STAY-AT-HOME TOURISTS SEE MOSCOW, THE BIGGEST BELL AND UGLIEST CHURCH

THE RED SQUARE OF MOSCOW, CHURCH OF ST. BASIL IN THE BACKGROUND.

THE DAILY SOCIALIST TOUR OF THE WORLD.

Moscow, Russia, Feb. 24.—Moscow is particularly noteworthy as the city that boasts of the biggest bell in the world and the ugliest church.

Moscow is also noteworthy for other things. It is the most famous in Russia—being much more famous than the made-to-order St. Petersburg—is the center of the Russian textile industries and is one of the greatest railway centers in eastern Europe.

We got to see the Kremlin first. The Kremlin is the heart of Russia, the nucleus of the city of Moscow, the home of the czars of old, and still the center of the religious life of the empire.

It is a triangular inclosure, surrounded by a wall a mile and a half long and

containing the Cathedral of the Assumption, where the czars are crowned, and the Cathedral of St. Michael, where the czars used to be buried.

The wall of the Kremlin is surrounded by eighteen towers and pierced by five gates. The tower of Ivan the Great, within the inclosure, is one of the sights of the city. It is 322 feet high and contains thirty-four bells.

The great bell of Moscow, however, does not hang in this tower, nor in any tower. It was never much of a hanger, this monster. It now rests on a stone pedestal in the Kremlin. It is sixty feet in circumference and nineteen feet high, weighs 190 tons. It was cast in 1735.

Outside the Kremlin is the famous "Red Square" (see picture), the forum

of Moscow, and on one side this square is the church of St. Vasil, or Basil, which is undoubtedly the ugliest building of note in the world, not even excepting Senator Clark's mansion on Fifth avenue, New York.

This church, seen in the background in the picture, looks like a nightmarish wedding cake of gigantic proportions. It is not only a conglomeration of all known architectural styles, much like Senator Clark's mansion, but it is also, unlike Senator Clark's house, gaudily colored in all the colors of the rainbow.

It was built by Ivan the Terrible in 1554 to commemorate his conquests. It is without doubt the ugliest thing he ever did. From Moscow we go to Stockholm.

AMERINGER AND MILLARD TALK SOCIALISM AT FACTORY MEETINGS

HERE'S TASTE OF NOON MEETING

Millard Tells of Relation Between the Boss and Worker.

The Socialist factory meetings held yesterday are only a taste of the sort of work which will be carried on from now continuously till the April election.

BY WALTER MILLARD When the boss lays off a machinist for some length of time, he covers the bright metal parts with paint to keep them from getting rusty.

Should Study Socialism The young mechanic should especially study Socialism before he votes, because a Socialist not only promises to fill his stomach, but also that demand which is more imperative in a young man, namely the demand of the heart for an unrestricted opportunity to marry and found a real home of his own.

Speaking at the factory of the Crane company, the vice president of which is Charles R. Crane, a supporter of Charles Edward Merriam for mayor of Chicago, John Collins and Oscar Ameringer called on the workers to vote the Socialist ticket.

There was no abuse of the old party candidates, but Ameringer clearly pointed out that the old parties do not touch the needs of the men who work.

"Labor produces all wealth, and labor wants it," said Ameringer. "The men who work must organize into a political party to procure their rights."

Millard Also Speaks Speaking at the Automatic Electric company plant, Walter Millard said: "If the Republican and Democratic workmen voters furnished the campaign funds of those two parties then they would be labor parties."

"The man who feeds an elephant has the easiest time leading that elephant. The man who feeds the donkey has the easiest time leading the donkey."

"That is why the men who give the campaign fodder to the Democratic donkey have the easiest time leading the Democratic donkey."

"That is why those who feed the Republican elephant have the easiest time leading the Republican elephant."

Business Does Financing "The business interests finance the two old parties; that is why they continually explain to the workers the need of bad men on old party tickets. It is a question of where the campaign funds come from."

John M. Collins opened the meeting for Ameringer. He announced that the Crane company plant would be the scene of frequent meetings throughout the campaign.

Briefly, Collins pointed out the necessity of voting the Socialist ticket at the municipal election.

