FRANK LITTLE'S FUNERAL

Funeral Cortege Most Impressive Ever Witnessed in Butte.

A Protest of Organized Labor Against Organized Tyranny.

The history of this city is replete with unusual incidents—with occurrences that, to one not familiar with conditions here must seem extraordinary. In the Idaho days strange things happened; bitter enemies were engaged and lives were lost, and since that time many similar incidents have happened. "Happened" is not the best word, perhaps—we should say "engineered". Many men have been killed, and in a great many cases no one has been apprehended. This condition has naturally led to a peculiar state of mind in the people of this district; they have seen so many crimes committed, so many men die ingenuously with their hands clean, and so many queer things in general, that nothing less than a most particularly shocking event ever stirs more than passing interest.

The public was dumfounded at the Spectator mine disaster, people stood aghast—just in the short time that has elapsed since that terrible catastrophe they have almost dismissed it from their minds; that is, most of those who lost no friends or relatives have become less keenly resentful. This is due in part to the war, registration, conscription, etc.

But in all the land history books, no event ever occurred so startling, so savage, so sinister, evil potent as the inconceivably vicious murder of Frank Little, a cripple, last Wednesday morning.

Every decent-thinking man, woman and child in this community was struck with horror when the details of this frightful crime was published. Not one could comprehend it, many refused to believe it at first, but finally came to the moment when they were forced to admit that here in Butte, our own home town, a crime more terrible than any atrocity of which the bellfaggers of Europe, or even the "Unspearable Turk" of our childhood recollections, have ever been accused.

The realization was forced home, and then came the thought, "What kind of brutes, what fiends in human form, could perpetrate such an outrage."

Little was practically a stranger in Butte. He came here in his official capacity as an organizer for the I. W. W. for the purpose of trying to affiliate the Metal Mine Workers' Union with the organization he represented. He was extended the same courtesy as has been shown by us to the representatives of every other labor organization who have presented themselves to us, and in the connection he addressed several meetings of our union.

The papers endeavored to magnify very utterance of this man to the proportions of treason; yet, most of the things he said are, and for many months have been, heard wherever men congregate and discuss current events.

But as it may, the grievance that remains is that Frank Little was brutally murdered—and his murderers are still at large.

But the working people of this district are AROUSED—and every one in Butte now realizes it.

NEARLY SEVEN THOUSAND PEOPLE—men, women and children—GATHERED FRANK LITTLE'S BODY TO HIS LAST RESTING PLACE.

Electric workers, street car men, watchmen, machinists, boiler-makers and a number of other unions marched as a body, the Peace-Conscience Club, wearing their colors and carrying the flag of the profession, which was led by hundreds of women and children, mothers with their babies.

(Continued on page 3.)

VICTORY NEAR

Lumberjacks Strengthening Lines for Final Effort

Industry Paralyzed—Bosses Wavering—Strikers More Determined Than Ever

Seattle, Wash., Aug. 18.—The latest developments in this part of the strike zone are very encouraging. One feature that presented itself to our notice early in the strike was the employment shark. Seattle is the

taken up, customers were a minus quantity. It was impossible to do any business as so these scab-borders closed and locked their doors at 4 p. m. It was one of the most successful jobs of

away where they can do no harm. Last Sunday one of our picket camps at North Bend was raided by the defenders of "democracy" and the pickets, twelve in number, were brought into Seattle by the sheriff.

SOMEBODY SPOILED THE FEAST.

clearing house for a large part of western Washington and a part of the workers go through the employment agencies.

It was found necessary to place pickets at all employment agencies, offices. One of the largest places, Moore & St. Hart's, early declared itself by the scabby stand they took in advertising strike-bonded jobs. This place has a lunch counter, a soft drink bar and about thirty employable. The strike had been in progress about two weeks when they placed the jobs on the board one morning about nine o'clock. The cook and waiters immediately walked out.

About two hundred pickets crowded into the place and took possession of all the card tables and the seats at the lunch counter and bar. They had some to "look and see" but not to buy. As all places where a real customer might occupy were already

picketing we have ever seen, owing to the complete order that prevailed. Of course, the boss phoned for the police. They arrived but found no one to arrest and so reported. The place has since opened up again, but the employment part of it has been abandoned and the new prop. has informed the strike committee that he intends to play fair in the future with the O. B. U. At the present all of the sharks have assured us that they will co-operate with us in so far as not supplying scabs to the lumber barons is concerned.

