NOTES BY THE OFFICE BOY.

BY W. L. OURY.

SAY, fellers, did you miss little Willie last week? Well, I will tell you how it happened. You see the "old man" laid off for a day or two and had a glorious good time, and then it was my turn. I hiked for the country to commune with nature. I communed a commune with her alright, alright. I communed with ticks, seed, yearling and wood, with chiggers, large and small, with mosquitoes young and old, and other varments too numerous to mention. I hunted the gay and festive squirrel, but he was not at home, while the wild turkey left his regrets. Found one rabbit and got him, too. He sat still while I shot at him, and starved himself to death.

Incidentally I found some of the free-born American voters living in some shacks that only the good Lord knows why they do not fall down. The roofs off, the windows gone, doors off hinges, weeds before and behind, water from shallow wells that catches all surface water. Crops demand all their time and the landlord demands all of the crop. The poor devils do not live, they exist, and a miserable existence at that. I tried to eat one of their meals and could not. Such food is not fit for animals, let alone human beings.

Later on I visited one of the landlords. Golly, he had a dandy house. Windmill, no weeds, plenty of windows and shade. He asked me to dine and I gave him the pleasure of my society. Say, he had a great feed. Better than the "old man" has on Sunday. Well while talking with the landlord he told me he had thirty share croppers. That they would raise about 200 bales of cotton and his share would be 100. Besides that he was furnishing them their grub and that would bring him 85 per cent of their share of the crop and the remainder he will skin them out of some way or other. Beautiful for him. H—on the worker.

Yet I found that most of the renters were like the wage slaves of the city, narrow between the eyes and afraid that socialism would make them divide up. Good Lord! and they haven't \$5 worth of truck in the wide world. They are annually dividing up everything they have on earth, their labor, and yet they are afraid of socialism. Ignorance.

GREAT is the city and great are unions, but even greater is the federal injunction. The unions of Chicago complained on account of the housing of scabs in the packing houses. The city said it should cease. The packers asked one of their class (a federal judge) for an injunction restraining the city from interfering, and lo it was forthcoming and the packers of Chicago are greater than the unions and the citizens combined.

Now, if the unions had elected their own class to office, then the packers would not have owned the courts, hide, body and soul.

Well, I have no kick coming. I don't work in a packing house.

I did not vote for the men who appointed the judges. I can stand it as long as the others, but I do hate to see men make such fools of themselves. Some day they may learn that they cannot have liberty and vote for slavery. That eternal vigilance is the price of liberty and the vigilance must be exercised at the ballot box, via of a class-conscious ballot.

I CANNOT see how any man can attend one of the political meetings of the day and then support the candidates offered by the old parties. I have been unable to find one spell binder who had a principle to talk about or who would defend the present state of administration.

The appeal to you to vote for them because you did so last year. In effect they say you were a fool last year and voted our ticket, do so again and thus prove that you are a fool yet. Of course we will do the same this term; but don't desert the party.

Mr. Bryan says the democratic platform offers "no relief on any economic question" but vote her boys, for if elected we may do something in the sweet by-and-bye. Just like the sky pilots.

THE GRAND CHARGE.

Fifty days more! Comrades, this is our year! Each day sees us stronger, clearer, more determined. The Socialist party is one from sea to sea. Courage, confidence and enthusiasm abound.

The working class are compelled to choose between two capitalist parties and a working-class party.

Thousands are flocking to our revolutionary standard. This year the social revolution will register its rising tide and the sons of toil will shout for joy.

Each comrade is at his post. Not one who is true is idle. Not one will shrink or shirk.

Fifty days more, comrades of Indiana! You have weathered the storms of the past and you are tempered for the battle of today.

Charge the enemy from every quarter and you will grow stronger as the battle waxes hotter.

Spread Socialism far and wide, scatter your literature everywhere, give each day your ability, your energy and tenacity and when the smoke of battle clears away the comrades will stand forth an honor to the whole movement.

WE socialists ask you to study our principles and if they accord with your view, vote for us and we will give you relief as soon as we are in power. We offer to do SOMETHING and the old parties plainly tell you they will do NOTHING. Personally, I like a man who moves, even if he makes a few mistakes, to the one who is too lazy or ignorant or cowardly to move. Move and do something.

Now you workers have been moving and resolving for the past years for something. You have asked, pleaded, begged and struck for more of your product. You have been clubbed, shot, bayoneted, and beaten. Your families have been starved into submission for every attempt you have made has been like trying to kill a mad dog by cutting off his tail. I tell you kill the dog by cutting his tail off right back of the ears.

Get more of your product, aye, get the WHOLE OF YOUR PRODUCT, BY VOTING FOR IT. YOU CAN NOT DO IT OTHERWISE.

You have tried every other method and failed. Try ours. It cannot do you more harm and you can change back if you don't like it.

SAY, to notice the newspapers and magazines now-a-days does my heart good. A few months ago they would not mention the word socialism. Now every paper and magazine throughout the country publishes all the news of our meetings. The cause is growing so rapidly, the people are so thoroughly aroused over the chicanery of the old parties that the press is forced to recognize that the socialists are in the field, and there is something doing. They dare not villify us as they once did and they dare not misrepresent us for the readers are getting better posted as to what socialism really is. All that remains is for the working men of the country to unite at the ballot-box. The capitalistic class are busy dividing the workers between the old parties. They divide your votes. Stand out for your class and see them take to the woods. Little Rock, Ark. THE OFFICE BOY.

Three trees were sawed down at Elsenenthal, Austria, at 7:35 one morning recently. At 9:34 A. M. they had been converted into pulp and become paper, passed from the factory to the press, and at 10:00 o'clock the first printed and folded copy was issued. The entire time consumed was 145 minutes.

To the Comrades of Indiana: Fifty days more! And then the grand charge on the enemy's works!

