EQUIPMENT FOR THE KITCHEN

Really is Most Important Part of the House, When All Things Are Considered.

It is a mistake to consider the kitchen as a mere utility room. The kitchen really is the heart of the home, and it is one that should be treated as such. It is the place where the family gathers, and it is the place where the day's work is done. It is the place where the family's happiness is often determined.

A kitchen outfit comes complete in the equipment that is needed for the kitchen. It includes a sink, a stove, a refrigerator, and a range. It also includes a variety of other kitchen appliances, such as a toaster, a coffee maker, and a blender.
