DUBLIN, SATURDAT, AUGUST, 30th, 1913

NOTES.

By "IRELAND'S EYE."

That owing to the Tramway troubles my space this week is somewhat limited. but I cannot complain as the Editor has been very good to me all through the agricultural labour campaign.

That things are moving nicely. There are a few sore heads still who require a little looking after, but on the whole the Co. Dublin farmers have seen the error of their ways and have fallen into live by giving increased pay or a half-holiday on Saturday.

That my scouts inform me some farmers still refuse to give the half-holiday on Saturday. These men shall be looked after, and it would facilitate matters + warv much if the names of all employers who have not yet fallen into line were sent tothe offices of the "Irish Worker."

E-That it was very pleasing on last Saturday to see the many workers taking advantage of the half-holiday, and it was most amusing to hear the employers saying to the men :---

"You have your half-holiday now. What are you going to do with yourselves? Going to the publichouse, I suppose ?"

That the best way to resent such insulting remarks is to show a good example to their employers by neither visiting the publichouses nor drinking at home.

That while on this question I beg to refer to a practice which has become an absolute scandal in the General Total on wheels to scatter drink broadcast--going from door to door in populous dis-

where may be witnessed at the Rahenv Petty Sessions when old Plunkett and Kelly-Tighe consult as to what punishment prits who indulge in that ugly practice of swearing. Imagine Kelly-Tighe sitting in judgment upon one who swears I

That a most cowardly; brutal, and unprovoked assault was committed upon the Chief last week and which, through the act of Providence, did not result in the loss of an eye.

That Laskin only took action in bringing the offender into Court through the pressure of his friends, as he was quite satisfied with disarming the miserable wretch and holding him in the gutter. But the dastardly outrage had evidently been planned by those holding high positions and their tools-the renegades of the Dabour Movement-and it was necessary to expose their tactics. However, as is usual when the cause of Labour is assilled, every effort was made to cloak the real offenders and to throw dust into the eyes of the public. Fortunately, however, truth and valour triumphed, and lies and, cowardice Beeumbed.

That Larkin, the ideal Labour leaver! representing all that is good in town and country emerged with colours flying as he has emerged from many a hard fought field, and as he will emerge from the present grim struggle between the workers on one side and greed and avarice on the Molloy's assistance. other.

That the same lying misrepresentations and unscrupulous methods of attack will occasions, and the workers should be prepared to accept, with the proverbial grain of salt, any statements circulated by lying rencies whose ambition it is to scorch the leaders and to keep the workers under foot. That it is only by combination the workers can hope to hold their own or gath any reforms in face of such difficulties, and now is the time for them to show their grit and determination. Stick together, follow your Chief and trust in Providence, for success must come where there is a righteous cause.

Merchants' Quay Ward Notes, The "Graballs" in Guinness's Brewer are getting a week's respite, but I promise them that if they do not mind their manners before the close of the coming week they may " look out for squalls." I have consulted some of the regular employees of the city thea'ren, and have been given names and all necessary information.

While speaking of Guinness's Brewery I may mention that Johnston, the scale organiser, denies writing the letter to the "Independent" and the latest scab pro-duction, the "Liberator," through the agency of his henchman, Andy Molloy. Johnston looked very serious on last

Friday morning when he despatched the grain hole tout with a marked copy of the "Independent" to the cooperage office to be perused and admired by a certain friend of his there.

" Liberty Boy" has his eye on you, Bill.

Molloy says he would like to know Liberty Boy" as he would give him the names of two of his workmates who are doing the "double shuffle," but Molloy seems to think that no one but himself knows that he is in receipt of £3 15s. a quarter, as Card Inspector under the Insurance Act. " Those that live in glass houses should not throw stones."

Rise in the Price of Food.

Some of the reasons given by William Conley, State Food Inspector, New York, for the rise in the price of food and other commodities :---Trading stamps and bric-a brac and

other premium frauds which add from 3 to Io per cent. to the cost of grocery staples.

Accumulation of prosts due to the passage of foodstuffs through many middlemen's hands-the speculator, the wholesaler, the jobber, and finally the retailer, each adding to the ultimate cost. Combinations in various lines to raise prices.

Buying on credit instead of for cash. Extravagance directly attributable to the " credit system"-buying stuff not actually needed because immediate cash is not demanded.

Dishonesty on the part of some retailers in giving short weights and meastures.

Duplication of retail deliveries Duplication of retail grocery and butcher stores on one block.

Ignorance of houvewives in the nutritive value of different foods.

Congestion of population in cities and consequent neglect of the land.

Control of branded food by monopolice.

Demand for appetizers of various kinds; such as sauces, ketchups, pickles. saled dressings, brought on by overwork,

PEMBROKE NOTES.

Strange as it may appear, those who have scabbed on the Sandymount Line are celebrated " porter sharks "

There are a couple of public houses in Sandymount which supply those ' scabe They also supply the policemen before and after hours. The owners are "Nationalist" and slumowners of the worst description.

