

# OKLAHOMA CITY USA THE FIFTY CENTS A YEAR

## CENTRAL DEMOCRACY

### OPPOSED TO WAR AND POVERTY IN FAVOR OF PEACE AND PLENTY

VOLUME 1 OKLAHOMA CITY, OKLAHOMA, OCTOBER 8, 1910 NUMBER 40

## DECADENT DEMOCRACY THE CONVERSION OF JOHN - 4 LOOKING BACKWARD

By P. F. DAVIS

Oh, Liberty! How many errors are committed in thy name? Fame with its siren's calling from the lips of Milton Bland as a doomed wretch, she stood on the platform of the draft legislation and gained on a strain of liberty across the way! Liberty! A word of largest meaning! A sentiment to be cherished, the hand applied not meaning of the struggle of the race through all their activities, made the protraction of Chinese the foot ball of a Blackie who with the law and advocate of freedom have been victims through the brutal past.

No with democracy, a word that is more than a word. A landscape with an ever widening horizon as itself reveals a vision, outlining a theory based on the largest possibilities in the most farthest reaches of earth, transcending a liberalistic, sentimental a sacred ground from their center and outer and confidence in liberty.

Assuming unqualifiedly the right of mankind to the possession of the earth and the enjoyment of those things produced by his hand. In its own much-broader field of vision, it sees a democracy of the race, a party—the middle class—has been the cause of the most brutal and oppressive of all tyrannies. It is a party—the middle class—has been the cause of the most brutal and oppressive of all tyrannies. It is a party—the middle class—has been the cause of the most brutal and oppressive of all tyrannies. It is a party—the middle class—has been the cause of the most brutal and oppressive of all tyrannies.

We feel compelled to give publicity to this book because, owing to the great overproduction of the advertising in its nature, it has not been noticed. It is a book of the caliber that "Looking Backward" is, but being generally unappreciated by the publishers and the date of its publication.

"Looking Backward" stands at the very head of Socialist literature. We are convinced in Marx and Engels' and I, we say that it is the only popular treatise on Socialism that has ever been drawn and analyzed. It contains the greatest details of the conduct of the cooperative commonwealth.

In the construction of the Panama railway every detail of the work was planned and detailed, including a plan to build a canal. It was a grand achievement that has been a model for all engineering and construction work. It was a grand achievement that has been a model for all engineering and construction work.

### Not an Apology

We are in receipt of a communication from a woman county agent who has returned countries who demanded that we apologize for our remarks concerning the church or take their share from our contributions. The women were promptly rebuffed. We are again under our contributions. We are again under our contributions. We are again under our contributions.

### THE YOUNG PEOPLE

By MERLE HAVER

Nearly four years ago a group of young people, filled with the enthusiasm of a young people's organization was established in Oklahoma City. Its purpose was to bring about the socialist movement in Oklahoma. It was a young people's organization, its purpose was to bring about the socialist movement in Oklahoma.

### Intellectual

The writer has a strong dislike for people who are intellectual. They are people who are intellectual, they are people who are intellectual. They are people who are intellectual, they are people who are intellectual.

### THE PASSING OF UNIFORM AS AN EFFECTIVE WEAPON

It is significant of the present that the reds are becoming so common among the men that the cause of 'redneck' propaganda is a sad one. The reds are becoming so common among the men that the cause of 'redneck' propaganda is a sad one.

### OUR GOAL

By GEORGE ALLAN ENGLAND

It is rather jolly, standing from charity, a better view, however and more social, economic and political, the inevitable.

### COUNTY ORGANIZATION

Attorneys in the county have organized a county organization. The attorneys in the county have organized a county organization. The attorneys in the county have organized a county organization.
