

BASE SLAVES ARE KNOCKED HIM SKY HIGH

George D. Herron Issues Statement for the Benefit of Socialist Cause

So untrue and unjust are recent press reports concerning my wife and myself, and so terribly false their implications as to Socialist men and doctrines, that I feel compelled to give them an explicit public denial. Not that I have any hope of countering by means of a brief statement, the effects of wide misstatements that have occupied pages in our daily journals, and that have been read by millions of people. I can only hope that some of the serious-minded may read what I herein set forth, and accept it for the truth that it is.

1. According to these reports, Mrs. Herron and myself have recently inherited from her mother, Mrs. E. D. Rand, seven millions of dollars, all of which sum is to be devoted to the destruction of the family and religion. Now, Mrs. Rand never had eleven million dollars, nor one million dollars, to bequeath to any one. Her whole estate does no amount to one-twelfth of what the press reports her to have left to her daughter. And the bulk of that twelfth does not go to Mrs. Herron at all, but is held by trustees to be equally divided among Mrs. Rand's six grandchildren, as they respectively become twenty-eight years of age, during which time one-half the income is to be devoted to the founding of a school of Socialism in New York City, with Mrs. Herron and Mr. Morris Hillquit as its trustees.

2. It is stated that there is gathered at Elmwood Farm, our home near Metuchen, New Jersey, a colony of people who are putting in practice the supposed doctrines that are destructive to the family and to religion. There is not, there has not been, nor has there been any intention or dream of having, a colony of any sort whatsoever at the Elmwood Farmstead. The place was an old and neglected colonial farm, which we bought four years ago, in the first place, as a home for my father and mother, who are conservative Presbyterians and Republicans, and also are the only people who have ever lived on the place, aside from the superintendent and the employees. We also thought of the homestead and land as a place where we could work out of doors in the summer months, while giving hospitality to friends in need of rest, and while making a piece of practically workable, earth fruitful and beautiful again. The only cottages on the place are those occupied by the farmer, the mechanic and the gardener. The persistent story of a colony at Elmwood Farm is pure invention; and neither in fact nor intention has such a colony ever existed. It is to be hoped that this statement will forever set the matter at rest.

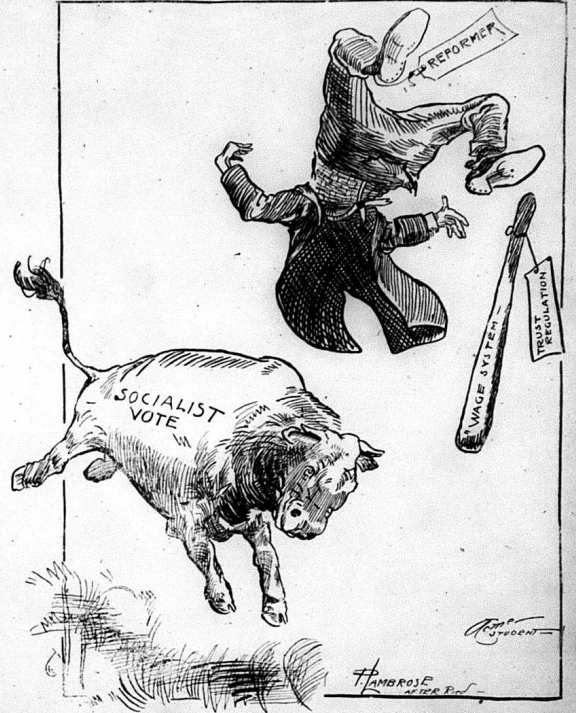

3. It is reported that I and my "followers" are engaged in a crusade against marriage, and that I am writing a book, to be published in all languages, and in all lands, that is meant for the destruction of the family.

I am not writing, and never expect to write any such book; nor am I engaged in any crusade against the family. In the real consciousness of the real family none of our accusers believe so devoutly as my wife and myself. One of our complaints against a capitalist civilization is that it is destroying both the economic and sympathetic basis on which the family can alone be built. The only crusade upon which I have been engaged is that of the working class for its emancipation from a capitalist society that believe to be already rotten to the heart and brazen in every feature. Furthermore, I never had, never sought, and would not consent to having "followers" of any kind whatsoever. I am myself but a humble and unimportant follower of the International Socialist movement for the overthrow of capitalism and the people's republic. I have present dooms the peoples of all nations to slavery, misery and hypocrisy.