The field stretches out before us and it fairly swarms with Hessians of capitalist power. These subsidized soldiers, from the commander-in-chief to the last straggler, are held in position by the magic power of graft. Of such is the kingdom of capitalism.

Corruption precedes the upheaval! Looking down the field we behold the advancing army of relief—the working class in battle array!

Every class-conscious warrior is in line and all of them move as one.

It is truly admirable and inspiring. The centuries have put this army in motion and this host will conquer the earth and consecrate it to peace and joy.

What a privilege to fight in such a cause!

Who that knows the thrill of manhood would not gladly give it his hand, his heart, his life!

REFORM.

TERRE HAUTE now has a "reform," administration—at least that is what the administration, the newspapers and the preachers tell us.

The reform so far consists of moving the slot machines from the saloons to the second floor gambling rooms, in forcing the saloons to close the front doors after hours and open the stairway door along side, in removing the prostitutes from rooms over the saloons to other quarters—and promises of "reform". For this the ministers of the city are so thankful that they are going to give a free dinner at Collet Park next Tuesday.

To cover up crime, rotteness and law violation is all that can be expected by "reform" movements, and satisfies the average preacher. Most preachers are content when the nastiness of the present system are hidden from their view, and make no effort to uncover the evils that exist or to find the cause of their existence.

Just where the trades unionists who joined the "reform" movement come in is hard to see. The only satisfaction for them is that the defeated the Steeg gang. Those of them who think that "labor" should be recognized by a few appointments are rather blue. The record made by the "reform" republican administration in appointing union men to jobs so far is in turning out five union men holding jobs that paid an aggregate of about \$425 a month and appointing two, whose combined salaries amount to \$125.

The accession to the socialist party this year will largely exceed all previous years.

It will mark an epoch in the social revolution.

The common people have nothing to expect from the republican party.

They have seen the trusts seize the democratic party and turn it over to Wall street in broad daylight.

And now they are turning toward the socialist party, the revolutionary and incorruptible party of the working class that is marshaling the hosts of labor for the overthrow of the capitalist system and the inauguration of the co-operative commonwealth.

They are turning from the old parties after having tried them both and found them wanting, and they now propose to build up their own party and achieve their own emancipation.

The complete triumph of labor is but a matter of time.

EUGENE V. DEBS.

GLEANINGS.

"Freemen, Yet Slaves Under 'Abe' Lincoln's Son," is the title of a booklet written by C. F. Anderson, a discharged porter of the Pullman Company, who is leading a movement to organize the 6,000 Pullman car porters.

Robert T. Lincoln, president of the company, is taken to task for the lack of consideration for the men who contribute so much to the success of the company at a salary of \$25 a month, out of which they must pay for two or three uniforms a year and their living expenses while on the road.

Anderson was dismissed because he was organizing a union of the porters.

Boston papers point out that under the system that the textile manufacture of Fall River are attempting to enforce the striking girls would receive about \$2 for a week's work. A few months ago, the wages of the textile employes were reduced ten per cent., and since then curtailment of output and short time has practically reduced the earnings of the employes about 40 per cent. To this is now added the latest reduction, amounting to 12½ per cent. despite the fact that the increased cost of living has reduced the purchasing power of wages and the price for the product of the textile mills is at top notch. Talk about slavery in the cotton fields.

Charlotte M. Teller, the well-known newspaper correspondent, writes from Colorado: "The managing editor of one of the Denver dailies told me the story of three suicides, all connected with the Rockefeller assumption of control in the Colorado Fuel & Iron Company. The vice president, secretary and treasurer had all committed suicide within a few weeks, apparently because of financial complications not altogether in line with business principles. But, of course, we do not publish these facts, he said at the close of his narrative, 'it would have hurt the business of the state.' The Associated Press did not publish the stories of these tragedies, nor did Harper's Weekly when I sent it in with my article on the coal strike in Southern Colorado."

According to authentic information, the anthracite coal barons have closed about 50 mines to "restrict production" and hold up the price of hard coal. Suppose the miners had voted to restrict production to maintain their wages! Suppose the miners had gone on strike and the price of coal remained the same! What a howl the capitalist-press, the hand-maidens of Baer & Co., would have started. But here are thousands of miners out of employment who need and want work, and here are millions of coal consumers, who need coal, yet under our beautiful capitalist system, which is fostered and defended by the Republican and Democratic parties, a few fat plutocrats can sit back like so many czars and starve the miners and freeze other people. What a travesty on intelligence and common sense! Why talk about government ownership, of mines? The plutocrats in control of the mines likewise control the old parties, and those who hunger and freeze vote for them. We're a great people!

Judge Humphrey, of the Illinois Circuit Court, has denied the application of the United Mine Workers for an injunction against Joe Leiter to prevent him from interfering with them receiving their mail, at Zeigler, Ill., which town Leiter pretends to own. But nobody has heard of Roosevelt sending troops to Zeigler to protect the U. S. mails, which would have occurred had Leiter been prevented from securing his mail by the miners. Judge Humphrey, after getting off the usual rot about workingmen having the right to work for whom and where they pleased, also denied the miners an injunction to prevent Leiter from importing men into the state, which acts are against the laws of Illinois. And still a lot of editorial hirelings and politicians talk about equality before the law, and that the courts treat rich and poor alike! The spectacle of a court taking a stand upon the side of the poor and oppressed and in opposition to the rich and influential is about as rare as the appearance of white blackbirds. The poor are always wrong; the rich or their money always right under the capitalist system.

LOCAL LABOR NOTES.

C. A. Foster, secretary of the local Lathers' union No. 70, has received word that Harry Stevens, formerly of Terre Haute, who has been in the state of Washington for several months, has signed a contract with the United States government to turn out 200,000 yards of lathing work at a salary of \$5 a day. The work is to be done in the Philippine islands, and Mr. Stevens will leave Seattle in a short time for the Philippines.

