed to a chronic paleness. She dwindled away until her weight, although she was five feet in height, was only is pounds. She attained her ambition, however, and could wear a really fashionable gown, which made her look like a sheestring.

ALABAMA SHERIFF REGISTERS BOOZERS AT SALOON DOORS

Mobile, Ala., July 13 .- In order to enforce the prohibition laws of the state of Alabams, Sheriff John S. Drago has placed deputy sheriffs in front of every near beer stand in the city, armed with a pencil and books, and all those who entered the places had their names re-

coated.

The object is to secure evidence that they bought liquer in the places.

The placing of the deputies at some of the places on the principal streets caused a sensation, and hundreds of men gathered around the officers as they took the names of those who came in and went out of the various establishments.

AUGUST 1 CRISIS IN CAR STRIKE

Employes of Both Companies Will Urge Their Bemands at Same Time

August 1st will be a critical time in the negotiations of the employes of the street railways in this city. On next Friday a committee from lo-

cal No. 260, Amalgamated Association of Street and Electric Railway Employes, will wait on President E. T. Mitten of the Chicago City Railway company and present the demands of the union for an increase of 2 cents an hour. The members of local 241 of the same organization have been refused a like demand by the Chicago Railways company, and the negotiations have halted until such time as the men or the south side lines begin treating with

Expect Road to Refuse

This will bring the negotiations on both lines to a head at the same time. It is likely that the Chicago City Rail-way company will follow the lead of the Chicago Railways Company and refuse the increase.

Then there will be dickering for sev-

eral weeks before any definite action is taken by the union. Every effort will be made by the union officials to avert a strike. There are more than 5,000 men employed in the combined force of the two companies, and the prevailing rate of wages is 27 cents an our. The union men are now asking for a minimum of 29 cents an hour.

Vote Is Overwhelming

The conductors and motormen employed on the Chicago City Railway cars took their vote Saturday and Sun-day to see if they would authorize their officers to make the demand for an increase in wages. The vote was overwhelmingly in the affirmative.

Pittsburg Walk-Out Direct Blow to Steel Trust's Open Shop Pelicy

Pittsburg, Pa., July 13.-As a direct blow to the open shop policy of the steel trust, a strike of the 16,000 mine workers in the employ of the Pittsburg Coal company ha. been called for Thursday. It is known that the Federation of Labor, as well as the United Mine Workers of America, has for some days been considering the advisability joining the tin plate workers in their resistance to the movement against or-ganized labor begun by the corporation.

Will Cut Off Trust's Supply

The shutting down of the mines of the Pittsburg Coal company will cut off the immediate coal supply of the Steel corporation mills. So many orders have been received for coal by the mines of the Pittsburg Coal company from the Steel corporation mills that orders have gone out for 2,000 more men to go to work in the mines this morn

The strike will mean the tying up of about seventy mines or almost haif the production of the great Pittsburg dis-trict. The Pittsburg Coal company some years ago took a contract to sup-ply the United States Steel corporation mills with coal for a period of twentyfive years, a minimum of 8,000,000,000 bushels of coal yearly being agreed on and the price to be fixed each year. Invoke Strike Clause

There is a strike clause in this con tract which releases the coal company from damage in case of strike, and no-tice will be served on the steel corporation tomorrow that a strike is threat ened and the company will take refuge behind the strike clause. But the mine workers assert that they will call ou at once the miners in any mine which begins to fill orders turned over by the Pittsburg Coal company.

Troops in Mine Strike

Sydney, N. S., July 13-Unable to cope cope with the disturbances attending the strike at the Inverness colliery yes-terday, Mayor D. H. McLeod was with the disturbances attending forced to call troops from Halifax to restore order.

The Inverness colliery is owned by the firm of Mackenzie & Mann, which

is not connected in any way with the Dominion Coal company, against which the Glace Bay strike is aimed, but about half the men at the Inverness colliery belong to the United Mine Workers of America, and they went out

on a sympathetic strike last Friday.

The men of the Provincia' Workingmen's association continued t work in the mine, but late Saturday, when they were leaving the works for their homes they were met by a crowd of 300 men boys and women, mostly Belgians, who saluted them with various epithets. Soon sticks and stones began to fly, and one Provincial Workingmen's associa-

COOKE MAY BE FREE THIS WEEK

Smith as Aids, Lorimer Is Hopeful

such men as George E. Cole of the Cit izens' alliance, Chief Justice Olson Judge Ben M. Smith and others, United States Senator William Lorimer is now confident that his strenuous efforts to free John A. Cooke, the convicted circuit court clark, will be fruitful. The prevalent belief now is that the man who was convicted of padding the pay rolls in behalf of political henchmen will be let out of Joliet on parole be-fore the end of the week, and that the pardon in full will follow shortly.

The junior senator from Illinois wen to Springfield today to place the entire matter of Cooke's release before Gov. Deneen, and while no intimation of the governor's attitude has been given. Mr. Lorimer is confident that he can persuade him to a policy of clemency.

Before Board of Pardons

Success in this effort will mean that Success in this effort will mean that Cooke's case will be taken before the board of pardons tomorrow, and, with the governor, the association that brought about the conviction, the prosecutor who tried the case, and the judge who heard it, in favor of granting him freedom; it is possible that he may leave Joliet within the next three days.