The Trades Unionists of the district should make it a point to shun the scabs and the houses they resort.

Silvester's is now known locally as "The Scabs' Rendezvous." There they meet nightly in a half drunken condition, baving paid a visit on every journey Here are some of them :--

Whistles M'Dounell, who declares that he would not come out even if he were kicked out.

Long Jack Murtagh who declares he is in favour of the I.T.W U., but has the interest of his young family at heart. Yet he keeps an Orangeman who signed the Covenant as a lodger, and who is scabbing with him on the same car as conductor This fellow got something that he will remember some time ago for making love to another man's w fe. Yet Long Jack, who has grown up daughters, must consider their interests (mory ah), and allows this ruffian to stop in the same house.

tricts-which must necessarily have a most demoralising effect upon the people, and the sooner the authorities step in and stop this nefarious traffic the better.

That it is an undoubted fact that the R I.C. are not doing their duty, else this awful traffic in drink would not effisit. However, I would appeal to the workers for their own sakes, and for the sakes of their wives and children, to chase this source of degradation from their doors.

Bravo 1 Jim Larkin, for the first time in the history of the Jameson's, of Portmarnock, all the men in their employment got a half-holiday on Saturday. The reason why I mention this place in particular is (as I pointed out some time ago) because all the good positions are occupied by English and Scotch folk and all the minor ones by the more Irish. Worse than that, the English and Scotch folk were already in nceipt of a half-holiday on Saturday and the mere Irish had to work all day.

That one of the first acts of Jameson on his return from yachting was to consult McKillar on the new order of things. McKillar, who possessed a great deal of wisdom under his tough skin, to save himself any trouble advised Master John to cave in.

That the mention of Portmarnock reminds me some trouble is brewing between the Club Committee and the workmen and caddies on the Golf Links. The captain of the club, a swell named Denning, objects to the Red Hand being worn, but the workmen and caddies are steadfast in asserting their rights-hence the trouble. "Eye" anxiously awaits developments.

That some workers are still out on farms in different parts of the country-viz-Harrisson's, Hazelhatch ; Dowling, Clondalkin; Geoghegan, Belcamp, where there are five men out, but the "friening Lyre," ("Herald") last week gave his dumber as 60. Another of the redouble bles who is hanging fire is Bob Dawson, willygriffin.

That the men employed by Joe Mooney, Cabra, are also out, but what might one expect from Mooney, who in the present crisis of the Tramway trouble is one of William Martin Murphy's biggest lickspitters, the canting hypocrite who preaches about temperance and labour to labour audiences, and one off the gang who over twenty years ago swore to assist Murphy & Co. in chasing poor Parnell to a lunatic asylum or the grave.

That one of the most magnificent sights of check and impudence to be seen any;

Famed Summerhill-O gorgeous plain! Whereon at night the arc-lamps blaze, Command me while I'm in the vein To sound your praise.

It is said that the foreman of the "Glue Pot " has joined the Builder's Labourers society. And that Owen White has arranged with Johnston that the boozers band from St. Kevin's Hall will accempany the next parade of 51d. an hour scabs that are to relay the train rails for Wm. Martin Murphy.

As Owen White happens to be " Deadhead O'Connor's lap dog, he has decided that the final air to be played outside of the "Gluepot" shall be "come where the booze is cheapest " (for Wardheelers). The Gray street Sinn Feiner is much upset by my reference to the maternity benefit; This egregious individual had better keep quiet, as I am not quite finished with him.

Eylan, the Jewish J.P. is rather strong in his denunciations of Jim Larkin just sow. I heard him giving a good deal of guff a few mornings ago while collecting his "shillies" for the product of the sweating dens of the continent that he forces on so many thriftless residents of the ward.

Eylan would do well to keep his tongue in his cheek.

What has become of that extraordinary body styled the Merchant's Quay Branch of the U.I.L. I have not seen a column of lies from that crowd in the "Evening Telegraph" for some time: Scroggy McCaffrey should wake up. Footy Jimmy and Mary of the Distres Coommittee have been to Bray for the season. Salt water is good for the " pins," and much better to dabble in than in Att. 80 Jimmy thinks.

Speaking of tenderness on the "pins" reminds me of another worthy who has always been a determined enemy of Progress and the Labour movement.

I refer to 'Floppy" Rogan, who runs the " off" drunkery in Poole street.

To see the ungainly figure of this retrograde hopping across the cobble stones of Poele and Braithwaite streets on the 15th of January in his efforts to fill the vehicles of the opponents of Labour with poor people on whom he is fattening is a sight at once sad and disheartening.

To see this parasite, amidst squalor and misery unmatched even in Dublin of the slums, doing all in his power to prevent the uplifting of the people would make sonest men despair but for the fact that we have to rely on our indomitable leader, Jim Larkin and his featiess " The Irish Worker." So the Mollies are trying to wriggle out of the posi ion they have placed th r selves in by a futile attempt at exp'at ation in Tuesday's ' Feople.'