4. For the millennium time, it is reported that Mrs. Herron and I took each other as "companions," nearly four years ago, and that we were not duly and legally married. This again is unequal and malign invention. No such expressions as those used by the press, and by certain sordid characters, were ever used. We were married legally and even conventionally. The only thing in which the marriage differed from any marriage service was that the clergyman used the words "announce" instead of "pronounce," and that each of the friends present was asked to express some chosen sentiment as a part of the ceremony.

Finally, it is only a painful and reluctant consideration that I send out this statement. In the unimaginable falsehood and warfare to which my wife and I have been subjected, for now more than four years, whenever our names have been publicly mentioned, I have made no reply and no defense. Nor is this mere statement of facts a defense of anything, that we are, do, or teach. In the end, it is only the lives of men and women, and of the child, that is in them, that can defend the truth, and that their lives cannot justify them, nothing else can; and if the truth cannot finally care for its own, then the world has no justice to give that is worth the having. Besides, it seems to me that the manner by which my wife and I were married, and the things I am supposed to teach, have occupied a place in the public press, and hence in the public mind, all proportion to their significance. What I do, what I teach or do not teach, is very important; and it is humiliating to be forced to assume them to be important enough to demand a defense against injustice and misstatement. And it is only out of deference to the cause of Socialism, to which such life-long devotion and energy is given, and in the order that the Socialist movement and its doctrines may not be misread in the light in which I have been presented to the people by the reports referred to. While not expecting for a moment that this statement can efface the long effect of evil report from the popular mind, it can at least hope that facts herein given may have with some, at least, the effect of setting an all-around fairness in the press to allow me to set forth this much of the truth against the volumes of unthinkable falsehood that have appeared. I furthermore hope that this statement may be accepted as final, especially as my wife and I are leaving to make our home indefinitely in a foreign land.

GEORGE D. HERRON.

CAPITALISM AND THE TELESCOPE

A writer in the "Technical World" for September, makes the statement that in the six years from 1897 to 1902 there were more inventions in the United States \$13 million pounds of the "Java and Mocha" coffee; but that the number of the country who used it during the same period no less than 3,500 millions of pounds of Java and Mocha coffee; but that the number of the country who used it during the same period no less than three thousand million pounds of the coffee consumed by the people in six years was not what it was represented to be at all. And the grocers are among the highly respectable citizens who oppose Socialism because it would "destroy incentive." They want to see the people who conduct their business of poisoning the people with shoddy and adulterated goods for profit.

Machine Benefits Only Capitalists. Another writer in the same magazine in an article on the growth of the automobile in America says: "It is improved machinery that, more than anything else, has made possible the production of the motor cars of the United States. Without this we could never have dispensed with the cheap labor of the Orient." But nothing is said about whether or not the workers in the southern rice fields are getting any more wages because of the improved machinery. No likely. The owners of the machines get the benefit, while the condition of the wage workers whose labor is applied to the machines of the Orient laborer tends to the level of the Oriental laborer. It would be slavery for the workers to own the machine of a course.

Isn't It Foolish? Did you ever stop to think of the absurdity of presenting to the people using tallo-pink and bumbersene oil in their homes, while the laborer who produces the tallo-pink with electric lights solely for the purpose of advertising? If you haven't, stop for a moment, and then ask yourself the way and wherefore.

Organize Something Now. Municipal ownership got another setback in Chicago last week when the Council, by Mayor Dunne's advice, deferred action until next spring. And yet there are some people who just point at the subject for fear they won't fall in line with one of the old parties to get something in one time. There are some who are afraid of getting anything quicker than through the only party that's really setting itself up for the workers, and that something that's making the most present conditions through Socialism.

Still to be Settled. The preparations now being made by the miners' union and the operators for another anarchic strike next spring are still more of the same words that the Socialists said in 1902 was correct. That the set-

rational system promote good will and brotherhood among all the people.