Under Mayor Harrison the revaluation clauses were stricken from the school land leases of three of the Tribune's lots, the other three having been changed under Mayor Swift, when the Daily News and other school land leases were changed; and Clayton Mark, who, as chairman of the finance committee of Mayor Harrison's Board of Education recommended the teachers' salary cut in 1902, is Clayton Mark, the vice president of the Chicago Savings Bank, situated on school land from which the revaluation clause was stricken out in 1901.

"Candidate Harrison is talking about a Non-Partisan Board of Education! 'Big Business' and 'Machine Politics' Are Always Non-Partisan."

Socialism ITS GROWTH AND OUTCOME.

By William Morris and Ernest Belfort Bax. One of the Socialist classics; until lately sold in this country at \$1.25. Written in a most charming style, it traces the growth of society from savagery through barbarism, slavery and feudalism to capitalism, shows how capitalism carries within itself the seeds of its own destruction, and why the coming of Socialism is inevitable. It also has a very interesting chapter answering some of the many questions as to how the details of life will be arranged under the coming social order. SETS THE PAGE FOR CHICAGO

Granite City, Ill., Elects Alderman With Daily Socialist Aid.

Just to set the pace for Chicago, Granite City, Ill., elected a Socialist alderman, Robert C. Wilson, from the Second ward, at a special election held here.

"The Daily" Helped Extra copies of the Daily Socialist circulated here had much to do with the victory," according to T. P. Burns, the secretary of the branch of the party in Granite City.

Continuing his account of the election T. P. Burns writes: "This victory, coming as it does before the regular city election, will make it possible at that time to elect more aldermen, if not the whole city ticket."

Comes as Encouragement This encouragement from Granite City comes at a time when the Chicago Socialists have made a running start in the majority race, while old parties weakened by factional strife cannot start their real campaign till after the primaries, Feb. 28.

The special campaign edition of the Chicago Daily Socialist which will be printed Friday, March 3, will be issued long enough after the primaries to give a correct line up on the records of the men nominated by the Democratic and Republican parties for mayor of Chicago.

Need Socialist Mayor These facts will be given in connection with the Socialist city platform, which will show the need to a Socialist mayor and city council.

Facts about what the Socialists are doing in Milwaukee will furnish an inspiration to voters in Chicago.

The constructive work which is being done by the Socialist administration in the Wisconsin city will show conclusively that a government by men who work in the best for the progress of an American city. There will be another edition on March 10.

The papers will be sold in bundles at \$2.50 a thousand and only for circulation in the city. They must be paid for when the order is given and must be called for at the office of the Daily Socialist, 150 Washington street.

ZABEL HELPS CROOKS' PREY

Socialist Prosecutor Stops Buncoing of Unwary Persons.

Special Correspondence. Milwaukee, Wis., Feb. 24.—If there still are workmen who believe that it makes no difference whether Socialists or old party men are in office, let them learn from this little incident, which happened here this week.

Woman Is Buncoed. On Monday a young woman came to District Attorney Zabel complaining that she had been induced by a broker to purchase the furniture of a certain rooming house.

Being from the country and not wise in city ways and having been made to believe that there could be money made by renting furnished rooms, the woman bought the furniture.

Immediately the money, \$700, was paid over to the broker, the owner of the house notified her that she must move her furniture away at once as she had no lease.

Money Is Paid Back Attorney Zabel at once instituted an investigation into the matter and found that the deal looked rather shady. So he notified the broker in question that he could choose between prosecution or paying the money back before Tuesday at 9 a. m.

Mr. Broker was there with the money and right on time, too. A printer also was taken in by a broker at about the same time. He purchased \$500 worth of stock in what he afterwards found to be an absolute worthless printing company. The crook in this case also was told to be there with the money.

Another Crook Caught He no longer had the coin but promised to see it back in installment—holding himself liable to arrest in case he fails to pay the money. Yes, it is becoming safer to live in Milwaukee.

JAPANESE DIET PLANS FIGHT ON SOCIALISM

Tokyo, Jan. 24.—The spread of Socialism in Japan was the basis of an attack upon the government in the diet today. The resolution was defeated by a large majority.

