# LISTEN!

Intelligent people everywhere desire to know how to get well and how to keep well.

Notwithstanding that many refuse to listen to the facts regarding it.

In all ages the progressive people have had to fight their way in establishing truth with the masses.

Some people will discuss criticism and condemn people and things regarding which, from a personal knowledge, they know nothing. Be progressive, open your mind for truth, refuse to condemn until you have sufficient knowledge of the subject to warrant an intelligent opinion.
