

VOL. 8. WHOLE NO. 392 PRICE 5C. CHICAGO, ILL. SATURDAY JULY 14, 1917 SIX MONTHS, 50 CENTS. \$1.00 PER YEAR

Butte Miners Standing Firm

Strikers Ignoring All Attempts of the Mine Owners to Discourage and Disrupt Strike.

The strike situation in Butte is generally unchanged. The miners are holding out valiantly for the victory that is already in sight. And they are doing so in the face of a mad campaign of lies and slander from the press and other tools of the mine owners.

From every subsidized source in Butte for the past two or three weeks a persistent, lying and malicious rumor has been circulated that the newly organized miners' union is dominated by "German influences," that the town is controlled by "German agents," and that the men on strike are unpatriotic, hostile to the government, and actuated by a desire to hamper the government in the conduct of the present war with Germany.

To those that are at all familiar with conditions here in Butte, such stories are merely crude jokes, but the companies have counted greatly upon the effect the stories would have outside of Butte.

As to the attempts to settle the strike by breaking up the solidarity between the miners and the electrical workers the Bulletin is specifically clear:

"The companies promised the electrical workers a SUBSTANTIAL INCREASE if they would go back to work, and when they inquired what was meant by 'substantial,' they were told that its cost per day was mounting.

"The electrical workers feel that the companies should count Webster, because it is right, the companies are wrong.

"The way the bunch of local freebooters would pounce on that two-bit day would soon demonstrate that it is not 'real,' 'solid' or 'true'—in fact, quite the contrary."

And in answer to the statement made by the mine owners as to how costly the strike is to the strikers it says:

"They say we are losing about \$15,000 per day.

"That may be true, but we are losing only \$475 a day as individuals, while THE COMPANIES ARE LOOSING IN PROFITS ALONE \$200,000 EVERY DAY.

"In addition, they are paying out for trams, cars, and other expenses, about \$40,000 every day.

"Therefore this strike is costing the companies ONE HUNDRED DOLLARS EVERY FOUR DAYS, amounting in all to date at least SIX MILLION DOLLARS.

"We don't count our wages lost, either, for when we win the strike it won't take us long to make up the few dollars we are out.

"Six dollars a day will soon fill the gap.

"Further, most humans have a vested interest in this strike. It is the first time they have had one for years.

"None of us are being choked by poisonous gas, and we don't need to watch the 'back' or the 'leading wall'."

The Nut-cracker's a Good One - Now for the Pressure!

Lumberjacks Determined and Enthusiastic PICKET LINES UNBROKEN COMPLETE TIE-UP IN SIGHT

The striking lumberworkers of the northwest are standing as solid as a rock for the winning of the strike. In the face of the united opposition of the lumber companies and their hirelings, the strikers are more determined than ever to hold out for a complete victory.

difficult value in the face of the wonderful solidarity displayed by the lumberjacks. The Anaconda Mining company, one of the biggest holders of Montana timber lands, is greatly perturbed over the strike and exceedingly bitter against the I. W. W. for the double crime of pulling a strike of their lumber as well as their mining slaves.

The strike of the lumberjacks has already cost the companies millions of dollars, and the end is not yet. Unless they give in before the united forces of their organized wage slaves, their losses will be much greater.

And this is not counting what they will have to pay to the victorious lumbermen in the way of more wages, shorter hours and better conditions, when the strike is over.

From Missoula, Montana, comes the following report from Arthur Smith, secretary of the Missoula branch of I. W. W.:

"The lumber industry is closed down here. The A. C. M. Co. came out all but the bosses and the gunmen.

"The A. C. M. Co. mill at Bonner is shut down, also the Western Lumber Co. Big and little are shut down.

"There's no trouble and no chance for any. The bosses are up in the air, appealing for government aid. But the men's arms are folded, and no scale in sight.

"Here the strikers can find plenty of work in other industries and their pockets are not empty.

"Z. I. Turner is having good prospects, and those who are not lined up are lining up at each meeting."

From Bonners Ferry, Idaho, Albert Kinross and John Crowley of the strike committee write as follows: "Things in this neck of the woods are of action very costly as well as of

Arizona Strike Developing Rapidly

Copper Mining Industry Almost Completely Shut Down

Victory in Sight; Funds Badly Needed

(Special telegrams to Solidarity.) Bisbee, Arizona, July 4th. Industrial strike of the entire mining industry of the west developing rapidly. Miners lining up in Industrial Union 800 to enforce demands in great numbers. In Bisbee over ninety per cent are on strike. Globe, Miami, Clifton and Morenci practically one hundred per cent out, hundreds joining the one Big Union every day. Victory now assured. A. D. KIMBALL, Secy.

Salt Lake City, Utah, July 6th. All Arizona mining camps now on strike. Bisbee, Miami, Globe, Swansons all standing firm. Federal troops are at Globe. Funds are urgently needed. GROVER H. PERRY.