Stevens, who is scarcely more than 20 years old, is a native of Oaktown, Ind., where his parents live. He came to Terre Haute from Oaktown several years ago, and worked here three years as a lathing apprentice. He was a member of the local lathers' union. He left here in October of last year, and since that time has been working at his trade in Seattle, Wash., and Vancouver, B. C.

An order was issued Monday by the Columbian Enameling and Stamping Works company requiring all its slaves to be vaccinated. The order is a result of Mrs. Stinemman, one of the forewomen at the works, developing a case of smallpox Saturday.

The Merchants' Ice company, in accordance with its decision to enlarge its plant, Monday purchased an additional piece of ground 80x300 feet just north of its site.

The employees in the thirty-five mills and furnaces of the Republic Iron and Steel company have just accepted an average reduction of about 10 per cent in wages as a result of the conciliation board conference at Chicago last week. The company demanded a 15 per cent reduction in wages. The base rate of the boiling department for bar iron was reduced 10 cents a ton and the swarth scale was cut 1 per cent below the boiling scale. Reductions in the bar and 12-inch mills are 11 1/4 per cent on rolling and catching, 10 per cent on heating and 8 1/2 per cent on roughing. In guide mills the reductions are 13 1/4 per cent for rollers, 10 per cent for heaters and 8 1/2 per cent for roughing and catching.

The Highland mill in this city is an independent concern, but is governed by the same scale, and its employees will be handed the same bunch of prosperity.

In the Superior court Mrs. Gertrude Wimer brought suit against the Terre Haute Electric company, demanding damages in the sum of \$5,000 for injuries received in an accident at Brazil. The complaint alleges that on the 23rd day of last August she boarded a car at Brazil, that the motorman lost control of the controller and caused a flash of electricity to shoot through the car. That all the passengers were frightened and all started to run; that in the stampede she was forced out of the door and violently thrown to the ground and was badly bruised about the head and body.

Fires were started this week in the furnaces of the North Baltimore glass factory. During the season 130 blowers will be given work, together with 500 other men. The Root company has also begun work with 110 blowers and their helpers. The Modes-Turner factory will begin operation within a few days, and the 1,500 glass workers of the city will have been given employment.

The national convention of the United Brewery Workers is in session at Indianapolis this week.

Directors and stockholders of the Peoples' Brewing company assembled on the site of the company's plant, First and Wilson streets, Thursday afternoon to witness the ceremony of breaking ground. George Terhorst, president of the company, wielded the spade, and E. K. Bathrick, one of the promoters, made a short address. Refreshments were served.

CENTRAL LABOR UNION.

Secretary L. S. Coombs Tenders His Resignation.

There was a good attendance last night at the regular meeting of the Central Labor Union. The credentials of John Schwartz of the Bartenders' Union were received and the delegate seated.

The committee on reception and entertainment for the meeting of the State Federation of Labor, which will be held in Terre Haute September 26 to 28, reported that extensive preparations are being made for the entertainment of the visitors to the convention.

Secretary Lou S. Coombs tendered his resignation, and after it had been accepted, William S. Drago was elected by acclamation to fill the unexpired term.

The Labor Day committee was unable to report at the meeting, as there still a number of bills which have not been reported in.

The Iron Moulders' Union noted that success is being met with in the fight against the A. H. Springer non-union shop and solicited the aid of organized labor of Terre Haute in general in the waging of the fight.

Work Open Shop.

The MacBeth-Evans Glass Co. has perfected arrangements for operating its big chimney factory at Charlot, Pa., on a non-union basis. The old employees have refused to return at their terms. A number of new men went to the plant last week and started work.

DEBS IN NEW YORK CITY.

A Remarkable Meeting at Carnegie Hall September 6.

Eugene V. Debs spoke at Carnegie Hall in New York City Tuesday night, September 6. The World of Wednesday says: "Socialists gave a remarkable demonstration of enthusiasm when national leaders and distinguished foreign representatives gathered in Carnegie Hall last night to hear the reply of Eugene V. Debs, candidate for president on the Socialist ticket, to Grover Cleveland's story of organized labor's part in the Pullman strike of 1894 published recently in a monthly magazine. Mr. Debs' address, however, was devoted mostly to issues in the present campaign, and was summed up in an appeal to the American workingman to be manly enough to think and act for yourselves, and if you do the mission of the Socialist party will appeal to your intelligence and claim your allegiance and support prior to the claims of Parker or Roosevelt.

Tremendous cheering was evoked by his peroration, in which he shouted:

"I might not be elected president this year, but if you wait until we are in the majority the world will never know that you have lived.

"A more loyal audience never gathered in Carnegie Hall, which was crowded to the doors. Captain Hussey, with a hundred policemen, was on hand to take charge of the big crowd. There was a rush as soon as the doors were opened, and the police were compelled to form a long line down Fifty-sixth street to prevent injury while the hall was filling. The main floor and the four galleries were filled to their utmost capacity, and the overflow was held outside to be entertained later by cart-tail speakers.

"Seated on the platform near Mr. Debs were Emile Vanderveelde and Senator La Fontaine, of the Belgium parliament, and Hermann Froelich, a member of the Swiss parliament. They are on their way to the Interparliamentary Congress at the St. Louis fair.

"John Chase, ex-mayor of Haverhill Mass., introduced Prof. Geo. D. Herron as chairman of the meeting."

INDIANA FEDERATION.

Twentieth Convention of State Labor Organization.

The twentieth annual convention of the Indiana Federation of Labor will convene in this city Monday, September 26, 1904, and remain in session until the matters and things submitted for consideration have been disposed of. All organizations, whether affiliated or not, are urged to send delegates. The cost for affiliation is \$1 for the union. The dues or per capita per year is 5 cents per member for local unions; central labor unions, trades councils, district assemblies, state organizations, etc., shall pay a per capita tax of 15 cents per year. Expenses of delegates must be borne by the organizations they represent. Two or more unions may unite in sending a delegate, but such delegate must be a member of the organizations thus combining. Each union is entitled to one delegate, and an additional delegate for each fifty members or majority fraction thereof. Central bodies, trades and district assemblies or state organizations are entitled to five delegates. During the convention headquarters will be established at the Terre Haute House.