They say that it is not the workingmen of Wexford who are looving fir votes but a few active supporters of the Transport Union, who sent in the claime so that they would support a Transport Union nomince at the -ext elections in Janusiy.

Well everybody knows that it is fash ble towadays to blame Jim Latkin or the Transport Union for everythe that he prens and if the Mollies think that the workingmen of Wexford are going to be quelled by such talk as this they are sadly mistaken. They see that they have put their foot in It, and they are at their wits end to know kow to get out.

A chap styling himself "Iberius" is the writer of the APOLOGY, and he goes en to say that the A.O.H is a workingman a club the world over. Is it a w this grow's club in Dublin, where the General Secretary is supplying William Martin Murphy with labour t scab in t'e Tiamwaymen's strike.

He also wants to know why is there n t. a Cathol'c Workingmen's Club si i'd in town and that if there was the A C.H should upport it. No, we will let them why tro ss to sl' for the people, return a fessive stame tal dummies.

We have not forgotten that 4.7 ar , Ton-, Emmet, and the majority or in an s martyrs were non Catholics, but were better Churchmen than some of the mat forward of the Mollies in Wextor

Now fellow workers what does all th's mean? Simply that the working class in Wexford are being too well educated as to the duties they owe to themselves and these islows, If there is anything this alleged national society dreads, it is the working classes co-operating amongst themselves to better their positions AS. MEN BOL 25 POLITICIANS. Too long have they bien used as toois to yell and shout. at public meetings held to forward the tos shackles, and assert their manhood, they attack them by trying to take from them that most powerful weapon the workog men have-their votes. They say ab ve that they would be only too happy t suppoti'a trade union for working-men. Imag ne the support, Nicky Lambert, the B. ker (. ho did his best to get his men to work night work against the rules of the octety), would give to workingmen ? They say that the A.O.H. is not an employers cigarisation, we state now most emphatically that as far saWexford is concerned. 5. per cent. of its members are the worst type of employers, whose only object for joining the order is to drive all work nymen's organisations in tewn out of existence. Nickey Lambert is canvassing everybody who goes into his shop every day in the week to vote against Pat Clancy La January next. Why ? Because Clancy has done his duty to his class for six long years, and we hope in passing that the voters in St. Iberius Ward, if they have to go into this man's shop, will politely tell him to mind his own business. This is the man who, we are told, tried to coerce his employees into joining the A.O.H. for insurance. One of them did join and to his grief. Tom Roche, we are informed, is trying to blame his son for signing the objections when he sees that public opinion is against him, but don't be deceived, as his son could not object, as he is not on the Regster Poor Tom, he was a, w: rking, an himself the other day, but since he has begun to play solo in Cowman's he seems to have forgotten

of the Transport Union disqualify him from having a vote? Surely things have not gone that far.

There are bigger organisations than the A.O.H. trying to smash the Transport Union and they will fail.

Who is Killeen ? The name seems to be in everybod 's mouth during the last week. Nobody seems to know. One thing we know is that he has allowed himself to be made a vice tool of by people who had not the courage to do the dirty work themselves. You will find he won't be going around with Leverette & Frye's car in January next bringing up voters, as he was last year, if we are going to have any say in the matter,

There is no difference in the law, we are told. The man who assaulted Jim Laskin last week in Dublin got six weeks in jail and was bound to the peace, and justly, too; but when two blackguards waylaid Pat Daly in the night in Verford, one of them was fined a pound, and the other got off scot free.

A CRISIS.

CUR readers will not be surprised to hear that the Dublin employers have decided to lock out all members of the Irish Transport and General Workers Union, they have found out that they cannot bluff or frighten the officials of the said organisation, they have considered it wise to try and bluff the individual members. The various Employers' Federations have met One of them, the Coachbuilders' Federatios, have given orders that all men working for them, who are members of the Transport Union, will. be discharged to-night (Friday), or, at latest, Saturday. The Merchants' Association are meeting as we write. A resolution is to be submitted locking out: their employees. The coal importers are also meeting to day with the same imention in sign and

