# ABOUT THE FARMERS' UNION

What It Stands For, What It Has Accomplished and What Its Continuation Means.

By Hon. GEORGE B. LAND.

The Farmers' Union had its birth in Texas in 1875. It was the result of the efforts of the farmers. It was the result of the efforts of the farmers. It was the result of the efforts of the farmers.

The purpose of the organization was to secure equity. To apply the Golden Rule. To encourage the credit and improve the system. To assist our members in buying and selling.

To teach the agricultural class in scientific farming. To establish the classification of crops, domestic economy and the process of marketing. To systematic methods of production and distribution.

To eliminate gambling, farm art and other vices. To change and alter the laws that oppress the farmer. To bring farmers up to the standard of other industries and business enterprises.

To secure and maintain political influence for the farmer and give to the farmer all the rights and privileges of the citizen. To enter the ranks of the highest of the land, of the highest of the land, of the highest of the land.

The power in the membership of the Farmers' Union is the power of the people. The power in the membership of the Farmers' Union is the power of the people. The power in the membership of the Farmers' Union is the power of the people.