Salt Lake City, Utah, July 11—200 miners forcibly deported from Jerome. Several arrested, including J. P. Thompson. Makes strong appeal for strike funds.—Grover H. Perry, Secy. I. U. 800.

The striking metal miners of Arizona are still making gains. The spirit of solidarity is increasing daily. Many crude attempts at frame-ups have been made by the charged mine owners and their tools, but they have been promptly exposed and made ridiculous. There has been no disorder worth mentioning in spite of all of the hysterical yells in the press about the "harmless" I. W. W. who are apt to do in a strike of the

The fact is the miners are determined to win the strike. They realize full well what every day the mines are closed down is costing the Copper Trust, and they also know it is but a matter of time when their full demands will have to be granted. The miners are strong for the six-hour day proposition. The picket lines are growing stronger every day and the general situation is well in hand.

At Globe, on July 4th, a bunch of gunmen cleared the streets with bayonets while Governor Campbell and Superior Court Judge Shits drove a truck load of provisions through the picket line into the company's property.

From Miami, Fellow Worker Oates writes as follows: "There are practically no men working here with the exception of a very few pump men. The Miami district is all serene. On the other side of the hill, though things are a little different. They have a strong 'Citizens' Alliance,' and from all reports they are in a hostile mood to anything that looks like unionism.

The strike was called under the Metal Mine Workers' Industrial Union No. 400 six hours before the W. P. M. made any attempt to call off its members. The Superior and Boston Company and the Iron Cops at once conceded the W. P. M. demands, but we immediately formed a strong picket line and in one day forced them to call their men off until a conference could be held by committee of the two organizations.

The spirit of the entire rank and file is for complete solidarity, and we don't expect that Mr. Cannon will be able to hoodwink the miners into going back to work until all the companies accede to our demands. There are twenty different nationalities involved in the strike at present, but they are all lining up rapidly into the One Big Union. Moyer has telegraphed to Halsee stating that men working there will not be considered scabs or unfair to organized labor. This action of Moyer's is surely boosting 'Red' along in the state of Arizona. We had a conference with Governor Campbell and Major Bunde yesterday, and we offered to do all in our power to help preserve the peace. Any attempt at starting trouble will come from the companies and their tools, but we are looking forward to victory and hoping for a successful strike in every sense of the word.

Bisbee, Arizona, July 6. The situation here is 110-top. Victory is sure. The big industrial strike of metal mine workers, which is fast spreading over the entire west, has already shut down mines to the extent that copper production has decreased a half million tons a day. In the Bisbee district the normal output of ore is one hundred and eighty-five cars a day. Now an average of fifteen cars leave here a day. The above have been abstracted by the big city papers, although they purport to be uninterested in the west.

Over ninety per cent of the five thousand miners working in this district here are on strike. The ten per cent still working includes bosses and some of the mechanics. These are growing less every day. Our Mexican Fellow Workers are out almost to a man. Out of three hundred and fifty on top at the mines, only eighteen are working now. Over three hundred of them have taken out red cards. The local newspapers are very entertaining, saying that the men are going back to work today, and so on, but very few of the work-ers read them any way, so their humorous interpretations and attacks are not taken seriously by any one here.

They are busy printed in order to mislead the workers in other districts. Fewer men went to work today than any other shift. It is rumored that several strikes in the mines are being led by the stockholders. We are stronger than ever and our success is assured. We will go back to work when all our demands are granted, and not before. We have received wires from all over, assuring us support, among them one from the harvest fields, where the A. W. O. No. 400 of the I. W. W. is in full job control. Globe, Miami, Clifton and Morenci are already out practically one hundred per cent, as even newspapers which are bitter against us admit. Reliable reports from Jerome, Swansons, Kingman, Hazelton and many other camps in Arizona and all over the west indicate that they will soon be in line to enforce our demands from the bosses all at once. We have received wires from Bisbee that the Anaconda smelters are shut down tight for the first time in years.

In Butte they are stronger than ever and are sure to win. On Sunday night, July 1, we held an entertainment and dance at the union hall, which was packed full. Stanley Clark, who has been out from Butte, was cheered to the echo when he held that if the working class was translatable in the same way from Butte to the capitalist class, when demands and gets higher prices, dividends for their copper, ought to be stood up against the wall and shot. Lemonade and ice cream were served to all. The dance floor was packed.

We are holding big enthusiastic meetings in the City Park every night. Next Sunday evening, July 8, there will be another smoker, followed by a dance at the union hall at 7 p. m. The last smoker on June 7 was a big success, and we are preparing for a similar one on July 14.