together, to destroy the Organisation, which has been built up on the labour and sweat of hard-working men. No: middleman, no trickster, no truckler, had any connection with the Union that the employers manifest such a love for. It: was and is a Union of workers, founded: by workers who knew the wants the downtrodden. Its success of has been so great; it has accomplished such great things. It has: given a backbone to the Trade Union movement that it sadly lacked, It has given sight to the industrially blind ; a voice to the mute, inarticulate mass ; life to the inert. It has given the employer pause. Compelled him to recognize the just claim of the producar to a more equitable share of the product. It was founded on sane and courageous lines fears no foe, and supports its friends broken the gyves that bound the wage: slave, gave him courage, hope, and help, sever failed to succour the weak and helpless, gave the strong a message, and pointed out's duty they had to assume, awakened enthusiesm, and because of these things it has brought against itself the most vicious, the most corrupt, and most unscrupulous forces of the capitalist classes. Therecore, friends, we are to congratulate that Union, emulate that Union, and assist it by all the powers we possess to continue the subjugation of the oppressing class and the consequent uplifting of those who labour and produce. We ourselves seem strengthened by the opposition offered, We believe our readers will also get renewed strength, courage, and enthusiasm. The employers are about to raise a Brankenstein that will envelope and eventually destroy them. Time fights on our side. We are to suppose the employers are thinking men. Up to now we that to recognise that faculty existent amongst them; but it dormant we suggest they exercise the power if they possess it. They are going to lock. out; they are going to compel men to submit by starving women and children Bave a Cafe, gentiemen semember the game has been tried before. The Cork employers thed it on, they par lally succeeded but let us remind you Cosk is not Dublin, and the Union was just born and the men who led the working class in that struggle were traiters the men who face you now are men who you cannot buy or sell. Resolutions Passed at the Dublin Trades Council.

"That an appeal be made to the various trade and labour organisations in Dublin and the different Trades Councils in Ireland, as well as the organisations in Great Britain on behalf of the men affected by the present lock-out of Dublin Tramway Employees and on behalf of the men's leaders who have been arrested and committed to stand their trial for their espousal of the men's cause, and by reason of the fact that their trial will involve considerable expense; and as the cause of Trades Unionism in Ireland is seriously involved, we urge on all Trades Unionists to-immediately come to the rescue."

All contributions to be sent to

MR. JOHN FARREN, Treasurer of the Trades Council, Capel street, Dublin.

"That inasmuch as the action of the 'Independert' Newspapers Co., Ltd., in dismissing men from their employment for joining a trades union affiliated to this Council is a direct attack upon the trades urion position in Dublin, and in answer to the resolution of the Dublin Committee it the Printing and Allied Trades Federation, this Council hereby decide that in their opinion it is contrary to the letter and the spirit of trades unionism that any trades union affiliated to this Council should give any assistance to the 'Independent' Newspapers in retaining in their service men who are at present acting in the capacity of scabs in the room of men victimised by the management of such newspapers; and furthermore we call upon the trades affiliated to the above Federation to take action upon these lines, and that a deputation from this Council call upon the trades referred to with the object of getting such trades to take action on the lines suggested in this resolution."

is in the hands of its readers the issues now at stake in Dublin will be brought to a final determination. All the capitalist newspapers of Friday join in urging, or giving favourable publicity to the views of others urging the employers of Dublin to join in a general lock-out of the members of the Irish Transport and General Workers' Union. It is as well. Possibly some such act is necessary in order to make that portion of the working class which still halts un-decided to understand clearly what it is that lies behind the tyrannical and browbeating attitude of the proprietors of the Dublin Tramway system.

The fault of the Transport Union ! What is it? Let us tell it in plain language. Its fault is this, that it found the labourers of Ireland on their knees, and has striven to raise them to the creck position of manhood; it found them with all the vices of slavery in their souls and it strove to eradie cate these vices and replace them with some of the virtues of free men ; it found them with no other weapons of defence than the arts of the lias, the lickspittle, and the toady, and it combined them and taught them to abbor those arts and rely proadly on the defensive power of combination ; it, in whort, found a class in whom seven centuries of social outlawry had added fresh degradations upon the burden it bore as the members of a nation suffering from the cumulative effects of seven cen turies of national bondage, and out of this class the degraded slaves of slaves more degraded still; for what degradation is more abyesmal than that of those who prostitute their manhood on the altar of profit-monvering ?-out of this class of slaves the labourers of Dublin the Transport Union has created an army of intelligent self-reliant men. obhorring the old arts of the toady, the lickspittle, and the crawler and trasting alone to the disciplined used their power to labour or to withdraw their labour, to assert and maistain their right so men. To get it in other words, but words as pregnant with trath und meaning. The Itish Transport Workers Union found tat before its anvent the working class of Dublin had been taught by all the educational agencies of the country, by all the social influences of their masters, that this world was created for the special benefit of the various sections of the master class, that kings and fords and capitalists were of value ; that even flunkeys, toadies, lickspittles, and poodle dogs had an honoured place in the scheme of the universe, but that there was neither honour, credit, nor conadention to the men or woman who tolle to maintain them all. Against all the Transport Union has taught that they who tall are the only ones

Labour, the Curse of Humanity

BY SHELLBACK.