The diet also revived the recent controversy which resulted in the execution of Denfiro Kotoku, his wife and ten other Socialists, and the imprisonment of fourteen others. Premier Katsura outlined the efforts which are being made to prevent the growth of the movement.

DIE IN BURNING BELMONT MINE AT TONOPAH, NEV.

Tonopah, Nev., Feb. 24.—Fire which started in the timber yard of the Belmont mine in Tonopah still sends out volumes of smoke from the three compartments main shaft, and it is admitted by the mine authorities that it is beyond the power of the fire department to reach the fire.

In addition to those known to be underground there are said to be a number of dead lying in the bottom of the shaft, which were brushed from the cage in the first ascent.

REVIEW OF WOMAN'S SPECIAL EDITION

BY CAROLINE A. LOWE, Secretary of the Woman's National Committee.

Have you read the Special Woman's Day edition of the Chicago Daily Socialist?

Of course, you have! And you're doing just as each one of us is doing—you're carrying a few around with you to make sure that every one of your non-Socialist friends read it also.

It is overflowing with earnest truths that carry conviction to every sincere heart.

The front page picture of "The Pled Piper of Today!" Don't you recall how, as a child, you read with pulses throbbing, the poem of the Pled Piper of Hamelin?

How your ears rang with the entrancing music from his magic flute, and with all of the children of the village?

Mothers, think of it! What have YOU to do with war?

Every poor boy murdered upon the battle field was brought forth by some woman who went to death's door to give him birth.

The life of the womanhood of the race has been spent in ministering to these loved ones who are sent to the slaughter pens that profits may be made from the sacrifice.

The Boy Scout militarism is a deplorable outrage against modern society, breeding the lust for blood in the hearts of our youth.

"What have women to do with war?" is the answer hurled at us when we dare to question in the latest of our children.

Let us answer this question, my sisters, by crushing this dastardly attempt to steal from us our loved ones that they may furnish food for the cannon of our masters.

Now, don't you wish that every party member would read what Lena Morrow Lewis has to say on "Woman's Day"?

"Woman's Day is being observed for the purpose of uniting women in the comrade army of the Social Revolution."

The great lesson for men to learn is that the passing of class exploitation must carry with it all sex exploitation. Anything short of this is travesty.

"Wage slavery, sex slavery, belongs to the days of private property in the means of life.

"Social ownership will make possible the opportunity for women to live their lives as between beings.

"We shall be comrades with common interests, sharing the work and responsibilities and rewards of life.

"May this Woman's Day" institution in our party hasten the coming of the new social order."

That's it—the ideal relationship between men and women can come only under the Co-operative Commonwealth, when there is no class dependence and no sex dependence, when we are indeed "all comrades with common interests, sharing the work and responsibilities and rewards of life."

Guess what I've done with the article, "We Work While We Wait," by May Wood Simons?

I've cut it out, pasted it on a card, and it is hanging by my desk where I can refer to it at any and all times.

Think of it, 100,000 women members of the party in Germany. Isn't that inspiring?

And the work outlined by the International Woman's Congress is of the utmost importance to our woman's committee work in this country.

Of course, you can't hope to remember all of the various suggestions of work to be done, so you had better cut it out, also.

We don't believe in folding our hands and sitting down to talk about the coming of Socialism. We, too, work while we wait.

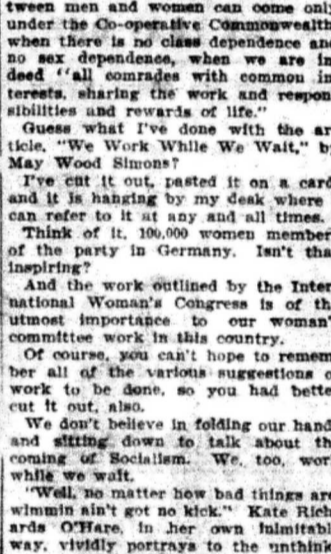

"Well, no matter how bad things are, winnin ain't got no kick." Kate Richards O'Hare, in her own likable way, vividly portrays to the unthink-

our special request because the majority of us women struggle blindly for years without catching a clear glimpse of the foundation stones upon which the Socialist movement is built.

These three fundamental principles of the Socialist philosophy deserve our careful study.