Hebeo, Ariz., July 6. The situation here is 110-top. Victory is sure. The big industrial strike of metal mine workers, which is fast spreading over the entire west, has already shut down mines to the extent that copper production has decreased a half million tons a day. Reports from all over the strike district show that the strike is fast resulting in a general tie-up of the lumber industry. The lumber companies of three states are in a position where they will soon be compelled to either grant the demands of the strikers or close down operations altogether. And not only the lumber companies but the fruit raising industry of the entire coast is being menaced in the same manner. It is feared that a lack of lumber for boxes and crates will force many fruit packers to close down. Even the mining companies are beginning to worry about where the necessary lumber is to come from to enable them to adequately timber the mines for future operations. Montana, Idaho and eastern Washington are almost completely strike-bound and the lumber companies have been forced to admit that unless the strike is settled soon the mills of the entire district will have to close down for lack of logs. In a few places feasible efforts have been made to keep scab crews on the job, but these have been mostly discontinued. And the strikers have settled down grimly determined to make their masters come across with the things they have the right and the power to demand. The lumberjacks are not drinking and are conducting their senses in such a way that even their enemies cannot accuse them of the things they would like to accuse them of. It is said that scabs are being gathered on a big scale to be shipped into the woods under guard. But the high price of scabs and the shortage of guards would make such a course of action very costly as well as of

difficult value in the face of the wonderful solidarity displayed by the lumberjacks. HOPE

The question is often asked, "Is life worth living?" The only answer is, if there are to continue in the way that they are at present, then life certainly is not worth while.

What then is the reason that we still continue to play the game? The whole thing can be summed up in the old axiom, "While there's life there's hope." People in all walks of life are dissatisfied with life as they have to live it. Hunger and want, hard monotonous toil with but small (very small) remuneration is the lot of the workers.

Some, 'tis true, have given up the idea that this life can be made worth while. They looking into the future can see nothing and therefore pin their hopes on some future existence. Capitalism and its spokesmen, knowing only the comforts and power that can be bought with gold, hold out to the workers a promise of delight in some future life when all the joys of this life are over.

Inspired by hope that she can escape the drudgery of the factory, the working girl marries; she thought that some day he may become a foreman, the "Great American Sissor," too, on day by day. As Omar puts it, "Some for the glories of this world aspire, And some long for the prophet's paradise to come."

There is, however, an ever-growing number of workers who refuse to be deluded with promises of "pie in the sky," or the vain hope that they can rise to the doubtful position of a slave driver. They realize that life is large and many sided; they know that this world is a beautiful place and that there is enough for all to live in decency and comfort. And they demand that they shall be allowed to LIVE.

Conditions as they are today are not the result of the anger of "a just and merciful God." They are not the dire punishment for sins committed. They are the result of the fact that one man owns the means of life of another man. Realizing that we cannot live a life worth while AND KNOWING HOW TO these dissatisfied workers have banded themselves together into the Industrial Workers of the World, intending to take for themselves the machinery of production and run it for the workers.

It is not claimed that the whole question of life will be solved by rendering all people economically independent but it will give them a chance (that has been heretofore denied to them) to live and enjoy life.

The grant specter of poverty will no longer dog their every step. The struggle for existence will forever be solved. Rest and recreation will be no longer denied to them. Each will have the opportunity Life, Liberty and the Pursuit of Happiness.

Hope, that is what keeps people alive, hope that he may be happy. The I. W. W. is not only the hope of the dispossessed working class, but the hope of the world.

FRED HARDY.

POLICE CHIEFS SMASH PER JURY PLOT!

Rena Mooney Defense Opens. Legal Jury Depended Upon to Secure Hanging Verdict

Prosecution Contends Strike is Conspiracy and Espion Salts High Explosive

The principals of the San Francisco perjury plot listened to a scathing indictment of two of their main perjurers this evening, and every person in the courtroom listened breathlessly, whilst Chief of Police Walter Peterson, of Oakland, and Inspector of Police William H. Smith, told judge and jury how, in their belief and to their actual knowledge, Mellie Edeau and her daughter, Sadie, had perjured themselves in the trials of Warren K. Billings and Thomas J. Mooney.

Chief Peterson testified that Mrs. Edeau came to him a few days after the explosion, and asked that he delegate an officer to accompany her to San Francisco, as she wished to find out if the men arrested in connection with the explosion were the same men she had seen at Market and Steuart streets, carrying a black suit-cab with metal trimmings, and whom she thought were acting suspiciously. Mr. Peterson assigned Smith to take Mrs. Edeau over to the San Francisco city prison, and report the result of the visit to him. She asked if she might use an assumed name, and Mr. Peterson told her that she might that day, but that if she identified the men she must disclose her real name. This emphasizes the point that Mrs. Edeau failed to identify the men, since she did not return to reveal her true name.

Mrs. Edeau testified in three different trials that she saw the defendants and Weinberg's jinxey at 721 Market street. Chief Peterson testified that Mrs. Edeau told the opposite of this to him.