Talked Too Much. By the time the investigations into insurance companies and other corporations are through with me, there will be more of the Socialist arguments substantiated, and especially that one relating to the support of the old parties by the capitalists. And to that extent the investigation will go on for what workman can be so blind as not to see that the funds of the Republican and Democratic parties are not given for sakes of the working people, but because of the need for money to support whatever party is elected? It is amusing to have Parker claim that the funds of the Democratic Party are not given for sakes of the working people, but because of the need for money to support whatever party is elected? It is amusing to have Parker claim that the funds of the Democratic Party are not given for sakes of the working people, but because of the need for money to support whatever party is elected? It is amusing to have Parker claim that the funds of the Democratic Party are not given for sakes of the working people, but because of the need for money to support whatever party is elected?

The Vital Question. In their more or less frenzied campaign against Mr. Cox of Cincinnati for the position of Governor of Ohio, the Democratic Party is telling the working class voters just what they can expect from the election of Mr. Cox. The question of the Democratic ticket. The question is a pertinent one, but the fact that the Democrats are inclined to forget such things in the past of the party's splendors and newspaper editorials is not a sufficient reason for the revelation made about the New York Life's donations to the Republican campaign put in it. It begins to look as if "Teddy" like the traditional parrot, talked too d—d—d.

An Enemy Worth Having. So Grover Cleveland is still against man support. It will, Grover Cleveland is still against man support. It will, Grover Cleveland is still against man support. It will, Grover Cleveland is still against man support.

DID YOU KNOW

That the Socialist Party is the only working class party? That the Socialist Party is the only party which declares that the working class produces all the wealth? That the Socialist Party is the only party which proposes to take the powers of government out of the hands of the capitalists? That the Socialist Party is the only party which is training the working class to take the power of government for the benefit of the working class? That the Socialist Party is the only party in this country not controlled by the capitalist class? That the Socialist Party is the only party really feared by the capitalist class because it would put an end to the system which enables the capitalists to exploit and rob the working class? That the Socialist Party is the only party which the capitalists are willing to see destroyed? That the Socialist Party is the only party which does not conduct its campaigns through donations from corporations? That the Socialist Party is the only party which declares that the cause of the class struggle must be recognized by the members of the working class? That the Socialist Party is the only party which declares that industry should be owned by all the people and operated for their benefit? That the Socialist Party is the only party which declares that only through the Socialist Party can the robbery of the working class be stopped? That the Socialist Party is the only party which declares the only way to

REVOLUTIONARY DEVELOPMENT OF RUSSIA

The old Russia is near its downfall, the new one is ready to take its place.

Why the Serfs Were Freed. It is more than fifty years ago that the cannons of the United European Empires and navies forced the Russian government to contemplate the Europeanizing of Asiatic Russia. Alexander II, who followed Nicholas I, was compelled to free the Russian serfs from the shame of serfdom. Conditions compelled him to do this. Brought to the edge of a chasm by the short-sighted, reactionary policy of his father, a policy without any regard for the needs of the country, he had to utter upon new ways to save Russia from ruin. And this all the more, since serfdom had not only outlived itself, but actually stood in the way of the industrial development of Russia.

The more the social life of Russia came in contact with that of Western Europe, the more new industrial factors appeared, which gradually undermined the existing system in whose place the capitalist method of production began to develop. But the latter needed a supply of free laboring hands, an extended system of railroads, new cities were built, which became centers of great wealth.

After the 19th of February, 1901, began the era of the rapid development of capitalism. In a short time arose hundreds of capitalistic undertakings, banks, an extended system of railroads, new cities were built, which became centers of great wealth. In a short time arose hundreds of capitalistic undertakings, banks, an extended system of railroads, new cities were built, which became centers of great wealth.

The Old Order Crumbles. The monastic Absolutism, now well the danger that threatens it. It is as if the government had lost its mind, and was in a state of confusion. The revolution is now to be accomplished. The streams of blood that have been shed now have no effect. The people are rising up against the government. The old order is crumbling. The monastic Absolutism, now well the danger that threatens it. It is as if the government had lost its mind, and was in a state of confusion. The revolution is now to be accomplished. The streams of blood that have been shed now have no effect. The people are rising up against the government. The old order is crumbling.