In Seattle bosses has not been much of a factor. However, there are still a few workers that think they can fight bosses and the boss at the same time. Whenever any of these workers show up on the street in an undisciplined way they are taken in hand by the nearest fellow worker, their button confiscated and they are stowed

in a room where they can do no harm. Last Sunday one of our picket camps at North Bend was raided by the defenders of "democracy" and the pickets, twelve in number, were brought into Seattle by the sheriff.

IRON MINERS STRIKE

Steel Trust Slaves of Michigan and Minnesota Go Out to Enforce Demands

Want Better Conditions and Justice for Their Fellow Workers of the Southwest

Dowagons, Mich., Aug. 12.—A little over a week ago over two thousand miners on the Gogebic Range went on strike. They took this action for two reasons. In the first place they wanted to better their conditions, and in the second place, they wanted to use their industrial power to assist their fellow workers in Washington who have been driven from their homes and families by the Iron Trust. Realizing that they, as well as the miners of Arizona and Butte, are facing the same blood-greedy butcher of plutocratic criminals, the Iron Miners decided to make common cause with their brothers of the West who are battling for life or death. The indifference and apathy of the nation and the departed Bismarck did a great deal to hasten the action, but it would have come sooner or later anyway.

The First Strike in 30 Years.

The Michigan Iron Miners are therefore showing their class solidarity. This strike will have a great bearing on the developments of the next few months. Furthermore these miners have shown a remarkable fortitude and fighting instinct in going out simultaneously with the miners of other districts. In this way they will have created a new era in mining labor demands. The significant phase of this strike is the fact that this is the first time that has broken out to Bismarck in thirty years. A greater number of the strikers are members of the Metal Mine Workers Industrial Union No. 450. Every day scores of new members are joining this fighting miners organization. The Steel Trust will feel the power of the One Big Union as it never has before because our plans are laid far in advance, and all moves that are made are planned and are anticipated and prepared for.

Washington to do anything to see that they were given justice, has done much to awaken the class feelings of these miners of the Iron Range. The tyrannical of Frank Little has carried them to the very heart with indignation and rage. They are determined to join with their fellows of the West and Southwest in the purpose of self-protection. They realize that what has happened in Babes or Butte could happen just as easily in Michigan or Minnesota. They are going to be prepared to defend their freedom and their lives.

A Movement of the Masses.

This strike in Minnesota and Michigan is a movement of the masses, pure and simple. The "bosses" have guarded well against the pernicious influence of the "agitator," but still the strike occurred. It is demonstrated to be a movement from the bottom upward. Locality after locality fell in line for the strike after locality had perfected their plans and organization in their own way. Knowing that the districts were closed to labor and that the miners grudgingly determined to take matters into their own hands and show the steel trust that they were unwilling to submit to a dictatorship of the plutocrats.

This strike in Minnesota and Michigan is a movement of the masses, pure and simple. The "bosses" have guarded well against the pernicious influence of the "agitator," but still the strike occurred. It is demonstrated to be a movement from the bottom upward. Locality after locality fell in line for the strike after locality had perfected their plans and organization in their own way. The Steel Trust will feel the power of the One Big Union as it never has before because our plans are laid far in advance, and all moves that are made are planned and are anticipated and prepared for.

The Cuyuna Range Alliance. Now the strike has spread until it covers the entire Cuyuna range. More than 5,000 miners are on strike in this district alone. Wednesday night the "scab" miners who remained on the job after the Pines and Creighton had walked out, came out also to the last picket line. At every man in this comparatively new mining district is closed down tight. On this Cuyuna Range the Massachusetts are mined. This is of very important in the process of steel making. The Steel magnates are already feeling the pressure of the organized might of labor just as the Copper Kings are feeling it. And the strike has only started.