Prosecutor Ferrari considerably strengthened the defense by this cross-examination when he asked the witness:

"Did Mrs. Edeau mention 721 Market street to you?"

"I don't think so," Peterson replied. "However, she told me that she was at Market and Steuart streets all the time."

On re-direct examination, Defense Attorney Ed McKenize asked the witness why he sent an officer along with the defense attorneys to visit Mrs. Edeau a few months ago.

"Because I felt that there was something wrong in her testimony," Peterson replied.

"What?" asked little Ferrari of the prosecution.

"I was amazed at the difference in the testimony which she had given in the trials and the story she had told us," Peterson replied.

Judge Seawell jumped to assist the prosecution.

"What means had you of knowing what Mrs. Edeau had testified to?" he shouted angrily at Peterson.

"I read the record of the case, and I also read her testimony in all the daily papers," the witness replied.

On further cross-examination, Ferrari asked the witness if it was usual to send an officer with a bunch of defense attorneys to interview a prosecution witness, without a representative of the prosecution being present, and without the Oakland district attorney being aware of the visit.

Chief Peterson replied, "There is no usual custom. I have done police duty for twenty-two years, and I've always acted as the occasion required. I remember that I introduced the defense attorneys to District Attorney Hynes in my office, before they visited Mrs. Edeau, and acquainted him about the occasion of their being there."

Inspector Smith corroborated Chief Peterson's testimony. He further testified that Mrs. Edeau told him that she was at Market and Steuart streets at the time of the explosion, and that she had seen two men acting suspiciously with a suitcase. She said she had been there all the time she was in San Francisco that day.

Mr. Smith gave a detailed account of his accompanying Mrs. Edeau to San Francisco, a few days after the explosion, to see if she could identify Billings and Mooney as the men she alleged she saw at Market and Steuart streets. On arriving at San Francisco city prison, Tom Mooney's photograph was shown Mrs. Edeau before she attempted the identification.

"Billings and Mooney were in separate cells," the witness testified. "Mrs. Edeau scrutinized the men very carefully, then she said to me, 'These are not the men. They are too young. I never saw them before.' Lieutenant Coniff, of the police force, knows that Mrs. Edeau failed to identify the men that day."

"Did Mr. Fickert ever try to corroborate Mrs. Edeau, and did he, after you showed him your diary with the statement of Mrs. Edeau that she was at Steuart and Market streets all the time, say to you, 'Smith, you'd make a good witness for the defense. Keep your mouth closed about this.'"

"Yes," was the reply. The court ruled out the question.

The testimony of the Oakland police heads made a huge breach in the prosecution and the cross-examination of the Chamber of Commerce attorneys, and the testimony of the Chamber of Commerce.

Mrs. Muriel Stewart, Wm. Burgess and Thomas Stout, fellow-employees of Mrs. Edeau, corroborated Messrs. Peterson and Smith, by testifying that Mrs. Edeau told them, after her visit to San Francisco, that Billings and Mooney were not the men she had seen with the suitcase.

About the same time, Stout, in a conversation with Mrs. Edeau, said he believed she would hang a man for fifty cents.

And Mrs. Edeau replied, "What difference does it make, as long as you get paid for it?"

Swanson's Espion Salts! The chief of the FRAME-UP gang took the witness stand this week. Though he has shirked his job, ground ever since Thorwall Mullaly of the United Railroads and Mullaly's puppet, Fickert, delegated him to testify before the Grand Jury that a substance you found in Ed Nolan's house was saltpetre, but which was found in it was indistinct and seized in the different raids made after the explosion.

They claimed that the substance was saltpetre and they had been in the deadliness of saltpetre. That was disproved and now they claim that upon salts is just as deadly and that Ed Mooney should be hanged because a few pounds of it was found in Nolan's house.

"The defense will produce a prominent chemist who has been in the habit of saving the substance in her bath and gave the balance of a large quantity of it to one of the Nolan girls. This is the explanation of the finding of a deadly explosive in Nolan's house and why Ed Nolan was dragged away from home and family and imprisoned for nine long months.

The prosecution is also contending that the calling of the street car strike was tantamount to a conspiracy which had been planned long before that. Judge Seawell remarked very mildly one day that he didn't think the calling of a strike was a crime, but he quickly subdued when Ferrari argued the contrary, and allowed evidence on the subject to go before the jury.

Chief Peterson, calling a strike is murder in the first degree and upon salts is a deadly explosive.

How Murd is Legalized in San Francisco. Last April when Rena Mooney's trial was scheduled for Judge Frank Dunning presiding, the defense attorneys objected to Dunne trying the case. His avowed partialism was notorious. He had just delivered a tirade from the bench stating that the defense attorneys were "cowardly blackguards" that Billings was a perjurer, and that the defense attorneys were in the motion for a new trial for Billings were perjurers and the Chamber of Commerce was doing "laudable work" by picking Fickert to hang his five victims.