The sessions of the convention will be held at Maccabee Hall on Seventh street. During the convention the printer delegates will be tendered a banquet by Typographical Union No. 76. The arrangement committee will have plenty of entertainment for all the visitors.

Brazil Switchman Killed.

Robert Hall, 25 years old, a switchman, was killed in the C. & E. I. yards at Brazil Tuesday evening. Hall was riding on the front end of a cut of cars and was thrown off by a sudden slacking of the train. He was thrown under the wheels and so terribly crushed that he lived but a few minutes. Hall was a former miner and has been employed on the railroad only a month.

Wakeful?

Sleeplessness Is a Sign of Nerve Trouble and Should Be Looked To.

There are three different manifestations of sleeplessness.

First, hardly to sleep all night, second, to lie awake a long time before falling asleep; third, to fall asleep soon, waking up after several hours and then find it hard to sleep again.

They mean that somewhere in the nerve fibres, somewhere in the brain cells, somewhere in the blood vessels that carry blood to the brain, something is radically wrong, and must be righted, or the end may be worse than death.

To right it, take Dr. Miles' Nerveine. Some other symptoms of nerve trouble are: Dizziness, Headache, Backache, Worry, Fretfulness, Irritability, Melancholy, Lack of Ambition.

They indicate diseases which may lead to Epilepsy, Fits, St. Vitus' Dance, Nervous Prostration, Paralysis, Insanity. Nothing will give such quick and lasting relief as Dr. Miles' Nerveine.

"My husband had been sick for weeks, could not sit up to have his bed made. With all the medical help we could get he continued to grow worse. He could neither sleep or eat. Our baby girl was sent away, and all called barred, because he could not stand a bit of talking. I read of a case of nervous prostration cured by Dr. Miles' Restorative Nerveine. We began giving it to him, and in a few days he was able to be dressed. From that time he steadily improved. Nerveine saved his life." MRS. A. G. HASKIN, Freeville, N. Y.

MINES AND MINERS.

George Purcell, member of the national executive board of the United Mine Workers, spent a few days at his home here this week before leaving for Knoxville, Tenn. Purcell has been doing organization work in Tennessee and Kentucky for the past six weeks and has met with good progress.

Wellington O'Connor of Staunton, member of the district executive board, was in the city several days this week. The mine where Mr. O'Connor is employed, at Turner, has been closed down for the past fifteen weeks, the mule drivers having gone on strike, alleging that the stables are too great a distance from the mine.

The auditing committee of district 11, consisting of W. A. Murray of Linton, John T. Cole of Brazil and Cornelius Gray of Winslow, met Tuesday to go over the quarterly reports of Secretary Kennedy. This district is rapidly gaining in membership, and since the first of the year over 1,000 miners have come into the district, raising the total number to over 13,000.

The Big Four railroad company has just served official notice on the E. & T. H. and Southern Indiana railroad companies that, until further notice, an embargo will be placed on all coal for Indianapolis and other eastern points originating on those lines. Scarcity of equipment resulting from world's fair travel is again given as the cause.

After idleness of six months 2,000 coal miners in sub-district No. 2 in Ohio have declared off the strike which was begun because of a request that they accept a greater reduction than that contained in the Indianapolis convention agreement. The miners now agree to accept a wage reduction of 10 per cent less than that received for two years prior to April 1, 1904.

The United Mine Workers' district board in session at Brazil Tuesday, to settle the differences between the operators and miners at the Davis mine, adjourned sine die without accomplishing anything. The men are out pending settlement. The difficulty is over the way coal should be delivered to the drivers.

District president Boyle returned from Winslow Thursday, and went to Montgomery Friday.

Vice President Walters was in the extreme south part of the state this week.

George Gastineau, night engineer at Jackson Hill No. 4, sustained a painful and peculiar accident Thursday. A rod worked loose from the engine and penetrated his hand. The force of the engine also withdrew the rod without breaking any bones.

In a fall of slate at the Union coal mine near Sullivan Wednesday night, Samuel Shepherd was killed and Ira Cochran and Steve Hopper were injured, the latter seriously. The men fired a shot, which had loosened a "prop" in an entry. While trying to replace the "prop" part of the roof which it supported fell, killing Shepherd instantly.

The Nathan Hinkle monument will be unveiled at Hymera Saturday, October 1. The principal address will be delivered by John Mitchell, president of the United Mine Workers of America. Representatives from the miners' locals throughout this community are expected to take part in the exercise.

A SOCIALIST CAMPAIGN SONG.

Composed and Published at Terre Haute, Ind., The Home of Eugene V. Debs.

"The Dawning Day" is the title of a Socialist campaign song. The words of which were written by Frank Sence and the music by Thos. G. Fudge a prominent music teacher of this city the words are replete with a true class conscious ring. The music is imbued with the same spirit, having a rousing chorus harmonized for male voices. A quartette from this city sang the piece at Debs' meeting Indianapolis, Ind., Sept. 1, 1904 on which occasion 300 copies were sold. The title page, embellished with portraits of Debs and Hanford, is well worth the price to any Socialist whether musician or not. "Music hath charms to soothe a savage" and has its place in the Socialist movement. The Socialists of America should encourage our comrades in this venture, this being (to the best of our knowledge) the first Socialist song ever published in sheet music form. Considering the quality of paper used and the excellency of the printer's work the price of the piece is remarkably low, 10c per copy, or 3 for 25c. Order of the composer, Thos. G. Fudge, Terre Haute, Ind.

The Stable Boss Question.

The committee of operators and miners who went to Indianapolis Saturday to see National President John Mitchell of the mine workers' organization regarding the stable boss question, have returned. Mr. Mitchell has again taken the matter under consideration as to whether stable bosses shall be members of the union or not, and is expected to render a decision within the next few days.