Work at Memorial Hall. Memorial Hall has been engaged for the next week by John M. Weir, on Friday night, Oct. 6. Socialists should make a note of this. The advertisement of David Goldstein's paper "Socialism, the Nation and Europe for Children" in a Toledo newspaper has attracted some attention and the Socialist has been asked, "what about it?" Well, all we can say is: Read the book. It is rather dull, like its author, but it is also very amusing in spots. But to them, one and all, we have no other word but this: "Brent" and "The Socialists" are the only ones to the proletarians, "Rest" — Peter Burrows, in Revolutionary Essays.

Proletariat Appears. The freemen's claims upon the chains of serfdom was at the same time a freeing of them from the land which they considered their own. Millions of acres of the best land were "cut off" from the peasants and given to the landlords as a compensation for their freeing. For the share that the peasants received, they were forced to accept a heavy imposed by the state, burdens which would oppress the peasant class. The justice could the liberated labor agitator, Peter Alexiev, cry to his judges: "This is the first time that the peasants have had no power to satisfy the most pressing needs of the peasants. We begin to see before us the first steps of the bourgeoisie into the rapid conversion of the masses into proletarians." Under the pressure of the robbery by land and village, the peasants on the one side and the landlord's pressure on the other, more and more people each year were obliged to leave their ruined village livelihood and go to the cities.

Hunter's Poverty with one yearly subscription. Mention it if you wish it.

ELECTION NOV. 7, 1935.

The Socialist Party of Toledo reaffirms its allegiance to the national and state platforms and to the program of the International Socialist movement.

WE DECLARE OUR OBJECT TO BE THE ESTABLISHMENT OF A SYSTEM OF INDUSTRY UNDER WHICH THE PEOPLE WILL OWN THE MEANS OF PRODUCTION AND DISTRIBUTION AND OPERATE THEM FOR THE BENEFIT OF ALL.

The present system is one of ownership by capitalists and operation for their profit. The working class who produce all the wealth are exploited and enriched by the capitalist class.

A conflict of interests exists between the capitalists who exploit labor through ownership of production and the workers who own nothing but their labor power which they must sell to the capitalists to obtain their livelihood.

This industrial struggle expresses itself on the political field through parties representing the opposing interests of the two classes of capitalists and workers.

The capitalists maintain their power and prolong the present system through controlling the governmental powers. The workers can only abolish this capitalist system by securing possession of these powers, municipal, state and national, and using them for capitalist interests, as the capitalists now use them for capitalist interests.

THE REAL ISSUE IN THIS AS IN ALL OTHER CAMPAIGNS IS THEREFORE THE CONFLICT BETWEEN THE CAPITALIST CLASS AND THE WORKING CLASS FOR POSSESSION OF THE POWERS OF GOVERNMENT.

The Republican and Democratic parties are controlled by the capitalist class. THE SOCIALIST PARTY IS CONTROLLED BY THE WORKING CLASS.

We therefore call upon all the working people and those who sympathize with them, to ally themselves with the Socialist Party and assist in establishing the system of common ownership which will abolish wage slavery and insure to the worker the full product of his labor.

Realizing that in this election the Socialist Party has no hope to achieve more than the capture of the municipal powers of government, we present the following Municipal Program:

PUBLIC SERVICE. We declare that SOCIALIST CONTROL OF THE MUNICIPALITY IS ESSENTIAL TO SUCCESSFUL MUNICIPAL OWNERSHIP OF PUBLIC UTILITIES. MUNICIPAL OWNERSHIP THROUGH ANY OTHER PARTY CAN ONLY BRING IN THE SAME CORRUPT CONDITIONS WHICH PREVAIL WHERE THE REPUBLICAN AND DEMOCRATIC PARTIES ARE IN CONTROL.

FRANCHISES. We are unequivocally OPPOSED TO THE FURTHER GRANTING OF FRANCHISES TO ANY PERSON OR CORPORATION AND WE DEMAND THAT EXISTING FRANCHISES BE RECLAIMED AND THE CITY ASSUME CONTROL OF THESE PROPERTIES.

