

ACTIVITY IN HARVEST

Authorities in Kansas Seek to Hold Agitators in Jail, But Most of the I. W. W. Men Are Busy on the Job.

(Special to Solidarity)
Kansas City, Mo., July 8
At this writing we are able to state that the four men arrested in connection with the murder of V. L. Bradley have been released from the Hutchinson county jail. A. J. Gude is in New York already and the rest of the boys are looking for that sacred job again.

The Federal Employment Office is advertising for 50 men for the harvest-felds of Lincoln county at \$3.00 per day, and they are also wanting men in other parts. The federal office is also giving men job slips with wages from \$2.50 to \$3.00 a day to those who cannot pay their fare, and are trying to flood the country with them.

There were four men in the Wellington county jail for 25 days, and two of them have been released. They were put on a freight train on being let out, and not allowed to go

to the town and look up some friend to try and find out if there is a wobbly in the county hospital who is supposed to have been shot in the leg. The report is also that his leg will have to be cut off above the knee. We do not know the name of this man, nor are we sure that there is one there, but the authorities would not allow the two men into the town of Wellington. The wounded I. W. W. man is supposed to be from Colorado and was shot at Caldwell some time ago. It may be Rye Dechenew, who was shot on June 12 or 13 at Caldwell. Nick Wilson and C. O. Madson were still the same at Wellington. They were badly beaten up and had several stitches taken in their heads. The bill and battery against them there are going to prefer charges of assault and battery against them after keeping them in the jail for about 30 days.

These indicate that most of the I. W. W.'s are out on the job at this time and are doing good work among the harvest slaves.

CALL FOR TENTH ANNUAL CONVENTION

Industrial Workers of the World.

General Office—Chicago, Illinois
307, 164 W. Washington St.

Pursuant to the provisions of the General Constitution, the Tenth Annual Convention of the Industrial Workers of the World will convene in the City of Chicago, Ill., Monday, September 20, 1915, at 9:00 o'clock A. M.

The General Secretary-Treasurer will within two weeks of the date of this call send to each Local Union, National Industrial Union and department affiliated with the Industrial Workers of the World credentials in duplicate for the number of delegates they are entitled to, based on the tax paid by such Locals and National Industrial Unions and Departments as provided for in the General Constitution.

Immediately upon receipt of the credentials Local Unions will proceed to choose and designate their delegates to the convention by regular election. The secretary of each Local Union shall forward duplicate credentials for their delegate or delegates to the General Headquarters as soon as the delegate or delegates have been elected.

All duplicate credentials must be mailed to the General Office not later than September 1, 1915. Original credentials shall be delivered to the delegate for presentation to the credential committee of the convention. All credentials in duplicate must have the seal of the local union on same, together with the date of election of the delegate.

National Industrial Unions shall have two delegates for the first ten

OPTIMISTIC OUTLOOK FOR ONE BIG UNION

So Says Observer, Who Has Traveled From N. Y. to K. C.

(Special to Solidarity)

Rockford, Ill., July 12
Since leaving New York City about three months ago, I have visited numerous large and small cities and everywhere I found the sentiment for the I. W. W. exceptionally strong. In West Virginia and Ohio amongst the coal miners the cry is, "Why doesn't the I. W. W. organize around here?" The railroad men on the E. & O. and the C. & O. feel and talk the same way about it, and in fact the railroad men east of Chicago and west to K. C. talk in the same strain. In Oklahoma the oil workers are clamoring for us, and the latest report from there is that Fellow Worker Frank Watts has sent in for a charter for a bunch of boiler-makers at Cushing, and that the situation there is very promising.

Around the wheat fields of Kansas the migratory worker is loud in his praise of the I. W. W. and ready to join the A. W. O. as soon as John Farmer comes across with the price. I am willing to pledge \$10.00 to Solidarity as a donation if the A. W. O. does not get at least 10,000 members this harvest. Of course, some will say that I am over-optimistic about everything, but if those who say this had been around with me they would say I was not optimistic enough.