So Dunne couldn't sit in the case and he picked Judge Seawell of Santa Rosa to sit in the case. The defense, Danne's chief, advised Judge Seawell to sit in the case. Dunne, despite the fact that Dunne has been guilty of being aligned with the perjury plotters.

They were doomed to disappointment. We'll briefly mention some of his decisions which showed his evident prejudice and which, though perhaps "perfectly legal," did irreparable damage to the defense:

1. He admitted all the so-called conspiracy evidence which had been excluded from the previous trials. This evidence included a suit case full of dynamite, planted by some detective in the home of Judge Seawell, outside the city, and a lot of guns "found" by Martin Swanson in 1913 in the home of Mrs. Edeau at 721 Market street, Richmond, California, where he was in Mooney's possession when he was arrested.

2. He ruled on all this evidence in these words: "I can't rule on the admissibility just at present. You may submit the evidence and I will base my ruling on the facts." After every word of the evidence was put before the jury and after the dynamite and guns were prominently displayed in the court room for an entire week, SEAWELL RULED THIS EVIDENCE OUT!

Judge Dunne in the Billings trial refused to hear a word of this evidence. He can't prove the conspiracy against the whole world," he said.

After the minds of the Rena Mooney jury were thoroughly poisoned by this evidence of an army of corporation thugs and spies, the evidence was "ruled out."

2. He has aided the prosecution by giving evidence in the court when prosecution witnesses were cross-examined, thus giving the prosecution a chance to coach them in their perjury.

3. He ruled out all the relevant questions of the defense on the cross-examination of the notorious pro-corporation attorney, Peter Hughes, thus preventing her impeachment.

These are the principal examples of the obvious bias of Judge Seawell, labor as well as the rights of the defendants.

The latest news about "Honest Captain" Frank C. Ozman (whom the prosecution dare not produce), principal perjury buyer for the San Francisco Chamber of Commerce, is that he will be tried by the "Honorable" Frank Dunne.

This is the same Dunne who openly announced in his court on November 1916, that he would select his list of prospective jurors for the year 1917. FROM THE ROSTERS OF THE CHAMBER OF COMMERCE AND THE CHAMBER OF LABOR.

WHAT AN IMPARTIAL COURT TO TRY OZMAN IN!

This is an example of the murderous and a judicial gangster the labor unions of San Francisco have had in defending their innocent brothers and sisters.

"YOU'LL HELP HANG MOONEY." This was the offer made by Mrs. Belle Hammerberg, a short time ago, by the Chamber of Commerce to make a working man a local corporation attorney named Thomas J. Straub, who is a friend of the Hammerberg family.

Fickert found out that Straub knew Mrs. Hammerberg, so he asked him to deliver a message to her.

Stratton, who delivered the message for you from District Attorney Fickert, I will give it to you, as he gave it to me and you can do so you like.

STORY AS TO THE TIME YOU GOT

TO THE COPY OF THE BELL BUILDING, THEY WILL LET BELLA GO.

Mr. Hammerberg replied: "I would tell the truth. If he bang Tom, you'd have to hang Rena too."

Straub answered: "Bella, I'll save your answer back. I've always thought you'd tell the truth."

STRAUB HAS CORROBORATED MRS. HAMMERBERG. FICKERT HADN'T DARED DETAILED HIS GHULISH PROPOSAL TO HIS FRIENDS OF THE CHAMBER OF COMMERCE.

Seeing that they have no evidence against Rena Mooney, the FRAME-UP gang are dragging officials of unions and labor as evidence in the workers' Defense League before the Grand Jury in an attempt to instill into them helping put the rope around their necks.

So far the Chamber of Commerce gangsters have lamentably failed. Hugo Ernst, Secretary of the Workers' Defense League called every thirty names his Barbery Court vocabulary contained. If Ernst were convicted he would probably have been beaten to a pulp.

Ernst was subpoenaed to appear before the Grand Jury last week, but was taken instead to Fickert's private office and imprisoned.

"You're a G ————, dirty crook and perjury son ————," Fickert cursed Ernst, Miller.

Of course there was the usual barrage of armed detectives around Fickert to see that his epithets and curses couldn't be resented.

Miller told all this of course neither will be done about it. Miller is a working man and Fickert is a member of the Chamber of Commerce and the framers of the law.

Miller testified that he served two years in the Spanish-American war and also testified that the International Workers' Defense League is an American plot of defense Labor and that the organization is American in every sense of the word.

We must remember that the Defense League is in the San Francisco Bay area.

SIoux CITY PREPARING FOR I. W. W. "INVASION"

Parasites Planning to Head Off Union with Militia and Other Gunmen

Sioux City, Ia., July 6.—The Prostitution Press of Sioux City, which started the free speech fight here two years ago, is again busy trying to stir the unthinking homogeneity to action against the I. W. W.