Do you want arguments in defense of Woman's Suffrage? "The Emancipation of Women," by Mary E. Garbutt; "Why Women Should Vote," by Carl D. Thompson, and "The Sources of Our Gains," by Mills Tupper Maynard are full of these.

You see for yourself how impossible it is to do proper justice to this intellectual feast.

The Woman's Agitation Committee has every reason to feel assured that its effort will bear good fruit, and the Chicago Daily Socialist may feel proud of this third annual Special Woman's Day Edition.

MANAGE OF "HUMBOLDT" SUCCESSFUL IN BUSINESS Someone has said that a man cannot be a Socialist and a successful business man at the same time.

The career of Mr. Edward Greenstone, now manager of the Humboldt,

LaCrosse, Wis., Feb. 24.—That capitalism is still on the job in Milwaukee (with both feet) can be seen by a letter sent out by the Merchants' and Manufacturers' association to its members.

Call to Battle "Be ready to go to Madison to fight these bills. The existence of our business is at stake," says the letter.

The warning is issued in view of the fact that two bills, one providing that all employees must be given thirty-six consecutive hours of rest every seven days and the other that women employed in manufacturing, mechanical or mercantile establishments, laundry, hotels or restaurants, shall not be required to work more than eight hours per day. Of the first the letter says:

Make Objection "That means that your teamster cannot feed your horses after six o'clock on Saturday night or before six o'clock on Monday morning."

LA CROSSE SOCIALISTS TO OPEN CO-OPERATIVE LaCrosse, Wis., Feb. 24.—A co-operative grocery store doing a cash business is to be opened here by the Socialist organization as the Wisconsin Consumers' union.

Stock is to be sold in \$5 shares, and 60 per cent of the membership must be union workmen. No more than two shares will be sold to any one person.

Profits will be used for advertising, sick funds and dividends. Union labor is to be employed exclusively, union wages will be paid and union hours observed.

Mr. Greenstone, who is a member of the Fifteenth ward branch, came to America nearly five years ago. He came to this country because the czar of Russia made it too hot for him when he took a leading part in the election of the Socialist members of the first duma. In southern Russia was in charge of a small business house.

He has been instrumental in turning the Humboldt into a Socialist store, and nearly every employe, beside the owner, S. I. Frank, are either Socialists or ardent sympathizers.

Mr. Greenstone met Mr. Frank when he first came to Chicago while he was buying his furniture, and Mr. Frank, after listening to him, engaged him at a small salary.

Mr. Greenstone is the manager, receiving a goodly salary and has an interest in the business. One of his first innovations was to induce S. I. Frank, the proprietor of the Humboldt, to put all prices in plain figures, so that customers could feel satisfied they were getting the bottom price.

Greenstone is 32 years of age, has been a party member in America two years. He speaks six languages—English, Russian, Jewish, German, Polish and Turkish.

PRICE OF FOOD REMAINS HIGH

Wholesale Figures Down Some; Retail Prices Not Lower.

BY KATE KEAN

Food prices on South Water street have dropped some since the first of the year...

Cold Storage Prices Break

The decrease in wholesale prices is due to some extent to the fact that the cold storage warehouses were compelled by overstock to unload some weeks ago.

The commission men generally believe that prices will continue to sink a little at a time.

So there is a promise that the high cost of living will get a smash where it hurts the most.

But at that the market keeps up pretty well with the figures as they were at the beginning of winter.

Poultry Higher

Poultry is higher. So are all vegetables, excepting celery, turnips and beans.

Wheat is selling at about the same price; no flour. And the sugar trust is selling its product at the same price to the penny.

While lard has edged a trifle downward, other pork products have gone up. Beef and veal are also higher priced.

On South Water Street

The following table gives the wholesale prices on South Water street, the central price maker of American farm products...

JAPANESE SOCIALISTS, HOUNDED BY SPIES, PREACHING FREEDOM FROM AMERICAN SOIL

DESPITE EXECUTION OF ELEVEN SOCIALISTS, LEADERS STILL WORKING TO OVERTHROW DESPOTISM OF FLOWERY KINGDOM.

San Francisco, Cal., Feb. 24.—Since the execution of Denjiro Kotoku and his eleven followers, the headquarters of Japanese revolutionists has shifted from Japan to San Francisco...