Memphis Range Coming. On the Memphis Range the strike is spreading also. This district is seething with discontent, and the upheaval will take place in spite of all the gunmen, stoops and soldiers that can be sent there to keep the lid down. The strike here started in the Gilbreth district. By Wednesday all the miners in the district had left the pits and mines, closing them to a standstill. Aurora, Bivins, Hibbing, are also facing a shut-down as the men are walking out. Within a week the strike will secure formidable proportions. The companies are fighting hard and the newspapers are spreading their customary lies. But it is a safe bet that before long the Iron Industry will be as strike bound as is the copper industry. Upper Michigan, the other two iron ranges, Iron and Marquette counties, have voted to go out on strike and have circulated their strike calls. The actual shut-down of these ranges may be looked for any day.

Angry at Deportations and Lynchings. As on the Gogebic Range, the workers of the other ranges have joined hands, not only for the purpose of bettering their conditions, but also to show the hideous human monsters of Big Business that the deportation and lynching of miners does not go unnoticed or unpunished by their fellow workers. Unless the strikes of the miners in different parts of the country are soon settled a gigantic industrial upheaval will result. The deportation of the men from Bismarck, the refusal of the capitalist's tools in

Under the Very Noose of the Gunmen. A strike, organized along these lines takes some time to gather full momentum. It travels from locality to locality, with a possible set back or two, but under way it is solid for complete victory and the fight is of essentially more determined and organized than a mere sporadic outbreak. Such workers are able to marshal their forces to organize themselves—this is of very important in the process of steel making. The Steel magnates are already feeling the pressure of the organized might of labor just as the Copper Kings are feeling it. And the strike has only started.

Oakland Hall Raided

Oakland, Cal., Aug. 19th.—An organized mob of soldiers wrecked our hall today. The police looked on without making any attempt to stop the ransacking. All our property was set on fire and burned. We met in four six alarms before we could get an answer, Messing, piano, chairs and desk lighted sky with flares. The police books were saved but dozens of books and other supplies were destroyed. Thousands written any outrage. Tried to shake hands with the looters who were all armed with pistols.

MORTIMER DOWNING, Secretary.

News from the General Office

August, 1917.

The bloodstained hands of Capitalism have stretched forth to us from our midst, for the first time in our history, as we have seen the voice of Fellow Worker Frank H. Little, member of the Executive Board of the I. W. W., murdered by a capitalist gang.

The revolting details of this foul murder have sickened with horror the entire working class of the world. That man could be found no less than a cowardly and a heartless villain, capable of such a heinous deed, is a thing of which the people are justly proud. We have seen how the capitalists have used the voice of a man who was not only a friend of the oppressed, but a man who had given his life for the cause of the working class.

Franks struggle for Freedom. His life and death will be an inspiration for generations to come. The things he fought for and the ideals he cherished will be attained to such an extent that the capitalist gang could not stop but only accelerate the sweep of the Revolution that soon will engulf all tyrants and all their cowardly assassins. Let our motto be from now on: **WE NEVER FORGET! ORGANIZE AND AVENGE!**

The strike situation in Italy is still dark. The striking lumber workers are standing as solid as the Rock of Gibraltar, and will not go back until the eight-hour day is won. The Bell of the Northwest is still being sounded, and the Governor of Idaho, Frank J. Alexander, has descended from his high office to function as a stooge-police for Mr. Weyerhaeuser. A letter from John Bonnes at Pocatello, Idaho, informs us that Governor Alexander, after a conference with all the sheriffs of Idaho, and the State's Attorney, and the State Police, and the whole crew to the I. W. W. Hall, bought and paid for all the different kinds of literature there was to be had, and has it all sent to the workers of Louis Lake, secretary of the Recruiting Union there, and placed him in charge of it. They also confiscated all the literature in the hall. The only things they left were the desk, pen and ink.

M. T. W. Boys in Philadelphia Pass Safely Through a Storm.

Philadelphia, Pa., Aug. 11th.—The Western hurricane is approaching in the East. Our lookouts say it before it arrived. We are seamen and as seamen we know when any change is expected in the weather.

The firemen down below and the sailors on deck are acquainted with the temperature. The forecast is: If the wind on deck is blowing forward or aft. They know by the draft of the fire and the water know by the sunset of the water. They are waiting. They are going to have calm or storm.