For the past two weeks they have been carrying on a campaign, discovering plots between I. W. W. and German spies to burn up the grain crop, cut off the coal and copper supply of the U. S. A., and a thousand and one other things.

"They still adhere to the old saying, 'I don't work'—and some of the contractors around Iowa are lamenting over the fact that they cannot hire any able hands I. W. W."

Now that they think they have got the people stirred up to the proper anti-I. W. W. spirit, they have begun to organize a Vigilance Society to deal with us this coming summer.

The following, taken from the Journal, will give you an idea of the way the papers are playing up the O. B. U. Big head lines: "Will Make War on I. W. W. Civilian Unit to Prepare Against Invasion"

"At a smoker in the commercial club last night, preliminary preparations were made to give a warm reception to the I. W. W. when they appear in or near Sioux City in the next few weeks."

"The Journal goes on to state that a topic discussed at length was the building up of the Sioux City Civilian Unit in view of the spirit being shown by the I. W. W., which will be coming through this part of the country in a few weeks."

A committee of three was appointed, consisting of Geo. Savary, L. T. Harding and Joseph Young, to devise ways and means of renewing interest in the civilian unit, and setting up a fund for serious work in the event that Sioux City and nearby territory are troubled by the I. W. W.

Two years ago educated this gang when we filled their jail and made the taxpayers hotter because of high taxes, but since we have carried on a steady agitation which has borne fruit in the shape of increased membership and job control through the capture of this state, so we will treat them very differently this year from what we have done in the past."

However, I would advise delegates coming this way, that the militia is co-operating with the Commercial Club, and as all trains are heavily guarded it would be a good idea to send supplies ahead, or to safeguard them some other way while enroute from Kansas to Dakota as Max King Post says.

117 ROCKFORD REBELS SENTENCED

Year and a Day at Hard Labor for Most of them—One-Half of Those Sentenced I. W. W.

The Rockford rebels who refused to register on June 8th and gave themselves up to the authorities of the town of Rockford were given a thorough grilling, a little in the shape of a hearing, and more of them, extreme sentences by Federal Judge Landis at Freeport, Ill., on July 5th. The prisoners were numbered by the tribes of "his bones" and were defiant and uncooperative to the end.

Judge Landis tried to make out that those men were honest white-slaved and unresisting "pacifists" and referred to them sneeringly as "belching, whining puppets" when they one and all expressed indignation and disgust for the needless bloodshed and horror of capitalist warfare. It is a certain thing that if the bones and towns of Rockford could share the opinion of the honorable judge they would not have such a wholesome respect for and fear of the I. W. W.

One hundred and seventeen of the so-called slackers were sentenced to hard labor in the House of Correction in Chicago. Judge Landis selected this particular place for their incarceration because he wanted to find a prison where the records would be even more rigorous than at the state penitentiary. The milder cases of non-registration, were given thirty days apiece, two were given 30 days apiece, six were released on their own recognizance, and the rest were given the limit of the law, one year and a day at hard labor. From present appearances it appears that it will be impossible for the kind-hearted wretch dogs of the war to make the conspiracy charges stick. At all events no action has been taken on these cases as yet and Hugh Kelly and Stron are still in Durandville.

James Gilday, Wallace Swagerty and Pancher were arrested on "pragmancy" charges after trying to look after the interests of the boys in jail and to take care of the possessions of the union in Rockford. Pancher writes from Rockford that, because of some crime transpired off by the Rockford "cooperators" the union men who have been meeting in the town on Saturdays have been ordered to move by the first of August. Many I. W. W.'s have been going into Rockford during the last few weeks and there many more are needed. All members should get on their buttons and cards. Get on

"JAYHAWKER" JUSTICE

Harvest Worker Shot by Labor-Hating Depot-Agent at Turon, Kansas.

Turon, Kans. July 5.—The way the law is administered in this glorious state of Kansas to members of the I. W. W. organization is a credit to this glorious republic U. S. A. Fifteen wobs were in the jungles in Turon, Kans. Sunday, July 1st, and about 6 o'clock p. m. two high jacks came into "Jungles" and wanted to start crap game and card games. They were recognized by some of the boys as being old-time high jacks through the country, so they were told to beat it down the track.

They started down the railroad track and traveled about one mile, went over to a farm house and told farmer that a bunch of I. W. W. were coming to beat them up and run them out of town because they were going to work for 42 cents per day, said they were "honest" men.

