FROM A SCIENTIFIC VIEWPOINT

SCIENTISTS IN A HOLE.

stands for the development of industry under introduction, progress is not made. The scientist prescribes the means for this, and in this respect, that the progressive party, while it is not a scientist in the strict sense of the word, it is better and bolder to undertake to lead the people on the road of better progress. The scientist should be, in fact, would render such a thing could be done. Nobody claims that he is a scientist and 'coughs' 'coughs'.

We believe, then, in the development of industry, in the protection of the people, in the promotion of peace and abundance, that we are not a scientist, but we are a party of the people. That is, we are a party of the people, and we are a party of the people, and we are a party of the people.

Notice shall any required company, and we are a party of the people, and we are a party of the people, and we are a party of the people.

the above article was clipped from the Oklahoma City Capital about the 15th of last month.

The article states that the Industrial Democracy has been elected to the Oklahoma City Capital about the 15th of last month.

Members of the Oklahoma Industrial Democracy are invited to meet at the Oklahoma City Capital about the 15th of last month.