Even in Chicago the slaves listened most attentively and gave most liberally for literature. The crowning feature of my optimistic viewpoint came when I arrived in Rockford, Ill. Here the I. W. W. Local 480 is in full swing and doing good work. They

ACT AT ONCE IN JOE HILL CASE

Only Twenty Days Allowed by Law in Which to File Writ of Error. Money Must be on Hand.

(Special to Solidarity)

Salt Lake City, July 10
By this time you all know that the supreme court of Utah has reaffirmed the verdict of the lower court in the Joe Hill case. Which means that Fellow Worker Hill will be shot dead in about six weeks, unless we take an appeal on a "writ of error," and if YOU care, bring the case to the Supreme Court of the United States. We are confident that if the case of Joe Hill could be tried outside of this state, before an unbiased judge and jury, the jury would acquit him without leaving their seats. That may sound like boasting, but the fellow workers who witnessed the trial and the hearing before the state supreme court, know that there is no case against Joe Hill. Some of the prosecution's testimony was so ridiculous that the spectators laughed outright, and the judge had to threaten to clear the court room.

Now, fellow workers, it is not necessary to go over the details of this case again. By this time you are all

familiar with the facts in the case. What is needed now is action. And quick action at that. Lawyers don't work for love. Money must be raised at once. There is no time left to debate the question whether we can get justice in the capitalistic courts. We must make the attempt anyway. Even if there is only one chance in a thousand to save his life, we must take that chance. "He's in their dungeon dark and grim; he fought for us, we'll stand by him."

Do something and do it quick. Hold protest meetings, send resolutions of protest to the governor of Utah. Raise funds and give them as good publicity as you can. Remember, there is no time to lose. The law only allows us twenty days to file the "writ of error." Act now, before it is too late.

Send all funds to Geo. W. Childs, Treasurer Hill Defense, 215 E. First South St., Salt Lake City.

Signed—Ed. Bowen, Philip Engle, George W. Childs, Jas. Wilson, Defense Committee

If it is found at the last moment that more copies will be needed—wire a Night Letter to reach us not later than July 24th.

Have Women Come to Stay?— Other News And Views

No, dear reader, the crack in the Liberty Bell, now enroute to the Panama Fair, does not symbolize the mental condition of those who believe that liberty still exists in "this fair land of ours." That crack indicates where the little liberty there is still left after Rockefeller, Morgan, et al., get through exploiting it could come out without any danger of suffocation from overcrowding.

If Patrick Henry were to arise now, "Give me liberty or give me death," he'd get the hook of capitalism instead. Ask Professors Neuringer and Brewster what they got, if you think this is a joke.

These professors who got fired for exercising the right of free speech in behalf of the working class—what do they expect? Do they expect the capitalists in control of the institutions of learning designed to perpetuate capitalism, to pay them for aiding to overthrow the latter? As President Harper of Chicago University said to the radical Professor Beman, when he was told, "You are in the wrong atmosphere, sir."

The president of the Mormon church testified in court that polygamy still exists in the United States. Evidently he is well informed on conditions in capitalist social circles, as well as in his own church. All the polygamists are not Mormons; nor are all the Mormons polygamists. They can't afford the luxury which only a big capitalist can enjoy.

Frank Tannenbaum has been writing a series of articles exposing conditions in the penitentiary on Blackwell's Island. A probe of his charges now seems likely. Tannenbaum's arrest is proving a boon to the capitalist in more ways than one. The indirect benefits of his unemployed movement have been many.

"Der Wecker," the Jewish I W W organ, is meeting with a great reception. There is talk of issuing it more frequently. "Pleinist" I W W monthly, may come out with four additional pages in French; at least, the advisability of such addition is now being considered. The editor of "El Rebelde," Spanish I W W organ, is translating St. John's "History of the I. W. W." into that language, for pamphlet publication. "Lithuanian I W W weekly," has translated and published the Brown-Eyed debate on industrial action. Taking it all in all, the I W W press is alive to its mission and is progressing. Push it along.

The man who tried to poison John D. Rockefeller, Sr. with a cake on his 73rd birthday, is believed to be insane. Belief evidently is well-founded. Nobody, except those rendered abnormal by the use of Rockefellerism, would ever think of presenting its worst peroration with any token of appreciation, much less of affection. To the dippy house with them.