How Are You Going to Vote?

We elect a president next November. Are you going to vote with the Democrats, the party of the little capitalists, and try to put things back where they used to be? Or are you going to vote with the Republicans, the party of the big capitalists, and help keep things as they are?

Or will you vote with the Socialist Party, the party of the workers, and help change things so that those who do the work will own what they produce? But possibly you do not know about the Socialist Party. Then send four cents in stamps, and receive by return mail three books, *Easy Lessons in Socialism*, *The Socialist Party*, and *What to Read on Socialism*. Address

When you are buying a FUR HAT—either soft or stiff—see to it that the GENUINE UNION LABEL IS SEWED IN. If a retailer has loose labels in his possession and offers to put one in a hat for you, don't patronize him. He has no right to have loose labels. Loose labels in retail stores are counterfeits. Do not listen to any explanation as to why the hat has no label. The genuine union label is perforated on the four edges, exactly the same as a postage stamp. Counterfeits are sometimes perforated on three of the edges, and sometimes only on two. Keep a sharp lookout for the counterfeits. Unprincipled manufacturers use them in order to get rid of their scab-made hats. The John B. Stetson Co. of Philadelphia is a non-union concern. JOHN A. MOFFIT, Pres., Orange, N. J. MAILLY'S REPORT

Weekly Socialist Bulletin of National Secretary.

The reports from Eugene V. Debs' first campaign meetings are all of one character. Greeted by great crowds at each place he visits, the Socialist Party presidential candidate is arousing the enthusiasm of the Socialist workers to a white heat and striking dismay and terror into the heart of the old party politicians.

Extracts from reports received as follows:

Comrade F. L. Robinson of Louisville, Ky. writes: "For over two hours comrade Debs held the audience with his scathing arraignment of the two old parties, pointing out in most convincing fashion the reasons why they can not be the friend of the working class, and making clear the existence of the class that controls them, is necessarily grounded upon the robbery of the wealth producers. That the arguments were most telling and effective was proven by the deep interest manifested and the repeated applause that came in response to every telling point made by Comrade Debs, who received an ovation after the meeting. He was especially struck, he said, by the large number of young men who assured him that their first vote for president would be cast for the Socialist ticket."

Secretary J. M. Dial, Jr., reported that the meeting at the Ludlow Lagoon, Covington, Ky., Sept. 4th, arranged by a joint committee from local Cincinnati, Covington, Newport, Bellevue, Dayton, and West Covington, was an unqualified success. The attendance broke all records at this pleasure resort, 15,000 people being on the grounds. "Comrade Debs spoke in the Park Theatre, and every available inch of space was filled to overflowing. Hundreds were turned away. Comrade Debs spoke with a mastery, combining keen wit and biting sarcasm with a depth of human sympathy and faultless reasoning that carried his audience completely away. At the close of the meeting hundreds crowded to shake Debs' hand and say they were "done with the old parties". Comrade Debs finished speaking at 5 P.M. and from that time until 9:30 the grounds were filled with groups of men earnestly discussing Socialism. It was a glorious opening of a campaign that promises more for Socialism than ever in the past."

Comrade Josephine W. Elstein reports upon the Labor Day meeting at Erie Pa.: "Comrade Debs spoke to an audience estimated at thousands and the points chosen by him for his speech were exceedingly appropriate and forceful. The audience was attentive and appreciative. Our celebration was attended by delegates and others from perhaps a dozen surrounding towns and ours was indeed a dignified celebration of Labor Day."

The New York "World" gave a column report of the meeting in that city on Sept. 4, in part as follows:

"A more loyal audience never gathered in Carnegie Hall, which was crowded to the doors. Captain Hussey with a hundred policemen was on hand to take charge of the big crowd. There was a rush as soon as the doors were opened, and the police were compelled to form a long line down Fifty-sixth street to prevent injury while the hall was filling. The main floor and the four galleries were filled to their utmost capacity, and an overflow meeting was held outside."

"The entrance of Mr. Debs was the signal for a remarkable greeting from his followers. Men and women—the women composing nearly half the audience—cheered until they were hoarse. They jumped on chairs, waving hats and handkerchiefs, and continued the deafening welcome for fully five minutes."

"When Mr. Debs was introduced the scenes of a few minutes before were repeated. His opening statement that organized labor was called upon to face organized anarchy of governments aroused another deafening volley of cheers. His first mention of Grover Cleveland's name called forth continued hissing."

BEN HANFORD'S TOUR.

The reception accorded Comrade Ben Hanford, vice presidential candidate, in the various cities he has visited has been no less enthusiastic and gratifying. At Ottumwa, Ia., the local press reports that every seat in the large court room was occupied and many stood in aisles and doorways during the address. At Muscatine fully 1,000 people listened to Hanford in the court house square and the local comrades report much good accomplished. The Canton, Ill. Register reported that "Mr. Hanford is a ready talker, emphasizing his points with apt word pictures. He is thoroughly familiar with his subject, and clothes stock arguments in new language. The Socialists are greatly gratified at the reception their candidate received."

The Joliet, Ill. News gave a lengthy report of Hanford's meeting in that city, and Comrade Nelson of Streator writes that "Hanford has a great effect on the audience and did much good, instilling more enthusiasm than any other meeting we have had."

At Haverhill, Mass. on Labor Day Hanford was the Socialist speaker, the press reports stating that 15,000 people were present.

The National Quorum will meet at National Headquarters on Friday, September 16th.

Secretary Tom Fitton reports that C. C. Whittemore has been expelled from Local Buffalo, New York for "dishonesty in handling the funds of the local."

The following leaflets have been translated into Italian, French, German, Polish, Bohemian, Norwegian, Swedish and Finnish and can be obtained from the National Secretary, 269 Dearborn street, Chicago: National Platform; "The Mission of the

How Will We Govern.