Acco ding to all the authorities re: ponsible for our penal codes, the only cure for crime is punishhment, and punish. ment in that form that is most degrading and objectionable; and despite all the fabled honours attaching to it the punishment that is most effective, from this point of view, is hard labour, and the full extent of the period that that punishment can be imposed, to meet the very worst forms of crime is twenty years. Twenty years' hard labour is the pinnacle of thought-cut punishment that British Law can inflict, yet the very judges, who in many instances are eppalled by the severity of the sentences they feel called upon to inflict, will cutside their courts declare their belief in the nobility of labour, and will appraise a poor man's worth solely upon the number of hours he spends in toiling, and assumes quite a friendly feeling for him if the toil is of the horny-, handed variety, or 'approaches his idea of what hard labour really should be. It Fellow Citizens-We the members of the ; is quite true, and I expect many of my readers have felt inclined to remind me ere new, that in the case of a criminal who is sentenced to hard labour the punishment dors not wholly consist of a certain period spent in toiling. He los-s what we are always being reminded is one of the greatest blessings of life his liberty. Well, it amounts to this, that the fit punishment consists in depriving a man of his liberty, and forcing him to work at a profitless task to him, for a certain number of years, months or dats. according to the enormity of the crime he has been ad udged guilty of. But the freedom the man who labours outside the gaol boasts of, in what does consist? Has he any liberty it at all ? In what is he free ? He must answer the "buzzer" in the dim grey-ness of the m rning, and must repair to his den at night, when his glorious day of happy toil ends He must ciscuss the always present worries of the day, with his wife, and answer serious c nundrums put by his bairns as to why it takes money to buy whickey or boots. He is always faced with a greater measure of freedom than a mere convict. He must keep fit and well, at his own expense, or he will be unable to work, in which case he will be free to die, a freedom that extends to the wife and family he is foolisb enough to think so much about, who will probably die too. He is also free to pay for his own, and his families sicknesses, which is another luxury the criminal can never hope to enjoy. Following this line of argument, it would be difficult to prove that the convict en,oys greater freedom than the independent labourer, but I am not relying upon the very doubtful sample of liberty permitted to free labourers or convicted criminals, to prove my case against the curse of labour, although all the whole body of respectable authorities, who are mostly

Such a curse is it that, despite all the

nobility that is said to be attached to it,

apything that will do away with the

necessity for labour is accl imed a grand

thing, and is at once adopted because of

its labour saving properties-no, I am

wrong there. It is not always employed

because it merely saves labour, but only

when it is cheaper than men, and men

are chear. Engines and machinery cost

money, like whiskey and boots ; men

cost nothing, and when broken or

the horny hand that would stamp you

CORK CITY NOTES.

At the last meeting of the Cork District Trades Council, Mr. Dennehy, secretary, displayed his wrath at the advent of the Transport Union in Cork. He seems to be particularly annoyed at members of skilled trades (especially his own one the Typographical Society) joining the Transport Workers and in his anxiety for their welfare (?) he pours forth a volume of abuse on the Larkin family that no decent man would stoop to. He actually stated that the workers of Wexford and Sligo were betrayed and ruined by the Transport Union.

Well, Mr. Dennehy, the skilled workers of Cork that have joined the Transport Union are not going to take any advice from you. Have not they as much right to join Larkin as you have to join the A.O.H. or Michael Egan the All-for-Ireland League? What assistance have the two latter bodies ever given the workers? Where are they when men are out on strike? Did they ever give them assistance, financially or otherwise, that two labour leaders like yourself and Egan should join them. The men of Wexford or Sligo were neither ruined or betrayed ! No, nor the men of Dublin, Belfast, Waterford or Dundalk either. The unions in all those Ports are stronger now than ever they were, and the men's wages higher; and the same would apply in Cork, but there were too many of your kidney on the strike committee. We have learned a lesson we won't forget.

This man, Dennehy, came into prominence at the time of the Crosbie-Healy election. There was but one Trades Council at the time, and the principal men in it supported Healy against Crosbie and justly so. At the same time some of the skilled workers had a grievance, and I believe a just one, as regards the way they were treated at the Trades Council. This scoundrel, Dennehy, took advantage of this as well as the political excitement existing and summoued a meeting of the skilled workers without getting permission from anybody. The skilled workers fell into the trap and decided to form another Trades Council. This was a victory for Dennehy and his employer, Crosbie, as the voting for and against joining the new Trades Council by the skilled workers was decided by the number of O'Brienites and Redmondites present. The result was that five or six unions left the old Trades Council, and from that time up to a few months ago the "Examiner" only would report their meetings. Not content with that, Dennehy succeeded in getting himself elected Secretary, and he is now drawing close on half the income of the Council as salary for himself as well as doing a turn for his employer, Crosbie. Again, this man, Dennehy, is a member of the A.O H., so is his employer, Crosbie. I would like to ask Mr. Dennehy what side would he take if there was a dispute at the "Ex-aminer" office. Would he support his " brudder " member of the A.O.H., Cresbie, or would he join hands with the memb rs the Typographical Society, of which he is the Secretary. I await his answer. Every worker in both is aware that all the skilled workers in the "Cork Constitution" are scabs, yet Mr. Dennehy and the other members of the Typographical Society in the "Examiner" office printed the paper for the scabs when there was a breakdown in their machinery department, and they have to do it again if the necessity arises. Again, the "Examiner," that boasts about paying trade union wages have unskilled workers doing the work of legitimate tradesmen-the Stereotypers. Why don't you bring those matters before your Council, Dennehy? Of course you won't, because it would not please your employer, and just for the same reason you attack Larkin because Crosbie is the William Martin Murphy of Cork. At the same hour that Dennehy was condemning us in Mary street we had his bitterest enemies, Messrs, Egan, Kelleher, Lynch and Murphy doing the same dirty work in Grattan street. The question of our affiliation was on and they could not find words strong enough to denounce us. Not alone that, but they canvassed every skilled delegate in the Council to vote against us-Paddy Lynch brought up six tailors and Paddy Murphy five bakers. Notwithstanding that, the Council decided in our favour, although we asked no man for a vote. We are now affiliated to the Trade and Labour Council. What does that famous quartette think of themselves now? With all their speeching and all their squaring the majority of the Council decided against them. It is a polite way of telling those boyos that the skilled and unskilled workers of Cork have their little game spotted. They know now they have been sold by those fellows and it is a real pity they didn't see it before now. What a different position trades unionism would hold in Cork to-day. This quartette in Grattan street are now beaten to the ropes. I would respectfully suggest to them to join hands with Crosbie's lap-dog (Dennehy) as he might be able to poke out a job in his Council for them Forget old sores, remember you are all engaged in the one cause, fighting Larkin, on the same job as William Martin Murphy, Sir Stanley Harrington, and all the other sweaters and blood-suckers all over Ireland.