The adjectives wasted on the war are on the increase. Some call it "the great war," "the world war," "the great social war," "the audacious war," etc. Now, we are neither so eloquent nor refined. We call it "the G-d d--ned war."

Wow! Solidarity's sub-getting record broken again. That's the ticket, boys. Now for the other, and then, still another. Keep the ball rolling; now that we've got the necessary momentum. Get a Green Book and fall in line. Whoopie!

What, in view of the "promised prosperity," due to the war, is the fly in the capitalist ointment? Here is the ointment with the fly, as clipped from the financial columns of the *New York World*:

"The real news of the day was announced by the government report points to an extraordinary harvest. As Europe's grain fields have been devastated and will not yield half a crop, there is every indication that every bushel that can be spared will be sent abroad at a record-breaking price.

"The government experts promise the greatest exportable surplus in the country's history. The report indicates a winter wheat harvest of 668,000,000 bushels, a spring wheat production of 269,000,000 bushels, making a total of 937,000,000 bushels, which will exceed the record-breaking crop of last year by 72,000,000 bushels.

"At yesterday's Chicago prices, the crop should add \$1,059,300,000 to the country's resources. Of this amount nearly one-third will be contributed by foreign purchases, thereby indicating a great trade balance during the coming fiscal year in favor of the country from this commodity alone.

"The government promises a corn crop of 2,814,000,000 bushels, and an oat crop of 1,399,000,000 bushels.

"This abundant harvest is certain, of course, to give great impulse to business not only in the agricultural regions, but in all channels to which the purchasing power extends, and at the same time provide an enormous tonnage for the carriers. All of this led a director of the Chicago, Milwaukee & St. Paul railroad to say yesterday that a boom is coming, but he feared the harassment of railroads by various commissions and public officials would place them in the position they were in the great boom of 1906, when they had insufficient equipment to meet the great demands upon them.

The Wilson administration is the fly in the capitalist ointment.

A New York newspaper prints the following editorial:

HAVE WOMEN COME TO STAY?

"An American engineer reports that the women who are employed in Harper munitions factories, working on lathes, drilling machines, etc., are demonstrating that their labor is just as efficient as that of the men they have replaced. Similar testimony as to the efficiency of women emergency operatives comes from England.

"Apparently there is a substantial foundation to the opinion, expressed by the British National Union of Railway Men as to the effect of women's labor on masculine employment and wages on the continent, 'working 'come to stay' in occupations hitherto monopolized by men? And granting the permanence of their employment, will the result be to cause a readjustment of wages on the part of the lower tiers of female labor?"

We believe that women have 'come to stay' not only in Russia and England, but also in this country. It may not be generally known that women are employed as core-makers in the Worthington pump works at Harrison, N. J. This is foundry work of the hardest kind. The great electrical manufacturing companies, such as the Western, General, Westinghouse, etc., are employing women as armature winders and in other occupations once believed to belong to the men exclusively. And they are going to be pushed into other lines according to the capitalistic indications, as fast as possible. What is to be done then? Organize them along with the men, just as they work with the men. Don't organize them into separate "women's trade union leagues." The Lawrence, Paterson and other I W W strikes show the separate sex organization to be unnecessary. At the same time they refute the old male cry that "women won't organize and strike." They do both too well to please the employers, wherever they have tried it. Encourage them wherever possible by granting them equal opportunities, duties and privileges, even to the holding of executive offices. That is the way to get equal pay for both men and women and to put a crimp in the capitalists' intention to make scabs of women workers. J. E.

Birth Control In America

(*"Freedom," London, England*)

"There appears to be a movement on foot present in America, which, if successful, will be the first vital step toward the overthrow of Puritanism, as well as the slow but certain downfall of Conservatism in this country. It is the Birth Control movement, and it has grown so rapidly in favour and strength during the past few months that within New York City alone there are two separate Birth Control Leagues—one consisting of members of the medical profession, and the other mainly of feminists and people of feminist sympathies.

It is now over forty years since there were placed on the Statute Book of the United States government laws which have since been amended and hurried congress in the last hour of March 3 (new administration) known as the "Comstock Law," which prohibited any matter passing through the mails which, in the opinion of Anthony Comstock, was "obscene." This implied a religious as well as moral opinion.