Editor Toiler: The question, "How do you Socialists propose to govern the industrial system of this country after you have come in control?" is often asked by men who desire to learn something about the principles of socialism. This, in my judgment, is one of the important features—the democratic management of the co-operative system of industry by and through the initiative and referendum—and I think it would be well for our speakers and writers of propaganda matter to devote more time and space to that very important feature of socialism. We high privates in the rear ranks have the correct idea all right, but when it comes to explaining and making it clear to the seekers after truth, we are not always "there with the goods." Hence, we must look to the bosses—no, bosses don't grow on Socialist soil—more advanced thinkers for information along that line.

Say? Don't it "jar you" to hear a man with the gable end of his pants rent asunder and a flag of truce floating gayly to the breeze, and who is toiling and sweating for a dollar a day, rear back on his dignity and swear by the great horn spoon that he is opposed to socialism because Socialists want to "divide up."

Then, there is another class of fellows who favor a gold standard because they want "our dollars to be good in yew-ropes," when, at the same time, if they were compelled to leave town on a moment's notice they would have to walk out. Ye gods and little fishes, what fools we mortals do be!

We nominated county and township tickets Saturday evening, and are going to put up the best fight that is in us.

G. W. KELLER, Kokomo, Ind., Sept. 11, 1904.

Greene County Candidates.

Linton, Ind., Sept. 17.—The Greene county Socialists held their county convention in Bensley's hall last Saturday. Addresses were delivered by Father T. J. Hagarty of Arkansas and Mr. McSweeney of Chicago. Joe E. Stevenson was nominated for sheriff and William Carlisle for representative.

The meeting of the county executive council showed that the party is in fine condition in this section of the state and new branches and locals are springing up in every town and city. Arrangements are being made to circulate about twenty-five thousand pieces of literature between now and election and a large vote and a like

CLAY COUNTY IN LINE.

Fall Socialist Ticket Nominated on Labor Day.

The county convention of the Socialist Party of Clay county was held in Brazil on Labor Day with forty delegates present. The convention was called to order by Geo. M. Larrair, of Brazil, who welcomed the delegates and thanked them for the interest taken in the welfare of the party, when nominations for temporary officers were called for, which resulted as follows: Barney Navin, of Brazil, chairman; Geo. M. Larrair, of Brazil, secretary.

The following committees were then chosen: On resolutions and platform, J. H. Adams, Wm. H. Lynch, Clayton Calvert and James Murphy.

Ways and Means, Henry W. Smith, Edward Crosser, Wm. Poe and Thomas McKanna.

Officers reports, David Thomas, Riley Poe and Robert Kennedy.

Chairman Navin then called for nominations for permanent officers of the convention, which resulted in Clayton Calvert being elected as chairman and Geo. M. Larrair secretary. Reports of the county secretary and treasurer were read giving a detailed account of the propaganda and financial affairs of the county movement, including recommendations for the welfare of the party. Convention adjourned until 1 p. m.

AFTERNOON SESSION. Committee on resolutions and platform reported having endorsed the state and national platform of the Socialist Party and their nominees for the state and national offices; they also reported favorable on the Colorado resolution to-wit:

Whereas, The Colorado situation is as yet unchanged, the militia and Citizens' Alliance are continuing to rule with a despotic hand, in the deportation and imprisonment of workmen without trial or evidence, other than that of being a member of a labor union, and

Whereas, The two attorneys in the employ of the Western Federation of Miners who were paid by that organization to investigate the Independence depot explosion, having collected evidence incriminating members of the Citizens' Alliance and Mine Owners' Association, the said attorneys were hastily deported under threat of death should they return, and

Whereas, The militia is generally supposed as being a means for preserving the peace, the contrary is now proven, all shame is being thrown aside, the veil is drawn, and the monster can now be viewed in all its Satanic horror, and

Whereas, The situation is now so full of atrocious acts and disloyalty to our boasted constitutional rights, that the people wonder with frenzied expectation as to where we are drifting, and

Whereas, Socialists well understand the motive of the instigator of this unjust campaign of crime and lawlessness against the strikers of Colorado. We realize that unionism begets socialism. This we affirm to be the undisputed cause of the Colorado trouble, therefore be it

Resolved, that the Socialist party of Clay county in convention assembled at Brazil, Ind., this 5th day of September, '04. Do hereby denounce all individuals who have participated in this reign of terror against our brother and fellow workmen of Colorado, and be it

Resolved, that we score the two old parties as being unworthy of laboring men's support, in that they have remained neutral in this and other outrages on the life and liberty of the working class of America, be it

Resolved, that we implore the working men to study the tenets and principles of Socialism, that we may capture the powers of government, through the ballot and institute the cooperative commonwealth. Then will tyranny have vanished and justice prevail.

The following candidates for County offices to be voted for at the coming election were then nominated:

Prosecuting Attorney—W. W. McGregor, Clay City.

Representative—David Thomas, Hadleytown.

Clerk—James Murphy, Cardonia.

Recorder—Wm. Lewis, Donaldsonville.

Treasurer—Chas. Larrair, Brazil.

Sheriff—Angus M. Stevenson, Cardonia.

Coroner—Robert Kennedy, Brazil.

Surveyor—Thomas J. Lee, Stanton.

County Assessor—Isaac N. Wright, Cardonia.

Commissioner 1st Dist.—Wm. Lynch, Morgans Crossing.

Commissioner 2nd Dist.—Wm. Ball, Jackson Tp.

The election of party officers to serve for one year by motion postponed.

A collection was taken up to be used for campaign purposes and the delegates responded cheerfully. County Convention adjourned and the Joint Convention of Clay and Owen convened, nominating the following ticket:

Joint Senator—Barney Navin, Brazil.

Joint Representative—Wm. Poe, Brazil.

Vigo County Socialist Notes.

The past week has been one of great activity in local socialist circles, and the party organization is enjoying a vigorous growth as a result.