A monster meeting was held in Douglas on Sunday, August 24th. Pete Larkin, Dowling, E. Lynch and Miss Raymond [the Women's Organiser] addressed the meeting. I was not able to attend the meeting, but I witnessed the procession coming home and I never saw such a vast crowd following either Redmond or O'Brien.

The first meeting of the Independent Labour Party was held on Wednesday night, August 27th. Forty members were enrolled. It was decided that a meeting be held every Friday Right commencing September 5th, at 8.30 p.m., at No. 21 Branch of the Transport Union, 80 Old George's street. All intending members cordially invited.

CONCERNING "THE LIBERATOR," The Organ of the Associated Scabe-Barney Deyle, Richardson, T.C. ; McIntyre, Jas. O'Farrell (Atheist) and Edelstein.

BY OSCAR.

"Whither are we drifting?" asks "The Liberator." Can't say ; but we know where Mr. Doyle's production is drifting. The other morning our landlady brought in a copy wrapped round the editorial loaf.

Considering the savoury source of some of its leading articles a cynic inquires if the title should not have been spelt "Libeerator."

With each copy of the first issue was presented a pair of green spectacles to mollify those readers who had been unable to obtain their supplies of the "Evening Herald,"

It is rumoured that the proprietors intend starting a legal aid column as soon as the editor can pick up sufficient law books at the twopenny barrows.

In the meantime a leading contributor will write a series of articles on the science of window-cleaning.

The publisher forget to apelogise for the absence of the anti-enlistment editor who is presently undergoing his annual course of training at the Curragh.

The "Poet's Corner" was unavoidably held over, as the official laureate mislaid his note-book in one of the cubicles in the Iveagh. Sleuth hound Edelstein has been engaged to trace the missing documents.

With the next number will be given away a free box of William Richardson's "Bogus Union Ointment" for Scabs.

We hear that at the bierthers De Court one of the magistrates, on seeing "The Liberator's " reporter, thoughtlessly remarked : "I'm sorry to see you before

Even the glass merchants of Dublin run the Hibernian Plate Glass Insurance Co., each firm having their own clients ; also, if there should be a firm in the town which is not a member of their ring, and goes into secure a contract (all other things being equal), he is cut out by one of the ring, and the difference is made up to them by the exchange,

And, again, should any of the men leave of their own accord none of the ring will take him on or even take him

Now, is there any wonder contracts go out of the town under these conditions ? In my opinion, first, this Tammany ring must be broken up ; secondly, this boycotting of men must be done away with ; thirdly, the men must have more freedom and liberty and shorter hours.

It's now a long time since I wrote, but I know from your paper every week how you are marching on, and sometimes under great difficultier

I trust you will see your way to place this in your valuable paper, so that the public may judge for themselves of the tactics of the Dublin Glass Merchants and painting firms.

I enclose my name and address, but not for publication. In the meantime I subscribe myself,

To the Editor "Irish Worker."

DEAR SIR .- At a meeting of the above last night the following resolutions were unanimously carried, and I was instructed to forward same to you with a request that they be published in your journal :

"That this meeting of the Amiene street Branch of the N.U.R. heartily endorses the action of the Tram men in their great fight for liberty and ficedom ; we alto urge upon the pubhis to respond to the appeal of the organised workers of Dublin as represented at the Trades Council, and refuse to use the trams or to purchase the literature supplied from the 'Independent' office during the dispute. We further pledge ourselves to do all in our power to assist both morally and financially the men on strike or who are locked out."