Robert G. Ingersoll and his followers arose at once to strike a deadly blow at the religious part of the law, and succeeded so well that a few years later the law was modified, and religious prejudice was removed. Let it be understood that it was not removed from the Statute Book until after there was no use for it. Ingersoll's propaganda against the Church and religion was so effective and widespread that by direct action and the education he undermined the Church at its very foundation, and left the stupid law hanging in Washington like the dried shell of a tortoise.

They tried to induce him to tell of my whereabouts and my plans, on the promise of leniency; failing that, he was taken to jail and locked up until bail could be found for him. His case is still pending. The Free Speech League has taken it up, and are trying to get it tried before a jury. It will no doubt be held over until the October Court opens, a few weeks following Mr. Sanger's arrest, some person or persons entered his studio, and a box of private letters written to him by me from Europe were mysteriously missing.

In the meantime a tremendous indignation swept the country at Mr. Sanger's arrest, and through it an overwhelming interest in the subject of birth control. At last the great conspiracy of silence on this subject was broken, and the capitalist press took it up from all sides. One conservative daily has offered a prize of \$25 for the best letter on the subject of family limitation.

As I mean the conclusion of the work which I came to Europe to do, the thought naturally came to me, "Shall I return to America, and stand trial for these indictments?" We who know the State and its machinery, know that it is not built upon reason or justice, or upon a desire for human welfare. We know it maintains its hold upon us by force, and for me to return and expect to reason with a Government which knows no reason, seems a childlike act.

On the other hand, there is the danger of this movement being transferred from the control of the State to the control of the medical profession, which in reality is only an exchange for high priests—another Church which the workers must pass through to get to the knowledge that rightly belongs to them. It is my desire that such knowledge should be available to every adult man and woman, and especially to the working men and women.

There have been so many letters come to me these last few weeks urging me to return to America for a

you resolve a conscious fighting character, and in this regard which I resolve to give up my own body, but such rights involved a knowledge of the means to prevent conception. The columns were thrown open for opinions, and letters poured in thick and fast from all over America. Several of our nine issues were suppressed and confiscated by the Government, and in August the Federal grand jury returned a verdict against me on five indictments on twelve counts or a liability of twelve years' imprisonment. But I had no intention to undergo imprisonment for merely discussing a subject. There was already printed, and waiting in storage in various parts of the United States, a pamphlet giving direct information on family limitation. The authorities heard of this, and were anxious to push my trial on the pending indictment, and to do so they sent me an order to do from doing any further work on the subject. The trial came up in October, and I asked for a postponement to prepare my case. The Judge refused, saying I had had time enough to prepare it. I then took my own postponement, and left for Europe. Three days later there were hundreds of thousands of pamphlets on family limitation passing through the mails into the various industrial sections of the country.

The fact that I am a middle-aged, middle-class, hard-working person, led the Judge to allow me to go without bail, so that my leaving the country made the authorities quite nervous. Mr. Sanger laid a trap by sending a man calling himself a "comrade" to Mr. Sanger's studio. This man showed great interest in my work, and after a second call of friendly interest got Mr. Sanger to give him one of the pamphlets on "Family Limitation." He left the studio, and in a few minutes returned with a warrant for Mr. Sanger's arrest, and a warrant to search his premises, which was done.

They tried to induce him to tell of my whereabouts and my plans, on the promise of leniency; failing that, he was taken to jail and locked up until bail could be found for him. TO THE "SATISFIED" HARVESTER

(Continued From Page 1) mind the "poor farmer"; try to get some rags on your own back before you begin to pity the ones who are already well off—and who skin you every time all they have the power to.

CALL FOR TENTH ANNUAL CONVENTION

Continued From Page One thousand members, and one delegate for each additional five thousand members or major fraction thereof. Local Unions directly chartered by the Industrial Workers of the World should have one delegate for each two hundred members or less and one additional delegate for each two hundred members or major fraction thereof.