Comrades Hagerty and McSweeney who are touring the state have been in the vicinity of Terre Haute for the past week and have held uniformly successful meetings wherever they have spoken. They held a good meeting at Diamond and completed the organization of a local with about forty charter members. Comrade Hagerty spoke to about five hundred people at Third and Main street, in this city Sunday evening and sold several dollars worth of literature. The highest praise of his speech was heard on all sides. Comrade McSweeney was ill to speak.

Organizer Reinbold visited Burnett and made arrangements for the organization of a branch which was completed Saturday evening by county organizer Mahoney, with eleven charter members. The new branch is composed of a fine set of comrades who will take care of the movement in Burnett.

The meeting of the county executive council showed that the party is in fine condition in this section of the state and new branches and locals are springing up in every town and city. Arrangements are being made to circulate about twenty-five thousand pieces of literature between now and election and a large vote and a like

increase in the party membership is expected. The organizer reported several new applicants for membership.

Comrade Strickland state organizer will be in Terre Haute next Sunday and will speak at Third and Main in the afternoon. It is hoped that every comrade will be out and bring his friends to hear this eloquent and convincing speaker.

Arrangements are under way to organize bunches at Heckland, Fontanet and Ellsworth. Much work is being done but a great deal remains undone, because the comrades do not contribute finances and the committees are crippled in consequence. There are no Davises in the Socialist party and the rank and file must furnish the means if they wish to achieve success.

A big meeting will be held Saturday evening at Third and Main street. Several new speakers will make their debut. Comrade Kingery has been drilling and clearing them to face the public, and every comrade should be present and help make the meeting a success.

Terre Haute Business Men Friendly to Union Labor

Terre Haute Savings Bank.

There is no reasonable excuse why a well paid wage earner should be just even with the world financially, especially during prosperous times such as the present. He should make it a point to put aside for future use a certain portion of his regular income.

The subject of prudence and economy is one of the most important questions which confront workingmen at the present time. Without a reserve fund for cases of emergency, he is certain to be handicapped in his efforts to better his condition and to suffer in case of sickness, loss of employment or hard times. The question of saving is one of primary and vital importance.

We have, upon various occasions, pointed out the various investment schemes which are constantly offered to the public with the alluring promise of rich returns to the investors. Such plans are often unreasonable and ridiculous upon the face of them, being entirely inconsistent with the laws of business, as well as common sense. Our members will do well not to experiment with such concerns. A well regulated concern such as the Terre Haute Savings Bank, for example, offers to depositors the very best possible inducements consistent with absolute safety and sound business principles; it is sound in every respect and in all its dealings has shown itself to be most courteous and considerate.

The officers of this institution have always been identified with every effort to advance the well being of wage earners.

Valentine G. Dickhout.

Among the advancing concerns of our city, there is none that has a more enviable reputation in their line of business than that of V. G. Dickhout. He is well known in Terre Haute and there is no firm in the city that gives more satisfaction than does this well known enterprising business.

The proprietor of this concern has shown himself to be just in his dealings with the people. The increasing business goes to show the fair dealings of the place.

We trust the business will continue to prosper. The proprietor has maintained a most favorable attitude towards labor and the cause of labor, and we take pleasure in placing the name of Valentine G. Dickhout, among the leading concerns of the city, who may always be depended upon as staunch, and you will receive considerate treatment at his store.

He is the well known and popular trunk manufacturer and dealer located at 24 South Seventh street. Call and see him.

Barnett & Lickliter.

No more firm friends of organized labor can be found in the city today than Barnett & Lickliter, the genial proprietors of the Grocery, Saloon and Meat Market, located at 310 South Second street. The prosperity of any city, and especially of the workingmen who constitute so large a percentage of its population, is dependent upon the treatment they receive at the hands of their friends.

The very finest grades of wines, liquors and cigars are handled at this popular place, and all customers are treated with uniform courtesy by both the proprietors and his employees.

Their grocery is stocked with everything in the line of family necessities, including a fine meat market.

They have met with deserved success in their chosen line of trade and we take pleasure in recommending them to our friends and the public.

Union Pacific Tea Co.

We take pleasure in this edition in calling the attention of the thousands of workingmen of this district to the name of the Union Pacific Tea Company, a concern in our midst which is worthy of the support and encouragement of all intelligent workmen. The record of this splendid company shows clearly that the members have in all their dealings with labor been actuated by principles of fairness and justice. A concern which pursues a policy of this kind is almost sure to have steady growth. They are wholesale and retail dealers in Teas, Coffees, Spices, Sugars and Table Delicacies, and are known from Maine to California.

When a company, such as the above, pursues a policy of strict fairness and consideration in its relations with labor, that company should receive the hearty support and encouragement of our friends and the public. Mr. A. W. Osterhage is the manager and you will find him a genial and whole souled man.

Located at 527 Wabash avenue.

The Wabash Savings Loan and Building Association.

A savings and loan company which is well and favorably known to the host of union men in this district is the Wabash Savings Loan and Building Association. This institution has always exhibited the most friendly feeling towards organized labor, together with its hearty co-operation and good will. The officers of this meritorious concern, through their ability, integrity and untiring efforts have contributed greatly to the financial strength of this community and to the encouragement of the wage earners to put away the needful dollar for the rainy day. This concern is located at 14 and 16 North Sixth street, ground floor, McKean Bank Building.

Mr. Joseph G. Elder, Secretary, is a courteous gentleman, and we cheerfully recommend our friends and the public to him when seeking investments and loans. The policy of this institution is progressive yet conservative, two principles that insure success.

Ten three-month subscriptions for \$1.

THE purpose of an edition of this character is to present a carefully prepared list of concerns and individuals who evidence an interest in the cause of organized labor. By their appearance in this issue their sentiment is expressed. It is also a proper recognition of appreciated patronage of the union man and his family. It is therefore proper that the firms that are here given space and honorable mention should receive the support and patronage due them for their manifest interest in this Annual Review.