"That this meeting of the Amiens street Branch of the NU.R. strongly protests sgainst the action of the police in threatening to interfere with the right of freedom of speech, and of public meeting place, such action being, in our opinion, likely to cause a feeling to arise in the hearts of all free men which would not be conducive to the interest and welfare of this, our city. Thanking you in anticipation, I am,

If the people who tell us this, the respectable authorities who never by any chance do any work, were all really mad. we might allow their vaporiogs to escape in the air, but there is deep thought out method in their madness, for while they glorify the man who delves and dives, they themselves are fed on rich meats and dainty foods, they are drunk on old wines and sparkling champagnes They are suffering from the disordered liver that accompanies gluttony and they don't believe for a moment in the gospel they so assiduously preach, for work they will not touch-no, not with a telegraph Doler

Hard labour is for criminals and fools. To labour hard to make others rich can only be the fate of the veriest slaves.

. The honest working man who is condemned not to a paltry twenty years' servitude in a convict establishment, but to a whole life long sentence of hard labour for the benefit of others, is the simplest sort of a fool if he refuses to take advantage of the means at his hand that would help him to burst his bonds. SIR-A letter signed "Senex" in to-day's "Irish Times" suggests that the pubhic should reward the scab conductors by "not taking any change out of 6d. or Is. when paying their fares." The leopard does not change its spots, and the "Finnes" and its tribe of inane correspondents still cling to the old methods of "Souperism," and, from force of long habit, apply it in cases of panic-as now. Will the scab conductors remain impervious to this insult ? They are asked to sell their honour for " the change out of 6d. or Is."

Eason's under a Man and Eason's under a Scorpion. To the Editor " Irish Worker."

DEAR SIE,-After several years abroad, I have returned to Dublin for a holiday, and, nerdices to say, the sight of the o'd familiar town brings back to me memories of the happy days I spent here when I was not too old to enjoy mys lf. The city as you know, has not undergene any great structural changes that would efface the alightest meno y, and it seems as if I have been only twelve months absent instead of over twelve years. That in itself is not yery remarkable, taking into con-si eration the reconstruction of the program always have hele; but allowing that Dablin has not kept apace with other cities "corporations ly," as an American fliend remarked to me, the cost of living, even the emplyer will allow, has gone sheed in leaps and bounds, and is at pres nt leading, we are told, such large and rich cities ac London and Paris.

Have the wages of the men of Dubin insreased correspondingly? It may have done so in some phaces. I do not know. I doubt it has; but in feeers. Eas ny & Sons, Abbey st cer, where I was once an employee, not alone have the wages of the men been decreased, but the conditions even the fact that being a wrov g 'mn, he was cast out of the A O.H., property sc-salled by the very principle that ats: du at the head of the 'Worker's" front page sanitary ocnditions, urder which their men have to work are a living disgrace to the Public Health C mmittee of this o ty. One sees sights what traveling through the vues Canal r u'e and Cailo, but one weet in Eas n's baseme t woold make the talk of Impe i l control shout that. The original A O H always hold to the cld Gospel of Irish Na-tionality the doctrine of Lalcr, Mitchell. Tone. of most blase nigger blush with c nfusion.

N.w, a few fac a regarding the men when I was there compar d with the SALARIES now re eived would be interesting to the public who c nuives to patron se Eason's for good .. We will go back over nine years. The was when a humane man was manager of the News' D partment. The average wage of a c erk was 30s per week, and that of # packer 22s. All wans well ; the mes seemed sausfied until M'D well came showing his raby light around The tourp saw that he o uld not live an the money he made by .e ling orarked bedchamber necessities, and or pe without hand:es, to the poor in Cam on Street, so he determuted to insinuate himself into the good graces of the meanger and then to oust him. He su oee ed. Leaving that a free hand to carry out his philanthropic ideas in a y sphere where he (Orarlie) saw he could make money, M Dowell tox complete control of everything. Wages were cut down and the hours of work sucstantially increase". Clerks now receive the average selary of 10s. to 18s., and packers 13s to 14s., having to work from 4 30 a m. to 6.30 and 7 p.m. Of eru s. Mr. C. Esson knew nothing of this. Ob. dear no; he is always ready to most the men half way. That is the reason he has a grip on t at Protestant B ye' Home in Lord Edward treet, where he can put up any unfo:tunate country boy, and Live him a few shillings a week. Ou, you dear Sanctimonious Hum ug, we know the reason you pay little wages to those acys is because you do not with there to be tempted by the dangers of the streets if Dub-Lot them take your adv ce, mave their spare lin cosb, and waste it not on taxis or late suppe s