This farmer took them in his car and drove in to town, where they told their story and a posse was formed. A warrant was sworn out for Del. I. W. W. "Boys" by that time were in the "jungles." When posse came down and arrested Carey and told the rest to leave town the boys

started out to walk for train and said some decided to walk to Stratford, a little town about 15 miles from Turon, but after they had started the posse started out to round them up again, when a man by name of Grover King, Mo. depot agent at Turon, Kans. shot Wm. McNeal without any provocation whatever. Fellow Worker Wm. McNeal was shot with a 45-caliber revolver, tearing a large hole through his shoulder.

McNeal was taken to the hospital in Hutchinson, Kans. The next morning Williams was arrested when he went to see Carey, charged with disturbing peace. Fellow Worker Carey is charged with assault and battery. I was in Hutchinson myself and saw McNeal at hospital. He is in pretty bad shape. The doctor said he could show a bromastick through the hole. He also saw Carey and Williams. This man King was not a doctor. He grabbed gun out of deputy's hand and willfully shot McNeal without any cause at all except he was an I. W. W. L. E. A. W. O. Ben Barnarrow, Del. 1,632 A. W. O. Chester Micklan.

NEWS FROM HOQUIAM, WASH.

Hoquiam, Wash. July 6.—Labor Workers' Industrial Union No. 500, M. T. W. I. U. No. 790 are doing great work in this district. Job delegates are all active; members coming in by the hundreds. There is a great demand for laborers in the mill, also in the logging. Mills are running night and day. The sentiment is strong for a general close-down. Eight hours is the main issue. The first annual picnic for Gargy Harbor district was held at Westport July 1st. It was one of the greatest picnics ever held in this district, being a great success in every way.

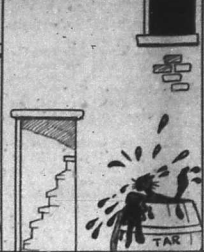

Receipts over expenses going to support the Finnish daily paper, also the "Industrial Worker." A propaganda lecture was delivered by J. A. McDonald in this district. "Industrial Worker." Fellow Worker "Red" Doran addressed a large mass meeting in the I. W. W. Hall here on the 5th. Collections of \$24.50 was taken up for the strikers in Idaho and Montana. Educational meetings are held twice a week.

WISCONSIN PEAS HARVEST. Canning industry needs help. Twenty-eight cents per hour. Lots of work. No bonus system or speeding up. Thirty cents per hour in the pea beds. Company board six dollars per week. The company here can use double the men, now have. Fine chance for organization.

To reach burg take shipment train to Jamestown or Cityman Junction at Railroad Employment office, 19 Dearborn street, Chicago.

RUMBLE. The job and work systematically and hard for organization. There is plenty of work around town and the new government training camp. Wages are fair and union men badly needed.

No Matter How Badly You Treat It, the Cat Always Comes Back!

KANSAS 'COMICAL' CLUBS ON THE WARPATH

Trying to Bulldoze Union Men With the Aid of Union Scabs.

Lyons, Kans. July 6.—At last the "Comical" Clubs of Kansas have changed their tactics. It was always customary in the past to either put the union men in jail or run them out of town. Not so now. They have decided that they are going to use the might gained from a year ago to either make them work for the "going wages" or keep them in town until they starve them to death. They are not having any luck, though.

However, the "Brotherhood" or rather a bunch of ironhead "blocks" (who run the P. M. mail through here) and who would scab on their own brothers, are only too willing to give them all the assistance they can.

A few days ago about 25 of us, Fellow Workers were holding out in the town of "Sterling" for an increase in wages. There were a lot of sympathizing scabworkers there, the kind that are always going to line up when they get to work. About the going wages that they never have time to line up except when the "cat" scratches them so bad that they have to lay off.

As those shams were in the majority we decided to take the road up to Lyons and go to work. About the same time the sheriff decided that he did not want us to leave town yet, so he jumped in his "road house" and he found the chief of the International Brotherhood of "Fourbits" Glauson, in charge of course. He said to him that we could not ride. However, the first thing he asked for was the customary scissor tip, but when we showed him our little red "shanty" he called his subordinates, who came on the run, armed with a small arsenal of very large calibre revolvers.

They unloaded us, of course, while the sheriff was in short distance to see how they did our little red "shanty" he called his subordinates, who came on the run, armed with a small arsenal of very large calibre revolvers. They unloaded us, of course, while the sheriff was in short distance to see how they did our little red "shanty" he called his subordinates, who came on the run, armed with a small arsenal of very large calibre revolvers.

So, Fellow Workers, if you are going from Hutchinson to Geneseo, please ride on our little red "shanty" and bring your "kitten" along.

A. K. JONES, Del. 1248.

A Note from Duluth. A smoker was held at the Finnish Opera House on the evening of July 5th. Five shaves held out for almost a month but Jimmie Bowman succeeded in lining up the hard-heads.

The J. J. Pines held out for almost a month but Jimmie Bowman succeeded in lining up the hard-heads. The J. J. Pines held out for almost a month but Jimmie Bowman succeeded in lining up the hard-heads.

