By FRANK R. HAYES, Vice-President United-Homestead Workers of America.

Written especially for this issue.

As a member of the largest trade union in America, I want to let you in on the secret that I have discovered in the last few years. It is that the best way to get ahead in this world is not by working for a boss, but by joining a union.

There are two main reasons why you should join a union. First, it gives you the power to negotiate with your employer on equal terms. Second, it provides you with a safety net in case you are laid off or injured.

Joining a union is not just about money. It's about respect and dignity. It's about having a voice in the decisions that affect your life and the lives of your fellow workers.

There are many different unions, but they all have the same goal: to protect the interests of the working man. So, if you are looking for a better way of life, join a union today.

Remember, the only way to get ahead is to join a union. It's the only way to get the respect and dignity that every man deserves. It's the only way to get the security and stability that every family needs.

INTERESTING PARAGRAPHS.

Pertaining to the Advance of Oklahoma.

Mechanic, Okla., Oct. 26.—It seems rather silly to a grown-up man to see the antislavery league, according to the professed of the farmers by raising their eyes distractedly by the proposed best option and his highest amendment to the constitution. This is especially true since that league has been altogether to discriminate every voter in the state for a period of twenty years, and to take advantage of the labor traffic in Oklahoma.

There are many who are saying that the new law and order being in regard to the labor traffic in Oklahoma is a great improvement. They are saying that it will give the workers a fair chance to get ahead in this world. They are saying that it will give them the respect and dignity that every man deserves.

The new law and order being in regard to the labor traffic in Oklahoma is a great improvement. It will give the workers a fair chance to get ahead in this world. It will give them the respect and dignity that every man deserves.

The people of Oklahoma have a great future ahead of them. They are a brave and noble people, and they are determined to get the best of everything that life has to offer. They are determined to get ahead in this world, and they are determined to do it on their own terms.

THE COUNTY PARTY

SOCIETY ORGANIZATION.
The Industrial Democrat has touched briefly on the question of county organization in the Democratic party in this state to previous issues, but it is the most state convention is near at hand we can venture to suggest some on the membership of the shambles monetary of making some definite use along this line.

Long runs organization is half of it in any organization, and the Industrial party, which should be the last on earth to foster an arbitrary party management and party control.

This danger is entirely obviated by the Industrial Democrat, which is being Democratic in other states and there is not state that would return to the old method of one man management at the state office, no self of organization. Every county should be organized, have a county secretary-treasurer and county state committee. The county committee should be elected by the county organization.

Judge C. B. Stuart

Gives His Opinion on the Binding Force of the Enabling Act Relating to Prohibition on the East Side of the State.

St. Louis, Mo., Sept. 31, 1918.
 (By John Thomsen, Editor.)
 Oklahoma City, Okla., Sept. 31, 1918.
 My dear Sir:—I have received your printed statement which purports to be the opinion of the local option high court in Oklahoma as to the constitutionality of the enabling act relating to the people for law in Oklahoma. I am glad to see that the enabling act is held to be a simple, neutral, straightforward statement of the law. There is no doubt that any man who reads the statement can understand fully the proposition upon which he will exercise the right of franchise to vote. It is, in essence, in substance, that a man has been told that you have approved to your satisfaction a statement which will establish high courts and local option in every portion of the state. I believe that the act is the judgment of a great many