Learn Terrible Lesson

In the back rooms meetings are held daily and already the secret "junta" has been established here. The organ of Kotoku's creed—a replica of his ill-fated Heimen Shimbun—is being printed in San Francisco and distributed throughout Japan.

There are three men at the head of revolutionism in Japan, and they have learned a terrible lesson from the execution of their comrades.

They are T. Sasaki, H. Yamagawa and S. Osugi. The former is a lecturer and writer of note and the latter two are journalists of renown.

All three have served in Japanese prisons for criticisms of the government, and Osugi has still a short portion of his sentence to serve.

Upon his release he and Sasaki came to San Francisco, while Yamagawa and Dr. Tokidura Kato, a revolutionary leader of lesser note, will go to Hong Kong, there to establish a junta and distributing point nearer home.

Sasaki, looked upon as the strongest of this quartet, is forty years of age—slightly older than Kotoku. His first wife was the pioneer woman revolutionist of Japan and was once arrested by Tokyo authorities for alleged conspiracy against the government.

His second wife, Tame (pronounced Tawnee) Sasaki, may also be classed among the leaders of the "Cause," for she is a writer of national fame and one of the most eloquent women orators Japan has ever known.

An effort has been made to suppress her books on Socialism, but so great is the popular demand for them that the government has not succeeded.

The local revolutionist organ is known as the Shin-Sei (The New Voice). It contends that Kotoku's execution was an outrage of tyranny which must be avenged. No violence is counseled, their method being emancipation of the

people by means of education through publicity.

In this the revolutionists have a herculean task, not because the Japanese masses are hard to educate, but because of the traditional worship of the mikado.

However, the drastic action of the Katsura ministry in regard to Kotoku and his followers has lost him a great deal of popular favor, and it is likely that this powerful though non-royal underling will be overthrown at the next general election in Japan.

His logical successor is Prince Saionji, the idol of the common people, and it is believed that Katsura, foreseeing inevitable defeat, will retire when his present term expires.

In the meantime the diplomatic world interested in Japan's future is keeping a

weather eye on the Japanese quarter of San Francisco and the government spies, posing as denouncers of the gov-

ernment, are trying to warn themselves into the secrets of the inner council.

Nothing but makes it extremely difficult for the publishers of Shin-Sei to distribute the periodicals throughout Japan.

LETTERS AND COMMENTS ON \$25,000 FUND

THE AIM OF THE DAILY SOCIALIST BY ERNEST TALBERT, University Settlement.

Thousands of men and women in Chicago and the West are Socialists, but they do not know it. They need to be awakened, and what they believe needs to be clearly seen. They are Socialists in the making.

Years ago we used to think that all that was needed was to form a shut-in, independent group of thoroughly class-conscious workers. We have widened the meaning of the term and are adopting more practical methods.

The salvation of society does depend upon hopes and principles coming from the workers. Yet it is clear that the vitality of the movement is increased when we get the co-operation of all kinds of people.

"In breeding" works harm here as well as in effete royal families. The capitalist press is against the workers. Its editors and reporters run about with ropes around their necks.

The progress of any movement depends on three things—Emotion, General Ideas and Action. The DAILY SOCIALIST stands for Enthusiasm and Human Welfare, knowledge of present conditions, and the immediate righting of wrongs.

To keep healthy and strong, our feelings must be guided by information, facts once learned must be USED. This is the mission of the DAILY. It must spread the truth. It believes in the value of truth and investigation; a subsidized newspaper is sure of the value of distorting the truth and "fixing of the story."

No one is afraid of facing the facts except those who are protected by running away from them. The Socialist propaganda cannot do without a stronger, more fearless Western paper. Socialism in America is entering upon its real mission. It demands constructive ideas, faith in its cause and intelligent action.

This need is what the Socialist newspaper supplies. This is what THE CHICAGO DAILY SOCIALIST stands for.

FRENCH MONEY KINGS VICTORS

Ecuador Rejects Offer of Aid From U. S.; Favors Gallic Scheme.

Washington, Feb. 24.—The state department is now engaged in an investigation of a deal which a French syndicate proposes to put through in Ecuador.