Citizens' Gas and Fuel Co.

A concern which is of great importance to the commercial prestige of Terre Haute is splendidly exemplified in the excellent service rendered by the above company. This institution has an excellent plant and is under the management of an able man. The officers are estimable men who have always proven themselves to be broad-minded and public-spirited citizens and all their transactions have been most fair and reasonable. It is a well-known fact that the patrons of this company are accorded the utmost courtesy and fairness and the members of organized labor are safe in patronizing and supporting to the fullest extent a reliable company such as this.

The prosperity of any city is indicated by the size and importance of its leading concerns. In this respect this company holds a leading position among the strong and substantial institutions in our city.

Mr. M. N. Diall is the General Manager and their office is located at 636 Wabash avenue.

A. Z. Foster.

A merchant who is well and favorably known to the union men of our city is A. Z. Foster, located at 612 and 618 Wabash avenue. This gentleman has always exhibited a most friendly feeling toward the cause of labor. Because of his hearty co-operation and good will he is entitled to the liberal encouragement and good support of organized labor. Mr. Foster is a man of ability and integrity, and he enjoys an enviable reputation and standing in this city.

We take pleasure in placing the name of Mr. Foster among the prominent ones of Terre Haute which are always to be depended upon as substantial friends of organized labor. Patronize this gentleman and you will not be disappointed in his choice line of furniture and carpets of all kinds.

The success of Mr. Foster in his chosen line of business is worthy of note and upon this it is our proud privilege to extend to him the most hearty congratulations. May his prosperity continue.

Saml. K. Duvall.

Among the prominent lawyers of Terre Haute is Mr. Samuel K. Duvall, located at 419 1/2 Wabash ave.

We are pleased to note that this gentleman is held in high esteem, not only by his clients, to whom is accorded the most fair and courteous treatment, but also by organized labor in the city.

Union men will make no mistake in extending their co-operation to this deserving gentleman, and may continued success ever attend Mr. Duvall in our earnest wish. We place his name in our edition with great pleasure, heartily recommending him as one to do business with, as it will be to the interest of all in need of expert legal assistance. Mr. Duvall is a refined and polished gentleman, and thoroughly understands his chosen profession, having mastered every problem. He will advise you all right, and you may feel safe to have him handle any of your legal business.

Peter E. Johanson.

In calling the roll of Terre Haute's important business interests one should not overlook the house of Peter E. Johanson, located at 901 1/2 Wabash ave.

This is one of the particularly well established concerns of our city, and is one which has earned the respect and confidence of the entire public.

His work is however his best advertisement and he does practically everything in the way of machinery and stove repairing. When a job leaves his hands it is safe to say that it cannot be improved on. It is such concerns as this that help a town, and the management believes that our people want only the best and they give it to them every time. The proprietor, Mr. Benj. H. Cooper, is a good business man, being practical in every branch of the line, and his reputation cannot be gainsaid. If you trade with him you may be assured that you can do better no where else. This firm has met with deserved success in their chosen line of trade. We take pleasure in warmly recommending them to our co-workers.

Terre Haute Water Works Co.

One of the most important institutions in our city is the Water Works Co. They furnish to our citizens pure water. The reasons for the purity of the water they furnish are two-fold. In the first place the Wabash river being a moving stream purifies its own water to a great extent, and then the water is put through a process of filtration, so as to make it almost impossible for impurities to get into the supply that reaches the people. There has not been a half dozen cases of typhoid fever in our city, and the records of the board of health show but one up to August 4, 1904. United States Trust Co.

The city's financial standing is largely dependent upon the strength and reliability of the banking institutions which it contains. In this respect our city is very fortunate in having so strong and reliable a bank as the one mentioned above, which is located at 643 and 645 Wabash avenue.

This bank carries on a general banking business, receiving deposits, making loans and discounts, buying and selling foreign exchange and has a most complete collection department.

The commercial success of a city means the prosperity and happiness of its citizens, among whom the workingmen form the larger percentage. A sound banking house is, therefore, one of the best friends of labor, and as this bank has maintained a most friendly spirit towards our cause, we have no hesitancy in placing its name foremost among the prominent concerns which may always be classed as substantial and considerate friends of labor.

Among the officers and directors of this bank are a number of our most prominent citizens—John T. Beasley, President; W. S. Rea, First Vice President; B. V. Marshall, Second Vice President; Wm. K. Hamilton, Secretary-Treasurer.

O'Connell and M. J. O'Dowd, located at 1100 Poplar street. Both of these gentlemen were active members of the Sheet Metal Workers' Union.

J. C. Holden.

Workingmen, in the past, often have been at a loss to know just who were the friends of labor and have been unable to ascertain which concerns were entitled to their patronage. The movement which has been started to throw the combined support of organized labor to those firms and individuals that are known to be friendly in their attitude, is a result of this need.

In compiling such a list for their guidance throughout the coming year, the committee appointed for that purpose, has eliminated all firms where the least objection could be made and the list thus presented embraces only those who are entitled to receive this support and patronage.

One of the most prominent names on this friendly list is that of the well known and popular barber and cigar dealer, J. C. Holden, whose place of business is located at 12 North Seventh street. Mr. Holden is also superintendent of Lakeview Park. These concerns have treated the great question of labor with the utmost fairness and consideration. On many occasions it has been demonstrated that they are interested in the interest and welfare of wage earners. In recognition of this existing good will this enterprising concern should receive the unanimous support of laboring men throughout the coming year.

God's Children

A Modern Allegory

THIS new book by JAMES ALLEN will delight every socialist reader and will jar the non-socialist reader into doing some thinking for himself. It is by all odds the cleverest socialist novel ever published in America. Read it and laugh over it, then lend it and see the converts it will make. There is no socialist label on it (only a union label), and you can get a man to read it who would turn up his nose at anything marked socialist.