Word of the probable fruition of this plan was carried to the prisoner by his brother, William A. Cooke, who since the conviction has been a regular Sun day visitor at Joliet, and as a result the politician spent the least unhappy day he has had during his confinement. now has covered eighteer

Friends Feel Definite Hope

His friends and old associates also began to feel a definite hope that Cooke was to be given his freedom. Several of them probably will go to the capital for the pardon hearing, while it is certain that a delegation will go to Joliet to greet him if the prison doors are opened to him and that a cel-ebration will be held if he returns to Chicago a free man.

It is not intended to ask an outright pardon for Cooke, as many of his friends have desired, but a parole that -following the six months of good be havior prescribed by the statutes-will be replaced by a pardon.

'I am going to tell them how the money subscribed to form a Baptist university in the northwest has been perverted. Labor No Scapegoat

The attempt of the city government of Chicago to use the notorious Paddy Lavin to attract attention from their corrupt alliance with the gamblers by an attack on organized labor will fail.

It is too raw a deal, to use the jargon of the crowd that are trying to "put it over." It looks too much like another Town of Lake "burglary," such as Lavin has proven expert in conducting.

Just why organized labor should have been going around for more than a year throwing dynamite at gambling joints is something that has not yet been explained. So far as known there is no strike against Mont Tennes-except as the police regularly strike him for ribute. Pat O'Malley is not a delegate to the Federation of Labor and no one has offered any reasonable explanation of why the union the smoker. I found something that had been lacking in the other cars.

The air was full of "sulphur" generatmen of Chicago should fight his battles.

On the other hand, there is a very strong motive on the part of the police to make a scapegoat of labor in this regard. The exposure of the Daily Socialist, the rising tide of public indignation, which has not been checked by the threats of libel suits, the growing boldness vil iffer of the gathering.

"Pretty hot, eh?" I began,
"Hot! hot!" he yelled and then folthat some action be taken.

If now some method can be found, not only to make a pretense of solving the bomb outrages, but also of throwing discredit on the labor movement, from within which the exposure of the city's rottenness came, everything would be lovely.

It is a splendid scheme. At one fell stroke the administration sided, the calm that usually follows such an outbreak took place and I be such as took place and I being in a criminal alliance with the gamblers. At the same time. the whole blame is to be shifted to the only portion of society that is capable of breaking up the gang now in control.

To carry out this plan they put in power the most unscrupulous, shrewd, scheming man to be found in connection with the police force-"Paddy" Lavin.

He could carry out the scheme if it were not for one thing. He has the almost unanimous support of the "great" capitalist dailies of Chicago. Not one of them has had the decency even to refer to his notorious character. The immaculate Post, that is weeping over the criticisms of public officials, the "reform" Record-Herald and News that once fought Lavin until he found a way to close them up, the "radical" and "labor-loving" Hearst sheets, all have been whipped into line with the Tribune, and dare not open their columns to the truth about the proposal to place at the head of the police force of Chicago a man who should be an object of the care of that police. All are now joining in the chorus with the city administration in the effort to make organized labor the scapegoat of all the sins of the Busse administration.

But there is ONE BIG OBSTACLE IN THE ROAD OF produce and how much we shall pay for that product after we make it."

There is now a daily paper in Chicago that is owned and controlled by working men and women, that is not published for profit,
that is unhampered by any strings, that wears no muzzle of plutoc
muttered the drummer. But how are you going to keep the manufacturer from doing what he is now?"

"That's easy." I answered, "and shows you know nothing of what the S. cialists aim to accomplish. In the racy or plunder. That paper is the Daily Socialist.

The enemies of labor know this. The grafting politicians know it. The corrupt officials know it. They are all in alliance together. They are all striking viciously at this paper.

If they can put it out of existence labor will be dumb in the chapter of the United States geological presence of its shearers.

The Daily Socialist cannot be suppressed unless the workers of 1." this country fail to give it their support.

It is their paper. No one else can profit by its existence. While tion and commercial importance of the it exists they possess a powerful organ of defense.

The National Guard at Elgin

The probation officer who sought to protect the girls of Elgin from the members of the Illinois national guard now encamping in that city did not realize what she was undertaking. At first the whole population seemed to be in sympathy with her. Everyone was FARM INCREASE FOR MANCHURIA more or less aware of the fact that these annual encampments are periods of licensed delauchery, and was anxious to protect their siderable advance, says the Shanghai daughters from its effects.

Then wider forces came into play. The militia is one of the main props of the present system of exploitation. At no matter the area over which taxes are now colwhat cost, it must be maintained. It is needed to keep the workers from demanding a larger share of the wealth they produce. It would not do to permit the truth concerning this institution to become generally known.

So a great "storm of indignation" was carefully worked up, not against the members of the Illinois national guard, but against those who had dared to even hint at the truth concerning them.

The women who had spoken for protection of the daughters of the workers of Elgin were denounced and ridiculed, while all sorts of sloppy praise is showered upon these brave defenders of law and

Single Taxers Would Abolish Taxation Will C. G. Larsson name the capitalists who favor the land tax which he has shifted over to the southwes erner? Single taxers also want to abolish all taxation, holding that the rent fund does not become a tax on account of being taken in the form of a tax. That this "tax" would create a land monopoly, the very thing it is insended to abolish, is a new idea. If