For the purpose of cleaning up the city of Guayaquil, the bankrupt government of Ecuador now proposes to borrow several millions from the French.

U. S. Sought Le.—This news comes closely upon the heels of the failure, through opposition of the people, of the administration's attempt to negotiate the lease of the Galapagos Islands to the United States for \$15,000,000.

This sum, if the lease was negotiated, was to be used to put Guayaquil in sanitary condition, and incidentally, it was suspected, to enrich the administration.

Affects Canal Zone.—The United States is particularly interested in the sanitation of Guayaquil, on account of the proximity of this port to the Panama Canal.

Guayaquil is the last port of call in the west coast before reaching the Pacific terminus of the canal, where Uncle Sam has spent enormous sums in bringing about sanitation.

With Guayaquil cleaned up, and under sanitary regulations, a great menace to the canal zone would be removed.

Our Lazy Legislature

Every voter should visit Springfield for a few days during the legislative session. A little instruction to any who may contemplate taking a trip to see how the salons are handling the business of the people may save both patience and expense.

Well, by Wednesday afternoon it is sometimes possible to hear the gavel drop and to find the framers of our laws with their boots perched high on the desks reading the news of the day and puffing away at corporation-furnished cigars.

Whenever a law for the protection of the interests is needed these "servants of the people" wake up and enact one. When labor comes around and begs for some protection, these overworked "servants" are so tired that they simply have to go home and rest a little.

The Miners' Convention

The miners of Illinois are in session in Springfield this week. It is a significant gathering from several points of view. In the first place, the men who come as delegates from the various local unions are of the fighting kind.

To hear these men and the men who are still in the pit argue and reason fluently and logically, using the most powerful and refined language that may be employed anywhere, is an inspiration that overwhelmed the stranger who only seldom has occasion to listen to the men from the inner earth.

Something Wrong

THE HUMAN DRIFT

By Jack London (Reprinted from the Forum by Permission.)

"The Revelations of Devout and Learn'd. Who rose before us, and as Prophets Burn'd. Are all but stories, which, awake from Sleep, They told their comrades, and to Sleep return'd."

Rath

Dear Dad: Senator Lodge says we must have an independent judiciary. Independent of what? Is the judiciary now independent of business influences? And political influences? And Special Privilege influences? If it is possible that Mr. Lodge means a judiciary independent of the common people?

Foundation of Business

Deception may almost be called the foundation of business. It is true that if all business men would altogether discard it matters would probably be far better even for them than they are, but taking the human character, as it is, it is frankly avowed by business men themselves that no business could succeed for a single year if it were to attempt single handed and alone to adopt such an innovation.

Socialism and the Farmer

Comrades.—We wish to submit the enclosed resolutions, adopted by a local composed entirely of farmers. The farmers compose the voting strength of the nation and, as history plainly shows, are the most revolutionary class in the world. There are two things certain: First, to have any prosperity under Socialism or otherwise, the farmer must be benefited; second, for the Socialists to win they must have his vote.

Whereas, The Socialist party has no agreed or well-defined policy in regard to the irreplaceable farm land question, which was left open by our advisory convention at Chicago last year for discussion, therefore we as a farmers' local suggest the following policy of adjudgment:

What Shall We Do With the Trusts?

Can the trusts be "busted"? Is it desirable to "bust" them, if they can be "busted"? Both the insurgent Republicans and the Democrats want to "bust" the trusts. The trusts are a perfectly natural development of modern industry. It is impossible to tear them to pieces.

OPEN FORUM

NOT FIGHTING POLL TAX In your issue of Feb. 8 your special states that "Rose is fighting poll tax." This is a serious error, as I have always paid my poll tax. If I had not, in Mississippi, I could not vote. Also in this state the poll tax goes to help keep up the schools, and no good Socialist will go back on the schools.

Observations

WE are told that Mrs. Astor has been wearing a great deal of bogus jewels without suspicion. Say, fellows, keep this in mind till next Xmas! UNCLE KITCHEL PIXLEY writes: "Constable Seth Bardsley's tellin' all over town that his house cat has had a fit from eatin' meat. The old geezer's tryin' to break into the 'Society Dining' column, I guess. He hasn't had meat enough in the house to fit a cat since bacon went to 22 cents."