At Peterson, Iowa, the Harry Nicholson construction camp is lined up solid. Five shaves held out for almost a month but Jimmie Bowman succeeded in lining up the hard-heads.

Is "Democracy" Sanitary?

Bum Conditions on Government Construction Job Near Mt. Clemens, Mich.

Uncle Sam has the reputation, in some places, of providing good food and sanitary conditions for his slaves. But he has now lost his "rep," as in the aviation camp, near Mt. Clemens, Mich., where about 2,000 men are employed, he has a camp where the food is dirty, half-cooked, and rotten, and the bunkhouses, which will not accommodate all of the men, are overrun with all kinds of vermin. There are so many rats scattered around, but, unless you have a gas mask on you run the risk of dying of heart failure when you get within 50 feet of them.

The cook house will seat about 500 and the rest must stand in line and wait for men to get through before they can eat. And when you do get in you are greeted with a plate that the dishwasher spoke to, but never shook hands with. Your first move will be to grab out Mr. Plate with a couple of slices of punk, and then you look around at your ham and eggs and find almost dead. Half-baked bread three times a day, meat that is sometimes good, because they can't help it, and Cripple Creek chitney constitute the bill of fare.

It has been raining out here almost every day for about three weeks, and that has done a lot of good. Wages for common labor is 35 cents an hour and board. Time and a half for all overtime. Several men have been recruited from the barrel houses and missions, and as they only figure on making a few dollars, they are there with a few dollars, they were averted by promises, which were never kept.

This is a fine and material job, and the more money that is spent by the contractors the more they make. A small bunch of wobs are on the job and they are all getting ready to go. Several men have been recruited from the barrel houses and missions, and as they only figure on making a few dollars, they are there with a few dollars, they were averted by promises, which were never kept.

Several Bulgarians are ripe for organization, and a foot deep all over. Wages for common labor is 35 cents an hour and board. Time and a half for all overtime. Several men have been recruited from the barrel houses and missions, and as they only figure on making a few dollars, they are there with a few dollars, they were averted by promises, which were never kept.

SUCCESSFUL PICNIC IN CLEVELAND

Cleveland, Ohio, July 6, 1917. The members of the Cleveland branch of the I. W. W. had a picnic on the 4th of July to celebrate our grand and glorious freedom.

The members of the Cleveland branch of the I. W. W. had a picnic on the 4th of July to celebrate our grand and glorious freedom. The members of the Cleveland branch of the I. W. W. had a picnic on the 4th of July to celebrate our grand and glorious freedom.

After which, to the tune of music furnished by the Finnish and Hungarian and Spanish upon the freedom that is yet to come under the Workers' Commonwealth, and of how that we could obtain more and greater freedom through the One Big Union of the Workers.

After all expenses were paid the balance showed a healthy sum, which will be used partly to pay the balance of the foreign I. W. W. Union and partly for the defense of our Fellow Workers who are in the prisons of the state as they are made to enjoy every one short day of such "freedom" as we enjoyed.

There is lots of fruit picking here. There is a lot of fruit picking here. There is a lot of fruit picking here. There is a lot of fruit picking here.

FRANK KELLY, State Del.

CASE AGAINST FRANK DISMISSED

Prosecution Finds It Impossible to "Kangaroo" Victim of K. C. Raid

The case of fellow worker W. Frank came up on appeal here, July 6. Attorney Geo. E. Siegel, St. Paul, was sent here by the organization committee to defend him. Siegel immediately got busy in such a business-like manner upon his arrival here, that City Attorney Mathias got panic stricken, and, knowing there was no chance to "kangaroo" Frank again, with a real lawyer on the job, he had the case dismissed without a hearing.

The office of Agricultural Workers number 400, and Construction Workers number 573 in Kansas City is temporarily located at 212 East Missouri avenue. All fellow workers passing through Kansas City take note of this address. All mail intended for the branch should be addressed to G. J. Bourz, Box 281, Kansas City, Mo.—G. J. Bourz, Branch Secretary.

KEEP MONTANA MOVING!

Up off your haunches, and on to Montana—Doligs plenty, work any place—wages fair—Hours that can be run—sentiment for the O. B. U. never was better—This is a good place to haul away the time till harvest is ready—Chance for a short stake to keep the wrinkles off your stomach, and straighten up your spine, and develop your slowness for Haystack, who will give you a job for a flint spot in the tall grass—There's a sport to be had in this town, anywhere in Montana—Don't worry about the O. B. U. never was better—This is a good place to haul away the time till harvest is ready—Chance for a short stake to keep the wrinkles off your stomach, and straighten up your spine, and develop your slowness for Haystack, who will give you a job for a flint spot in the tall grass—There's a sport to be had in this town, anywhere in Montana—Don't worry about the O.