ARE READY FOR OTHERS

The Marine Transport Workers are beginning to stir the storm. They are usually once a week the firemen have an entertainment in their fore'deck and it's almost every Saturday that the Marine Transport Workers are dedicated to the education of our members and keeping interest in what is going on around the world.

Organize and Act

After all these things that have happened since the strike in the coal mining region around Scranton, Pa., by the Pennsylvania Cocksack 254 members of the union who were given back to them in peaceable manner in their own hall when it was surrounded by these Cocksack and deputy sheriffs under Sheriff Ben Phillips, the hall was broken into, held by the workers, and then burned, and held under prohibitive bonds.

An Appeal

Follow Workers, this is the thing. Don't skip it if you have a job. Read it whether or not it is the Gospel to you.

No doubt you are well acquainted with the I. W. W. as a union of all kinds of workers of production, finished article, passenger carriage, and various other goods.

From every section of the land, from all bodies of workers, indignation and protest at this most heinous crime. The object of the "higher-ups" who would destroy the power of the workers is to silence with fear the voices of active members in the labor movement, has failed in its purpose.

Resolutions.

"On verification of death of Little, he received that we, Meta Mine Workers' industrial union No. 800 of this district, demand the General Strike to be called. Resolved, that we will support, thirty-five hundred workers attended."

W. H. LEWIS, Chairman.

From Augusta, Kansas. The cowardly murder of Frank Little by Butte guards was received by the members here with feelings of deep sorrow. PHIL EASTMAN, Sec.

From Farrell, Pa. "Mitigating the barbarous act accomplished by the Meta Mine Workers' militant, human justice on Frank Little, the Italian Propaganda League of Farrell always forward the industrial workers of the World." MARISSKO.

"The miners of Butte have sworn not to go back to work until they are entirely granted. They have also sworn to track down the murderers of Frank Little and their accomplices to a rope, as they swing Little."

On receipt of the news of the death of Fellow Worker Frank Little, the General Office was immediately contacted by the industrial workers to the disposition of his body. They answered to bury Frank Little either in Chicago or in Butte, Montana. Butte would be the most appropriate place, the Secretary-Treasurer wired the following message to Butte: Joe Kennedy, 318 S. Wyoming St., Butte, Montana.

TRADITION
(By J. STEPHEN DODD)

A few months ago the chief counsel of capitalism's chief literary hypocrite told the I. W. W. has become but a tradition. Just the other day a defowered intellect in the same hour of the same magazine wall the tendency of the press to advertise I. W. W. activities.

We have one editor of the best press saying that the I. W. W. is a tradition. The West like the rest is another, calls upon the president to suppress the I. W. W. and to preserve the cross which is in our midst, to avoid destruction through I. W. W. sabotage. Another editor says that Haywood's bluffing when he is predicted a strike of 500,000 men in a protest against the Arizona deportations. They all agree that the I. W. W. is the essence of all that makes life in our industrial life; they disagree only with respect to its strength and influence.

So I declare the I. W. W. is ready to become a tradition. I won't believe it is a tradition while there are three I. W. W.'s alive.

The I. W. W. is a tradition because it is a tradition of the people's will. It is a tradition because it is a tradition of the people's will. It is a tradition because it is a tradition of the people's will.

TRADITION
(By J. STEPHEN DODD)

A few months ago the chief counsel of capitalism's chief literary hypocrite told the I. W. W. has become but a tradition. Just the other day a defowered intellect in the same hour of the same magazine wall the tendency of the press to advertise I. W. W. activities.

We have one editor of the best press saying that the I. W. W. is a tradition. The West like the rest is another, calls upon the president to suppress the I. W. W. and to preserve the cross which is in our midst, to avoid destruction through I. W. W. sabotage. Another editor says that Haywood's bluffing when he is predicted a strike of 500,000 men in a protest against the Arizona deportations. They all agree that the I. W. W. is the essence of all that makes life in our industrial life; they disagree only with respect to its strength and influence.

So I declare the I. W. W. is ready to become a tradition. I won't believe it is a tradition while there are three I. W. W.'s alive.

The I. W. W. is a tradition because it is a tradition of the people's will. It is a tradition because it is a tradition of the people's will. It is a tradition because it is a tradition of the people's will.