NEW JEWISH LITERATURE

The Jewish working class education along revolutionary lines has been sadly misguided. Publications such as the Jewish Daily Forward have, for instance, always referred to the general strike as "general nonsense." Since the European war began, these pamphlets in Jewish are on hand for distribution. They sell at \$2.50 per hundred, single copies 5c. Let us hear from fellow workers and locals that are interested. Address Secretary Shatz, care of Local 85, Br. 5, I. W. W., 644 Twelfth St., Chicago, Ill.

Reduced Literature Prices

To stimulate movement of literature, a discount of 20 per cent will apply on all quantity orders received with cash to cover same during July and August. If you need literature now or will be in need of some soon, now is the opportunity. Make out the money order for 20 per cent less than the regular quantity price.

OPTIMISTIC OUTLOOK FOR ONE BIG UNION

(Continued From Page One) have a fine hall and a splendid bunch of members who were all busy putting up a picnic. They pulled off the picnic in fine style, their own band furnishing the music, some music, and Fellow Worker Elizabeth Gurley Flynn furnishing the talk, some talk, believe me and needless to say the picnic was a grand success, the local clearing over \$60 and taking in several new members.

REVERIES ON BRADLEY'S DEATH

By Covington Hall. I have just read in Solidarity of the murder in Kansas of Fellow Worker Bradley in the Northwest. If he is the same Bradley I met in Portland, Ore. he was a man above the average and a bono worker. He was an ex-United States soldier, and like all the ex-soldiers in the labor movement, could not abide the idea of driving losses. Like all of them, too, he hated the "system" with a burning hatred. This effect of Army and Navy training on workmen seems to have been entirely overlooked by most revolutionists, they claiming this training is all evil.

TAKING EFFECT IN WASHINGTON

Spokane, Wash., July 6 Solidarity: Just as a reminder to show what effect the agitation is having on the slaves in this section of the west, I am enclosing a clipping from the Spokane Chronicle. We might not occupy the limelight, but the "work" is merrily going on. Farmers are already queuing in the Palouse, Bend and other sections of the country. Have just returned word that Judith Basin in Montana is certain.

FLYNN PLEASÉS MINNESOTA AUDIENCE

(Special to Solidarity) Thief River Falls, Minn., July 5. The Gurley Flynn meeting at Thief River Falls was not as well attended as it would have been under favorable conditions. The weather was bad, and the county was in the midst of a "wet and dry" fight about all the people cared to listen to, were these "wet and dry bunk peddlers." But with all this against us, we had a better meeting than we expected and Gurley Flynn delivered a lecture in large packages. She was the first I W W to speak here, and many attended the meeting out of curiosity, expecting to hear a bombastic trade unionist everything in existence, but instead they heard a cool, constructive talk on labor and solidarity. Many who are opposed to the socialists and the trade unionists, were won over by Gurley Flynn, and came away satisfied that the I W W principle should be the basis of all labor organization here, and if she tours this part of the country again, we will be able to understand the reporter's dream. SAFEGUARD HARVEST STAKES

Kansas City, Mo., July 2 To All Delegates and Members of the I. W. W. There are hundreds of stick-up men and thorn grafters in the Kansas harvest fields, and if you wish to safeguard yourself from being robbed, you can send the money you do not wish to carry with you, either to the general office on a deposit, or to the organization of a farm laborer's union to control the labor supply through the Palouse and Big Bend this year.

WANTED 800 New Subscribers

IN THE NEXT TWO WEEKS Owing to the unusually large number of subscriptions expiring during the last two weeks the new ones and renewals received have only just about balanced this number and we are now needing 800 new ones to make the 1,000 mark set for this month. This, however, is not a hard task, it will mean only 400 for each of the two remaining weeks of the month.

For a limited time the offer of \$3 worth of your choice of literature handled by the Bureau given free of any reader who sends in \$6.00 for six yearly subs will still hold good. This is your chance to get a nice stock of literature on hand for your personal use. Or send in \$6.00 for six prepaid yearly sub cards, and state what literature you want to the extent of \$3.00.

I. W. W. Preamble

The working class and the employing class have nothing in common. There can be no peace so long as the latter shall have control of the means of the working people and the few, who make up the ruling class, shall have the power of life. Between these two classes a struggle must go on until the workers shall have taken possession of the earth and the means of production, and until they shall have organized into a united and free society.