Then " doftheed" got a circle of spice around him, Shields, Devitt, Harns, and Davis being the sim, canetas, Devis, Harris, and Davis Coing the arch spice. They in their vara got their t.u.s. so you can imagine the pleasant life the unfortunate worker had. The alight at error was magnified, and life was intolerable. He must make up parcels [of course], sweep the floore, clean windows, bring evening papers home for the boss, and be ready to supply Little Billie Devits with bits of hard tobacoo, or take the consequences as a marked Still they are told it is for charity they are hept. Good God, charity. It a man had any gums' in his boly could he sive and be pointed out as a "sharity scab." Yes, we have them in J. Tallon, prominent member of the Colmcille Branch of the Gaslie League in Hoppy Christy Smith, Chancery Street; B Moency, Oaristy Connor, and Mick Maleney; C Magnire, better knowh as "Footy," alt members of Irish National Forestes. These men have not the courage to stand up like men, and hurl Charlie's sharity back in his tooth. I do not mind long Maguiro, "the strike organ-iese," for ever since the Harcourt Street affair he must do the dirty work. But, taking all in all, Charlie Lason's love for the working man is simply boundless. For instance, one man, a packer, had to go to Westland Row every morning at 4 a.m. to catch the 415 and meet the mail boat. This man conon any 210 and more the mail boat. This man rose steadily, very stuadily, I imagine, to 20e per week in 19 years Charlie cut is, per week of ham to make it sound better, 19e in 19 years. He dot an ordinary man's day's work telore his breakfast, and then had to two back and makentil better and then had to turn book and work until a late hour at might. It now takes five scale, sight policemen, a ser, east and a jarvey to do his work. How will they divide the 19s.? Meesrs, Esco a & Sons are largely supported by Ruman Ca-hulice, wh : mass extens ve purchases in Roman On Bullon, wh' make extens we percenter in p's erbooks, etc. It might interest these to kn we that the manager of this department in as aleged Oraugemen, and all his assistants, as he takes very good care, dig with the same foot. Did you ever see a scab? Well, I'll tell you what he is : He's an ugly looking crab, With a nasty looking phis.

THE SCAB

He's a demon 'mongst the worker, A scurf on every other : A wretched looking shirker

Of his duty to his brother.

He's a loathsome, cowardly creature On the Dublin trams to-day, 'Tis marked on every feature As he passes on the way. No fame, indeed, shall merit he : For well his guilt he know Shall go down into posterity That heinous creature, low.

He's the tool of the employer. Of the Tramway Comsany; He's out for sweating hire To support monopoly. He's a God forgotten creature, Out to sell his fellow-man : Yes, 'tis marked on every feature Of each heinous scab you scan. -IMPROMPTU.

Trade Unionists and Public Boards. From time to time complaints have

been made by many Trade Unions that tradesmen in the employment of some of the Public Boards of the City decline to pay the few pence a week necessary to keep them members of their respective Trade Unions, although in receipt of the standard wages and enjoying the priviliges not granted to their fellows outside. From the point of view of the Trade nions and the workers generally, this is a very genu ne grievance, as it is only through the power and influence of the workers organisations that Trade Union conditions have been established by these Boards. Now the very men who benefit mo t materially as a result are the ones who kick away the ladder on which they climbed, and refuse to render any assistance to their fellow-workers who are less favoursbly circumstanced in outside employments. We are glad to know that an attempt is about being made in the North Dublin Union to alter the state of affairs. Mr. Arthur Murphy, Labour Guardian, North Dock Ward, has given notice of motion to move that any trades. man, etc., who has been appointed to any position by thet Board, on condition of being a Trade Unionist, and who subsequently lapses his membership, the Board of Guardians shall demand his resignation on satisfactory proof thereof being furnished by the Secretary of the Trade Union concerned These men need to be taught a lesson and we hope Mr. Murphy s resolution will be adopted AND CARRIED INTO EFFECT. Some of them, ne doubt, have been appointed without any Trade Union condition being stipulated, but the Board of Guardians can even in these cases, very easily put pressure on them by declining to grant annual leave and other priviliges. This course was very effectively adopted by Councillor Lawlor some time ago in the South Dublin Union. We advise Trade Unioni to to keep an ave on the " friend

Lublin, 25th August, 1913. Dear Sir.

beg to inform you that at a general 1 meeting of our body held on Sunday, it was unanimously resolved to stand by and withdrew our labour when ordered in the crisis that has been forced upon your union by Mr. Murphy of the Tramway company.

Fraternally yours, JOHN COFFEY.

Secretary. THE BRAVE MEN

Here's to the men who laugh In the face of grim despair, Who gather the tares and chaff, But sow with a cheerful air.

Here's to the smiling man Who, giving, can take a blow And rise to the fight again When others have laid them low.

Here's to the men who grin When plans that they build go wrong, And straightway new plays begin With courage and purpose strong. Here's to the glad, brave men Who, bettling expect a bruise, And rise to the fight again, Undaunted by fights they lose,

Here's to the men who smile With faith in the morning light, And bravely await the while Till victory crowns their fight,

Here's to the fighting men That always need not succeed

To rise to the fight again The beave in defeat we need,