THE UNEMPLOYED. The continual introduction of improved machinery into industry is constantly displacing labor and throwing unemployed men and women upon the streets. These displaced workers are driven to compete with their employed fellow workers, thus intensifying the capitalist class struggle and giving the capitalists a cheap labor force.

THE WATER SUPPLY OF TOLEDO IS A DISGRACE TO THE CITY. A SOURCE OF DISEASE AND A FIT CONTRAST UPON THE INCAPACITY AND INSUFFICIENCY OF OUR CITIES IN CONTROL.

SANITATION AND PROTECTION. As is invariably the case, the interests of the wealthier classes receive first consideration from the city government.

As in invariably the case, the interests of the wealthier classes receive first consideration from the city government. Consequently, we see the working class quarters of the city neglected and suffering from unsanitary and unwholesome conditions.

THE REAL ISSUE IN THIS AS IN ALL OTHER CAMPAIGNS IS THEREFORE THE CONFLICT BETWEEN THE CAPITALIST CLASS AND THE WORKING CLASS FOR POSSESSION OF THE POWERS OF GOVERNMENT.

THE UNEMPLOYED. The continual introduction of improved machinery into industry is constantly displacing labor and throwing unemployed men and women upon the streets. THE UNEMPLOYED. The continual introduction of improved machinery into industry is constantly displacing labor and throwing unemployed men and women upon the streets.

CATION AND ENLIGHTENMENT. AND IN ACCORDANCE WITH MODERN INDUSTRIAL AND SOCIAL CONDITIONS. We believe that EVERY CHILD IS ENTITLED TO AN OPPORTUNITY TO SECURE HIS FULL MENTAL, PHYSICAL AND MORAL DEVELOPMENT, AND HIS FULL SCHOOL SYSTEM, democratically conducted, provides a means by which this can be accomplished.

As, however, some teachers are overworked and underpaid, others are appointed through a political "pull," rather than for ability, and all work upon ironclad rules formulated by boards dominated by school book companies and other business interests, it frequently becomes an instrument for distortion instead of education.

WE THEREFORE DECLARE FOR FREE AND UNIFORM TEXT BOOKS, FREE EDUCATION, AND FOOD AND CLOTHING FOR CHILDREN REQUIRING THE SAME. THE TEACHERS SHOULD BE SELECTED ON THE BASIS OF FITNESS AND INTEGRITY AND BE ENTITLED TO THE BEST POSSIBLE CONDITIONS AS THE CUSTODIANS OF THE CHILDREN CONSIGNED TO THEIR CARE.

The manual training school, conducted on the right lines, can provide a modern education to young men and women desiring to be equipped for the struggle for a livelihood. The attempt to use this institution for partisan purposes is deserving of condemnation.

With the development of industry and the concentration of the population into cities, it becomes more and more important that these cities have the largest measure of home rule in spirit as well as in fact.

WE REVOKE OUR SUPPORT OF THE LOCAL SELF GOVERNMENT TO THE UTMOST AND DEMAND THAT THE MUNICIPAL CODE BE AMENDED ACCORDINGLY.

In addition to the foregoing the Socialist Party of Toledo pledges itself to test any questions that may come before its representatives ON THE BASIS OF WORKING CLASS INTERESTS. IF IT IS FOR WORKING CLASS INTERESTS, WE ARE FOR IT; IF IT IS AGAINST WORKING CLASS INTERESTS, WE ARE AGAINST IT.

WE CALL UPON THE WORKING CLASS OF TOLEDO TO RALLY TO THE STANDARD OF THEIR OWN PARTY AND BY VOTING AND SUPPORTING THE SOCIALIST TICKET HASTEN THE DAY OF THEIR EMANCIPATION AND THE ESTABLISHMENT OF A SYSTEM OF CO-OPERATION, PROSPERITY AND JUSTICE FOR THE WORKERS OF THE WORLD.

Our program is not a political program. It is a program for the entire working class. It is a program for the entire working class. It is a program for the entire working class.

Our program is not a political program. It is a program for the entire working class. It is a program for the entire working class. It is a program for the entire working class.
